The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription, payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8.

Ditto, ditto (Overland rate) Rs. 28.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.

WEDNESDAY, SEPTEMBER 3, 1902.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

The Council met in the Council Chamber on Monday, the 25th August, 1902.

Present:

The Hon'ble Sir John Woodburn, K.C.S.I., Lieutenant-Governor of Bengal, *presiding.*

The Hon'ble Mr. J. A. Bourdillon, C.S.I.

The Hon'ble Mr. C. E. Buckland, C.I.E.

The Hon'ble Mr. B. L. Gupta.

The Hon'ble Mr. W. C. Macpherson.

The Hon'ble Mr. E. W. Collin.

The Hon'ble Mr. D. B. Horn.

The Hon'ble Mr. R. T. Greer.

The Hon'ble Mr. T. K. Ghose.

The Hon'ble Maulvi Syed Mahomed.

The Hon'ble Mr. A. M. Bose.

The Hon'ble Dr. Asutosh Mukhopadhyaya, M.A., D.L., F.R.A.S., F.R.S.E.

The Hon'ble Babu Chaturbhooj Sahay.

The Hon'ble Babu Joy Gobind Law, C.I.E.

The Hon'ble Maharaja Manindra Chandra Nandy, of Cossimbazar.

The Hon'ble Mr. A. A. Apcar.

The Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur.

QUESTIONS AND ANSWERS.

OVERHEAD ELECTRIC WIRES IN CALCUTTA.

The Hon'ble Maharaja MANINDRA CHANDRA NANDY, of Cossimbazar, in the absence of the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked:—

Has the attention of Government been drawn to the danger consequent upon the breaking of overhead electric wires in Calcutta and to the many accidents reported in the newspapers to have occurred therefrom? If so, will the Government be pleased to state what action, if any, it has taken or proposes to take to prevent or even to minimize the occurrence of such accidents in the future.

The Hon'ble MR. HORN replied:—

"The attention of Government has been called to the breakages of overhead wires which have occurred during the past hot weather. Altogether seven wires were broken on four different occasions. Of these, six were during storms, and the breakages were caused by branches of trees falling on the wires. One man was killed in Dhurrumtollah and one horse at Ballygunge, and two men were injured in Bentinck Street. The Chairman of the Corporation and the Electric Supply Corporation are removing, in concert, branches of trees which threaten the wires. A successful experiment has been made with a device for automatically rendering the wires harmless in the event of a break, and the Chairman of the Corporation has been asked to arrange with the Electric Supply Corporation that this device shall be applied in all important thoroughfares."

PRIMARY SCHOOLS.

The Hon'ble Maharaja MANINDRA CHANDRA NANDY, of Cossimbazar, in the absence of the Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad, asked:—

Will the Government be pleased to order an inquiry with a view to discover the exact causes which have led to the decrease in the number of primary schools in Bengal by 2,000 during the last year, and to the corresponding decrease of 40,000 in the number of pupils.

The Hon'ble MR. MACPHERSON replied:—

"This matter was noticed in the Lieutenant-Governor's Resolution, dated 9th December, 1901, on the Report on Public Instruction for the year ending 31st March, 1901, and an inquiry was ordered The result of the inquiries is to show that there was in the districts of the Burdwan and Dacca Divisions a real falling off in the number of primary schools and pupils in 1900-1901, due in Burdwan to calamities of season, and in Dacca to an absorption of pupils in secondary schools. There has also been some want of method in the compilation of returns of unaided schools, and the Director has issued necessary instructions to the District Boards who are responsible for collection of these returns."

THE BENGAL DRAINAGE (AMENDMENT) BILL, 1902.

The Hon'ble MR. MACPHERSON presented the revised Report of the Select Committee on the Bill to amend the Bengal Drainage Act, 1880. He said:—

"I also move that the Report, which has been in the hands of Hon'ble Members for some days, be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee. I shall add only a few words to the Report of the Committee..

"The principal changes in the Bill made since it was introduced in Council are—*first*, the changes which give relief to landlords and tenants by reason of the decision of cost mentioned by me at the last Council Meeting, whereby the rate of interest on drainage charges is reduced; *secondly*, the suspensory

clauses 51D to 51J should be mentioned. I may say, I think, on behalf of the Committee, that while we are unanimous and confident in the opinion that the main principle of this Bill already accepted by this Council is right, and that it is equitable in this case of certain and fixed dues paid by landlords that they should have the help of the certificate procedure in recovering those same certain and fixed dues from the tenants who reap the whole benefit of the drainage works, it is yet with no light heart that we have shaped and re-shaped the clauses of the Bill which are to carry this policy into effect. The details which require consideration in the actual working arrangements for apportionment, adjustment, recovery, suspension, and refund are numerous and complex; and we may have overlooked difficulties which should have been cleared away. It is for this reason that we have proposed in clause 19 of the Bill to take power for the Lieutenant-Governor to make rules as to refunds and other matters.

"The Committee in five formal meetings gave some sixteen hours of deliberation to the details of the Bill; and this was in addition to much separate study of the subject-matter. We are indebted to the Secretary to the Council for much assistance rendered by him.

"I invite special attention to the suspensory clauses of the Bill, because such provisions of law are altogether new to Bengal, though well known in the Upper Provinces of India, where loss of crops, through calamity of season, is more common. It will not, I think, be out of place for me to mention shortly the genesis of those clauses in the present Bill. The Drainage Act of 1880 provides that every person holding improved or reclaimed land in the drainage areas shall be liable to pay drainage dues. Some representations were made to the effect that it is not equitable that tenants not having an occupancy status should be compelled to pay drainage dues. Those representations, when examined, resolved themselves into an argument that it is hard to make a non-occupancy tenant pay a drainage due in a year in which perhaps, in spite of the drainage works, an unusual flood may have come and ruined or seriously damaged his crop, while next year his landlord may eject him. You, Sir, then suggested that the best remedy for such cases was to provide for suspension of demand when there is calamity of season—suspension both in favour of the landlords and in favour of the tenants; and clauses 51D to 51J were drafted to give effect to this suggestion. I desire to state that, personally, I fully accept the policy of suspension as equitable and adequate to meet the requirements. I move that the Report and the clauses of the Bill as recommended by the Select Committee be now considered."

The Motion was put and agreed to.

The Hon'ble Mr. MACPHERSON also moved that the Bill, as amended, be passed.

The Hon'ble BABU JOY GOBIND LAW said:—"It will be apparent to Hon'ble Members that the amendments recommended in the Report are all calculated to afford sensible relief to all persons connected with land—the landlord as well as the tenant. In the first place, the certificate procedure will be open to both for the recovery of drainage charges imposed on them, and they will thus be placed in a better position than before for meeting and recovering those charges. In the second place, the interest charge will be reduced from 5 to 4 *per cent.*, and there will be no compound interest to pay. Moreover, there is every possibility that the Government will see its way to make a material reduction in the charge for establishment for carrying out drainage works. It has been a complaint with those who had to bear the charge that it was not based on actuals, but that its incidence was regulated by some ancient formula or office rules. I am unable to say how far this is correct; but there is no doubt that the charge forms a very important item in the aggregate cost of a drainage scheme. It is therefore a matter of congratulation that it is the intention of the Government to revise it.

"The Bill goes further. Hon'ble Members will observe that, in Part II of the Bill, it is proposed to extend these benefits to works already carried out, namely, the Howrah and Rajapur schemes, and to revise the cost of these works,

so as to place them on a level with future schemes. All this will afford substantial relief to all parties concerned, and will no doubt be welcomed by them with gratitude.

"In the matter of establishment charges, I will venture to make a suggestion for the consideration of Government. Since the carrying out of the Rajapur works it has become evident that they are susceptible of improvement, and it appears to me that, instead of refunding the savings, it would be a far better plan to apply them to effecting the necessary improvements."

The Hon'ble BABU CHATURBHOOJ SAHAY said:—"With Your Honour's permission I beg to say a few words before the Bill is passed. On reading the first Report of the Select Committee on the Drainage Act Amendment Bill, I considered it desirable to propose some amendments. The most important of these, I am glad to find, have been kindly accepted by the Select Committee and embodied in clauses 9 and 12, sections 44A (*2*), (*3*), 51B (*1*) and (*2*), and 51C (*1*) and (*3*), of the amended Bill. The noticeable features of the amendments as adopted by the Select Committee are (1) the continuance of the right of the landholder, removed from the list under section 36A, to recover previous payments made by him; (2) the recognition of the liability of transferences after the apportionment of costs for the drainage dues, and (3) the enjoyment by the person against whom certificate may be issued of the rights of judgment-debtors under the Public Demands Recovery Act.

"The other suggestions made by me and accepted by the Select Committee are not of sufficient importance to justify me in detaining the Council with any detailed notice I am greatly obliged to the Hon'ble Mover of the Bill and the other Hon'ble Members of the Select Committee for a careful and favourable consideration of my amendments.

"The Bill, which will soon pass to the stage of law, will be welcome to both the landlords and the tenants. It protects the interests of both. It gives new rights to the former, the benefit of the certificate procedure of the Public Demands Recovery Act; while to the latter it brings a very substantial relief of the charge of compound interest being taken off and the burden of simple interest appreciably reduced. The reduction in the rate of interest, which so heavily pressed upon the poor tenants, is sure to be recognised as an inestimable boon, and the Province will be grateful to Your Honour's Government for obtaining it, and to the Government of India for conferring the same."

The Hon'ble MR. MACPHERSON said:—"I have nothing to add to the debate, but to acknowledge, as I should have acknowledged before, the assistance given to the Select Committee by the Hon'ble Babu Chaturbhooj Sahay and by Babu Mahananda Gupta, Deputy Collector."

The Hon'ble the PRESIDENT said:—"I have listened with satisfaction to the remarks which have been made upon this Bill by my hon'ble friends, Babu Joy Gobind Law and Babu Chaturbhooj Sahay. I think with them that the Bill is a just and necessary Bill, and the Act upon which it depends was passed with the most benevolent intentions by Sir Ashley Eden, but it has been accepted and carried out as a practical scheme in only three instances in Bengal. After the floods of 1900, I visited Amta, which had been very seriously damaged by these floods, and it was my suggestion to the residents of Amta that they should have the Drainage Act applied to this area as it was to the adjoining areas of Howrah and Rajapur. The suggestion was opposed, and the basis of the opposition was that the landlords had their drainage dues under the Act irresistibly realized from them by Government contributions, while the Act gave them no power of recovering contribution that were due from the tenants.

"The Act recognises two forms of improvement by drainage. One is the betterment of lands which are already cultivated, and the other is the reclamation of lands which were never cultivated at all before. In the principal scheme under the Act of 1880, that of Rajapur, no less than seven-eighths of the area were benefited, as compared with reclaimed land, and therefore the whole effect of the Act was really to be ascertained in the

portion of the area affected by the drainage, which was already under cultivation and on which rent was already paid. The tenants of that area had to pay their share due upon the holdings, according to the assessment of the Drainage Commissioners, to the landowner, either by a fixed instalment extending over a number of years, or by a deliberate addition to the amount of their rent. The vast majority of tenants elected the system of paying the amount due upon their holdings by a fixed number of instalments. It therefore was of the greatest moment to the landowners that the fixed instalment should be realized from the tenants in the same way as the fixed instalments were realized from the landlord by the Government. If this was not done, the landowners had a legitimate grievance. That legitimate grievance has now been removed, and the opportunity has been taken by Government to make some substantial concessions in all future schemes; the interest charges are reduced by the Supreme Government, and the Local Government on its part is ready to exempt all such undertakings from any charges for Public Works establishment, except those that are due to an actual increased establishment. These concessions will cover, as my hon'ble friend has said, not merely all future undertakings of the kind, but they will have retrospective effect on all undertakings upon which recoveries are now being made.

"The result has been the necessity of a large number of verbal changes in the old Act, but I trust and believe the general effect of the measure, which we are now about to pass into law, will be to give a system which is fairer and more acceptable to all parties concerned."

The Motion was then put and agreed to.

THE BENGAL TENANCY (VALIDATION AND AMENDMENT) BILL, 1902.

The Hon'ble MR. MACPHERSON moved that the Bengal Tenancy (Validation and Amendment) Bill, 1902, be referred to a Select Committee, consisting of the Hon'ble Mr. Bourdillon, the Hon'ble Mr. B. L. Gupta, the Hon'ble Mr. T. K. Ghose, the Hon'ble Mr. A. M. Bose, the Hon'ble Asif Kadr Saiyid Wasif Ali Mirza, of Murshidabad, the Hon'ble Babu Joy Gobind Law, the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur, and the Mover, with instructions to report at the first meeting of the next Session of the Council.

The Motion was put and agreed to.

The Council was adjourned *sine die*.

CALCUTTA;
The 2nd September, 1902.

F. G. WIGLEY,
Secretary to the Bengal Council, and Assistant Secretary to the Govt. of Bengal, Legislative Department.

APPENDIX TO

The Calcutta Gazette.

	Inches.
The mean pressure of the seven days	29·635
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·592
	Hours.
The total number of hours of bright sunshine	39·4
The maximum possible number of hours of sunshine	89·5
	°
The mean temperature of the seven days	84·2
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	83·1
The extreme variation of temperature	17·1
The maximum temperature	93·6
	Miles.
The highest velocity of the wind in one hour	12
	%
The mean relative humidity	84
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	87
	Inches.
The total fall of rain from 17th to 23rd August 1902	3·04
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·39
The total fall from 1st January to 23rd August 1902	46·24
The average fall of the corresponding period for 24 years, Surveyor-General's Office	45·68

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; lightning.

No. 1763T.R.—The 6th September 1902.—Whereas it is expedient that a survey shall be made and a record of rights be prepared in respect of all the lands included in the estates mentioned below belonging to Government in the district of Patna, the Lieutenant-Governor of Bengal, in exercise of the powers conferred upon him by section 101 (2) (*c*) and section 101 (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, is pleased to direct that a survey shall be made and a record of rights be prepared in respect of all lands included in the said estates.

Patna.

The particulars to be recorded in the survey and record of rights shall be the following :—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The money rent payable at the time the record of rights is being prepared, or if a produce rent, the fact that produce rent is paid.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority

This notification cancels notification No. 3736L.R., dated 25th November 1901, published in the *Calcutta Gazette* of 27th November 1901, Part I, page 1447.

No. 1764T.R.—The 6th September 1902.—Whereas a settlement of land revenue is being made or is about to be made in respect of the undermentioned temporarily-settled private estates in the district of Patna:

Patna.

In exercise of the powers conferred upon him by section 101 (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey should be made and a record of rights prepared in respect of all lands included in the said estates in the district of Patna.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The money rent payable at the time the record of rights is being prepared, or if a produce rent, the fact that a produce rent is paid.

(*f*) The mode in which that rent has been fixed, whether by contract, or by order of a Court or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority.

No. 1631T.M.—The 6th September 1902.—The following papers are published for general information.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

ARRANGEMENTS FOR THE SUPPLY OF NURSES TO THE CALCUTTA HOSPITALS.

THE attention of Government has been drawn to the advisability of improving the arrangements for the supply of nurses to the hospitals in Calcutta. The nursing arrangements have been hitherto managed by the Calcutta Hospital Nurses Institution under a Committee of Ladies, assisted by the Trustees of the Canning Fund and the Sisters of the Canning Home. The Nursing Institution was first established in 1859 on a small scale with funds obtained by public subscription. It has since been managed with great success by the Ladies' Committee. It now supplies about one hundred nurses to the hospitals, and it has, with the help of the Sisters of the Canning Home, trained a number of nurses for private employment. The necessary funds have been raised from the public by the Ladies' Committee, and Government has contributed by grants which, since 1884, have been fixed at treble the amount subscribed, subject to a maximum of Rs. 37,500.

2. The recent extensions of the Presidency General Hospital and the increase of the Nursing Staff at the Medical College, Eden and allied Hospitals have shown that it is desirable to place the system on a wider basis, in order to make the arrangements more effective and secure a larger support from all classes of the community. The public are indebted to the Ladies' Committee, who have succeeded in collecting annually from Rs. 12,000 to Rs. 14,000, while the total expenditure has amounted in recent years to over Rs. 60,000, and is increasing. It is hoped that, with the appointment of a Committee, representing all classes of the community, both European and Indian, a larger income will be obtained from the public, and that the arrangements, which can be made for the provision of nurses, will more adequately fulfil the increasing requirements.

3. Rules have been framed (which are appended to this note) constituting a General Committee and two Sub-Committees, whose duties will be mainly financial. There will also be a Committee of ladies (to succeed the present Ladies' Committee), who will visit the hospitals and, with the

Sisters of the Canning Home, deal with all matters affecting the appointment and control of the Nursing Staff. The assistance of Government will be continued as heretofore, or on such a scale as may be found necessary. The rules have been considered and accepted by the Ladies' Committee, the Trustees of the Canning Fund, and the Sister Superior, and the new arrangements may be now introduced. The ladies and gentlemen included in the annexed list have agreed to serve on the Committee, and the Hon'ble Mr. M. C. Turner has consented to become the first President. It is understood that a Secretary will be appointed by the Committee. The Lieutenant-Governor acknowledges his obligations to those who have kindly consented to join the new Committee, and hopes that they will take early steps to relieve the Committee of the Nursing Institution of their duties. In taking leave of the Ladies' Committee, he desires to express the thanks of Government for the great services which they have rendered for a period of over forty years in the cause of charity and for the relief of suffering.

By order of the Lieutenant-Governor of Bengal,

E. W. COLLIN,

The 4th August 1902. *Offg. Secy. to the Govt. of Bengal.*

Rules for the Management and Control of the Nursing Arrangements of the Calcutta Hospitals.

1. *Constitution of Committees and Sub-Committees.*—There shall be one General Committee for all the institutions. All of the members and the President shall be appointed by Government. The Secretary may be appointed by the Committee. A member who is absent from Calcutta for six months thereby vacates his or her appointment. Temporary members to fill vacancies for not more than six months may be elected by the other members, and shall on election be members of the Sub-Committees on which the members whom they replace were serving

2. The General Committee shall include at least six ladies and three native gentlemen. The Principal of the Medical College, Calcutta, the Superintendent of the Presidency General Hospital, and the Sister Superior shall be members *ex-officio*.

3. The members of the General Committee shall appoint two Sub-Committees of Management—one for the General Hospital and the other for the Medical College and the allied hospitals. Each of these Sub-Committees shall consist of not more than ten members. The proportion of ladies to gentlemen shall not exceed 1 to 3. The Principal of the Medical College and the Surgeon-Superintendent of the Presidency General Hospital shall be members *ex-officio* of the Sub-Committees of their respective hospitals. In their absence at meetings the next Senior Officers shall act for them.

4. There shall also be a Ladies' Committee, which shall consist of not more than nine members. It shall include the ladies who have been appointed on the General Committee, if they are willing to serve on it; and such other ladies as may be selected by them. The ladies on the General Committee may be members of the Ladies' Committee and of a Sub-Committee of Management. The Ladies' Committee shall elect its own President and Vice-President.

5. Each Sub-Committee and the Ladies' Committee shall elect its own Secretary. The Secretary of the General Committee may be Secretary also of one of the Sub-Committees.

6. The Ladies' Committee shall deal with all matters hereafter delegated to it in regard to both groups of hospitals. Separate books shall be kept for each group of hospitals

7. In the absence of the President, the General Committee or a Sub-Committee shall elect its Chairman for the day.

8. *Duties of the General Committee.*—The General Committee shall ordinarily meet twice a year, early in February and in August, to dispose of matters of importance affecting the nursing arrangements of all the hospitals, to apportion funds which are not specifically subscribed for a particular institution, to consider references from the Managing Sub-Committees, to elect temporary members, &c.

9. *Duties of Sub-Committees of Management.*—The Managing Sub-Committees shall hold their ordinary meetings once in three months. The first and third ordinary meetings of each year shall be held at least 14 days before the corresponding meetings of the General Committee The Sub-Committees shall collect subscriptions, sanction expenditure, and approve estimates for minor works. They shall consider any questions referred to them by the Ladies' Committee, and decide what questions are to be referred to the General Committee.

In addition to the four ordinary meetings, the Sub-Committees may have special meetings at their discretion. Three members of a Sub-Committee shall form a quorum.

10. *Duties of the Ladies' Committee.*—The Ladies' Committee shall meet not less frequently than once in two months, and more often when necessary, for the conduct of business or matters of detail. Three members of the Committee shall form a quorum.

The Ladies' Committee will, in consultation with the Sisters and Medical Officers, consider medical questions relating to nursing, and also with the Sisters dispose of all other matters, regarding the appointment, discipline, control, promotion, reward, and dismissal of nurses, and such other domestic matters as may be referred to them by the Sisters. In dealing with matters of promotion and discipline, the Ladies' Committee and the Sisters shall consult the medical staff as to the professional qualifications of the nurses No nurse shall be appointed without a medical certificate of fitness. The Sisters will, in consultation with the medical staff of the hospitals, arrange for the instruction of the nurses in medical subjects.

11. The Ladies' Committee shall appoint, from among their own number, visitors to the hospitals.

12. All general orders shall be given in the name of the Committee, Managing Sub-Committee, or Ladies' Committee as a whole. Temporary orders to meet emergencies may be passed by the Secretary to the Ladies' Committee or by the appointed lady visitors. No individual member of the Committee or Sub-Committees shall give instructions to the Sisters or nurses.

13. The Managing Sub-Committees shall sit together occasionally to consider the best means of raising subscriptions. They should consider whether any changes are advisable in the methods of obtaining subscriptions, and how far they should act independently in the interests of their own institutions. Also how contributions can best be obtained from Europeans and Natives, whether by subscriptions, donations, canvassing, advertisement, caste and sect collections, or otherwise. They should also ascertain the financial obligations of their predecessors and the ways of meeting them, and advise the General Committee as to allotment of funds to the different institutions.

Each Managing Sub-Committee shall also sit by itself to discuss matters of detail relating to its own charge, to carry out the orders of the General Committee and the decisions of any combined meetings of the Managing Sub-Committee, and to frame the annual budget of its own charge.

14. The Ladies' Committee shall draw up any special regulations that may be necessary for their own guidance. These regulations, if they affect the working of a hospital in any way, shall be communicated to the head of the institution, who will submit them to the Inspector-General of Civil Hospitals for approval before they are brought into operation. Lady visitors as well as any other members of the General Committee who may visit one of the institutions should write their remarks in the visitors' book in which columns are left for the observations of the Medical Officers and the Sisters.

15. *Relations of Medical Staff towards the Nurses.*—If the Chief Medical Officer of a hospital considers any nurse to be unsuitable owing to bad physique, health, or temper, want of tact, or for professional reasons, he will communicate his views to the Sister in charge for communication to the Sister Superior and the Ladies' Committee, who will meet them as far as practicable. Otherwise, and except as provided in rule 10, the medical staff will not interfere in the appointment, promotion, increase of pay, rewards or dismissal of nurses.

16. General rules affecting the medical work of the nurses in the hospitals shall not be changed in any way without the consent of the Medical Officer, who shall, if necessary, refer the matter to his own departmental superior.

18. *Training of nurses.*—The training of the nurses by the Sisters in charge will be supplemented by regular instruction from the resident medical staff. Examinations will be held in both branches (that of nursing taught by the Sisters in charge and that for which the medical staff are responsible), and certificates will be given, which will be signed by the Sister in charge, the head of the medical institution, and the Sister Superior with reference to the character of the nurse.

19. Detailed rules will be prepared by the Chief Medical Officer of each institution and the Sister Superior showing the subjects and course of instruction, hours of attendance, duration of training, and the period for which the nurses must serve in the hospital after they are qualified to receive their diplomas. A nurse will not actually receive her diploma until the prescribed period, which will be stated in her agreement, has expired. Complete lists of qualified nurses available for outdoor work should be kept up and supplied to medical practitioners, hospitals, &c.

20. *General.*—Although the functions of the Committee and of the Sub-Committees are limited to the collection of funds, and the supply, training, and discipline of the nurses, all members are entitled and are invited to represent to the Inspector-General of Civil Hospitals, as the head of the Medical Department, and the Chief Medical Officers, any other matter which may come to their notice in the course of their duties or visits in connection with the hospitals.

E. W. COLLIN,

Offg. Secy. to the Govt. of Bengal.

T. H. HENDLEY, COL., I.M.S.,
Inspector-General of Civil Hospitals, Bengal.

NOTIFICATION.

Examination of Compounders at the Temple Medical School, Patna.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, 337T.—M., dated 9th June 1897, and 288Medl., dated 17th January 1902, notice is hereby given that the next half-yearly examination of Compounders will be held at 10 A.M. on Monday, the 27th October 1902, at the Temple Medical School, Bankipore.

2 Every candidate must produce certificates of training, age, and previous education, as required by Rule 9 of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in Rule 10.

These certificates must comply with the conditions laid down in Rule 12 of the above resolution.

3. Male candidates must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the 27th October 1902 at the office of the undersigned.

Female candidates will be examined free of charge.

[*Exception.*—The students belonging to the Compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.]

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination.

This test consists of reading and writing from dictation, the reading of prescriptions and labels.

They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, &c.

6. No candidate for the Compounder's Examination shall be permitted to appear for examination more than three times.

B. C. OLDHAM, CAPTAIN, I.M.S.,
Superintendent, Temple Medical School, Patna.

TEMPLE MEDICAL SCHOOL, BANKIPORE, *the 28th August 1902.*

NOTIFICATION.

Examination of Compounders at the Campbell Medical School.

In accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 337T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will begin at 11 A.M. on Monday, the 27th October 1902, at the Campbell Medical School.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9 (*vide* Government of Bengal Notification No. 4042Medl, dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. Male candidates must forward to the Superintendent of the Campbell Medical School, at least one week before the 27th October 1902, an examination fee of Rs. 5. Female candidates will be examined free of charges.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

5. No candidate for the Compounder's examination shall be permitted to appear for examination more than three times.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (*a*) and (*b*), and of the persons granting the certificates to Rules 11 and 14 (3) and (4), and to the Certificate, Forms C and D, in the Schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

J. C. S. VAUGHAN, M.B., EDIN., MAJOR, I.M.S.,
Offg. Supdt., Campbell Medical School.

CAMPBELL MEDICAL SCHOOL, CALCUTTA, *the 28th August 1902.*

TREASURY NOTICE.

UNCOVENANTED DEPUTY COLLECTOR BABU MURALIDHAR ROY CHOUDHARI is placed in charge of the Saran Treasury and is authorised to draw bills on other Treasuries.

E. F. GROWSE, *Offg. Commissioner.*

PATNA COMMR.'S OFFICE, BANKIPORE, *the 3rd September 1902.*

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service

The 20th August 1902.—Babu Nil Madhav Chakravarti, Head Clerk of the Patna College (Class IV), is allowed leave for two years, under Article 371 of the Civil Service Regulations, with effect from the 21st July 1902, or the date on which he availed himself of it.

Babu Hari Har Prasad Singh, Second Clerk of the Patna College, is appointed to act as Head Clerk of the same institution, and in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Nil Madhav Chakravarti, or until further orders.

The 1st September 1902.—Pandit Panday Ram Avatar Sarma, M.A., Sahityacharya, an Assistant Master in the Patna Collegiate School (Class VIII), is allowed leave of absence for two months, under Article 369 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Babu Siva Nandan Ray, B A., is appointed to act as an Assistant Master in the Patna Collegiate School, and in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Pandit Panday Ram Avatar Sarma, or until further orders.

The 3rd September 1902.—The following confirmations are sanctioned:—

(1) Babu Sarat Chandra Chakravarti, M.A., as Lecturer on Sanskrit in the Bethune College, and in Class VIII of the Subordinate Educational Service.

(2) Mrs. Saralabala Mitra, B.A., as Second Mistress of the Bethune Collegiate School, and in Class VIII of the Subordinate Educational Service.

The following arrangements are sanctioned:—

(1) Babu Shiva Nandan Sahai, B.A., an Assistant Master in the Muzaffarpur Zilla School (Class VII), to act as Assistant Head Master of the Purnea Zilla School, on the pay of his own grade, *vice* Maulvi Mir Sajjad Ali, who has applied for leave.

(2) Babu Dhanush Dhari Prasad, M.A., an Assistant Master in the Bihar School of Engineering (Class VIII), on leave, to act as an Assistant Master in the Muzaffarpur Zilla School, on the pay of his own grade, *vice* Babu Shiva Nandan Sahai.

Mr. A. Von Herrenkohe, Foreman Instructor of the Civil Engineering College, Sibpur, on probation (substantive *pro tempore* in Class III), will continue on probation for a further period of six months, with effect from the 3rd August 1902.

Babu Biresvar Chatterjea, an Assistant Master (Head Pandit) of the Calcutta Training School (Class VII), was absent on leave from the 7th July to the 31st August 1902, both days inclusive, under Article 306 (*b*) of the Civil Service Regulations.

The 3rd September 1902.—Babu Surendra Nath Banerjea, Head Clerk, office of the Inspector of Schools, Presidency Division (Class IV), is allowed leave for nine months, namely, three months under Article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it, combined with furlough for the remaining period under Article 371 of the Regulations.

Babu Dharu Chandra Ghosh, Second Clerk, office of the Inspector of Schools, Presidency Division, is appointed to act as Head Clerk of the same office, and in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Surendra Nath Banerjea, or until further orders

The 5th September 1902.—Babu Rajendra Lal Gupta, B.A., Head Master of the Hooghly Branch School (Class III), is appointed to be Head Master of the Darjeeling High School, on the pay of his own grade, with effect from the date on which the latter school re-opens after the next Puja vacation, *vice* Babu Abinash Chandra Sen, transferred.

Babu Abinash Chandra Sen, B.A., Head Master of the Darjeeling High School (Class IV), is appointed to be Head Master of the Hooghly Branch School, on the pay of his own grade, with effect from the date on which the latter school re-opens after the next Puja vacation, *vice* Babu Rajendra Lal Gupta, transferred.

Babu Nilmani Pal, Head Master of the Malda Zilla School (Class II), is appointed to be Head Master of the Chaibassa Zilla School, on the pay of his own grade, with effect from the date on which the latter school re-opens after the next Puja vacation, *vice* Babu Hari Mohan Sen, transferred.

Babu Hari Mohan Sen, B.A., Head Master of the Chaibassa Zilla School (Class III), is appointed to be Head Master of the Malda Zilla School, on the pay of his own grade, with effect from the date on which the latter school re-opens after the next Puja vacation, *vice* Babu Nilmoni Pal, transferred.

The 5th September 1902.—Babu Bhagawan Chandra Mukherjea, a Sub-Inspector of Schools under the District Board of Backergunge (Class V), was granted by the Board privilege leave for two months and fifteen days, with effect from the 17th May 1902.

A. PEDLER,
Director of Public Instruction, Bengal.

Office Memorandum of the Inspector of Schools, Burdwan Division.

UNIVERSITY ENTRANCE EXAMINATION.

PRIVATE STUDENTS.

1. *Private students* are those who do not appear from any school or who have been transferred from one school to another after the 31st August without the consent of the Inspector. The term "private students" includes *school-masters*.

2. Private students must appear at the test examination of one of the following institutions:—

Those from the—	At the test examination of—	Date of test examination.
1	2	3
1. Howrah district ...	Howrah Municipal School ...	To be fixed by the Head Master.
2. Bankura " ...	Bankura Zilla School ...	15th December 1902.
3. Birbhum " ...	Birbhum ditto ...	15th " "
4. Midnapore " ...	Midnapore Collegiate School ...	18th " "
5. Hooghly " ...	Uttarpara Government School ...	15th " "
	Hooghly Branch School ...	15th " "
6. Burdwan " ...	Burdwan Raj Collegiate School (with the Principal's permission).	15th " "

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners. No private student will be admitted to the test examination unless accompanied, for the purpose

of identification, by some person known to the Head Master of the institution at which he appears.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November, with the following information, etc.:—

(*a*) The name of the school in which the candidate last studied.
(*b*) The transfer certificate (in original) granted to the candidate from the same; or
(*c*) In the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.
(*e*) In the case of school-masters, a certificate of good conduct from the Secretary or proprietor of the school in which the candidate is serving.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 11th January with their applications for admission to the Entrance examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses, written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office*, but it should be sent to the Registrar by the candidates themselves, together with the countersigned applications, which will be returned to the respective Head Masters for delivery to candidates.

8. Private students will understand that the test examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

10. The Entrance examination in 1903 will be held on the 2nd March 1903 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 22nd January 1903.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* masters of English schools, who have served as such for the full period of two academical years or of six months after the examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations.

2. Candidates for the F.A. and B.A. examinations must produce certificates of character and length of service from the Secretaries of their respective schools, together with their *Entrance* or *F.A.* certificates. Those candidates who have been admitted to a former examination must produce the Registrar's receipt in addition.

3. The printed form of application should be carefully filled up and submitted to this office *on or before the 15th January 1903*, together with other papers as mentioned in rule 2, after which no applications will be received.

4. By *bonâ fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M. E course.

5. The F.A and B.A. examinations in 1903 will be held on the 16th March 1903 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 2nd February 1903.

CHINSURA,
The 3rd September 1902.

RADHA NATH ROY,
Inspector of Schools, Burdwan Division.

Office Memo. of the Inspector of Schools, Bhagalpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1903.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination, unless accompanied, for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur Division will be the 15th December 1902.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 8th November 1902. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance Examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student, who had failed to pass the annual examination for promotion to the first class at the end of session 1901-1902 and then left the school, cannot under any circumstances be allowed to appear at the Entrance Examination that will be held on the 2nd March 1903 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance Examination.

8. *Bonâ fide* teachers employed in any of the recognised schools in the Bhagalpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance Examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance Examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 22nd January 1903.

F.A. AND B.A. EXAMINATION, 1903.

1. Deputy Inspector of Schools, Sub-Inspector of Schools, and *bonâ fide* teachers of recognised English schools, in the Bhagalpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 5th January 1903.

2. Candidates for the B.A. Examination must forward with the applications their F.A. certificates, and those for the F.A. Examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The F.A. and B.A. Examinations in 1903 will be held on the 16th March 1903 and following days.

5. Applications and fees for admission to the above examination must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 2nd February 1903.

BHAGALPUR,
The 23rd August 1902.

P. CHATTERJEE,
Inspector of Schools, Bhagalpur Division.

Office Memorandum of the Inspector of Schools, Chota Nagpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1903.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred after the 31st August, without the consent of the Inspector, to the school from which he appears, will be treated as a private student. The term "private student" includes *School Masters.*

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination, unless accompanied, for the purpose of identification, by some person known to the Head Master of the institution at which he appears.

3. The first day of the test-examination in all zilla schools in the Chota Nagpur Division will be the 15th December 1902.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the head of the institution at which he appears. The balance of such fees, after payment of expenses (stationery, &c.), will go as remuneration to the Examiners.

5. Candidates for the test-examination should apply to this office not later than the 11th November 1902. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance Examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1901-1902 and then left the school will not, under any circumstances, be allowed to appear at the Entrance Examination of 1903.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance Examination.

8. *Bonâ fide* teachers employed in any of the recognised schools in the Chota Nagpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspectors of the districts concerned.

9. The forms of application for permission to appear at the Entrance Examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. The applications and fees for admission to the Entrance Examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 22nd January 1903.

11. The Entrance Examination in 1903 will be held on the 2nd March 1903 and following days.

F.A. AND B.A. EXAMINATION, 1903.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools in the Chota Nagpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School Masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 3rd January 1903.

2. Candidates for the B.A. Examination must forward with the applications their F.A. certificates, and those for the F.A. Examination their Entrance certificates.

3. Candidates should read carefully the form of the certificate which this office will have to sign, and supply all information and documents required, without which the Inspector will decline to sign it.

4. The F.A. and B.A. Examinations in 1903 will be held on the 16th March 1903 and following days.

5. Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 2nd February 1903.

M. GHOSE,

Ranchi	... 1	Manbhum	... 1
Singhbhum	... 1		

F. A. SLACKE, *Offg. Commissioner of Chota Nagpur.*

CAMP PURULIA, *the 1st September 1902.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2229B.

NOTICE is hereby given that the Tenth Sale of Opium, the Provision of 1900-1901, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Monday, the 29th September 1902, at 11 A.M., and will comprise 4,000 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory, consisting of	2,000
Ditto ditto at the Ghazipur Factory, consisting of ...	2,000
Total ...	4,000

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 19th November 1901, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 4th and 14th October 1902, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M of Saturday, the 4th October 1902, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 14th October 1902.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Monday, 3rd November 1902 ...	2,000	2,000	4,000
On or about Monday, 1st December „ ...	2,000	2,000	4,000
Total ...	4,000	4,000	8,000

By order of the Board of Revenue, L. P.,

H. WHEELER, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 25th August 1902.*

CUSTOM HOUSE NOTICES.

DURGA AND LAKSHMI PUJAS.

THE holidays to be observed in offices under the Government of Bengal are from Monday, the 6th, to Friday, the 17th, October, inclusive.

The Custom House and its Treasury will, however, be open during that period for the usual hours, except from Wednesday, the 8th, to Saturday, the 11th, and on Thursday, the 16th, and Friday, the 17th, October. On these dates it will be open free of charge from 11 A.M. to 12 noon for entering and clearing vessels and for the issue of bills of entry and shipping bills for free goods from or to such vessels, provided notice has been given by the agents concerned on the last preceding open day. The Treasury will, however, remain closed on these days.

L. F. MORSHEAD, *Offg. Collector of Customs.*

CALCUTTA CUSTOM HOUSE, *the 2nd September 1902.*

To prevent the repetition of certain frauds which have been committed upon the Custom House, it is notified that in future—

1. Bills of entry or shipping bills should invariably be presented by the Sircars who have signed them, and their signatures should have been countersigned, as they already are in many instances, by a representative of the firm or party for whom they are authorised to appear.

2. All entries relating to—

   (*a*) the number of packages or the like in which the goods are contained,
   (*b*) their *total* value in the column applicable,

should be entered in both words and figures; and the entry in words should have "only" written at the end of it, whilst both words and figures should be written sufficiently clearly and closely together to make any subsequent alteration easily discernible. The name of the firm or party for whom the goods are being cleared should also be entered in the last column of the forms unless shown already elsewhere on them.

L. F. MORSHEAD, *Offg Collector of Customs.*

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Simla, the 4th September 1902.

No. 802M.—Notice is hereby given that His Excellency the Viceroy and Governor-General will hold a Levée at Calcutta on Monday, the 15th December 1902, at 9-30 P.M., for Officers and Gentlemen possessing the privilege of the Private Entrée and for New Presentations only. As Government House will not be open till after the Delhi Darbar, this Levée will be held in the Town Hall, and will take the place of the two ordinary Levées held annually. Those Officers and Gentlemen who have been presented before and would attend in the ordinary course will be excused from attendance in the present year. The sole exception to this exemption will be the Officers and Gentlemen who possess the privilege of the Private Entrée.

The following regulations are to be observed at His Excellency's Levée:

I.—Gentlemen on the Private Entrée List are requested to send their cards addressed *to the Office of the Military Secretary to the Viceroy, Calcutta*, not later than Monday, the 8th December 1902, and are also requested to bring with them two large cards with their names clearly written thereon,—one to be left with the Aide-de-Camp in waiting in the corridor, and the other to be delivered to the Military Secretary to the Viceroy, who will announce the name to His Excellency.

II.—Gentlemen who have not already been presented at the Court of St. James or at the Viceregal Court should send in their names and addresses, through the Gentlemen who propose to present them *to the Office of the Military Secretary to the Viceroy, Calcutta*, not later than *Monday, the 24th November 1902*, in order that the names may be submitted to His Excellency, when, if they are approved, Presentation cards will be forwarded.

Gentlemen presenting others, except those who possess the privilege of the Private Entrée, will not be required to attend.

Gentlemen wearing uniform will appear in Full Dress; Gentlemen not wearing uniform in Evening Dress.

With regard to further particulars as to dress, attention is invited to the Notification issued from this Office, No. 904M., dated 8th September 1899, published in the *Gazette of India* of the 9th idem.

The 5th September 1902.

No. 808M.—Notice is hereby given that their Excellencies the Viceroy and Lady Curzon will not hold this year the Drawing Room annually held at Government House, Calcutta, it having been found impossible to arrange for this function in the interval between the close of the Delhi ceremonials and the State Fancy Dress Ball, which it is proposed to give at Government House on 26th January 1902.

Applications for new presentations will, however, be received and considered in the ordinary course. Ladies who propose to present others must send in *in writing* for approval the names of such Ladies *to the Office of the Military Secretary to the Viceroy, Calcutta,* not later than Thursday, the 15th January 1903, after which date no applications will be received. These applications will be submitted to their Excellencies, and if they are approved, Presentation cards will be forwarded.

The Ladies who will thus receive Presentation cards will be considered to have been presented at their Excellencies' Drawing Room.

By Command,
EVERARD BARING, *Lieut.-Colonel,*
Military Secretary to the Viceroy.

PENSIONS AND GRATUITIES.
FUND.

Simla, the 20th August 1902.

INDIAN CIVIL SERVICE FAMILY PENSION REGULATIONS.

No. 4528-P.—The following is published for general information:—

No. 4 Financial (Funds), dated India Office, London, the 25th July 1902.

From—His Majesty's Secretary of State for India,
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD herewith a Report and Abstract of a Valuation* made by Mr. Willis Browne, F.I.A., of the assets and liabilities under the Indian Civil Service Family Pension Regulations, as at the 30th September 1898, together with observations thereon† by Mr. Stanley Day, F.I.A.

Indian Civil Service Family Pension Regulations—third quinquennial valuation of—
* Dated 24th February 1902 (12 copies sent).
† Dated 1st July 1902.

2. Your Excellency in Council will observe that Mr. Willis Browne has made two valuations—one at the rate of 3½ per cent., showing a deficit of 153·590*l*, and the other showing a surplus of 21,191*l*., at the rate of 4½ per cent. Both valuations have been made on the supposition of a return to the full rates of subscription, which were reduced by 27½ per cent. as a temporary measure and until the present occasion, as indicated in my Despatch dated the 2nd of April 1896.

3. Having regard to the observations made by me in the Despatch dated 17th May 1901, No. 3, with reference to the recent valuation of the Indian Military Service Family Pensions, I am willing to adopt, until the next valuation, the 4½ per cent. rate of interests but it is necessary that the temporary reduction of subscriptions by 27½ per cent. only allowed in paragraph 6 of my Despatch No. 2, dated the 2nd of April 1896, until this valuation, should at once be withdrawn, and that the original rates be restored with effect from the beginning of the month following the date of the publication of this Despatch in the *Gazette of India*, which date should be communicated to me by telegram.

4. The consolidated accounts for the five years ending the 30th of September 1898 are also transmitted.

ENCLOSURES.

ENCLOSURE No. 1.

INDIAN CIVIL SERVICE FAMILY PENSIONS.

Agreeably to instructions issued by the Secretary of State for India in Council, I attach hereto an abstract of a valuation, at 30th September 1898, of the assets and liabilities of this Fund at 3½ per cent. interest; and the result, as was to be expected, is a very considerable deficit.

Before remarking on the effect of a reduction of interest, I should furnish certain statistics, generally looked for, relating to the personal state of the Fund, and to rates of mortality, marriage, &c, now obtaining.

The personal state of the Fund compares with that at the date of the last valuation as follows:—

	30TH SEPTEMBER 1893. DATE OF LAST VALUATION.			30TH SEPTEMBER 1898. DATE OF PRESENT VALUATION.		
	Number of married officers.	Number of unmarried officers.	Total.	Number of married officers.	Number of unmarried officers.	Total.
Class II ...	None	None	None	46 (including 1 widower).	12	58
„ III ...	7	9	16	58	20	78
„ IV ...	59	66	125	93 (including 3 widowers).	108	201
„ V ...	31	226	257	64 (including 1 widower).	248	312
Total ...	97	301	398	261	388	649

The number of married officers represents between 39 and 40 per cent. of the total number of subscribers as against a number representing between 24 and 25 per cent. at the date of the last valuation; and the percentages of married members compare with those obtaining five years before in the following manner:—

	At date of last valuation. Percentage of married to total number of subscribers in Class.	At date of present valuation. Percentage of married to total number of subscribers in Class.
Class II ...	No officers in Class II	... About 79 per cent.
„ III ...	About 44 per cent.	... „ 74 „
„ IV ...	„ 47 „	... „ 46 „
„ V ...	„ 12 „	... „ 20 „

It will be observed that the above percentages are high.

Of the 255 married officers with wives living—

1	contracted marriage at an age	between	20 and 21	...	Last Valuation	0
5	„	„	21 and 22	...	„	4
10	„	„	22 and 23	...	„	6
28	„	„	23 and 24	...	„	18
33	„	„	24 and 25	...	„	16
39	„	„	25 and 26	...	„	12
35	„	„	26 and 27	...	„	14
25	„	„	27 and 28	...	„	11
21	„	„	28 and 29	...	„	5
14	„	„	29 and 30	...	„	4
7	„	„	30 and 31	...	„	1
12	„	„	31 and 32	...	„	2
11	„	„	32 and 33	...	„	4
5	„	„	33 and 34	...	„	...
6	„	„	34 and 35	...	„	..
1	„	„	35 and 36	...	„	...
1	„	„	36 and 37	...	„	...
1	„	„	37 and 38	...	„	...

Of the same 255 married officers, the following numbers have completed the years of married life enumerated as under:—

Years of married life completed.	No. of officers.
0	33
1	40
2	32
3	25
4	29
5	22
6	13
7	15
8	9
9	17
10	7
11	4
12	3
13	4
14	1
15	1
	255

It will be noticed that very many of the marriages occur at, or in the early years following, the date of entering into the service of the Government of India. The officer's position being assured at a comparatively young age, and the financial obstacles that ordinarily thwart youthful marriages being thereby removed, it would appear that he does not hesitate to accept, in early life, the responsibilities of matrimony.

The membership of the Fund is yet small, and the experience governing the rates of mortality, marriage, &c., must, in consequence, be accepted *cum grano salis*. In other words, the experience should be accepted, not as applicable in its entirety, but rather as an indication of the probable future. In some instances, so far as it goes, it diverges in a considerable degree from the experience upon which the Fund was built. In the following statements I give the rates originally adopted, together with those I have considered

desirable to adopt for the purposes of the present valuation; the reasons governing my conclusions being also given.

Mortality Rates—Officers.

1st January 1899.

No. of officers entered		774
,, ,, over all years under observation ...		6,115
,, withdrawals		11
,, deaths		56
,, over all years exposed to death risk ...		5,725

From the above the following rates of mortality are obtained:—

Age.	Rate.	Age.	Rate.
19	·0109	26	·0103
20	·0108	27	·0102
21	·0107	28	·0102
22	·0107	29	·0101
23	·0106	30	·0101
24	·0105	31	·0100
25	·0104		

After the age of 31, the experience is too small to be considered reliable.

The above rates compare with those originally adopted, and with the others shown below, in the following manner:—

Age.	Civil experience, 1st January 1899.	Latest adopted rates for Indian Military Fund.	General Hannyngton's original rates for Civil.	Mr. Sutton's Bengal Civil.
19	·0109	.....	.....	.....
20	·0108	·0178	·0118	.....
21	·0107	·0194	·0131	.....
22	·0107	·0174	·0141	.....
23	·0106	·0157	·0145	·0100
24	·0105	·0142	·0149	·0108
25	·0104	·0132	·0154	·0112
26	·0103	·0123	·0156	·0116
27	·0102	·0117	·0159	·0116
28	·0102	·0118	·0161	·0116
29	·0101	·0119	·0166	·0122
30	·0101	·0120	·0169	·0129
31	·0100	·0122	·0172	·0136
32	.....	·0125	·0177	·0136
33	.....	·0128	·0180	·0140
34	.....	·0131	·0183	·0142
35	.....	·0134	·0187	·0145
36	.....	·0136	·0191	·0147
40	.....	·0144	·0216	·0152
45	.....	·0166	·0269	·0161
50	.....	·0204	·0261	·0190
55	.....	·0255	·0255	·0237
60	.....	·0326	·0326	·0299
65	.....	·0469	·0469	·0395
70	.....	·0684	·0684	·0537
75	.....	·1026	·1026	·0864
80	.....	·1522	·1522	·1509

The existing rates, so far as they go, are considerably lower than the original rates, and are also lower than those I deduced from the Military Fund experience. They are nearer to the rates found by the late Mr. Sutton on the experience of the Bengal Civil Fund; but even compared with the latter, the present experience shows a marked improvement. It is true Mr. Sutton based his rates on a wider experience than mine, and weight must be given to this fact

There is little doubt that the lives of our Indian Civil Officers have, in the same manner as those of other select classes, very considerably improved; and the present experience, small as it is, will probably prove hereafter to be correct at the ages given with a like improvement at other ages. Considering, however, the question generally, and with a due regard to the wisdom of providing a sufficient margin against the unexpected, I have, for the purposes of this valuation, adopted the rates obtained by the late Mr. Sutton, with the exception of the five or six younger ages for which I have accepted the existing experience at this date.

Marriage Rates—Officers.

1st January 1899.

Number entered unmarried	774
„ over all years under observation	4,771
Exits by death and otherwise	51
Number of marriages	288
„ over all years subject to marriage	4,359

On the above data, the following rates are deduced according to years of service, and compare with those of the Indian Military Service, and with those of the Bengal Civil Fund as under. In the original scheme, the late General Hannyngton had no occasion for the use of marriage rates, as no potential assets or liabilities were accounted for, the reason for this omission being explained by that officer at the time :—

Service, years.	Military Fund experience.	Sutton's Bengal Civil.	Civil Fund experience to date.
0	·0200	·0770	·0573
1	·0200	·0780	·0650
2	·0250	·0790	·0725
3	·0350	·0800	·0850
4	·0450	·0850	·0900
5	·0550	·0900	·0950
6	·0600	·0950	·1000
7	·0650	·1000	·1050
8	·0700	·1050	·1100
9	·0750	·1150	·1200
10	·0800	·1300	·1350
11	·0850	·1500	·1500
12	·0900	·1300	·1400
13	·0900	·1150	·1200
14	·0850	·1100	·1100
15	·0850	·1000	·1000

The rates now deduced being, for the years of service given, based on a fairly wide experience, there is no reason why they should be rejected. With the exception of the first two years of service, they approach very nearly to the Bengal Civil Fund rates found by the late Mr. Sutton. Towards the end of the present experience, the rates founded thereon and those of the Bengal Civil are practically the same. Thus I have, for the years of service beyond the range of the present experience, followed on with the rates determined by Mr. Sutton.

Mortality Rates—Wives of Officers.

1st January 1899.

Number entered	284
„ over all years under observation	1,604
„ of exits	14
„ of deaths	6
„ over all ages subject to death	1,436

From the above, the following death-rates are obtained :—

Ages 20 to 24 inclusive. Average rate of ·0073 at each age.
„ 25 to 29 inclusive. Average rate of ·0032 at each age.
„ 30 to 34 inclusive. Average rate of ·0033 at each age.

The experience of the Fund is so limited that I hardly feel justified in accepting existing facts as a guide to the future. As, however, it would be very unsafe to assume higher death-rates than are likely to prevail hereafter, some consideration should undoubtedly be given to the low rates foreshadowed by the present experience, notwithstanding the scanty data upon which it is based. I propose, therefore, with a view to safety, to accept as applicable to the future such portions of the tables I have before me as show the lowest rates. I produce the following tables for consideration. The table used by the late Mr. Sutton for the Bengal Civil Fund was that constructed on the very old data collected by the late Mr. Samuel Brown, Mr. Sutton presumably being of opinion that the experience of the Bengal Civil Fund at his disposal at the time was not sufficiently extensive to warrant acceptance. The rates adopted by General Hannyngton as under are those prepared by the late Mr. Davies on the Madras experience, as modified for the

Bengal Military Fund. The experience is of very old date, and by no means suitable to existing circumstances—

Age.	General Hannyngton's Civil.	Indian Military Fund.	Institute of Actuaries' Hm. Table.

Government Annuitants.

Up to the age of 24, I have accepted the rates of the Institute of Actuaries' Hm Table as being nearer to the rates indicated by the present experience. For ages from 25 to 46 inclusive, I have adopted the rates I recently found to obtain on the experience of the Indian Military Fund. After the age of 46 I have followed on with the Government Annuitants' rates, the same as I did for the Military Fund. The table of rates thus selected affects the valuation adversely. But to use the original high rates would be to under-value the liability for widows' pensions, and to thereby hide a disease which, if allowed to continue long without proper treatment, can only be cured by the adoption of very strong measures, such as a large increase of subscription.

Mortality Rates—Daughters.

1st January 1899.

Number entered	183
„ over all ages exposed to risk	807
„ of exits	1
„ of deaths	13

The death-rates based on the above data are:

For age 0	·0656
„ 1	·0071

The ages of those exposed to risk range from 0 to 14 years. Of the 13 deaths 12 occurred at age 0 (nearest), and one at age 1 (nearest). After the age of 1 (nearest) no

deaths have occurred. The experience, however, is too small to be accepted. Nevertheless it indicates that the rates of mortality will, as in the case of daughters of military officers, fall very considerably below those hitherto in use; and I have, in consequence, for the purposes of this valuation, accepted the rates I used in connection with the last valuation of the Indian Military Service Family Pension Fund. These rates have a very adverse effect on the results of the valuation. The remarks I made on the same subject in connection with the wives of officers are also applicable here.

Marriage Rates—Daughters.

There are no daughters who have yet attained an age at which marriage occurs. In the case of the Indian Military Service Family Pension Fund, the recent experience proved to be very disappointing, the rates being nothing like as high as those assumed in the original scheme; and I had, in consequence, to adopt reduced rates in the valuation. In the case of the Civil Fund, however, for which I have no very recent experience, I should not, I think, be justified in rejecting the rates assumed by the late General Hannyngton or those found by the late Mr. William Sutton, the two being very nearly in accord; more especially as I have good reasons for believing that opportunities for desirable marriages occur much more frequently in the Indian Civil than in the Indian Military Service. Mr. Sutton's data being the more recent, I have selected the rates found by that actuary.

Mortality Rates—Sons.

Number entered	169
,, over all ages exposed to risk	813
,, of deaths	15

All the 15 deaths occurred between birth and age 2 (nearest). The same remarks apply as in the case of daughters, and I have in like manner selected the rates I found for the Military Fund.

Reference has, on a previous occasion, been made to the necessity of introducing into the valuation the estimated value of potential assets and liabilities in the following circumstances:—

(1) A reduction in the rate of interest.
(2) Any considerable adjustment of the life tables.

These potential assets and liabilities have reference to the future families of bachelors, etc., and to the additional children of existing married officers. So long as the original rate of interest is continued, and the original tables remain applicable, so long may it be considered unnecessary to deal with matters outside existing and contingent claims, because every new liability brings with it a corresponding asset. On a reduction of interest, however, or on the introduction of some other disorganising element, new assets do not correspond with new liabilities, the latter being greater than the former; and as this loss is continuous, applying, as it does, to every possible claim that can arise, it becomes necessary to value all the assets and liabilities that can be created by existing subscribers, married or single. By so doing, the valuation becomes extended to a period far beyond the range of contingent liabilities; and the results, in consequence, when compared with those of earlier valuations, where potential values have been omitted, may possibly assume an appearance of inconsistency unless the figures are closely examined into. Moreover, on the introduction of either of the changes alluded to, the calculations on which are estimated the aid to be derived from unmarried subscribers become vitiated, the amount in excess of what is required during the Fund's infancy, and which we have spent by allowing a reduction of subscription, being swamped by the loss sustained at the fag end of the period pertaining to existing subscribers. This excess amount received in the earlier years having been spent on the assumption of a continuation of the original tables and interest rate, there is nothing left to make good the loss incurred at the end of period unless the scale of contributions be so increased as to fully counteract the effect of the changes introduced. In the original scheme it was assumed that there would exist indefinitely a certain proportion of bachelor members from whom, at a given rate of interest, an annual sum would be derived sufficient to supply the deficiency in the required amount of married member's subscription for children. By this assumption, if the interest rate be reduced, we trespass upon future subscribers to make good a loss now being contracted. But in the event of the Fund being closed, or, which is the same thing, new conditions be made for new entrants, the revenue from this source is, *de facto*, at once cut off; and it will thus be understood that the result of a valuation, excluding potential claims, must be of a very misleading character, since the capital, which is included therein as an asset, is not wholly the property of incumbent and contingent pensioners, but forms, in great part, within the limit of unmarried subscription, the nucleus of a reserve for future children of both married and unmarried subscribers.

Thus it becomes essential to include in the account the value of potential assets and liabilities, and to adjust the scale of contributions accordingly.

The deficit at a 3½ per cent. rate of interest amounts to 153,590*l.*, representing about 12½ per cent. of the total liabilities. To extinguish this deficit, the full contributions all round would have to be increased by 16 per cent.

The valuation at 4½ per cent. interest shows a surplus of 21,191*l.*, representing about 2 3 per cent. of the total value of the liabilities.

Both valuations have been made on the supposition of full rates of contribution.

24th February 1902. WILLIS BROWNE.

ENCLOSURE No. 2.

Stanley Day, Esquire, to India Office,

(Funds 388.) 14, Leadenhall Street, London, E. C.,

1st July 1902.

Sir,

I beg leave to submit my Report on the affairs of the Indian Civil Service Family Pension Fund as disclosed by the valuation of Mr. Willis Browne, as on 30th September 1898.

1. I have considered the mortality experienced in the Service, and approve the modifications of the rates originally used. The rates of mortality amongst civil servants show distinct improvement, particularly under the age of 30, where the experience is much more favourable than in the corresponding Military Fund. Of all mortality rates, that of the contributors themselves has the most important bearing upon the Fund.

2. The last valuation of the Fund, as at 30th September 1893, was made on the basis of interest at the rate of 4½ per cent., and disclosed a surplus, which was used in temporarily reducing the contributions by 27½ per cent.

On the present occasion Mr. Willis Browne has been instructed to make the valuation upon the assumption of interest at 3½ per cent. only being allowed at the future; and though he has reckoned upon the payment of the full original contributions, a large deficiency of 153·590*l.* appears. This deficiency, though large, should hardly cause surprise, for it will be remembered that the rates of donation and contribution were fixed on the assumption 4½ per cent. interest, and are wholly insufficient upon a 3½ per cent. basis, and each fresh liability imagined (as in pontential benefits) or assumed (as a new subscriber) brings at once an additional deficit upon the Fund.

3. A complete recasting of the contributions seems essential, and an increase of (roughly) 10 per cent. to 15 per cent. is involved, but even then complete equilibrium cannot be looked for, for there will remain the donations, &c., short paid in the past, and also the incumbent pensions granted upon the 4½ per cent. basis.

4. It seems unreasonable to ask new subscribers to pay into the Fund (over and above the contributions necessary for their own protection on a 3½ per cent. basis) an increased contribution to make up for the short payments of their predecessors, and the establishment of a separate Fund for each change in the rate of interest seems to suggest itself; the original rate of interest being continued to the old Fund.

Any disturbance likely to be caused by variation in the mortality and marriage rates would be only trivial as compared with an alteration of 1 per cent. in the rate of interest.

5. The values of "Potential" benefits and contributions have been brought into account for the first time, as is necessary on the reduction of the rate of interest; but, when the contribution rates have been suitably recomputed to provide for the pensions, these rather unsatisfactory calculations may be dispensed with.

It will be noticed that they practically account for the deficiency.

6. If the lower rate interest is determined upon, I would suggest that the Government might undertake to manage the Fund free of expense, which would not, in my opinion, be inconsistent with the regulations except in the minor point of Actuarial fees which are specially provided for.

Relief from the management charges would make a considerable reduction in the deficiency and would lighten future contributions appreciably.

7. Mr. Willis Browne has made an alternative valuation on a 4½ per cent. rate of interest as before, and shows a small surplus of 21,191*l.*; but as the Government appear to contemplate a reduction in the rate of interest at an early date (even if the 4½ standard is allowed now), it would be wise to retain this surplus in hand against the deficiency which must arise when the change is made. I should like to point out here that while a rate of interest is only fixed by the Government for five years, the Actuarial valuation looks forward through the lifetime of nearly two generations, as also did the original scheme.

8. In conclusion I beg to recommend—

(*a*) That in any case the full rate of contribution be resumed at once.

(*b*) That in the event the rate of interest being reduced to 3½ per cent.—

(1) the management charges be assumed by the Government;

(2) the contributions and donations be recalculated to fit the altered circumstances.

The Under Secretary of State for India.

I am, &c.,

STANLEY DAY.

FREDERICK TREVOR, Director of Funds.

The following order, issued by the Government of India in the Military Department, is republished for general information.

Simla, the 5th September 1902.

CANTONMENTS.

REGULATIONS.

No. 805.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by sections 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), is published, as required by section 27, sub-section (*i*), of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Governor-General in Council on or after the sixth day of October 1902.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor-General in Council.

Draft Notification.

In exercise of the powers conferred by sections 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), the Governor-General in Council is pleased to direct that to the proviso to section 18 of the Cantonment Code, 1899, the words "or, with the sanction of the Officer Commanding the District, for any period not exceeding six months" shall be added.

E. G. BARROW, *Major-General,*
Secy. to the Govt. of India.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 10, 1902.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 1486T.M.—The 1st September 1902.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Mr. A. H. Wharton to be a Commissioner of the Dacca Municipality, in the district of Dacca, *vice* Mr. G. L. Garth, resigned.

Dacca.

No. 1488T.M.—The 1st September 1902.—It is hereby notified that, under section 23 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Mr. T. W. Clark to be the Chairman of the Bhatpara Municipality, in the district of the 24-Parganas.

24-Parganas.

No. 1498T.M.—The 2nd September 1902.—It is hereby notified for general information that, in supersession of Rule 5, Appendix A of the Rules issued under section 82 of the Bengal Municipal Act, III of 1884, as amended up to the 1st November 1896, for keeping the accounts of Municipalities and also for the audit of such accounts, the Lieutenant-Governor is pleased to make the following rule under the aforesaid section of the Act:—

"*Rule 5.*—Whenever a Municipality levies a house-rate upon owners and also a rate or rates upon occupiers for water, lighting, and latrines, a double set of registers shall be opened, *i.e.*, one set for owners and the other for occupiers. When two or more rates are chargeable to the occupier, they may be drawn on one bill; and, if found convenient, the necessary additional columns may be introduced in the forms and registers, so as to avoid keeping a separate set for each rate. If the names shown in the rating list for latrine or other special rates do not differ in more than 5 per cent. of the cases from those shown in the assessment list for house-rates, the Municipality may, with the previous approval of the Examiner of Local Accounts, maintain only one set of registers, the name of the occupier when different from that of the owner being entered in the register immediately below it. Where the names are identical or where the special rate is recoverable from the owner, the Municipality may issue a combined bill for all rates. In other cases separate bills must be issued."

No. 1506T.M.—The 2nd September 1902.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act, III of 1885, Mr. J. S. Davidson has been elected by the members of the Kendrapara Local Board, in the district of Cuttack, to be a member of the Cuttack District Board, *vice* Babu Sriram Chandra Bose, resigned.

Cuttack.

No. 1528 T.M.—The 2nd September 1902.—It is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Jamalpur Municipality, in the district of Monghyr, made at a meeting, the Lieutenant-Governor intends, in exercise of the power vested in the Local Government by section 9 (*c*) of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, to revise the boundaries of the said Municipality so as to include within its limits the following areas, unless good reasons are shown to the contrary within six weeks from the date of publication of this notification within the Municipality:—

Monghyr.

On the north.—The area to the north of the present municipal northern limits to a line drawn from a point 150 feet north of the centre of the East Indian Railway tunnel to 1 mile 2 furlongs post on the East Indian Railway, Monghyr branch line, to a pillar placed near the Government road 360 feet north of the Indrook road. This area includes the villages of Chota Assickpur, Bara Assickpur, and Chota Dowlatpur.

Villages of Chota Assickpur, Bara Assickpur, and Chota Dowlatpur.

On the west.—The area to the west of the present municipal western limits to a line 15 feet east of the centre of the Government road from the pillar 360 feet north of the Indrook road to the Bedasi *talao*. This includes a part of village of Alipur (the other half is at present within municipal limits).

Part of village of Alipur.

On the south.—The area to the south of the present municipal limits by a line drawn through East Indian Railway milepost 299 near bridge No. 26 at right angles to the line from the hill meeting a line drawn parallel with the East Indian Railway main line at a distance of 5,700 feet, which joins the Bedasi *talao*. This includes the villages of Furreedpur, Phulkah, Ramchunderpur, Neemah, and Gararitolah.

Villages of Furreedpur, Phulkah, Ramchunderpur, Neemah, and Gararitolah.

On the east.—The area between the present municipal limit up to the foot of the Jamalpur hills from the line drawn at right angles to milepost No. 299 up to the pillar erected 150 feet north of the centre of the East Indian Railway tunnel, except where it follows the East Indian Railway land boundary pillars.

2. The revised boundaries of the Municipality after the inclusion of the above areas will be as follows:—

On the north.—From a point 360 feet north of the junction of the road leading to Indrook and 15 feet east of centre of the Government Road leading to Dharara from Monghyr to the 1¼ milepost on Monghyr, East Indian Railway branch, and from there to a point at the foot of the hills 150 feet north of the entrance to the tunnel.

On the east.—From the entrance to the tunnel along the foot of the Sonthali range of hills, except that portion of the hills occupied by the East Indian Railway Company on the hills themselves.

On the south.—By a line running at right angles to the East Indian Railway milepost No. 299 north of East Indian Railway bridge No. 26. This line running one mile west of the railway line, when it joins the western boundary line 4,900 feet south of the Bedasi *talao* parallel with Railway line.

On the west.—From the point 4,900 feet south of the Bedasi tank to the point 360 feet north of the junction of the road leading to Indrook by a line 15 feet east of the centre of the Government road everywhere except south of the Bedasi *talao*, where the line runs parallel with the railway line.

No. 1543 T.M.—The 3rd September 1902.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, as amended by Bengal Acts IV of 1894 and II of 1896, the Lieutenant-Governor approves the election by the Commissioners of the Narainganj Municipality, in the district of Dacca, of Mr. G. Morgan to be their Chairman.

Dacca.

No. 1550 T.M.—The 4th September 1902.—It is hereby notified for general information that the Lieutenant-Governor intends, in exercise of the power vested in the Local Government by section 1, clause 3 of Bengal Act II of 1891 (an Act to consolidate and amend the law relating to Hackney Carriages and Palanquins in Calcutta), and in accordance with the recommendation of the Commissioners of the Puri Municipality, in the district of Puri, made at a meeting, to extend the provisions of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the Municipality.

LAND SALE NOTICES.

APPENDIX XXX.

[See Chapter III, Rule 9]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Chittagong, will be put up to sale at 11 o'clock on Monday the 22nd September 1902, corresponding with the 6th of Ashwin 1309 B.S., at the Collector's office, Chittagong.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Saran Collectorate, the 18th August 1902.

P. G. ROGERS, *for* Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Khulna, will be put up to sale at the Khulna Collectorate on the 29th September 1902, corresponding to 13th Aswin 1309 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Tippera Collectorate, the 26th July 1902. H. W. SCHOOPE, Collector.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Shomsher Khan Chowdhury, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also

retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot.	District, subdivision, and thana.	Area.	Boundaries.
Lot No. 162, second portion.	24-Parganas, Basirhat, Hosseinabad.	Bighas. 6,097	*North.*—By a portion of the Gumti khal, which falls into the Kalindi river. *East.*—By a portion of the Kalindi river. *South.*—By a line bearing 241° drawn from a point on the west bank of the Kalindi river up to a point on the east bank of the Sogunkhali khal, which falls into the Raimongal river, and by a portion of the said Sogunkhali khal up to its junction with the Chingradhopa or Koriar khal. *West.*—By a portion of the Chingradhopa or Koriar khal and by a line bearing 26° drawn from a point on the north bank of the Chingradhopa or Koriar khal to a point on the south bank of the Gumti khal. All the above boundaries are as shown in Sundarbans Commissioner Mr. Sunder's map of season 1901-1902.

Alipur, the 5th September 1902. D. SUNDER, Commissioner in the Sundarbans, Bengal.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Kali Krishna Adock, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot.	District, subdivision, and thana.	Area.	Boundaries.
G Plot, fifth portion.	24-Parganas, Diamond Harbour, Mathurapur.	Bighas. 5,856	*North.*—By a portion of the Kankramari khal, which falls into the Subtermukhi river, and by a line bearing 90° drawn from the east bank of the Kankramari khal to a point on the west bank of the Jagadal river. *East.*—By a portion of the Jagadal river. *South.*—By a line bearing 270° drawn from a point on the west bank of the Jagadal river to a point on the east bank of the Subtermukhi river. *West.*—By a portion of the Subtermukhi river. These boundaries are given from late Sundarbans Commissioner Mr. Ross' map of season 1899-1900.

Alipur, the 5th September 1902. D. SUNDER, Commissioner in the Sundarbans, Bengal.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Gobordhon Adock, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 13th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Notice.

SEALED TENDERS for the conveyance of import, export and other Government stores, and for labour and the hire of boats for two periods—one of 1 year 3 months, from 1st January 1903 to 31st March 1904, and one for 3 years 3 months, from 1st January 1903 to 31st March 1906—will be received by the Agent for Government Consignments, Calcutta, up to noon on Friday, the 3rd October 1902.

Tenders should be superscribed "Tender for carrying contract for one year and three months" and "three years and three months," as the case may be.

Tenders must be prepared on forms to be obtained with full particulars from the undersigned on payment of one rupee for each form.

No tender will be received except on the prescribed form, and no additions or alterations must be made on the tender form.

Tenders must be supported by a Bank of Bengal or Treasury receipt for Rs. 700 as earnest-money. The earnest-money to be forfeited in the event of a tender withdrawn No tender will be received without a deposit of this earnest-money.

Tenders will be opened at noon on Friday, October 3rd, 1902, at No. 5 Strand Road, in the presence of tenderers by the undersigned, who does not bind himself to accept the lowest or any tender.

H. J. PATERSON, LIEUT., R.N.R.,
Offg. Agent for Govt. Consignments.

Calcutta, the 25th July 1902.

Notice.

SEALED TENDERS in Form No. 2 are invited for the manufacture of six lakhs of bricks at Balurghat, in Dinajpur district, for the construction of subdivisional buildings, to be delivered within 15th February 1903 there. The brick clay must be pugged in pug mills and moulded on tables and the burnt first class bricks must measure $9\frac{3}{4}'' \times 4\frac{1}{4}'' \times 2\frac{3}{4}''$. Rs. 720 to be deposited in the Dinajpur Treasury as earnest-money and the receipted challan annexed with the tender.

Tenders will be received up to the forenoon of the 15th September next, and the Superintending Engineer is not bound to accept the lowest or any tender.

ATULKRISHNA MUKERJEE,
District Engineer, Dinajpur.

District Engineer's Office, Dinajpur, the 27th August 1902.

Notice.

SEALED TENDERS are invited in District Board Form No. 3 for the construction of a Hospital in Barisal Jail. The estimated cost, inclusive of contingencies and excluding the cost of unskilled labour to be supplied by the Jail Department, is Rs 33,141. The steel joists and Tees required for the building have been indented for and will be made over to the contractor at cost price. Jail Department will also supply the following materials at the rate noted against each on the work site :—

First class bricks at Rs. 14 per 1,000.
Ditto soorki „ 45 „ 100 maunds.
Ditto khoa „ 10 „ 100 cubic feet.

The plan and estimate of the work can be seen in office during usual office hours.

The work is to be commenced by the first week of November 1902 and completed within one year.

Tenders superscribed "Jail Hospital, Barisal," will be received by the undersigned up to 4 P.M. of Wednesday, the 17th September 1902, and will be opened at the office on that day.

Tenders must be accompanied by a Treasury challan showing the remittance of Rs 701 (seven hundred only) as earnest-money.

The right of rejecting the lowest or any tender is reserved.

JOGENDRA NATH GHOSH, District Engineer.

Barisal, the 4th September 1902.

Khunnah and Company, Limited.

NOTICE is hereby given, in pursuance of section 186 of the Indian Companies Act, 1882, that a General Meeting of the Members of the abovenamed Company will be held at 63-1 Cross Street, Calcutta, on Tuesday, the 21st day of October 1902, at 3 o'clock in the afternoon, for the purpose of having an account laid before them showing the manner in which the winding up has been conducted and the property of the Company disposed of, and of hearing any explanation that may be given by the Liquidator, and also of determining by extraordinary resolution the manner in which the books, accounts and documents of the Company and of the Liquidator thereof shall be disposed of.

Dated this 10th day of September 1902.

AMRITA KUMAR GHOSH, Liquidator.

H. R. H. COXE, District Judge.

Shahabad Judge's Court, the 8th September 1902.

(627—1)

Corporation of Calcutta.

MUNICIPAL ELECTION.

NOTICE.

A VACANCY having occurred in the representation of Ward No. 19 (Entally), Mr John Laird having resigned his seat as a Commissioner, under section 62 of the Calcutta Municipal Act, III (B.C.) of 1899, it is hereby notified that the rate and tax-payers of the ward should proceed to elect a Commissioner for their ward for the unexpired portion of the term of the said Commissioner, i.e., up to 31st March 1903, or until such time as a successor shall have been legally elected.

The election will be held on Tuesday, the 30th day of September 1902, between the hours of 9 A.M. and 6 P.M. At a date not less than two or more than seven days before the date fixed for taking the poll, a post-card giving full particulars of the candidates, if more than one, will be posted to the address of each of the registered voters of the aforesaid ward. Intending candidates should send in their names to the Chairman not less than fourteen days before the day fixed for the election, duly proposed, seconded, and approved, as required by rule 2 of schedule 5 of the Calcutta Municipal Act, III (B.C.) of 1899.

R. T. GREER, Chairman.

Municipal Office, the 8th September 1902.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription, payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8.

Ditto, ditto (Overland rate) Rs. 28.

Aggregate Coasting Trade ...	14,77·97	11,65·64	14,04·41	16,12·47	13,25·75	— 2,86·72	— 17·7
Aggregate Trade	93,40·52	90,69·98	1,01,89·66	1,11,60·33	1,10,81·51	— 78·82	·7

In this statement transactions on account of Government are included; but it should be noted that such transactions are excluded from all other statements and figures embodied or annexed to this report, and are dealt with in a separate section of it.

2. It will be observed that the aggregate trade has fallen slightly, by 79 lakhs or under 1 per cent. But this decrease is caused by smaller transactions in the coasting trade, for the total foreign trade has expanded in the past year, and is the highest of any year shown. The decrease in the coasting trade is to be found in exports of Indian produce, imports having improved considerably. The falling off is really a matter for congratulation, as an evidence that the stimulus to export of food-grains provided in the two previous years by the requirements of famine-stricken tracts had ceased.

3. The statement shows fluctuations in treasure separately, and the result of the combined foreign and coasting transactions was a net importation of $3\frac{3}{4}$ crores as compared with a net importation of $7\frac{1}{4}$ crores in the previous year. The corresponding figures for foreign and coasting trade separately are $3\frac{1}{2}$ crores and 18 lakhs, respectively, net importation, as against 6 and $1\frac{1}{2}$ crores in the previous year. In merchandise in the foreign trade exports exceeded imports by 18 crores, and the aggregate trade in both increased by 2 crores, or 1·9 per cent. In imports the heaviest increases were in wood and its manufactures, jewellery, carriages, and carts, machinery and millwork, salt, silk manufactures, and paper and pasteboard: the decreases were chiefly in railway materials, umbrellas, and spices. Under exports of Indian produce, the more important increases were in cotton twist and yarn, drugs and narcotics, raw hemp, raw cotton, and oilseeds: decreases occurred under tea, indigo, hides and skins, grain and pulse, and woollen manufactures. Imports were greatest in September, October, and January: exports attained the highest values in October, November, and December, while the total trade of Calcutta reached its highest value in October, November, and January.

4. In the coasting trade in merchandise there was an increase of 1·4 per cent. in imports and a decrease of 13·5 per cent. in exports. The aggregate coasting trade in merchandise was less by 7·7 per cent.

5. The following table gives the ranges of prices of the more representative articles, taking the year 1900-1901 as the basis of comparison :—

	1897-98.	1898-99.	1899-1900.	1900-1901.	1901-1902.

Total Index price for Exports ...	1,383·9	1,337·7	1,405·1	1,500	1,434·8
Aggregate Index price ...	2,293·5	2,247 9	2,314·0	2,500	2,355·6
Average rate of exchange ..	1s.3 1/16d.	1s.3 1/16d.	1s.4 1/16d.	1s.3 1/16d.	1s. 4d.

The table shows that both volume and value of the total foreign trade of Calcutta have risen in the past year, but the value, owing to a lower range of prices, not in proportion to the volume. Prices generally fell by 5·7 per cent.; in imports by 7·9 per cent., and in exports by 4·3 per cent., but the level in both cases, though lower than in the previous year, is higher than in 1899-1900. All items of imports, with the exception of grey cotton piece-goods, fell in average price, and 10 out of 15 items of export, the exceptions being shellac, rice, linseed, indigo, and gunny cloths.

FOREIGN TRADE.

6. The following statement shows the value of the import and export trade of Calcutta for the past five years grouped according to the classes under which they are shown in the Government accounts:—

	Imports.			Exports.		
	1899-1900.	1900-1901.	1901-1902.	1899-1900.	1900-1901.	1901-1902.
	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.	Rs. Lakhs.
I.—Animals (living)	11·25	20·83	23·43	3·57	3·30	2·90
II.—Articles of food and drink ...	2,68·60	3,45·20	3,47·00	13,94·39	13,40·35	10,94·76
III.—Metals and manufactures of metals—						
(A) Hardware and cutlery ...	62·30	77·39	66·03	1·25	1·96	1·87
(B) Metals	2,32·10	3,10·19	3,16·19	6·16	11·82	2·18
(C) Machinery and mill-work	96·98	1,01·78	1,50·05	·71	1·06	·80
(D) Railway plant and rolling-stock	95·71	55·07	22·93	·01	·07	·07
Total of No. III ...	4,87·09	5,53·13	5,55·20	8·13	14·93	4·92
IV.—Chemicals, drugs, medicines, and narcotics, and dyeing and tanning materials ..	64·00	75·75	75·71	7,29·05	8,12·21	7,98·85
V.—Oils	1,90·91	1,78·21	2,09·92	24·70	30·01	33·15
VI.—Raw materials and unmanufactured articles	29·28	36·44	38·20	19,53·60	22,48·52	23,21·54
VII.—Articles manufactured and partly manufactured—						
(A) Yarns and textile fabrics ...	16,67·85	16,07·94	16,00·52	6,99·57	8,19·52	9,64·28
(B) Apparel (excluding hosiery)	45·90	44·61	40·23	8·62	8·29	11·97
(C) Other articles	2,08·25	2,27·03	2,32·72	1,36·31	1,35·07	1,29·66
Total of No. VII ...	19,22·00	19,60·58	19,60·47	8,44·50	9,63·48	11,05·91
Total of merchandise ...	29,66·13	31,79·44	32,68·03	49,57·84	54,22·40	53,62·03
Treasure	5,60·56	5,74·93	5,11·70	30·67	62·72	54·65
Grand Total ...	35,26·69	37,54·37	37,80·63	49,97·51	54,85·12	54,16·68

Imports show an advance in all groups except those for chemicals, dyeing materials, &c. (IV), and for yarns and textile fabrics (VIIA). The fall in the former case is attributed chiefly to diminished receipts of chemicals for paper-making, and in the latter case to contraction of the trade in woollen shawls. Group I, animals, consists almost entirely of horses from Australia. The advance in Group II is accounted for by salt; jute and electrical machinery are chiefly responsible for the rise in Group III. The increase in Group V represents more kerosine oil from Russia, and in Group VI it is entirely in precious stones.

7. In exports there was a decline in the first four groups, and an advance in the remainder. The falling off in Group I was very small, and in Group II it was caused by a contraction in shipments of rice. Copper accounts for the decline in Group III, and indigo in Group IV. Increased shipments of castor oil explain the greater trade in Group V and raw jute and oilseeds account for that in Group VI. The increase in cotton twist and yarn is entirely responsible for the advance in Group VII.

With reference to the distribution of the trade with different countries, it is important to note that the figures throughout refer only to the port of destination or exportation as shown in shipping bills and bills-of-entry, and should not be taken as indicating the country of final destination or of production, as the case may be.

IMPORTS.

(FOREIGN TRADE.)

8. Imports represented 37·8 per cent. of the aggregate value of the foreign trade in merchandise during the year. Cotton goods were, as usual, the most important item, but the proportion they represent of the total imports fell from 50·02 per cent. of the

previous year to 48·84 per cent. Next to cotton goods come metals, 9·67 per cent. ; oils 6·42 per cent. ; sugar 5·04 per cent. ; machinery and millwork 4·59 per cent. ; woollen goods 2·18 per cent. ; hardware and cutlery 2·01 per cent. ; salt 1·98 per cent. ; jewellery 1·80 per cent. ; liquors 1·45 per cent. ; apparel 1·41 per cent. ; drugs and narcotics 1·37 per cent. ; provisions ·99 per cent. ; spices ·98 per cent. ; and railway materials ·71 per cent.

* * * Jewellery and precious stones have shown a remarkable expansion in the past year, their total value amounting to 59 lakhs. Of this amount, 53 lakhs represented precious stones and pearls, but chiefly the latter, which have risen considerably in price. The increased trade was in the latter half of the year, and may be attributed to the demand for the approaching Coronation ceremonies at Delhi. The value of carriages and carts, &c., rose by 82·7 per cent., or from 6¾ to 12⅓ lakhs, owing to large receipts of cars for the local Tramway Company, also of rolling-stock for various light railways. In spite of local competition, there was a marked rise of 33·5 per cent. in the value of paper imported, which amounted to 12⅓ lakhs; the increase was largest in paper for printing. Imports of wood and manufactures of wood rose to a value of nearly 10 lakhs, increasing by 277·2 per cent. A considerable quantity of teakwood from Siam and of "other" descriptions of wood from the United States and Canada was imported in the past year.

* * * * * * * *

EXPORTS.

FOREIGN TRADE.

27. Exports amount to 62·2 per cent. of the aggregate value of the foreign trade in merchandise during the year.

Raw jute, the chief item, represents 20·40 per cent. of the total exports as against 19·18 per cent. in the previous year. Jute manufactures follow, with a percentage of 16·25 per cent., showing a considerable rise from the 14·37 per cent. of the previous year. Next in order of importance comes tea 13·31 per cent.; opium 11·68 per cent.; oilseeds 9·70 per cent.; hides and skins 8·37 per cent.; grain and pulse 6·82 per cent.; indigo 2·32 per cent.; lac 1·79 per cent.; raw cotton 1·52 per cent.; cotton twist and yarn 1·34 per cent.; raw silk 1·11 per cent.; and coal and coke 1·06 per cent.

* * * * * * * *

47. DISTRIBUTION OF FOREIGN TRADE OF CALCUTTA BY COUNTRIES.

The following table shows how the trade of Calcutta with foreign countries was distributed in the past three years:—

	Imports.			Exports.			Percentage which the total of each country bears to the whole.	
	1899-1900.	1900-1901.	1901-1902.	1899-1900.	1900-1901.	1901-1902.	In 1900-1901.	In 1901-1902.

* * * * * * * *

The value of the trade of Calcutta passing through the Suez Canal was 69½ crores in 1901-1902, against 67½ crores in 1900-1901, but the proportion of the total trade of the port using this route increased from 73 to 75·6 per cent.

United Kingdom.—The proportion of the trade of Calcutta with the United Kingdom shows a small decrease. Imports into Calcutta increased by 66 lakhs, the increase being most marked in machinery and millwork, salt, carriages, and ships or parts of ships. In exports, on the other hand, there was a fall of 120 lakhs chiefly in tea and jute manufactures.

Continent of Europe.—The trade with the Continent of Europe, which has been advancing for some years, received a slight check, which did not, however, extend to France and Russia. Imports into Calcutta improved by 86 lakhs, the improvement being chiefly noticeable in mineral oil, sugar, cotton goods and metals. Exports, on the other hand, declined by more than a crore, and are mainly accounted for by a restricted trade in hides and skins, indigo and lac.

United States of America.—There was an advance of only 16 lakhs in the trade with this country, but the fluctuations in some of the articles were very pronounced; jute manufactures increased by 87 lakhs, and raw jute and lac improved in value by 12 and 7 lakhs respectively. Decreases occurred principally in indigo, hides and skins, kerosine oil, caoutchouc and oilseeds.

Rest of America.—Here again there was an advance of 31 lakhs, attributed mainly to jute manufactures, and in a lesser degree to grain and pulse.

Mauritius, Cape Colony and Natal.—The trade with these countries shows a decline of 23 lakhs. Shipments of grain and pulse fell off in value by 18 lakhs, and receipts of sugar declined by 8 lakhs.

Egypt.—Trade with this country is again reviewed separately. It is chiefly a transhipment trade so far as exports from Calcutta are concerned, which are frequently shipped to "Port Said for orders," the real destination not being stated. Imports improved by 5½ lakhs, which is practically covered by a rise of 4½ lakhs in sugar and a lakh in salt. Exports receded by 32 lakhs, which is fully accounted for by a fall of a similar amount in seeds, chiefly linseed.

Rest of Africa.—The trade with the rest of Africa was stationary.

Eastern Asia.—The total trade advanced by 27 lakhs. Imports declined by 71 lakhs, but exports rose by nearly a crore. In the case of the former, sugar and spices contributed to the decline, and in that of the latter, cotton twist, jute manufactures, opium and raw cotton to China accounted for the expansion.

Western Asia.—Here again there was a rise in value. Imports rose by 7 lakhs and exports by 6 lakhs. The former is entirely accounted for by increased importations of salt from Arabia, and the latter by larger shipments of rice and indigo to Turkey in Asia: against this there were smaller shipments of rice to Arabia.

Ceylon.—The trade with this island declined by 144 lakhs, 46 lakhs of which represent imports and 98 lakhs exports. Under imports, treasure, most of which was transhipped from Australia, contracted by nearly 47 lakhs. The contraction was confined to gold, silver increasing by 4 lakhs. Under exports grain and pulse show a fall of 99 lakhs.

Australasia.—The treasure coming from Australia has been mentioned under Ceylon above. In general, Australasian trade with Calcutta receded by 9 lakhs: imports of wheat fell off by nearly 8½ lakhs, and shipments of tea by nearly 6 lakhs. On the other hand, horses advanced by almost 3 lakhs, and shipments of manure and jute manufactures substantially increased.

* * * * * * * *

CUSTOMS REVENUE.

(FOREIGN TRADE.)

51. The revenue realised in the past year from Customs duties amounted to 414 lakhs representing an increase of 2 per cent., and giving the highest total collections recorded If the proceeds on salt imported into Calcutta, but paid into district treasuries for clearances from inland bonded warehouses amounting to over 30 lakhs, be added, the total revenue becomes 444½ lakhs, equivalent to an increase of 3 per cent. Deducting refunds and drawbacks (which amounted to 4·77 lakhs, as compared with 4·70 lakhs in the previous year), the net revenue was 440 lakhs, giving an improvement of 8 per cent.

The fluctuations of the more important articles of trade, upon which the Customs revenue depends, have been discussed in the previous paragraphs of this report, and there is little to add to them. The revenue under Schedule III of the tariff was 254 lakhs and represents 61·4 per cent. of the total trade. Of this amount, 233 lakhs accrued from salt and 21 lakhs from liquors. Under Schedule IV, oils account for 6·2 per cent. of revenue, equivalent to 25½ lakhs, whilst metals contributed 3·7 per cent. Cotton goods represent a percentage of 12·4 per cent. ; while articles of food and drink have given 3 per cent. of revenue, of which sugar provided 2·2 per cent. The receipts from countervailing duties on sugar show an increase of 5 lakhs in the past year, producing as much as 12 lakhs, or 2·9 per cent. of the total revenue, as compared with about 7 lakhs in the previous year and 2 lakhs in 1899-1900. Fourteen and-a-half lakhs were derived from exports of rice and paddy, equivalent to 3·5 per cent. of the whole, as against 4·8 per cent. in the previous year. No other articles have contributed more than 1 per cent. to the Customs revenue of Calcutta.

The excise duty on local cotton manufactures expanded in the past year by 16·3 per cent. The collections were Rs. 5,863, as against Rs. 5,038 in the previous year.

A remark may be added here on the amount of revenue repaid to importers either by refund or drawback. In the past year the total sum so repaid was Rs. 4,77,355, as compared with Rs. 4,70,453 in the previous year. Of this amount, Rs. 2,12,808 represents refund of duty on salt. As much as Rs. 1,01,632 is due to refund of the difference between the specific and *ad valorem* duty payable on arms : this represents 50·4 per cent. of the total revenue collected on arms and ammunition which, in the past year, amounted to Rs. 2,01,457. A further sum of Rs. 43,837 represents refund of countervailing duty on sugar, caused by the adjustment from time to time of these duties. These three heads—salt, arms, and countervailing duties on sugar—account for 75·1 per cent. of the total amount repaid. Drawback amounted to Rs. 17,440.

* * * * * * * *

No. 901B., dated Calcutta, the 28th July 1902.

From—H. WHEELER, Esq., Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

Member in charge :
THE HON'BLE MR. BOURDILLON, C.S.I.

I AM directed to submit, for the information of Government, the report compiled by the Collector of Customs, Calcutta, on the maritime trade of Bengal for the year 1901-1902.

* * * * * * *

3. The Collector of Customs, when furnishing the statistics under the different heads, has briefly indicated the causes to which the fluctuations noticeable may be attributed, and the Board do not propose to rediscuss them at length. Taking the foreign trade of the port of Calcutta, the value of which, during the year under review, was the highest on record, the Board note as of interest on the import side (*a*) the large increase in the value of precious stones imported, which is attributed to the preparations for the Coronation ceremonies; (*b*) the greater importations of carriages and carts, due to the demand for rolling-stock on the Calcutta Tramways and on light railways; (*c*) the unprecedented number of horses for army remounts brought up from Australia, surpassing even that of the preceding year; and (*d*) an increase of 17·8 per cent. in the value of arms and ammunition imported. The figures of the liquor trade seem to indicate an increase in the popularity of malt liquors at the expense of spirits and wines, and a rise of 14·3 per cent. in the value of matches imported would seem to be an indication of prosperity, the benefit of which, however, has mainly gone to Japan. The importations of unwrought iron and steel both show a large advance, the former being favoured by lower prices, but the latter being in spite of a rising market. The displacement of English by Belgian steel is very marked.

4. The large increase in the value of machinery imported, noticeably for jute, cotton, and sugar mills, would appear a favourable sign, and the increasing popularity of electric lights and fans is strikingly exemplified by the figures. The depression in the tea industry showed itself in a fall of six lakhs in the value of the machinery imported for gardens. The importations of mineral oil both

from Russia and Burma increased considerably under the influence of cheap prices combined with some degree of speculation, and the extraordinarily heavy cargoes of salt, induced by cheap freights, have necessitated the preparation of special proposals for the extension of the bonding accommodation available in Calcutta.

5. The statistics showing the importation of sugar, with an increase in quantity of 11·7 per cent. over the figures of the previous year, including an increase for beet sugar in particular, of no less than 66·4 per cent., indicate that the countervailing duties imposed have not so far seriously interfered with the trade, and the results of the most recent legislation on the point will be watched with interest. The operations of the new Sugar-refining Company in Bihar have scarcely had an effect on the market so far.

Importations of tobacco, noticeably in the form of cigarettes, for which there seems to be a growing taste among the natives, were again very heavy.

6. On the export side, also, the trade of Calcutta exhibits various points of interest. The coal trade, under the influence of the competition of Welsh coal, sustained a check in its hitherto rapid progress, though still recording an advance, and raw cotton also, thanks to a better crop outturn, was shipped in considerably larger quantities. The exportation of food-grains showed a smart decline, though, in so far as the falling off in the quantities shipped to Indian ports betokened a recovery in the prosperity of districts previously affected by scarcity, the figures afford ground for congratulation. The effect of famine conditions is also seen in the trade in hides and horns, which having been unduly stimulated by the previous great mortality amongst cattle is now resuming more normal conditions, though the supply of hides is now somewhat below the demand. The large trade in goat skins to the United States is deserving of mention. The figures of indigo exported bear evidence to the keen competition of the synthetic dye and the precarious position of the industry, but the value of the important trade in jute was the highest yet recorded, and the year must have been a profitable one for all concerned. For tea, as for indigo, the year was a bad one, though at its close there were some signs of improvement.

7. Looking to the trade of the minor ports in Bengal, the most noticeable feature is the rapid advance of Chittagong. With the advantages of direct steamer communication between that port and England, large shipments of salt, railway materials and rice on the import side, and heavy exports of jute and tea contributed mainly to this result. As in previous years, the trade of the Orissa ports is gradually dwindling.

8. It is noticeable that the revenue derived during the year from Customs duties (414 lakhs) was the highest on record.

RESOLUTION ON THE REPORT OF THE AGRICULTURAL BRANCH OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE FOR THE YEAR 1901-1902.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 5th September 1902.

RESOLUTION—No. 1765T R.

READ—

The Report of the Agricultural Branch of the Department of Land Records and Agriculture for the year 1901-1902.

Letter No. 678A, dated 30th July 1902, from the Board of Revenue, submitting the report with their remarks.

Read again—

Resolution on the same report for 1900-1901.

IN accordance with suggestions approved by the Government of India, the present report on the Agricultural Branch of the Department of Land Records and Agriculture does not notice work done in connection with maintenance of land records: this topic will in future be dealt with in the Director's Settlement Report.

The Director Mr. P. C. Lyon, and the Officiating Director, Mr. C. G. H. Allen, who succeeded Mr. Lyon on the 4th November 1901, spent altogether 160 days on tour, in the year under report, in connection with settlements, land records and agricultural work, and made useful inspections.

2. *Scientific Enquiries.*—Of the agricultural enquiries made during the year the most important are those as to the effect of the imposition of the countervailing duties on the prospects of the sugar-refining industry, and as to the alleged deterioration of jute. Under the last named head, experiments are being conducted with selected jute seed at the Burdwan and Chittagong farms, on lines suggested by the Reporter on Economic Products. On both subjects special reports will be awaited.

3. *Experimental Farms and Experiments in Government Estates and Wards' Estates.*—Experiments with manures were continued at the Burdwan and Dumraon Farms, and it is claimed that the experiments conducted at Burdwan show that a high rate of profit is to be got by applying carefully selected manures to rice, sugarcane and potatoes and especially by green manuring. The Burdwan Farm and the Sripur Farm in the Hathwa Estate were well managed, but the Dumraon Farm not so well during the year. The Inspector-General of Agriculture has advised with regard to the future management of the last named Farm. The Chittagong farm has continued to attract much local interest. The question of establishment of an Experimental Farm at Pusa, to which reference was made in last year's Resolution, is still unsettled.

The Director again urges the necessity for a closer supervision of the money expended on agricultural experiments in Government Estates and Wards' estates and proposes to increase the number of travelling overseers. Mr. Lyon stated in his Report for the year 1900-1901, that a travelling overseer had been appointed for the district of Backergunge to visit the various estates managed by the Collector and to advise generally in matters connected with agricultural improvement. On this it was ordered that the results obtained by this appointment in Backergunge should be reported. The Director has not, however, mentioned the result of the experiment in the Backergunge district; and it will be best that he should deal with the matter in a separate report.

It is understood that the Board will favour Government with their views on the expediency or otherwise of creating central agencies or farms in the case of Wards' estates.

4. *The Sibpur Agricultural class.*—The success of the Sibpur Agricultural students in obtaining employment both in Government service and under private landowners, which is noticed in paragraph 48 of the Report is very satisfactory.

5. *Sericulture.*—The efforts of the Bengal Silk Committee to assist production of healthy silk-worms were attended, except in the district of Birbhum, with successful results. Enquiry is being made into the causes of the failure of the operations in that district. To enable the Committee to further expand the scope of their operations and to meet additional expenditure in connection with the erection of new model nurseries in the centres of important silk districts, the annual grant of Rs. 3,000, hitherto made by Government, was raised to Rs. 6,000 for the year 1902-1903, with the prospect of its being continued at this increased rate for two years more.

The course of sericultural instruction imparted at the Rampur Boalia Industrial School was remodelled on a more popular basis, the main object of the school being the training of cocoon rearers' sons. In their case the course of training was reduced to six months, and no educational qualifications are required. The one-year rearers' class has been retained for educated students to be trained for the posts of sub-overseers and inspectors in the villages. To encourage the training of rearers' sons in the elementary course, the majority of the District Board scholarships are to be assigned to them.

6. The many heads of work indicated in the Director's Report sufficiently establish his claim for more expert assistance, and the Lieutenant-Governor expresses the hope that this may soon be sanctioned.

The Lieutenant-Governor thanks Mr. Lyon and Mr. Allen for their zeal in discharge of their duties, and also notices with pleasure the good work done by Mr. Nagendranath Banerji in the Sripur Farm.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE COMMISSIONERS' REPORTS ON THE WORKING OF THE PURI LODGING-HOUSE ACT DURING THE YEAR 1901-1902.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 5th September 1902.

RESOLUTION—No. 1671T.—M.

READ—

The reports from the Commissioners of Divisions on the working of the Puri Lodging-house Act, IV (B.C.) of 1871, as amended by Acts II (B.C.) of 1879 and I (B.C.) of 1884, during the year 1901-1902, in the various places to which it has been extended.

Read also—

The Resolution reviewing the Commissioners' reports on the working of the Act during the year 1900-1901.

During the year under review the Puri Lodging-house Act (Bengal Act IV of 1871, as amended by Bengal Acts II of 1879 and I of 1884) was extended to the village of Jessidih Bazar in the Deoghar subdivision of the district of the Sonthal Parganas.

2. The total number of lodging-houses was 1,912, providing accommodation for 68,500 lodgers, against 1,997 houses, accommodating 71,642 persons in the preceding year. In Gaya and Nadia (Nabadwipa) there was a rise both in the number of lodgers and lodging-houses, while elsewhere there was a steady decline. The decrease at Sitakund is ascribable partly to scarcity in the neighbouring districts, which chiefly send pilgrims to this shrine, and partly to the lateness of the season of Sivaratri *mêla*. The falling off in the Burdwan and Orissa Divisions was principally due to the opening of the Bengal-Nagpur Railway. Since the opening of the line, the pilgrim traffic is gradually concentrating on one main centre, and in a short time few lodging-houses will be left outside the town of Puri.

3. The health of the places where the Act was in force is reported to have been generally good. The number of deaths among pilgrims fell from 730 in the preceding year to 510, being 27 per cent. less than the proportionate decrease in the number of pilgrims. Plague was wholly absent from Gaya, but appeared in Deoghar without, however, causing any serious mortality.

4. There was no complaint in the past year in regard to the water-supply. The proposal of the Magistrate of Chittagong to bring down the water of the Mandakini spring by means of pipes to the Sitakund bazar, referred to in the last year's Resolution, was carried out with the help of a liberal donation of Rs. 5,000 given for the purpose by Raja Srinath Roy of Bhagyakul, in the Dacca district, and his brothers. At Garhbeta, in the district of Midnapore, the sinking of a well, which was sanctioned in 1899-1900, was completed last year, while two new wells were sunk at Puri. The special attention of the Commissioners of the Puri Municipality will be invited to the remarks of the District Magistrate that none of the money given by the Lodging-house Committee in previous years for the introduction of certain sanitary schemes has yet been expended on the assigned objects, and it is hoped that the Commissioners will not fail to realise their responsibilities and take early steps in the matter.

5. The total income of the year under review was Rs. 63,106—a slight increase on that of 1900-1901. The total expenditure was Rs. 57,415, against Rs. 43,186 in 1900-1901. The services of the Health Officer attached to the *chatties* in the Balasore district were dispensed with from 31st March 1902, his work being made over to the officers in charge of the several local dispensaries.

6. The Act has worked satisfactorily during the year in all places in which it was in force.

ORDER.—Ordered that a copy of the Resolution be submitted to the Government of India in the Home Department, and that copies be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur, and Orissa Divisions for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner, Bengal, and to the Sanitary Board, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

E. W. COLLIN,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE PORT OFFICER, CALCUTTA, FOR THE YEAR 1901-1902.

No. 1663Marine.

Government of Bengal,

MARINE DEPARTMENT.

Dated Calcutta, the 4th September 1902.

RESOLUTION.

READ—

Letter No. 2529, of 9th July 1902, from the Port Officer, Calcutta, submitting the Annual Report of his Department for the year 1901-1902.

THE year opened with 46 Pilots on the list; but as those in the Leadsman grade became qualified they were promoted, and at the end of the year the number stood at 49, or 3 short of the sanctioned number of 52. There were no casualties in the service during the year.

The number of vessels arriving at and leaving the port was 1,347 and 1,356, or a small decrease of 112 on the number of the previous year. The previous year's figures were exceptional, owing to the large number of transports for South Africa and China. The numbers given above represent a gross tonnage of 4,575,267 inwards and 4,618,217 outwards. The average tonnage of steamers and sailing ships, inwards and outwards, was 3,401 against 3,247 during the previous year.

The pilotage receipts during the year amounted to Rs. 11,30,390 against Rs. 11,60,603 during the previous year, or a decrease of a little over 2½ per cent. This is due to the smaller number of vessels that visited the port. Of the total number of vessels which visited the port, only 29 were sailing vessels.

Nine vessels were neaped for want of sufficient depth of water over the Royapore and Moyapore bars against five during the previous year. The average detention was 2·7 days. The number of vessels detained at the Sandheads for want of Pilots was 24, compared with 41 in the previous year. The shortest detention was 1 hour 15 minutes, the longest 40 hours 15 minutes, the average being 13 hours 14 minutes. These detentions were due to a number of vessels arriving at the same time.

There were only two collisions during the year, while the number of groundings was 24. In both cases of collisions the Pilots were to blame, while in the cases of groundings in three instances only were the Pilots to blame.

Thirty-five preliminary enquiries into casualties to vessels were held by the Port Officer, of which two were referred to Special Marine Courts. Two other Special Marine Courts were held to enquire into casualties to vessels while in charge of Assistant Harbour Masters. In five cases the Pilots were held to blame, and they were suitably dealt with.

One hundred and sixty-two candidates appeared for Colonial and Home Trade certificates of competency, of whom 85 passed. One hundred and fifty-four candidates also appeared for certificates of competency as masters, serangs, engineers and engine-drivers under Act VI of 1884. Of these, 52 passed.

Mr. G. Robertson, 1st Engineer and Shipwright-Surveyor, returned from furlough on 17th October 1901, relieving Mr. E. G. Venn, who reverted to the Royal Indian Marine. Mr. F. Olford, the Acting 2nd Engineer and Shipwright-Surveyor, was confirmed in that appointment. The gross receipts from surveys amounted to Rs. 40,877, while the expenditure, including the travelling allowances of surveyors to out-stations, was Rs. 25,912.

The work of the department was conducted by Commander E. J. Beaumont throughout the year, assisted by Lieutenant W. B. Huddleston as Assistant Port Officer. The latter officer went on 90 days' privilege leave from the 20th February 1902, when his place was taken by Lieutenant C. B. Henley, Royal Indian Marine.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 8th September 1902.

Burdwan.—Rainfall at Sadar 0·79, Kalna 0 52, Katwa 1·37, Raniganj 6·13. Weather threatening. Transplantation still continues. Harvesting of *aus* going on. Fodder and water sufficient. Condition of cattle good. Common rice sells at 11 seers per rupee.

Birbhum.—Rainfall at Sadar 1·49, Rampur Hât 1·83. Transplantation is over. Paddy thriving. Weather seasonable. Common rice sells at 12 seers per rupee.

Bankura.—Rainfall at Sadar 2·80. Condition of standing paddy and sugarcane crops good. Fodder and water sufficient. Common rice sells at 12 seers per rupee.

Midnapore.—Rainfall at Sadar 2·52, Contai 2·22, Tamluk 1·74, Ghatal 2·68. Weather hot and cloudy. Harvesting of *aus* going on. Prospect of *aman* good. Fodder and water sufficient. Cattle-disease reported from Binpur thana. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Contai	11	8	
Ghatal	11	8	
Tamluk	11	0	

Hooghly.—Rainfall at Sadar 2·50, Serampore 3·90, Arambagh 3 52. Weeding of *aman*, harvesting of *aus* and steeping of jute going on. Prospect of standing crops good. Weather seasonable. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee
Serampore	10	4	
Arambagh	11	9	

Howrah.—Rainfall at Sadar 2·79, Ulubaria 2·12. Fall general. Cutting and thrashing of *aus* and reaping and steeping of jute still continue. Transplantation of *aman* paddy on high lands continues. Agricultural prospects hopeful. No cattle-disease reported. Fodder and water sufficient. Common rice sells at 11 seers per rupee on an average everywhere within the district.

24-Parganas.—Rainfall at Sadar 2·60, Barasat 4·76, Basirhat 1·03, Diamond Harbour 3·22. Weather hot and frequent showers. Good September weather. State of standing crops good. Prospect good. *Aus* and jute still being harvested, and the latter is being steeped. Transplantation of *aman* nearly finished. Common rice sells at 11 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 1·32, Ranaghat 1·57, Chuadanga 0·53, Meherpur 1·96, Kushtia 1·17. Harvesting of jute continues. *Aman* and sugarcane doing well. Lands being prepared for *rabi* crops. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Ranaghat	11	0	
Chuadanga	11	8	
Meherpur	13	5	
Kushtia	11	0	

Murshidabad.—Rainfall at Sadar 1·97, Kandi 1·74, Jangipur 1·88, Lalbagh 4 55. Weather seasonable. Harvesting of *bhadoi* not yet completed at Lalbagh and Jangipur Subdivisions. Prospects of *aman*, sugarcane, mulberry and jute good. Cow-pox reported from Burdwan thana. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	8	per rupee.
Kandi	12	8	
Jangipur	12	0	
Lalbagh	11	0	

Jessore.—Rainfall at Sadar 1·52, Jhenida 2·00, Magura 0·94, Narail 0·77, Bangaon 1·27. Weather seasonable with occasional rain. Prospects of crops fair. Harvesting of *aus* paddy almost completed. More rain wanted. Fodder and water sufficient. Common rice sells at 12 seers per rupee.

Khulna.—Rainfall at Sadar 1·69, Bagerhat 2·04, Satkhira 2·70. Weather seasonable. Harvesting of *aus* and transplantation of *aman* still continues. Prospects favourable. Fodder and water sufficient. Cattle-disease reported from Paikgachha and Asasuni. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	4	per rupee
Bagerhat	12	0	
Satkhira	10	8	

Rajshahi.—Rainfall at Sadar 1·49, Nator 2·65, Naugaon 0·59. Weather seasonable. Harvesting of jute and *bhadoi* nearing completion. Transplantation of *aman* continues. Condition of cattle good. Common rice selling at 12 seers per rupee.

Dinajpur.—Rainfall at Sadar 1·06. Fall in the district scattered. Maximum fall 3·15. More rain wanted. Weather seasonable. Standing crops good. Transplanting of winter rice and steeping of jute continue. Cattle-disease reported at Kaliaganj. Fodder and water plentiful. Rice selling at 12 seers per rupee.

Jalpaiguri.—Rainfall at Sadar 4·91, Alipore Duars 1·82. Fall moderate. Weather cloudy. Transplantation of *haimanti* paddy almost finished. Harvesting of *bhadoi* paddy continues. Cutting of jute going on. Common rice sells at 11 seers a rupee. Fodder and water sufficient. No cattle-disease reported.

Darjeeling.—Rainfall at Sadar 6 55, Kurseong 4·78, Siliguri 3 01. Weather seasonable. *Hill*—*Bhadoi* and *haimanti dhan*, maize, *bara* and *chhota marua* doing well. *Terai*—Transplanting of *haimanti* paddy nearly finished. Reaping of jute and *bhadoi* paddy going on. Prospects good. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	8	0	per rupee.
Terai	10	0	

Maize sells at Darjeeling at 20 seers and at Kalimpong at 40 seers per rupee.

Rangpur.—Rainfall at Sadar 2·76, Nilphamari 3·57, Kurigram 0·7, Gaibanda 0·18. Weather cloudy and rainy. Harvesting of *bhadoi* nearly finished. Transplantation of *aman*, and cutting and steeping of jute still going on. Water and fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	8	per rupee.
Gaibanda	10	0	
Kurigram	12	0	
Nilphamari	10	8	

Bogra.—Rainfall at Sadar ·95. Fall general. Harvesting of *aus* and transplantation of *aman* nearly finished. Steeping of jute going on. Fodder and water sufficient. Prospects fair. Common rice sells at 12 seers per rupee.

Pabna.—Rainfall at Sadar 2·32. Fall general. Weather cloudy and rainy. Prospects of *aman*, sugarcane and tamarind fair. Fodder and water sufficient. Cattle-disease in Sadar. Common rice sells at 10 seers per rupee.

Dacca.—Rainfall at Sadar 4·29, Manikganj 3·80, Munshiganj 1·82, Narayanganj 1·94. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells at 11 seers per rupee.

Mymensingh.—Rainfall at Sadar 1·49, Jamalpur ·51, Kishorganj 1·40, Netrokona 2·60, Tangail 1·99. Weather hot and rainy. Harvesting of *aus* nearly over. Steeping of jute and transplantation of *aman* going on. *Aman* doing well. Fodder sufficient except at Netrokona. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	4	per rupee.
Kishorganj	10	12	
Jamalpur	11	6	
Netrokona	12	0	
Tangail	10	4	

Faridpur.—Rainfall at Sadar 3·23, Goalundo 1·92, Madaripur 1·93. Weather sultry and lately rainy. Prospects of crops good. Fodder and water sufficient. Common rice sells at 11 seers a rupee. No cattle-disease.

Backergunge.—Rainfall at Sadar 4·53. Fall general. Weather cloudy with occasional high wind. Prospects fair. Harvesting of *aus* and transplantation of *aman* continue. Cattle-disease at Matbari thana. Common rice sells at 13 seers (*aus*) and 11 seers (*aman*) per rupee. Fodder sufficient.

Tippera.—Rainfall at Sadar 2·75, Brahmanbaria 2·25, Chandpur 2·54. Weather seasonable Prospects of standing crops good. Harvesting of *aus* completed. Reaping of jute, transplantation of *aman* paddy still going on. Fodder and water sufficient. No cattle-disease. Common rice sells at 14 seers per rupee at Sadar.

Noakhali.—Rainfall at Sadar 5·11, Feni 1·85. Fall general. Weather rainy. Harvesting of *aus* nearly finished. Transplantation of *aman* continues. Prospects good. Outturn of cocoanut estimated at 75 per cent. Cattle-disease at Sudharam. Water sufficient. Fodder not so. Common rice sells at Sadar at 11 seers and at Feni at 13 seers per rupee.

Chittagong.—Rainfall at Sadar 3·86, Cox's Bazar 1·85. *Aus dhan* is being reaped and *aman dhan* is being transplanted. Water and fodder sufficient. Rice selling at 12 seers 11 chitaks per rupee.

Chittagong Hill Tracts.—Rainfall at Sadar 2·34. Fall general. Weather showery. Harvesting of *joom* paddy continues. Winter rice progressing satisfactorily. No cattle-disease. Rice selling at 12 seers per rupee.

Patna.—Rainfall at Sadar 4·88, Bihar 1·42, Dinapore 4·44, Hilsa 5·30, Bikram 1·71. Weather cloudy. Rain urgently needed for paddy. Paddy being used as fodder for cattle for want of rain. *Bhadoi* being reaped. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Patna	11	8	per rupee.
Bihar	10	0	
Dinapore	12	0	

Gaya.—Rainfall at Sadar 3·57, Jahanabad 3·52, Aurangabad 3·04, Nawadah 2·15. Weather hot and rainy. Transplantation of paddy still continues. Want of sufficient rain is reported to be the cause of delayed transplanting. *Madua* harvested in places in Nawadah subdivision. No cattle-disease. Fodder and water ample. Average price of common rice is 11¼ seers per rupee.

Shahabad.—Rainfall at Sadar 2·10, Buxar 2·02, Bhabhua 4·20, Sasaram 1·94, Dehri 4·20. Weather hot and cloudy. The rain of the week has benefited the paddy crop which was suffering for want of rain. Harvesting of *bhadoi* continues.. No cattle-disease. Rice sells at Sadar at 11 seers a rupee.

Saran.—Rainfall at Sadar 1·69, Siwan 0·49, Gopalganj 1·00. Weather seasonable. Standing crops doing well, but more rain wanted for paddy. Fodder and water sufficient. Cattle-disease reported from three villages. Common rice sells at 12½ seers per rupee.

Champaran.—Rainfall at Sadar 1·25, Bettiah ·55. Weather hot and cloudy. Threshing of *bhadoi* paddy and harvesting of *makai* and *marua* going on. Transplantation of winter rice nearly finished. Prospects good. Cattle-disease reported. Fodder and water sufficient. Common rice sells at 14½ seers and maize at 22 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 2·72, Hajipur 6·68, Sitamarhi ·65. Weather cloudy generally. Transplantation of paddy nearly completed. Harvesting of *bhadoi* crops going on. Prospects fair. Fodder and water sufficient. Prices are—Common rice 11½, maize 20½ seers a rupee.

Darbhanga.—Rainfall at Sadar 2·13, Samastipur 12·16, Madhubani 1·11. Transplantation of paddy is going on. Harvesting of *bhadoi* in progress. Sugarcane doing well. Fodder and water sufficient. Cattle-disease is reported from Warisnagar, Dalsingsarai, and Samastipur thanas. Common rice selling as follows : —

	Srs.	ch.	
Sadar	12	0	per rupee.
Samastipur	12	8	
Madhubani	11	11

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of August 1902.

	Inches.	Date.	Hour.
The mean pressure of the month	29·615		
The average pressure of August from 24 years' registers ...	29·598		
The highest pressure in the month	29·751	21st	10
The lowest pressure in the month	29·391	24th	16
The range of pressure	0·360		
	Hours.		
The total number of hours of bright sunshine during the month	140 9		
The maximum possible number of hours of sunshine ...	398·4		
	⊖		
The mean temperature of the month	84·0		
The average temperature of August from 24 years' registers ...	83·1		
The highest temperature in the month	94·2	13th	
The lowest temperature in the month	74·7	11th	
The range of temperature during the month	19·5		
The mean daily range of temperature	11·2		
The greatest range of temperature in one day	15·4	13th	
	Per cent.		
The mean humidity of the month	86		
The average humidity of August from 24 years' registers ...	86		
	Inches.		
The mean vapour tension of the month	1·002		
The average vapour tension of August from 9 years' registers ...	1·002		
The mean cloud proportion of the month	8·13		
The average cloud proportion of August from 25 years' registers	8·00		
	Inches.		
The total rainfall of the month	14·01		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	12·92		
The average fall of August from 48 years' registers ...	13·94		
The greatest fall in 24 hours	2·71	11th	
	Days.		
The number of rainy days in the month	16		
The average number of rainy days in August from 24 years' registers (Alipore Observatories)	19		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	145·7		
The mean difference of sun and air temperatures	55·8		
The greatest sun temperature	156·9	17th	
The greatest excess of sun over air temperature	66·2	4th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	77·1		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	1·3		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	3·0	23rd	
	Miles.		
The mean movement of the wind per day	88·3		
The greatest movement of the wind in one day	233·0	10th	
The greatest movement of the wind in one hour	17·0	24th	10 to 11 a.m.

The number of hours with winds from each of the eight points—
N. 24, N.E. 23, E. 62, S.E. 160, S. 184, S.W. 135, W. 53, N.W. 20, Calm 83.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6 higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

G. W. KÜCHLER,

The total fall of rain from 31st August to 6th September 1902	1·91
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·48
The total fall from 1st January to 6th September 1902	53·48
The average fall of the corresponding period for 24 years, Surveyor-General's Office	50·50

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder; ⸝, lightning.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 1810T R.—The 9th September 1902.—Whereas it is expedient that a survey shall be made and a record of rights prepared in respect of all lands included within the following Government estates in the district of Noakhali:—

Noakhali.

(1) Char Bhutakhali, tauzi No. 1548;
(2) Thak Char Algi, tauzi No. 1579;
(3) Thak Char Sekander, tauzi No. 1577;
(4) Char Pirbox, tauzi No. 1667;
(5) Char Dhupi, tauzi No. 1613;
(6) Thak Hudrakhali, tauzi No. 1574:

In exercise of the powers conferred by sections 101 (2) (*c*) and 101 (2) (*d*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B C.) of 1898, the Lieutenant-Governor is pleased to direct that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of the said estates in the district of Noakhali.

The particulars to be recorded in the survey and record of rights shall be the following:—

(*a*) The name of each tenant or occupant;

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;

(*d*) The name of each tenant's landlord;

(*e*) The rent payable at the time the record of rights is being prepared;

(*f*) The mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(*h*) The special conditions and incidents, if any, of the tenancy;

(*i*) If the land is claimed to be held rent-free—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority.

No. 1871T.R.—The 12th September 1902.—Under section 3 of the Bengal Survey Act, V of 1875, the Lieutenant-Governor is pleased to order that a survey shall be made of all lands included within the external boundaries of the Sarkari Hata Government estate, situated in thana Hazaribagh, in the district of Hazaribagh, and that the boundaries of mauzas, tenures, fields, and holdings be demarcated on the said lands.

Hazaribagh

No. 1872T.R.—The 12th September 1902.—Under section 4 of the Bengal Survey Act, V of 1875, the Lieutenant-Governor is pleased to vest Babu Moti Lal Roy, Deputy Collector, Hazaribagh, with the powers of a Superintendent of Survey in the district of Hazaribagh for carrying out the survey under the said Act of all the lands within the Sarkari Hata Government estate situated in thana Hazaribagh, in the district of Hazaribagh.

Hazaribagh.

No. 1877T.R.—The 12th September 1902.—An application having been filed, under section 18 of Bengal Act II of 1882, for the construction of a sluice between the fifth and sixth miles of the Bazitpur Embankment, in the district of Darbhanga, the Collector of the district, after holding the necessary enquiry into the matter under sections 10 and 18 of the Act, has submitted a report in favour of the proposal, which has received the support of the Commissioner of the Patna Division and of

Darbhanga.

the Board of Revenue, by whom it has been submitted to Government for orders. The Lieutenant-Governor, having considered the report and the Board's recommendation of the project, is pleased to order, under section 14 of the Act, that the sluice shall be constructed at an estimated cost of Rs. 20,919, in accordance with the plans prepared by the Executive Engineer, Gandak Division, and approved by the Chief Engineer, Irrigation Department, Bengal.

Muzaffarpur.

No. 1892T.R.—The 13th September 1902.—Under the powers vested in him by section 61 of the Bengal Embankment Act, 1882, and in supersession of Government Notification No. 2031L.R, dated the 12th April 1900, published at page 372, Part I of the *Calcutta Gazette* of the 18th idem, the Lieutenant-Governor directs that in the district of Muzaffarpur the 12th of January of each year shall be the day on which the amount charged to, or apportioned on, estates or tenures, respectively, under the said Act in respect of the Gandak and Turki Embankments shall be payable.

2. When payment is not made on or before the date mentioned above, interest shall be charged at the rate of 5 per cent. per annum from that date until payment.

3. In respect of the Daudpur Embankment in this district, the days on which instalments of the amount charged to, or apportioned on, estates or tenures, respectively, under the said Act shall be payable, will continue to be the 7th June, 28th September, 12th January and 28th March, as ordered in the Notification dated 8th September 1884, which continues to be in force so far as regards this embankment.

Shahabad.

No. 1907T.R.—The 15th September 1902.—Whereas an application has been made by the proprietors in respect of the 12 annas 3 pies share of estate Barupur, tauzi No. 6798, pargana Chausa, in the district of Shahabad, for a survey and preparation of a record of rights in respect of the estate:

Under the powers conferred upon him by section 101 (2) (*a*) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the aforesaid estate.

The particulars to be recorded in the said survey and record of rights shall be the following, viz.—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The money-rent payable at the time the record of rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority.

(*j*) The name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of the proprietor's private lands, as defined in Chapter XI of the Act.

W. C. MACPHERSON,

Offg. Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 2937.—The 13th September 1902.—In exercise of the power conferred by section 163 of the Assam Labour and Emigration Act, VI of 1901, the Lieutenant-Governor is pleased to issue the following rules in addition to those published under Notification No. 3412, dated the 13th October 1901 :—

To be added to rule 185.

"In the case of those emigrants who object to eat the food prepared for them on board, flour, in the prescribed quantity, shall be supplied to them, together with the other articles of uncooked rations (except rice) prescribed in Schedule B, and every facility shall be afforded them to cook their own food. Should they, however, prefer it, they may be supplied with *chura* and *gur* or *suttoo* according to choice."

To be added as a foot-note to Schedule B.

"*Chura* and *gur* or *suttoo* may be supplied to such of the emigrants as ask for this diet in preference to eating the food prepared on board or to cooking food for themselves."

To be added as rule 177(a) after rule 177.

"It shall be the duty of the Steamer Companies to adopt such measures as may be considered necessary for preventing the sale of unwholesome food to emigrants at the steamer ghats."

W. C. MACPHERSON,
Offg. Secy. to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

MEDICAL DEPARTMENT.

NOTIFICATION.

No. 673T.P.—The 12th September 1902.—The following notification issued by the Government of Madras, prohibiting pilgrimage from certain plague-infected parts to the *Brahmotsavam* festival at Tirumalai, near Tirupati, in the North Arcot district, is republished for general information.

E. W. COLLIN,
Offg. Secy to the Govt. of Bengal

NOTIFICATION—By the Government of Madras.

WHEREAS His Excellency the Governor in Council is satisfied that there is danger of an outbreak of plague at Tirumalai, near Tirupati, in the North Arcot district, if persons from the Salem, Coimbatore, Bellary, Anantapur, and South Canara districts, the Mysore State,

the Bombay Presidency, Bengal, the Punjab and the United Provinces of Agra and Oudh and other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing *Brahmotsavam* festival :

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency in Council prohibits the attendance at the said festival from the 25th September to 11th October 1902 inclusive of persons from the said parts.

All persons proceeding to the festival in contravention of this notification will be turned back.

Chief Secy. to the Govt. of Bengal.

REGISTRATION DEPARTMENT.

No. 2598A.D.—The 15th September 1902.—Maulvi Mohammed Mohamad is appointed to act as Rural Sub-Registrar of Bamni, in the district of Noakhali, with effect from the 28th July 1902, during the absence, on deputation, of Maulvi Abdul Halim, or until further orders.

Noakhali.

C. E. BUCKLAND,

Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 16th September 1902.

No. 190.—Babu Bhavani Prasada, Sub-Deputy Collector, Revenue Division, Sone Canals, is granted privilege leave for one month, under article 291 of the Civil Service Regulations, with effect from the 8th September 1902, or such subsequent date as he availed himself of it.

D. B. HORN,

Secy. to the Govt. of Bengal.

COMMUNICATIONS.

The 16th September 1902.

No. 191C.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the due maintenance of a portion of the 46th mile of the Barakar-Purulia Road in mauza

Purulia, Manbhum district, it is hereby declared that for the above purpose four strips of land, measuring in all about 1 bigha 1 cottah $5\frac{14}{16}$ chitaks, with boundaries mentioned below and as shown on the map prepared by the District Engineer of Manbhum, are required within the aforesaid mauza of Purulia, pargana Charrah :—

SPECIFICATION OF LAND AND BOUNDARIES.

1. A strip of land belonging to Nadiar Chand Banerjee and Gobind Gorain, bounded on the—

North—By rock and culvert No. 114.

South—By rocky land.

East—By the bank of the Purulia-Barakar Road.

West—By Nadiar Chand Banerji's baid and bahal lands and Gobind Gorain's bahal land.

2. A strip of land belonging to Nitai Mandal and Gobind Gorain, bounded on the—

North—By culvert No. 114.

South—By Talukdar Teli's *hât*.

East—By Nitai Mandal's baid land, Gobind Gorain's bahal land, and Sham Mandal and Nitai Mandal's bahal lands.

West—By the bank or slope of the Puruli-Barakar Road.

3. A strip of land belonging to Hari Maghi and Kini Gayan, bounded on the—

North—By the Public Works Department roadside land.

South—By culvert No. 114.

East—By Hari Maghi's bahal land and Kini Gayan's baid land.

West—By the Barakar-Purulia roadside land.

4. A strip of land consisting of the pucca platform and bari land of Munshi Abdul Baset, bounded on the—

North—By a footpath road.

South—By the Public Works Department side.

East—By Munshi Abdul Baset's tiled hut and homestead land.

West—By the Purulia-Barakar roadside land.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, Manbhum at Purulia.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 16th September 1902.

No. 189.—Notification—With reference to this Department Notification No. 186, dated the 9th September 1902, published at page 1223, Part I of the *Calcutta Gazette* of the 10th idem, it is hereby notified that, under the provisions of section VI of Act V (B.C.) of 1864, His Honour the Lieutenant-Governor of Bengal proposes that the following rates of tolls will be levied at the undermentioned places on the channel connecting the river Madhumati with the river Nobogangа from Telkora to Bordia in the Narail subdivision of the district of Jessore :—

I. Schedule of rates of tolls—

		As.
1.	For empty or laden boat weighing less than 100 maunds ...	1
2.	For each 100 maunds of empty or laden boat	2
3.	For each ratt containing grass, bamboo and wood and measuring 50 feet long and 5 feet broad	4

II. Places where tolls are to be levied—

Tolls for passage through the channel shall be levied near the village of Telkora at the mouth and at the other end of the channel near the village of Bordia and at no other places.

D. B. HORN,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 15th September 1902.

No. 185R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for low level sidings and for Steamer Company's use at Doulatdia, in the village of Doulatdia, pargana Mamoodpur, zilla Faridpur, it is hereby declared that for the above purpose a strip of land measuring, more or less, 93 bighas 11 cottahs 10 chitaks of standard measurement, temporarily occupied in 1899, bounded on the north by the river Ganges, on the west by the land belonging to Eastern Bengal State Railway, and on the south and the east by the village of Doulatdia, is required within the aforesaid village of Doulatdia.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land is available for inspection in the office of the Executive Engineer, Rajbari District, Eastern Bengal State Railway.

No. 186R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for khal diversion at mile 22 of the Laksam-Noakhali Branch of the Assam-Bengal Railway, in the village of Ganipur, pargana Amarabad, zilla Noakhali, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 6 cottahs 8 chitaks of standard measurement, bounded on the north by jote land of Prasanno Kumar Sha and others, on the south by Chanmohani khal, on the east by jote land of Prasanno Kumar Sha and others, and on the west by Railway land, is required within the aforesaid village of Ganipur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Comilla, Tippera district.

The 16th September 1902.

No. 187R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for an assisted siding to the Toposi Colliery on the Ondal Loop, East Indian Railway, in the village of Kunstore, pargana Sherghur, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 15 cottahs 1·11 chitaks of standard measurement (corresponding to 3 roods 25·64 poles), bounded on the north by the waste land of Raneegunge Coal Association, on the south by the East Indian Railway land, on the east by the land of Prosanna Kumar Mukherjee, and on the west by the paddy land of Kanai Mondal, is required within the aforesaid village of Kunstore.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

No. 188R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose viz, for Midnapore Jherriah extension of the Bengal-Nagpur, Railway, in the village of Govindpur, zilla Manbhum, it is hereby declared that for the above purpose a piece of land measuring, more or less, 14 acres 3 roods 19¼ poles, being equivalent to 44 bighas 19 cottahs 7 chitaks of standard measurement, is required within the aforesaid village of Gobindpur.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines or minerals as it may be necessary to dig or carry away or use in the construction of the works for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause (1) of Act XVIII of 1885, to all whom it may concern.

A plan of the land may be seen in the office of the District Engineer, Adra district, Bengal-Nagpur Railway, at Adra.

No. 189R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for pumping station at mile 21, on the Hajipur-Katihar Extension, Tirhut State Railway, in mauza Hassanpur, pargana Saraisa, zilla Darbhanga, it is hereby declared that for the above

purpose a piece of land measuring, more or less, 0 276 acre of standard measurement, bounded as follows, is required within the aforesaid village of Hassanpur :—

North.—Zirat of Patori factory and land of Bengal and North-Western Railway.
South.—Kast of Hira Mahto.
East.— } Bya River.
West.— }

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of Deputy Collector, in charge Land Acquisition, Darbhanga.

No. 190R.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for an assisted siding to khas colliery at Nawpara of Maharaja M. C. Nundy off Sitarampur-Domohoni Extension, East Indian Railway, in the village of Nawpara, pargana Kanthanagar, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 16 cottahs and 10 9 chitaks of standard measurement (corresponding to 1 rood and 3·98 poles), bounded on the north, east and west by the East Indian Railway Company's land, and on the south by the paddy land of Tarok Roy, is required within the aforesaid village of Nawpara.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 13th September 1902.

No. 124Marine.—The following Notification No. 2029, dated the 4th September 1902, by the Government of India, relative to the removal of quarantine on arrivals from Yambo, is republished for general information.

D. B. HORN,
Secy. to the Govt. of Bengal.

No. 2029, dated Simla, the 4th September 1902.

NOTIFICATION—By the Government of India, Home Department.

The following telegram is published for general information :—

Telegram dated Therapia, the 29th August 1902.

From—His Britannic Majesty's Ambassador Extraordinary and Plenipotentiary at Constantinople,

To—His Excellency the Viceroy.

Quarantine on arrivals from Yambo removed.

The 15th September 1902.

No. 125Marine.—Mr. R. S. Smyth, Acting Senior Master Pilot, is confirmed in that grade, with effect from the 12th September 1902.

D. B. HORN,
Secy. to the Govt. of Bengal.

The 16th September 1902.

No. 126Marine.—Mr. R. S. M. Curran, Junior Master Pilot, is granted, under Articles 264A and 742 of the Civil Service Regulations, combined leave for one year, of which the first 1 month and 13 days is privilege leave, with effect from the 24th August 1902.

D. B. HORN,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 4th September 1902.

No. 122Marine—Under the powers conferred upon him by section 36 of the Indian Steam-ships Act, 1884, and in supersession of the rules sanctioned under notification No. 23Marine, dated the 30th January 1890, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules to regulate the granting of certificates of competency to Engineers of seagoing steam-ships.

D. B. HORN,
Secy. to the Govt. of Bengal.

GENERAL RULES.

Certificates of competency granted to persons who pass requisite examinations.

1. Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose Examiners have been appointed and arrangements have been made for holding the examinations periodically at the Port of Calcutta. The examinations will be held whenever necessary, or at such other times as the Government may appoint.

Application how to be made.

2. The application for examination is to be made on Form Exn. 3, which must be filled up at the Port Office. The Form Exn. 3 properly filled in, together with the candidate's Indentures of Apprenticeship, testimonials, and discharges, must be lodged with the Port Officer not later than the day before the day of examination. As such testimonials may have to be verified before the candidate can be examined, it is desirable that they should be handed in, together with the Form Exn. 3, as early as possible.

Testimonials; shore service.

3. All candidates will be required to produce, in addition to the official discharge certificates, testimonials as to their workshop service and as to their service at sea. The testimonials as to workshop service must be signed by the employer and must testify to the candidate's conduct and ability, and state what kind of work he was engaged on (*e.g.*, fitting, erecting, etc.), and for how long.

Testimonials; sea service.

4. Testimonials as to service at sea must testify to the applicant's sobriety, experience, ability, and general good conduct for at least the last twelve months' service at sea preceding the date of application to be examined. They must be signed by the Master and Chief Engineer (or in the case of testimonials to Chief Engineers, by the Master and Superintending Engineer) and must clearly state whether the applicant was on regular watch, and in regular charge of a watch on the main engines or boilers. It is desirable that testimonials of candidates should be endorsed by the Superintending Engineer. No time spent in clerical work will be allowed to count.

Further as to testimonials.

5. In cases where a testimonial from the Chief Engineer, or from the Master, is for any sufficient reason not obtainable, one may be submitted from the Superintending Engineer in place of that of the Chief Engineer, and one from the Managing Owner or Secretary or Chairman of a large Company in place of that of the Master, but in every such instance the testimonial must declare that the facts stated are in accordance with the reports made by the Chief Engineer or the Master, as the case may be, or else that the facts are within the writer's personal knowledge.

Physical defects.

6. When a candidate is observed to be hard of hearing, or is labouring under any other obvious physical defect, the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the candidate as an engineer on watch. When these modified testimonials are such as to completely satisfy the examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as engineer, the examination is proceeded with; otherwise the case is referred to the Government. Candidates afflicted with nervous impediment in speech may write their answers to *viva voce* questions.

Testimonials of Foreigners.

7. The testimonials of service of Foreign Engineers and of British Engineers serving in foreign vessels which cannot be verified by the Port Officer must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificate as to age.

8. Should any doubt exist as to the age of a candidate, he will be required to produce a Certificate of Birth or Baptism.

9. Foreigners must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

Foreigners to know English.

10. Service which cannot be verified by proper entries in the Articles of the Ships in which the candidates have served cannot be counted.

Verification of service, &c., by articles.

11. If the candidate passes he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the Certificate. The candidate's testimonials and other papers will be returned to him with the Certificate. It is therefore important that the port at which the Certificate is to be issued should be the same on both the Form Exn. 16 and the form of application Exn. 3. If circumstances should make any alteration necessary, the Examiner should see that it is made in both forms; otherwise delay in the issue of the Certificate may be caused.

Issue of certificate.

12. If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Port Officer is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade, it may be granted to him, and the difference, if any, between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit. The Superior Certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects unless the Government see fit to dispense with the re-examination.

Service found to be insufficient.

13. If the candidate fails in practical knowledge he may not present himself for re-examination until he can produce proofs of three months' further service at sea as Engineer from the date of failure. If he fails in arithmetic, elementary questions, or drawing only, he may come up again at any time.

Failure in examination.

14. Candidates for examination, in making their application on the Form Exn. 3, will be required to pay the examination fee before any step is taken towards inquiring into their services or testing their qualifications, &c. If the candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

Fee must be paid first.

15. The fee for examination must be paid to the Port Officer. In any case in which a candidate offers a gratuity to any other officer, and in any place but in the Port Office, the candidate so offering a gratuity will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be examined for twelve months.

Payment of fees.

16. If a candidate fails in his examination, *no part of the fee he has paid will be returned to him.*

Fees not returned on failure.

17. The fees are as follows:—

Table of fees.

	Rs.
Second Class Engineer's Certificate	15
First Class Engineer's Certificate	30
First Class Engineer's Certificate if candidate is already in possession of a Second Class Certificate of Competency granted by the Board of Trade, or by the Government of a British possession under section 8 of the Merchant Shipping (Colonial) Act, 1869	15

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.

18. SECOND CLASS ENGINEER.*—A candidate for a Second Class Engineer's Certificate must be not less than 21 years of age;

Second Class.

(*a*) He must have served as an apprentice Engineer for four years in England or five years in India at least, and prove that during the period of his apprenticeship he has been employed on the making or repairing of steam engines, boilers, &c.

* Until January 1st, 1904, candidates may present themselves for examination under the conditions laid down in the old Regulations as follows:—

A candidate for a Second Class Engineer's Certificate must be 21 years of age,

(a) He must have served an apprenticeship to an Engineer for three years in England or five in India at least, and proved that during the period of his apprenticeship he has been employed on the making and repairing of engines, or if he has not served an apprenticeship, he must prove that for not less than three years in England or five in India he has been employed as a journeyman mechanic in some factory or workshop* on the making or repairing of engines.† In either case he must also have served one year at sea in the Engine Room as an Engineer on regular Watch in the Foreign, Home or Coasting Trade‡, or

(b) He must have served at least four years at sea in the Engine Room as an Engineer on regular Watch in the Foreign, Home or Coasting Trade.

* No period of service in a drawing office can be allowed to count for more than six months' workshop time.

† These may be either land or marine engines.

‡ See paragraph 27 as to service in Home or Coasting Trade.

Three years in England or four years in India of the apprentice time must have been passed in the fitting or erecting shops, or in both. In calculating the four years in England or five years in India of artisan service which are to constitute the required apprenticeship, which should not begin at an earlier age than 15, time spent at a technical school (recognised by the Port Officer as suitable) where there is an engineering laboratory, may be taken into account and accepted as equivalent to artisan service at the ratio of three years in the technical school to two in artisan service, provided that the applicant was over 15 years of age, and can produce the Principal's Certificate for regular attendance and satisfactory progress, and provided also that in such case the other portion of the time was spent in the fitting or erecting shops of an engineer, as indicated above.

Journeyman's time will be considered as equivalent to apprenticeship.

Every applicant must produce testimonials of ability as an engineer workman to the satisfaction of the Government.

If the candidate has not served for four years in England or five years in India as an apprentice Engineer, or as Journeyman, he will be required to have served, *in lieu thereof*, four years at sea as Engineer on regular watch on the main engines or boilers of a foreign-going steamer of not less than 66 nominal horse-power, or six years in a home-trade steamer of not less than 66 nominal horse-power.

(*b*) In addition to the apprenticeship as above described, or the alternative sea service, the applicant must have served one year at sea as Engineer on regular watch on the main engines or boilers of a foreign-going steamer of not less than 66 nominal horse-power, or eighteen months in a home-trade steamer of not less than 66 nominal horse-power.

(*c*) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connexions.

(*d*) He must understand how to correct defects from accident, decay, &c., and the means of repairing such defects.

(*e*) He must understand the use of the water gauge, pressure gauge, barometer, thermometer, and salinometer, and the principles on which they are constructed.

(*f*) He must state the causes, effects, and usual remedies for incrustation and corrosion.

(*g*) He must be able to explain the method of testing and altering the setting of the slide valves, and method of testing the fairness of shafts and adjusting them.

(*h*) He must be able to calculate the suitable working pressure for a steam boiler of given dimensions, and the stress, per square inch on crank and tunnel shafts when the necessary data are furnished.

(*i*) He must understand the construction of steering engines, evaporators, feed filters, and feed heaters.

(*j*) He must understand the construction of centrifugal, bucket, and plunger pumps, and the principle on which they act.

(*k*) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(*l*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square and cube root. He must also understand the application of these rules to questions about safety valves, coal consumption, consumption of stores, capacities of tanks, bunkers, &c.

(*m*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, as to the details of the different working parts, external and internal, and the use of each part.

First-class.

(*n*) He must possess a creditable knowledge of the prominent facts relating to combustion, heat and stream.

19. FIRST CLASS ENGINEER.—A candidate for a First Class Engineer's Certificate must be not less than 22 years of age.

In addition to the qualification required for a Second Class Engineer,

(*a*) He must:—

(1) have served at sea for 12 months, with a Second Class Certificate of Competency as Senior Engineer in charge of a watch on the main engines or boilers of a foreign-going steam-ship of not less than 99 nominal horse power; or

---

In the case of England, "foreign going steamer" includes every steamer employed in trading or going between some place or places situate beyond the following limits, that is to say, the coasts of the United Kingdom, the Channel Islands and Isle of Man, and the Continent of Europe between the River Elbe and Brest, inclusive. "Home trade steamer" includes every steamer employed in trading or going within the following limits, that is to say, the United Kingdom, the Channel Islands and Isle of Man, and the Continent of Europe between the River Elbe and Brest inclusive.

In the case of India, foreign-going steamer includes every steamer employed in trading between any port of the territories which are or may become vested in His Majesty by the Statutes 21 and 22 Vict., Cap. 106, entitled "An Act for the better government of India," and any port or place not in the said territories, nor on the Continent of India, nor in the Straits Settlements, nor in the Island of Ceylon. "Home-trade steamer" includes every steamer employed in trading between any ports of the said territories or between any port of the said territories and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

(2) have served at sea for 18 months, with a Second Class Certificate of Competency, as First Engineer of a home-trade steamer of not less than 99 nominal horse-power; or 2 years as Second Engineer of a home-trade steamer of not less than 99 nominal horse-power, with a Second Class Certificate of Competency.

(*b*) He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam engine, and to mark in without a copy all the necessary dimensions in figures, so that the sketch or drawing could be worked from.*

* See Appendix C.

(*c*) He must also be able to take off and calculate indicator diagrams.

(*d*) He must be able to calculate safety-valve pressures, and the strength of the boiler shell, stays, and riveting.

(*e*) He must be able to state the general proportions borne by the principal parts of the machinery to each other, and to calculate the direct stress, the torsional stress, and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars with given loads.

(*f*) He must be able to explain the method of testing and altering the setting of the slide valves, and to sketch about what difference any alteration in the slide valve will make in the indicator diagram, and also the method of testing the fairness of shafts and of adjusting them.

(*g*) He must be conversant with surface condensation, superheating, and the working of steam expansively.

(*h*) His knowledge of arithmetic must include the mensuration of superficies and solids and the extraction of the square root, and the application of these rules to questions relating to the power, duty and economy of engines and boilers, and to the stresses in rods, shafts, and levers of the engine.

(*i*) He must understand the construction of, and be able to maintain in working condition the auxiliary machinery which is placed under his charge, viz., refrigerating machinery, electric light engines, and dynamos, electric motors fitted to ships' boats, hydraulic machinery, and the various descriptions of steering engines, etc.

Workshop service where engines are not made.

20. When the workshop service has been performed in a place where steam-engines are not made or repaired, and the class of work done is similar to that required in engine making, the service may be accepted with an additional year in the engine-room; that is, fours years in England or five years in India of workshop service and two years in the engine-room, of which one year must have been at sea. The approval of the Port Officer must be obtained in every such case before the candidate is examined.

Workshop service other than fitting or erecting.

21. When the workshop service has been performed in a place where engines are made, and the department in which the applicant has been principally engaged is not "fitting" or "erecting," the case must be referred to the Government with a report upon the service performed. If the service be such as is useful training for an Engineer, the Port Officer may accept the service, but in every such case the applicant must prove additional engine-room service as required above.

Qualifying service defined.

22. In the case of candidates for First Class Certificates, qualifying service means service on regular watch as Senior Engineer in charge of the main engines or boilers. During the whole of the period claimed, candidates must have been in possession of Second Class Certificates.

In the case of candidates for Second Class Certificates, qualifying service means service as Engineer on regular watch on the main engines or boilers. In no case will time spent in clerical work be allowed to count.

Names on articles.

23. In all cases the candidates' names must have been duly entered on the ship's Articles as Engineers in their proper ratings.

Regular watch.

24. Being on regular watch means being on watch for at least eight hours a day.

Further as to qualifying service.

25. Only such service as gives the experience required to make a man thoroughly competent as a sea-going Engineer is accepted as qualifying service. Even for a Second Class Certificate the candidate must prove to the satisfaction of the Examiner that he is qualified by experience and knowledge to act as Chief Engineer in an under-powered steamer of 99 nominal horse-power on a voyage, say, India to Egypt, taking full responsibility for engines and boiler.

Sea service.

26. The sea-service required by these Regulations is, unless otherwise stated, service performed in foreign-going ships.

Home-trade service.

27. Service in the Home or Coasting Trade is regarded as being equivalent to two-thirds of the same period of time served in the Foreign Trade, except in the case of Indian Coasting Voyages extending beyond a distance of 500 miles from the port of departure in steam-ships commanded

by Masters holding Foreign-going Certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or Home Port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home Port and to end on the date of arrival at the Home Port. Such service must be vouched for in the form laid down in Appendix G.

Lake or river service.

28. Service as watch-keeper on a lake or river steamer of not less than 66 nominal horse-power may be accepted under the following conditions:—

(1) the service will only count half as much as sea service, *i.e.*, every two months of lake or river service is only equivalent to one month's sea service;

(2) candidates for second class certificates must prove, in addition to the lake or river service, at least three months' qualifying service at sea in a steam-ship of not less than 66 nominal horse-power;

(3) candidates for first class certificates must prove, in addition to lake or river service in vessels of 99 nominal horse-power, at least six months' qualifying service at sea, with a Second Class Engineer's Certificate, in vessels of not less than 99 nominal horse-power.

Service in auxiliary screw steam-ships.

29. Service performed on board auxiliary screw whalers and other vessels with auxiliary steam power of not less than 66 nominal horse-power in the capacity of Engineer may be allowed to count towards qualifying candidates for examination for Second Class Engineers' Certificates of Competency to the extent of one-half the time the vessel is actually at sea. If the candidate is able to prove a larger amount of time under steam, he will be allowed to count the whole of such extended time.

Service in pilot boats.

30. Service performed in pilot vessels will not qualify a candidate for examination.

Service in dredgers, trawlers or tug-boats.

31. Service in sea-going steam dredgers, trawlers, or tug-boats may be accepted under the following conditions:—Two months of such service is only equivalent to one month's qualifying service. Candidates for Second Class Certificates may perform all their sea service in sea-going steam dredgers, trawlers, or tug-boats, but they must have been on regular watch on the main engines or boilers, and the vessels must not be less than 66 nominal horse-power. Candidates for First Class Certificates must have served in vessels of at least 99 nominal horse-power, and have been in charge of a watch on the main engines or boilers. They must, in addition, have served in a qualifying capacity for at least six months in a foreign-going cargo or passenger steam-ship, or nine months in a home-trade cargo or passenger steam-ship.

Service in yachts.

32. Service performed in steam yachts, either within or beyond home-trade limits, may be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, provided that the candidate's name is entered on the vessel's Articles and that he can prove, to the satisfaction of the Port Officer, that the time claimed was actually served at sea.

Candidates for Second Class Certificates may perform all their service in yachts, but the candidate must have been on regular watch on the main engines or boilers, and the vessel must be of not less than 66 nominal horse-power.

Candidates for First Class Certificates must have served on vessels of not less than 99 nominal horse-power, and must have been in regular charge of the main engines or boilers. In addition they must have served for at least three months in a qualifying capacity on board a foreign-going trading or passenger steam-ship. This additional service will, however, not be required in the case of a candidate who have served for 18 months as first engineer, or for 2 years as second engineer, of a steam yacht of the requisite power.

First class Certificates without Second.

33. The Government may see fit to allow an applicant who, in consequence of service abroad, has been unable to obtain a Second Class Certificate, to be examined for a First Class Certificate, although he has not obtained a Certificate of the lower grade, provided he is able to satisfy them as to the satisfactory character of his services. If any candidate who has not got a Second Class Certificate of Competency fails to pass the examination for the First Class Certificate, but passes that for the lower grade, he may be given a Second Class Certificate of Competency, but no part of the fee will be returned. A candidate who has been permitted to be examined for a First Class Certificate without first obtaining a Second Class Certificate of Competency, and who fails in his examination in practical knowledge, may not be re-examined for a Certificate of the higher grade until he has served 3 months as watch-keeper with a Second Class Engineer's Certificate of Competency as required by the regulations. If the candidate fails altogether, *i.e.*, both in the examination for the lower as well as for the higher grade of Certificate, he may be re-examined for a Second Class Certificate only, subject to the usual regulations relating to failure.

Masters and Mates' Examination in steam.

34. Particulars of the examination of Masters and Mates in steam will be found in Appendix E.

CONDUCT OF THE EXAMINATIONS.

Commencement and duration of Examinations.

35. The examinations will commence early in the forenoon, and will be continued from day to day until all the candidates whose names appear upon the Examiner's list on the day of examination are examined.

Candidates to be punctual

36. Candidates are required to appear at the examination room punctually at the time appointed.

Tables cleared.

37. Before commencing the examination, the tables and desks must be cleared of all scraps of paper or books that are not used in the examination, and care should be taken that the candidates do not bring into the examination room any book or paper.

Strangers not admitted.

38. No persons will be allowed in the rooms during the examinations other than those whose duties require them to be present.

No instructors will be allowed on the premises.

Blotting paper.

39. A sheet of blotting paper will be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates

All work to be shown.

40. No candidate will be allowed to work out his problems on a slate or on waste paper or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

Additional sheets of paper will be supplied by the Examiner if required, but they must be attached to, and form part of, the examination papers.

Books and papers strictly forbidden.

41. All books necessary for the use of candidates under examination will be provided by the Government, and candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

Instruments are provided.

42. Candidates for First Class Certificates have to pass an examination in rough working drawing, which may, in the candidate's option, be either hand sketches clearly dimensioned and complete in the necessary views and sections, or drawings to a scale. Drawing boards and T squares will be provided by the Government, but the applicants will have to bring with them any drawing instruments they may require.

Candidates' places.

43. Candidates should be so placed as to prevent one copying from another, and no communication whatever between the candidates should be allowed.

Penalty for copying, &c.

44. In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms, he will subject himself to all the penalties of a failure, and will not be allowed to be examined for a period of six months.

Leaving room or building.

45. No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will the same paper be returned to him, but the Examiner may substitute other data, or another question.

Injury to books.

46. If a candidate defaces, blots, writes in or otherwise injures any book or form belonging to the Government, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of a failure.

Silence.

47. Perfect silence is to be preserved in the examination room.

Penalty for breach of rules.

48. Any candidate violating any of the regulations or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, in the event of his having passed, to the detention of his Certificate for such period as the Government may direct.

Order of examinations.

49. The examination of candidates for Second Class Certificates consists of three parts: arithmetic, elementary questions, and *viva voce;* and that of candidates for First Class Certificates of four parts: arithmetic, drawing, elementary questions, and *viva voce* (*see* paragraphs 18 and 19).

Arithmetic.

50. When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum, the candidate passes in arithmetic.

If the marks obtained amount to 21, but not to 28, and if the applicant has had long sea experience, his testimonials should be taken into account, and his examination continued, if deemed advisable by the Examiner, and he may be passed or failed, having due regard

to his practical knowledge, and to whether he is being examined for second class or first class.

Elementary questions.

51. All engineer applicants presenting themselves for examination will be required to give written answers to ten questions selected from Elementary Questions shown in Appendix B. These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination, and also to induce the candidates to pay more attention to their handwriting and spelling.

Examiners will require all candidates to fill up a form, Exn. 15*b*,* and they will forward it to the Port Officer, together with the report of the examination.

The questions for both classes of engineers will be taken from the same series of Elementary Questions; and candidates for first class certificates are expected to show their superiority by giving answers more complete than those of the other candidates.

Vivâ voce.

52. Having regard to the fact that when the verbal examination is held, the candidate has already passed in arithmetic, and, if a first class candidate, in drawing, and has also written answers to the elementary questions, the Examiners will deal with practical, rather than theoretical, questions in this division of the examination; and no candidate should be failed without having been well cross-questioned on the points for which failure takes place.

The elementary questions to be answered on Form Exn. 15*b** are good starting points in *vivâ voce* examinations. With the candidates' written answers before the Examiner, the same question can be put in a way requiring an answer in another form. Each question may be developed into several according to the circumstances of the case, *e g.*—

1. What is made of? Of what parts does it consist?
2. What is its use?
3. What attention does it require at sea?
4. What attention does it require in port?
5. When it becomes defective, what is it that principally goes wrong with it?
6. How is it repaired?
7. What alteration may prevent a recurrence of the defect?

It is considered of great importance that engineers presenting themselves for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea, and be able to state how these might have been prevented, and how remedied. Sometimes an engineer presents himself who has had no personal experience of any defects, and who can tell nothing about casualties to machinery which have occurred in the experience of others: such candidates should be closely questioned as to their knowledge of boiler and engine construction and the repairs of same.

The management of engines and boilers at sea, the duties of the engineer on watch, the work to be done to the engines, boilers, and auxiliary machinery in port, and the periodical examinations of the working parts, form part of the *vivâ voce* examination.

Reports of examinations.

53. Reports of examinations on the form Exn. 15, together with the Examination Papers, should be forwarded to the Port Officer immediately the examinations are completed.

GENERAL.

54. Certificates of Competency shall be made and issued by the Government in the forms hereunto annexed.

55. Every Certificate of Competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the Certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

56. No application from the holder of a certificate granted by the Government of any other British Possession or by the Board of Trade to be examined for a certificate of the same legal value shall be entertained.

* *See* Appendix A.

APPENDIX A.

FORM EXN. 15*b*.

Form to be filled up by all Candidates at the commencement of the examination.

Port	Class for which examined
Date	Candidate's name

A. Where and how long did you serve in works at the making or repairing of engines and boilers?

B. How long and in what capacity did you serve in works on shore other than at the making or repairing of engines and boilers?

C. How long have you served in the engine-room at sea, and in what capacities?

D. With what descriptions of engines have you served at sea? What sizes were the engines?

E. With what descriptions of boilers have you served at sea?

F. What engine defects or defects to auxiliary machinery have come under your notice, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

G. What boiler defects have come under your notice, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

APPENDIX B.

ELEMENTRY QUESTIONS.

1.

What parts of an engine are generally made of wrought iron?

2.

What parts of an engine are generally made of cast iron?

3.

For what parts of an engine is steel sometimes used?

4.

What parts of an engine are generally made of brass or gun-metal?

5.

Where is "white metal" sometimes used? On account of what property possessed by it is it adopted? What objection is there to its more general use?

6.

For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?

7.

What difference is there in the composition of cast iron, of wrought iron, and of steel?

8.

How can cast iron, wrought iron, and steel be distinguished from each other?

9.

What are the different properties of cast iron, of wrought iron, and of steel?

10.

What is meant by the terms "breaking stress," "proof stress," "safe working stress"

11.

What is the cohesive strength, or breaking stress, of good ordinary wrought iron?

12.

Tempering steel: how is it done, and in what order do the colours come?

13.

What is case-hardening?

14.

Which of the common metals or alloys can be forged, and which of them are brittle or "short"?

15.

What is meant by "welding"? Which of the common metals can be welded?

16.

The expansion of metals by heat; give examples of this in the engine and in the boiler.

17.

In the construction of steel cylindrical marine boilers for what parts have the plates to be worked hot? What precautionary treatment of these plates is afterwards necessary?

18.

In what parts of cylindrical marine boilers is the strongest riveting employed? In which of the shell seams is it most necessary?

19.

What is "caulking," and how are seams prepared for caulking?

20.

Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to the different plans?

21.

What stress per square inch is allowed on boiler stays?

22.

Describe a riveted stay, and state where such stays are commonly used.

23.

Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?

24.

How are boiler tubes fixed? What are "stay tubes," and how are they secured?

25.

Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?

26.

What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?

27.

What is the difference between a "dry uptake" and a "wet uptake"? Which requires most repair? Why? Where have you seen a wet uptake?

28.

What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge glass on it; what is that for? Are superheaters now in general use?

29.

What parts of a marine multitubular boiler are first injured by shortness of water?

30.

Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

31.

Priming; to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?

32.

Funnel draught; what makes it? What checks it?

33.

Flame sometimes seen at the top of the funnel; what causes this appearance? Is it beneficial or is it detrimental? Why so?

34.

A blast pipe; what is its construction? Where is it placed? For what is it used?

35.

How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?

36.

Blow-off cocks are sometimes fitted with a spanner guard? For what purpose is this? Describe how the guard is formed.

37.

Water-gauge test-cocks; where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks, should they ever become choked? When there are no test cocks, how is the height of the water ascertained?

38.

What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

39.

About what area of safety valve is now required by the Board of Trade? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing off without being eased by hand?

40.

Spring-loaded safety valves; what advantages have they that are not possessed by dead-weight valves? What are the disadvantages, if any, as compared with dead-weight valves?

41.

Of what pieces does a glass water gauge mounting consist? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?

42.

Glass water gauges have sometimes pipe connections top and bottom; what is the object of this arrangement? Should there be cocks at the extremities of these pipes? Why? or why not?

43.

Describe a Bourdon steam gauge. Some gauges have an inverted syphon pipe below them; what is its use?

44.

Why is a small cock sometimes put on the pipe leading to a steam gauge? Where should it be placed, and what error might be made by omitting to use it?

45.

Do steam gauges indicate the total pressure of the steam, or only a portion of that pressure? What is the pressure measured from?

46.

What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea? In the event of condenser tubes leaking, what is the minimum density at which boilers should be worked? Give your reasons.

47.

Scum cocks and pipes; how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks lead to what dangers?

48.

Scale; of what does it consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

49.

What is a Salinometer? Of what does it consist? How does it act? How is it graduated? Can it be used at any temperature indiscriminately?

50.

What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

51.

How is the leak from a split tube stopped in a boiler at sea? Describe the operation.

52.

What is the use of dampers? Where are they fitted? When should they be used?

53.

When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean, does this occur?

54.

Describe the piston of a steam cylinder, with its different rings and their uses. There are generally round pieces let in flush on one side of a piston; what are they? How are these pieces fixed?

55.

Cylinder drain cocks; what is their use? There is sometimes a valve upon each cock; what purpose does it serve?

56.

Cylinder escape valves; of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this danger?

57.

What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

58.

What is link motion? What are some of its advantages? In modern engines for the screw propeller, when there is no link motion, what takes its place?

59.

What is a separate expansion valve? Why is it not fitted to all engines? What effect has an expansion valve upon the starting and upon the reversing of the engine?

60.

What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

61.

Describe a loose eccentric; how does it act? In what engines are the loose eccentrics still employed?

62.

What is the travel of the eccentric rod? How is it measured on the eccentric? What is the travel on the side valve when the link motion is in mid gear, and the engine still moving?

63.

What are "double beat valves"? What objections are there to their use?

64.

What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers.

65.

An air valve is sometimes fitted to a circulating reciprocating pump; what purpose does it serve?

66.

What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67.

Whether are double-acting air-pumps made with plungers, with pistons, or with bucket? Circulating-pumps: describe their construction and action

68.

What is an air-pump trunk? When is it necessary? How is it attached to the bucket? Centrifugal pumps: describe their construction and mode of working.

69.

What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

70.

What are marine governors? What is their general construction? How do they act?

71.

With a surface condenser and a single acting air-pump, what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72.

Air-pump pet cock or valve; where is it placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double-acting pumps?

73.

At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

74.

Bilge injection with common condensers; what are the fittings required? When is it used? What precautions are necessary in using it?

75.

When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

76.

What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

77.

Feed-pump pet cock or valve; where is it placed? What is its use? How does it act? Is it always a necessary fitting?

78.

What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

79

What is a blow-through valve or cock? To what is it attached? There is sometimes a valve that when opened admits steam from the slide valve casing to the exhaust port; what is its use? To which cylinder is it fitted?

80.

What are snifting valves? Why are they generally omitted now?

81.

What connexions are generally fitted to the donkey pump and to what services can it be applied?

82.

When the engines are stopped with steam up, what are to be shut and what are to be opened?

83.

How is an engine heated up before starting? What precautionary examinations are made before starting?

84.

What is an interceptor or catch-water? Where is it fixed, what is its construction, how does it act, and what attention does it require?

85.

Describe an air-pump bucket, with its valve or valves and its packing. Of what are the valves generally made?

86.

Of what materials are air-pump rods made? Why so?

87.

What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

88.

When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser?

89.

What is meant by the "pitch" of a screw propeller? How is it measured?

90.

Explain the difference between a "right hand" and a "left hand" propeller, and state how each of them revolves.

91.

What is the slip of a screw propeller? How is its amount expressed in figures?

92.

Which of the valves about engines and boilers have to be worked by hand, which of them work self-actingly, and which are worked by the motion of the engine?

93.

Why is soda sometimes put into a boiler, and how is it put in when under way? What is the kind of soda used?

94.

Tallow cups for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock, or with one small cock and a valve; which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about?

95

Does a cylinder escape valve, self-acting, allow all the water to escape? If not, how much is left in the cylinder?

96.

What is a "Steam Lubricator" (sometimes called an Impermeator)? Explain its action? To what part of the engine is it connected? Whether will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer?

97.

A common paddle wheel; of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98.

Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99.

Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

100.

What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101.

Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing, how is the eccentric made?

102.

Of what materials are the working surfaces of a paddle wheel with feathering floats? How are they lubricated?

103.

What is a "Disconnecting Paddle Engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

104.

Whether is link motion valve gear or the loose eccentric generally used for disconnecting paddle engines? For what steamers are disconnecting paddle engines frequently employed?

105.

What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

106.

What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

107.

Describe an oil cup with a syphon worsted? How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

108.

Describe a thrust bearing; which of the surfaces wears? Why are there sometimes a number of oil tubes for one thrust bearing?

109.

What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110.

What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111.

What is a lignum vitæ bearing? How is the wood fitted? Where is such a bearing generally used?

112.

How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

113.

Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114.

With a condensing engine; what valves or cocks are on the skin of the ship in the engine-room and in the stokehole?

115.

What are the necessary fittings of a marine boiler?

116.

With a surface condensing engine, what cocks or valves are opened some time before the engine is started so as to be ready for starting whenever the order is given?

117.

What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be felted?

118.

What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119.

What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why so?

120.

Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected?

121.

Through what cocks are valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler, with a jet condenser?

122.

Through what cocks or valves, pipes and chambers does the circulating water of a surface condenser pass?

123.

Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

124.

Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller? Name them in the order in which they act?

125.

What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally applied.

126.

What is the construction of a mudbox? Where should mudboxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

127.

What is a trunk engine? Why has it fallen into disuse?

128.

What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the slide valve casing?

129.

Of what parts does the valve motion gear of an oscillating engine consist.

130.

For what have geared engines sometimes been used? Or what were the cogs of the large wheel made?

131.

At what part of a screw steamer is the pressure that propels it applied to the hull?

132.

At what part of a paddle steamer is the pressure that propels it applied to the hull?

133.

About how much fuel per indicated horse-power per hour is required by modern steam engines, common, compound, and triple expansion?

134.

What is the explanation of the economy of the surface condenser?

135.

What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136.

Where do surface condensers foul? How are they cleaned?

137.

What non-conducting substances are employed to prevent radiation, and how are they applied?

138.

In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation?

139.

How can the formation of black smoke be prevented? Describe smoke-preventing apparatus?

140.

What is meant by "circulation" in a boiler, and what are the results of defective circulation?

141.

What means are sometimes adopted to improve the circulation in a boiler?

142.

By what arrangement is the circulation promoted in a "hay-stack" boiler?

143.

Describe a ship's side air-pump discharge valve, in what respects does it sometimes differ from a common stop valve, and what attention does it require?

144.

What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated? Where should the escaping water flow?

145.

When there is no feed escape valve, what is the arrangement of the feed valves or cocks?

146.

What is the measure of a horse-power? How is indicated horse-power ascertained?

147.

Has "nominal horse-power" a fixed meaning? What is the use of this expression? What is generally taken as the measure of one horse-power nominal?

148.

What is "back pressure" in a cylinder? About how much is it in each of the cylinders in your last steamer? Is excessive cushioning ever a trouble under certain conditions in modern engines? Say when and why and in which cylinder this occurs?

149.

What is meant by "speed of piston"? About how much is the speed of piston in modern marine engines?

150.

What is "atmospheric pressure"? What is its average amount? What instrument tells this amount?

151.

What is "gross pressure" or "absolute pressure"? What pressure is it that is shown by the steam gauge?

152.

What is meant by "cutting off" steam? How is it done? What part of the valve regulates the cut off?

153.

What is a piston slide valve? Describe its construction? Why are such frequently employed in place of the common slide valve? What is a great drawback to the use of these valves?

154.

What fixes the time of closing the exhaust? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder?

155.

What is the "lead" of the valve? What is its object? About what amount is it?

156.

What is the "cover" or "lap" of the valve? What is its object? About what proportion of the stroke of the valve is it made?

157.

What is the "exhaust cover" of a side valve? What is its effect upon cushioning and upon exhaust?

158.

What is "minus cover" or "minus lap" on the exhaust? What is its effect upon the exhaust and upon cushioning?

159.

What is "cushioning" or "compression" in a steam cylinder? How is it affected by the amount of cover or of minus cover there may be upon the exhaust? How is it affected by the exhaust pressure?

160.

What is "mean effective pressure"? How is its amount ascertained?

161.

What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect has the variations it indicates on the performance of the engine?

162.

Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

163.

What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164.

The common vacuum gauge and the common steam gauge, in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

165.

Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31, how much will the vacuum guage vary and how will that affect the working of the engine? Why?

166.

Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

167.

From what depth will a pump draw water? Is there any limit? Why?

168.

What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212°, what is the greatest degree of vacuum there can then be in the condenser?

169.

What is a thermometer? its construction? What is the property of matter that is the principle of its construction? What temperatures are regularly noted by careful engineers?

170.

What is the temperature of (1) melting ice, (2) of boiling water, (3) of steam about 60 lbs. pressure by the steam guage (4) of steam about 100 lbs., and (5) of steam about 150 lbs., also (6) smoke in the funnel, and (7) of water in the hot well?

171.

What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine?

172.

What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine?

173.

What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine?

174.

Which is convection, which is radiation, and which is conduction in the following cases:—(1) Heat from the glowing fuel to the furnace crown? (2) Heat passing from one side of the furnace crown plate to the other? (3) Heat passing from the steam pipes in the engine-room? (4) The heat of evaporation?

175.

What are the effective heating surfaces of a marine boiler?

176.

What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177.

What precautions are necessary in cold climates when the temperature is below freezing point?

178.

State as many ways as you can by which a boiler might not get its full feed. A boiler, or one of a set of boilers, gets short of water although the feed valve is open its proper amount; to what causes might this be due?

179.

Of what are furnace bars generally made? About what thickness are they at the top? About what space is between them? Whether are the bars put further apart for Newcastle coal or for Welsh coal?

180.

Which burns faster—Newcastle coal or Welsh coal? Which is the flaming coal? Which makes most smoke?

181.

About how many tons of steam coal will be burnt per day in four furnaces, each 3′ 0″ wide, and of about the usual length? On what grounds do you say so?

182.

About how many tons of steam coal will be burnt per day with good triple expansion engines to drive an ordinary steamer of 40 feet beam 10 knots an hour by steam alone? On what grounds do you say so? What percentage more coal would be required to propel the same steamer one knot faster?

183.

About how many tons of steam coal will be burnt per day with a good triple expansion engine, surface condensers, the low pressure cylinder 60 inches diameter, doing average work? On what grounds do you say so?

184.

A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap, in overhauling the engine this piece is lost and forgotten; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier and which later, distinguishing between the up stroke and the down stroke?

185.

A pair of inverted cylinder direct acting engines driving a right-hand screw; on which of the crosshead guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

186.

A screw propeller is getting loose, it has a little play on the shaft, sideways on the key or feather; how will this show in the engine-room?

187.

How would you prove whether the centre line of the trunnions of an oscillating cylinder be fair with the centre line of the main shaft?

188.

How can the fairness of a line of screw shafting be tested without lifting the shafts?

189.

Where are steel forgings generally used in marine engines?

190.

What is the composition of nickel-steel? Where is it sometimes used in engines and boilers?

191.

How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

192.

What is "induced" draught? Compare the merits of "forced" and of "induced" draughts?

193.

How is the intensity of the draught measured? What is the usual pressure employed in the mercantile marine?

194.

An explosive gas is liberated from bunker coal. Usually in well ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought is contact with it. What is the composition of the gas? Where is it found, in bunkers, 'tween decks, pockets, and coal shoots? How may it be got rid of as soon as it evolves from the coal? How many cubic feet of air to one of the gas forms a violent explosive mixture?

195.

A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion?

196.

In vessels carrying coal-cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundantly at the forward end of the hold than at the after end. Why should this be so?

197.

In recently opened ballast tanks, double-bottoms, and boilers, a light lowered into either has sometimes been extinguished. What would, in all probability, cause this?

198.

In double-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted?

199.

What is the advantage of a large rose over a small one?

200.

Why, specially in vessels carrying cargoes liable to shift, should engine bilge suctions be fitted to both wings of the bilge?

201.

In a heavily listed vessel, why is it difficult to keep steam?

202.

If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates, when the ship is rolling violently?

203.

In a triple-expansion engine, what spare gear do you consider necessary in the case of a foreign-going ship? Also what stores would you provide for a voyage to New Zealand?

204.

What means are sometimes provided for temporarily coupling together the broken parts of, say, a tunnel-shaft? Describe the fitting?

205.

Does the pressure on the thrust-collars vary with the horse-power, or with the speed of the ship, or how?

206.

If the holding down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

207.

In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

208.

Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform from end to end? Give your reasons for the practice which obtains?

209.

In a "built hair" crank shaft how are the webs rigidly secured to the pins and to the body of shaft?

210.

There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some are not. Why should this be?

211.

Explain the function of an air-vessel fitted to a feed pump. Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air-spring has been destroyed by carelessness, or has never been properly provided?

212.

Should cocks or escape-valves be fitted to air-vessels? Why, or why not?

213.

Where, by preference, should the escape valve of a feed pump be placed? Why?

214.

Scum cocks are sometimes fitted to boiler-shells at a height convenient for Engineers to manipulate when standing in the stokehold; the scum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber tops. What danger may arise from this arrangement?

215.

Cocks for testing the water level of boilers are sometimes fitted within reach of the engineer who is standing in the stokehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading ?

216.

Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

217.

In your own experience, how frequently is this pipe removed and cleared ?

218.

Why, even with the best of water-gauges, is it advisable to occasionally use the drain-cock ?

219

Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence ?

220.

Describe your method of thoroughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear Your answer can be written on a supplementary sheet of foolscap, which the Examiner will hand you. Hand sketches, mere lines indicating pipes and circles indicating cocks, should be made Identify the cocks and pipes by letters or numerals.

221.

Describe the construction of a water-tube boiler, mentioning the type selected ?

222.

In a water-tube boiler, how is an economiser fitted, and what is its duty ?

223.

How is the water-gauge fitted ? Are glass-gauges used ?

224.

The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to ? How is this difference of pressure maintained ?

225.

Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made ?

226.

Describe the construction of any steam turbine you are acquainted with, which is used on board ship How is the expansion of steam effected ? How many propeller shafts are employed, and how many propellers ?

227.

Is the same power available to go astern as to go ahead ?

228.

Of what material are the propellers made ?

229.

How many pounds of coal per indicated horse-power per hour are burnt with this type of engine ? Name the type of boiler in use ?

230.

Describe one of the several classes of refrigerating machinery in use on board of ship. Several types exist, one being more economical than the rest. Which is it ?

231.

Describe the defects to which the selected type is subject. How are the defects overcome ?

232.

How frequently are the parts opened out for examination ? Name the parts ?

233.

How frequently are the condensers of refrigerating plants opened for examination ? How frequently are the coils tested by hydraulic pressure ? On which side of the coil is corrosion most commonly found ? Why should this be so ?

234.

Where ammonia is used in refrigerating machinery, should the machinery by preference be isolated ? Why ? In reply, give what information you possess bearing on the matter, naming the ships for purposes of identification.

235

Explain how the ammonia is removed from the tubes in which it is supplied, and how passed into the refrigerating machine ?

236.

What objection is there to the presence of water in the ammonia ?

237.

Describe the ammonia process of refrigeration.

238.
Of what material are the parts made which are in contact with the ammonia?

239.
Are escape-valves fitted to the compressors of ammonia machines?

240.
What is the maximum pressure found in the compressors of ammonia machines?

241.
What kind of pressure and other gauges are used in ammonia machines?

242.
Explain how carbolic acid is removed from the tubes in which it is supplied, and how passsed into the refrigerating machine?

243.
What objection is there to the presence of water in the carbonic acid?

244.
Describe the carbonic acid process of refrigeration?

245.
Of what material are the parts made which are in contact with the carbonic acid?

246.
Are escape-valves fitted to the compressors of carbonic acid machines?

247.
What is the maximum pressure found in the compressors of carbonic acid machines?

248.
What kind of pressure and other gauges are used in carbonic acid machines?

249.
In which type of machine is brine used? What is its density? Where does it circulate?

250.
Are fans for circulating air used in any of these processes? If yes, why are they necessary?

251.
What means are in some cases employed for ascertaining the temperatures of refrigerating chambers without entering them?

252.
What effect may the swabbing of the compressor-piston rods have upon the working of refrigerating machinery?

253.
What is a rectifier? Explain its use?

254.
Describe the cold-air process of refrigeration?

255.
Of what material are the air suction and delivery valves made? How are the valves kept on their seats?

256.
How many compressors are there to a cold-air machine?

257.
What is the duty of the expansion cylinder of a cold-air machine?

258.
What objection is there to the presence of moisture in the air passed through the cold-air machine?

259.
How is water to some extent removed from the air? What is the minimum temperature of the air?

260.
What is the maximum pressure found in the compressors of cold-air machines?

261.
What kind of pressure and other gauges are used in cold air machines?

262.
In refrigerating engines generally, to where is the exhaust steam led?

263.
Cold-air chambers on board ship are insulated. How insulated, and why?

264.
Is it prudent to allow the wires of an electric circuit to pass through the insulation? Explain fully.

265.
Describe the construction of a feed water-heater and give the name of its manufacturer.

266.
Describe any well-known ash-ejector.

267.
Describe any well-known independent feed pumps.

268.

Are independent feed pumps automatic in their action? Explain the action.

269.

What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

270.

To about what temperature is the feed water raised by passing through a feed-heater?

271.

What fittings are usually placed on a feed-heater? Why are they necessary?

272.

Describe the construction of a feed filter, enumerating its valves and cocks.

273.

How can the filter be cleaned? and what ingredients are generally removed when cleaning takes place?

274.

What is the intercepting material made of? How is it fitted?

275.

Describe an evaporator, and mention the type?

276.

What fittings are necessary with evaporators?

277.

How is the brine got rid of?

278.

How may the coils be cleaned?

279

What is a dynamo? Describe its various parts? For what is it used?

280.

In what respect does an electric motor differ from a dynamo? Where are electric motors sometimes used on board ship?

281.

Describe a system of electric lighting employed on board ship?

282.

How is the position of a fault in the circuit discovered?

283.

What is "sparking," and may it under some circumstances (naming them) be a danger?

284.

What is "short-circuiting," and to what evil may it give rise?

285.

What means are employed to prevent any part of the circuit becoming overheated?

286.

Describe the features of an arc lamp.

287.

Describe the construction of a glow-lamp.

288.

What is the usual candle-power of the small glow-lamps in general use on board ship?

289.

Define the following terms:—Amperè, volt, ohm, watt. What is the measure of an electrical horse-power?

290.

Explain the uses of switches, brushes, commutators, cutouts, field-magnets, armatures and resistance-coils.

291.

Why is it desirable to fit a dynamo in a cool place on board ship?

292.

What undesirable effect will ultimately occur to an electric wire, whose sectional area is constantly diminishing, say, through corrosion?

293.

What danger might arise from leading electric wires through coal bunkers?

294.

Is it better to lead electric wires above or below side-scuttles? Why?

295.

What instruments are used on board ship to ascertain the strength of an electric current?

296.

Many ocean-going steamers are fitted with hydraulic cranes, &c. From where do they obtain their power? How is the hydralic pressure kept at a relatively constant amount?

297.

Is any difficulty experienced in working hydraulic cranes in frosty weather? If so, why?

298.

Describe any steam steering gear you are acquainted with?

299.

When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position?

300.

In the case of a steamship under way, does the officer, or man manipulating the steam steering wheel, overcome any resistance exerted by the rudder?

301.

Explain clearly what is being done by a helmsman manipulating the wheel of a steam steering engine?

302.

Is there any difference between the amount of horse-power required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astern? This question refers to a case of a steamer fitted with one rudder only, and demands a more complete answer than merely "yes" or "no."

303.

What precautions should be taken before removing a manhole-door from a steam-boiler and why are these precautions necessary?

NOTE.—Questions isolated from their context should be read in the light of the context. Thus the "sparking" referred to in question 283 relates to the sparking in an electric lighting circuit on board ship. *See* question 281.

APPENDIX C.

EXAMINATION in ROUGH WORKING DRAWING for a FIRST CLASS ENGINEER'S CERTIFICATE of COMPETENCY (FORM EXN. 17).

1. The regulations in regard to the qualifications of a candidate for a first class engineer's certificate of competency specify that—

> "He must be able to make rough working drawings of the different parts of the engines and boilers.
>
> "He must be able to state the general proportions borne by the principal parts of the machinery to each other."

2. In accordance with these clauses, a candidate for a first class certificate is required to make a rough working drawing of the parts specified as on page 64.* An engineer who has been some years in charge of marine engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations, just as the candidate would require to be supplied to him if he had to make the parts to the design of another person.

4. A clear hand sketch showing the construction completely and fully dimensioned will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are hereby cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as their statement of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the state of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw a something with which he is expected to be already familiar. At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.

* Page 1268 of the Gazette.

13. Pencil in nothing after half-past 3; all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlooked, and in checking the dimensions.

14 Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

SUBJECT FOR EXAMINATION IN ROUGH WORKING DRAWING (FORM EXN. 17A).

(Specimen).

Read the foregoing general instructions.

A common slide valve with its spindle. Show also an outline section of the ports at the cylinder face Show the provision for connecting the slide valve to the spindle.

The candidate is requested to fill up the following, and to attach this paper to his drawing:—

STATEMENT BY THE CANDIDATE.

The accompanying drawing, made by me this day, without referring to any document, and without the assistance of any person, is intended by me to be sufficient for the new construction of the parts above described to fit the places of similar parts which are to be removed. The construction is similar to what I have been with in the ———— steamer ————, but the dimensions may be different.*

The diameter of the cylinder is————
The stroke of the piston is————
The stroke of the valve is————
The cover at top end on steam side is————
The cover at bottom end on steam side is————
The lead at top is intended to be————
The lead at bottom is intended to be————
The inside cover is + ———— o —————
The thickness of the face of valve is————
The thickness of the body of valve is————
The greatest opening for steam will be————
That gives an area equal to one————
The opening for exhaust when the crank is on the top centre is————
That gives an area equal to —— ———— th of piston.
The length of the connecting rod is————
The valve will cut off steam on the down stroke at————
The valve will cut off steam on the up stroke at————
The parts fully dimensioned, in ink, are———— } *The Candidate may omit this part if he chooses.*

Dated at————
this————day of————19——.

————Applicant.

APPENDIX D.

READING THE WATER-GAUGES.

NOTWITHSTANDING that the reading of the water-gauge is made a special feature in the examination of engineers, many boiler casualties result from the engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, &c, are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of a Board of Trade Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge-glass, and the second engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full.

Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the engineers of the watch have called "false water in the glass," and which on examination has been found to result from the top communication being choked.

These casualties resulted from what, to say the least, was bad management, not false water.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge, and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject

The sketches, Figures 1, 2, 3, 4, and 5, Plate I. represent the usual methods of attaching water-gauge mountings to marine boilers The important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks:—

* Run the pen through the words that do not apply.

REFERRING TO FIGURE 1 ONLY.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows :—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler. as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in figure 1.

Screw plugs are inserted at PP and QQ, by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFERRING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately, keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked, the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed, and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they cease to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe I leading from cock A to cock B This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge-glass. When the vessel is quiescent the water in the gauge-glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I as to cause the water in the bend to be blown into the gauge-glass. In either case instantaneous change of water level ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge-glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at PP and QQ.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T T attached to column Y.

Probably more than half the steamers afloat are fitted with water-guages as shown in Figures 3 and 4, and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge-glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge-glass in each of the figures.

When a gauge-glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection with either the ordinary gauge-glass cocks of the description shown in Figure 1, or with test cocks which are joined to the boiler itself, should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II. In one case of that kind which forms the subject of Report No. 208 under the Boiler Explosions Acts, the engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position*. This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having being overstrained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely (*a*) the displacement of the comparatively cold water in pipe H by hotter and proportionately lighter water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely, (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge, causing the water in the lower part to be fresher than that in the boiler.

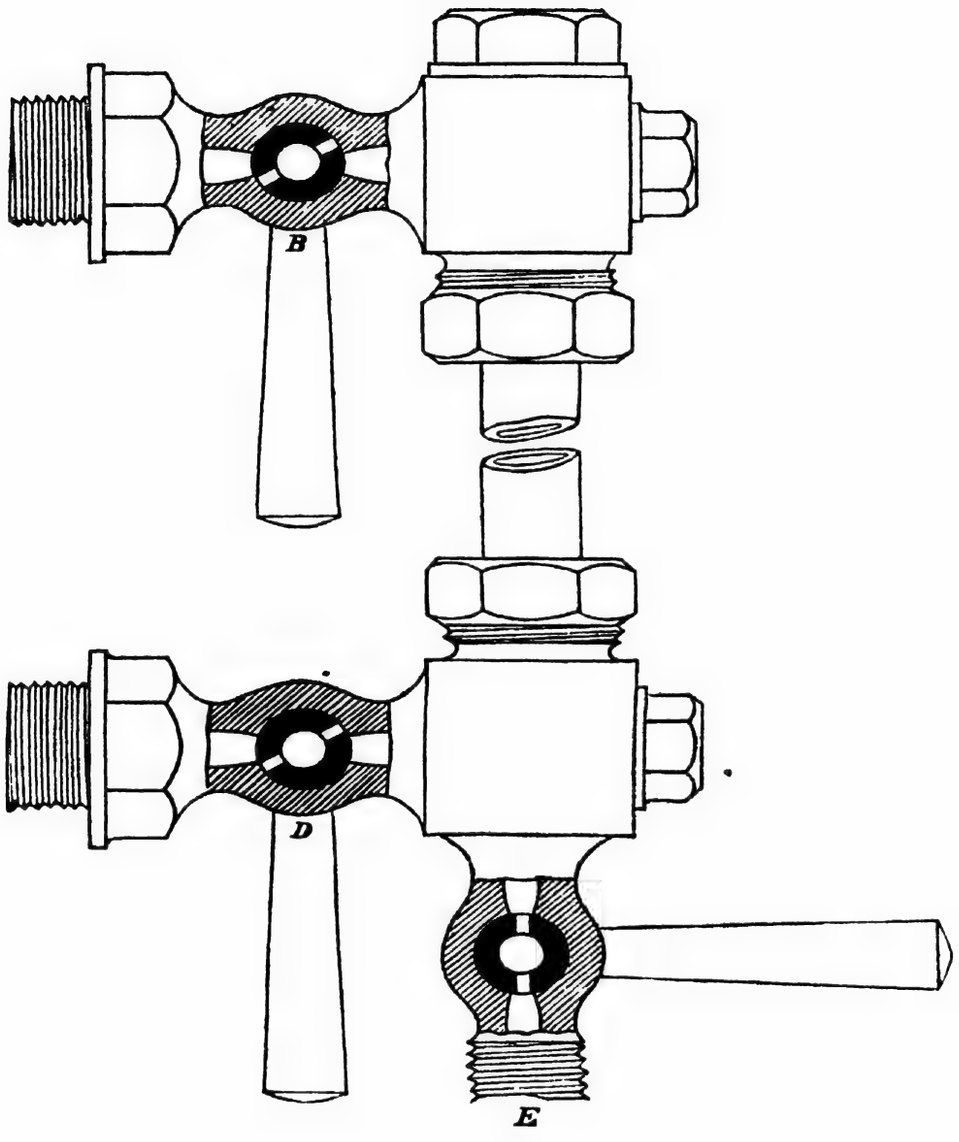
The examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respects efficient.

APPENDIX E.

EXAMINATION OF MASTERS AND MATES IN STEAM.

These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam engine. The examiners are appointed by Government,

Fig 6.



The examination is open to any person who holds a Certificate of any grade in the Foreign or Home trade or as Master of his own pleasure yacht. Candidates should fill up the form of application, Form Exn. 2, at the Port Office, pay the fee of Rs. 15, and deposit their Certificates with the Port Officer, who will inform the applicant when and where to attend to be examined. If the candidate fails to pass his Certificate will be at once returned to him.

If he passes, the report (Exn. 15) will be sent to the Port Officer, and the Certificate, together with the Form Exn 2, will be sent to the Government; the words "Certified to have passed in steam," with the date and place of examination, will then be entered on the Certificate and its counterpart, and the Certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the candidate in the usual manner.

If a candidate fails he may not present himself for re-examination until the expiration of three months from the date of failure.

The examination is for the most part *viva voce*, and extends to a general knowledge of the practical use and working of the steam engine, and of the various valves, fittings, and pieces of machinery connected with it; and of the way in which electric lighting is carried out on board ship. Theoretical questions on calculations of house-power or areas of cylinders and valves or any of the more difficult questions relating to steam engines and boilers will not be asked.

Examiners are to satisfy themselves that the candidates know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and abstruse calculations, is to be the test of the candidate's fitness to have his Certificate endorsed.

The Examiner should arrange to conduct part of the examination in the engine room of a steamship, unless from circumstances he finds it impossible to do so; but in the event of the candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.

The Examiner, in sending in his report of the Examination, should state where the examination has been held.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions printed in Appendix C. These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical, or book questions, but are to be such as any man of ordinary capacity, who has any practical knowledge of the use and working of the steam engine, ought to answer.

If a candidate refers to any book or paper or memorandum, or obtains information from another candidate during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.

The examiners will report in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the candidate was deficient.

There is nothing in the regulations requiring that applicants for the voluntary examination shall have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam-engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience.

Examiners will require all candidates to fill up a Form Exn. 15 (*b*), and they will forward it to the Port Officer with the report of the examination.

Masters and Mates may cancel questions A, B, and C, but they should fill up the form for questions D, E, F, and G, as evidence of their practical knowledge.

A candidate for this examination is required to have a thorough grasp of the construction of the steam-engine and boiler, to enable him, in the first place, to understand the nature and importance of any defect which may be reported to him by the Chief Engineer, and so that he may work in harmony with him in affording time and facilities for disconnexions, inspections, adjustments, and repairs.

To have a looking-on knowledge of what the principal repairs are about engines and boilers and pipes, and how these repairs are accomplished.

To be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery.

To understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the Chief Engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage.

To have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident, and how best to guard against such mistakes.

To be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge, and to be able to guard against being misled by false indications of the gauge glass.

To understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances.

A master or mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam-engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the steam-engine Under this head he should, therefore, be able to state approximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram To know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated, and cased; why it is desirable that they should be led along places which are dry and accessible; what is "sparking," and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cut-outs, and why is it so important to prevent short-circuiting taking place

The candidate has has to answer in writing 16 out of 20 questions selected from the Elementary Questions (*see* Appendix C).

Selections for this examination are given on the alphabetic sheet for "Steam" Generally, these answers are given by candidates as learned by rote from a book; the candidate should therefore be asked such *viva voce* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *viva voce* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of anyone: the Examiner to be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the whole arrangement of the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, &c.; also the dynamo, its field-magnets, armature, commutators, brushes, cables, &c. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connexion therewith. It will not often be practicable for the candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, &c. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a mate in steam is the same as that of a master. The knowledge required has no reference to the mate's position. A mate may be examined, but such examination implies that the mate will one day be a master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as master.

APPENDIX F.

FORMS USED IN THE EXAMINATIONS OF ENGINEERS.

Exn. 1*a*. Regulations.
Exn. 3. Application to be examined.
Exn. 10*d*. Face sheet, Second Class.
Leaves 201, &c., Second Class, 10 A M. to noon.
Leaves 311, &c, Second Class, 12 to 2.
Leaves 411, &c., Second Class, 2 to 4.
Exn 11*d*. Face sheet, First Class.
Leaves 261, &c., First Class, 10 to 12.
Leaves 361, &c, First Class, 12 to 2.
Leaves 461, &c, First Class, 2 to 4
Exn. 15*d*. Second Class, data sheet for a set of papers.
Exn. 15*e*. First Class, data sheet for a set of papers. A corner is cut off the First Class papers to prevent mixing the papers accidentally.
Exn 15*b*. The form for elementary questions used on the second day of the examination by candidates for second class, and on either the second or the third day by candidates for first class. Candidates who have time between working the arithmetical papers on the first day are allowed to go on with the elementary questions on 15*b*. The questions are contained in Exn. 1*a*
Leaflet Alphabetical lines of numbers of the elementary questions for first class, second class, and masters and mates in steam.

Exn. 17—*a*, *b*, *c*, &c.
Subjects for examination in rough working drawing.
The candidates bring their own instruments; the office supplies drawing boards, paper and squares.
Exn. 16. Examiner's authority.
Exn. 15. Examiner's Report.
Exn. 37. For reporting the names of Candidates under examination.

APPENDIX G.

Form of Certificate for Indian Coasting Voyages as required by paragraph 29.

Seaman discharged from _____ *in a British Possession abroad.*

Name and official number of ship.	Port of registry.	Tonnage.	Description of voyage or employment.*
1	2	3	4

Name of seaman.	Place of birth.	Date of birth.	No. of fund ticket (if any).	Capacity.	Date of entry.	Date of discharge.	Place of discharge.
1	2	3	4	5	6	7	8

		Date of sailing from Home Port.	Date of arrival at Home Port.
Character for conduct.	Character for ability.		

I certify that the above particulars are correct, and that the abovenamed seaman was discharged accordingly.

Dated this _____ *day of* _____ *19*__.

_____ *Seaman.* _____ *Master.*

*Such as—Coasting.—Calcutta to Bombay and back to Calcutta.
Coasting.—Bombay to Madras.

BENGAL.

Government of Bengal.

By the Honourable the Lieutenant-Governor of Bengal.

In accordance with Her Late Majesty's Order in Council of the 29th June 1882, issued under section 8 of the Merchant Shipping (Colonial) Act, 1869.

Colonial Certificate of Competency

AS

FIRST CLASS ENGINEER.

To _____

Whereas *it has been reported to the Lieutenant-Governor that you have been found duly qualified to fulfil the duties of FIRST CLASS ENGINEER in the Merchant Service, I do hereby, in pursuance of Act VII of 1884, grant you this Certificate of Competency.*

By order of the Government of Bengal.

this _____ *day of* _____ *19*__.

Assistant Secy. to the Govt. of Bengal.

BENGAL.

No. of Certificate

*Address of Owner*_____

*Date and place of Birth*_____

*Signature*_____

*This Certificate is given upon an ORDINARY EXAMINATION passed at*_____ *on the*_____ *day of*_____ *19* .

Any ENGINEER who fails to deliver up a Certificate which has been cancelled or suspended is liable to a penalty not exceeding Rs. 500. This Certificate is liable to be cancelled or suspended by any Court or Tribunal which has power under the Imperial Act 25 and 26 Vic., Cap. 63, Sec. 23, to cancel or suspend Certificates.

N.B.—Any person other than the owner thereof becoming possessed of this Certificate is required to transmit it forthwith to the Port Officer, Calcutta

*Issued at the Port of Calcutta on the*_____ *day of*_____ *19* .

Registered,
Port Officer of Calcutta.

BENGAL.

Government of Bengal.

By the Honourable the Lieutenant-Governor of Bengal.

In accordance with Her Late Majesty's Order in Council of the 29th June 1882, issued under section 8 of the Merchant Shipping (Colonial) Act, 1869.

Colonial Certificate of Competency
AS
SECOND CLASS ENGINEER.

To_____

Whereas *it has been reported to the Lieutenant-Governor that you have been found duly qualified to fulfil the duties of SECOND CLASS ENGINEER in the Merchant Service, I do hereby, in pursuance of Act VII of 1884, grant you this Certificate of Competency.*

By order of the Government of Bengal.

*this*_____ *day of*_____ *19*____.

Assistant Secy. to the Govt. of Bengal.

BENGAL.

No. of Certificate

*Address of Owner*_____

*Date and place of Birth*_____

*Signature*_____

*This Certificate is given upon an ORDINARY EXAMINATION passed at*_____ *on the*_____ *day of*_____ *19*0____.

Any ENGINEER who fails to deliver up a Certificate which has been cancelled or suspended is liable to a penalty not exceeding Rs. 500. This Certificate is liable to be cancelled or suspended by any Court or Tribunal which has power under the Imperial Act 25 and 26 Vic., cap. 63, sec. 23, to cancel or suspend Certificates.

N.B.—Any person other than the owner thereof becoming possessed of this Certificate is required to transmit it forthwith to the Port Officer, Calcutta.

*Issued at the Port of Calcutta on the*_____ *day of*_____ *19* .

Registered,
Port Officer of Calcutta.

CIVIL MEDICAL DEPARTMENT, BENGAL.

No. 2614D., dated the 8th September 1902.—Assistant Surgeon Gouri Prosad Bhuttacharjee is appointed to do supernumerary duty at the Medical College Hospital, Calcutta, with effect from the 28th August 1902.

No. 2617D., dated the 8th September 1902.—Assistant Surgeon Gouri Prosad Bhuttacharjee held charge of the duties of Inspector of the Central Animal Vaccination Depôt, Calcutta, from the afternoon of the 28th July to the forenoon of the 27th August 1902.

No. 2668D., dated Darjeeling, the 9th September 1902.—Assistant Surgeon Poorno Chunder Singh, of the Contai Subdivision and Dispensary, in the Midnapore district, is appointed to the Burdwan Charitable Dispensary, with effect from the 6th August 1902, *vice* Assistant Surgeon Abhaya Kumar Sen, retired.

No. 2671D., dated Darjeeling, the 9th September 1902.—Assistant Surgeon Narendra Nath Mukerjee did supernumerary duty at the Medical College Hospital, Calcutta, from the 24th June to the 22nd July 1902, both days inclusive.

No. 2674D., dated Darjeeling, the 9th September 1902.—Assistant Surgeon Narendra Nath Mukerjee is appointed temporarily to the Contai Subdivision and Dispensary, in the Midnapore district, until further orders, with effect from the 1st August 1902.

T. H. HENDLEY, COL., I.M.S.,
Inspector-General of Civil Hospitals, Bengal.

NOTIFICATION.

Examination of Compounders at the Orissa Medical School.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and No. 288Medl., dated 17th January 1902, notice is hereby given that the next half-yearly examination of Compounders will begin at 8 A.M. on Tuesday, the 21st October 1902, at the Medical School, Cuttack.

2. Every candidate must produce a certificate of training and a certificate of age and previous education as required by Rule 9 (*vide* Government of Bengal Notification No. 4042-Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. All male candidates either belonging to the Compounder class of the Vernacular Medical Schools or to the outside dispensaries must forward to the Superintendent, Medical School, Cuttack, an examination fee of Rs. 5 at least one week before the 21st October 1902.

Female candidates will be examined free of charges.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (*a*) and (*b*), and of the persons granting the certificates to Rules 11 and 14 (3) and (4), and to the certificate, Forms C and D, in the schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

J. T. CALVERT, M.B. (LOND.), MAJOR, I.M.S.,
Superintendent, Orissa Medical School, Cuttack.

CUTTACK, *the 9th September 1902.*

TREASURY NOTICES.

UNCOVENANTED DEPUTY COLLECTOR BABU KSHITISH CHUNDER SARKAR has been placed in charge of the Pabna Treasury from the 20th of August 1902, *vice* Maulvi Syed Abdus Salek, and authorized to draw bills on other Treasuries.

C. R. MARINDIN, *Commissioner.*

COMMR.'S OFFICE, RAJSHAHI DIVN., DARJEELING, *the 8th September 1902.*

BABU SASI MOHON TALUKDAR, Deputy Collector, has been placed in charge of the Backergunge Treasury from the forenoon of the 8th instant, and is authorized to draw bills on other Treasuries.

GUNGA N. ROY, *Pers. Asst.*, for *Commissioner.*

DACCA COMMR.'S OFFICE, *the 9th September 1902.*

UNCOVENANTED DEPUTY COLLECTOR BABU MANMATHA KUMAR BOSE has been placed in charge of the Bogra Treasury from the 22nd of August 1902, and is authorised to draw bills on other Treasuries.

C. R. MARINDIN, *Commissioner.*

COMMR.'S OFFICE, RAJSHAHI DIVN., DARJEELING, *the 9th September 1902.*

UNCOVENANTED DEPUTY COLLECTOR MAULVI SYED ALI MAZHAR is placed in charge of the Champaran Treasury, and is authorized to draw bills on other Treasuries.

E. F. GROWSE, *Offg. Commissioner.*

PATNA COMMR.'S OFFICE, BANKIPORE, *the 11th September 1902.*

UNCOVENANTED DEPUTY COLLECTOR BABU NARENDRA KUMAR CHAUDHURI is hereby placed in charge of the Midnapore Treasury, *vice* Babu Jogendra Nath Bandopadhya, transferred, and is authorised to draw bills on other Treasuries with retrospective effect from the 3rd September 1902.

RAJ MOHAN CHUCKERBUTTY, *Persl. Asst.*, for *Commr. on tour.*

COMMR.'S OFFICE, BURDWAN DIVN., CHINSURA, *the 12th September 1902.*

Sheriff's Office, the 17th September 1902.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1902 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be held at the Court-house, in the Town of Calcutta, on Monday, the first day of December next, at 11 o'clock in the forenoon, and thence forward from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who are to prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

H. M. RUSTOMJEE, *Sheriff.*

সরিফ আফিস, সন ১৯০২ সাল তারিখ ১৭ই সেপ্টেম্বর।

সকলকে সমাচার দেওয়া যাইতেছে যে হুবে বাঙ্গালার কোর্ট উইলিয়ম দুর্গের অধীন শহর কলিকাতার ও অন্যান্য স্থানের ফৌজদারী বিচার নিষ্পত্তি জন্য আগামী সন ১৯০২ সালের ১লা ডিসেম্বর সোমবার বেলা ১১ ঘটিকার সময় এবং যে পর্য্যন্ত সেশিয়ানের কার্য্য শেষ না হয় প্রতিদিন উক্ত সময়ে কলিকাতার হাইকোর্টের আপন আদালত ঘরে সন ১৯০২ সালের পঞ্চম ক্রিমিনেল সেশিয়ান বসিবেক এবং এতদ্দ্বারা প্রচার করা যাইতেছে যে, যে সকল ব্যক্তি কোন কয়েদির বিরুদ্ধে ফৌজদারী মিছিল করিবেক তাহারা উক্ত স্থানে উক্ত সময়ে হাজির থাকিয়া মোকদ্দমা করে ইতি।

SMALL CAUSE COURT NOTICE.

NOTICE is hereby given, under section 7 of Act IX of 1887, that the Judge of the Small Cause Courts of Dacca and Munshigunge will, in the month of November 1902, sit in those Courts on the undermentioned dates, Sundays and holidays excepted :—

Dacca Small Cause Court	...	6th, 7th, 11th, 12th, 25th and 26th of November 1902.
Munshigunge Small Cause Court	...	From the 18th to the 22nd of November 1902.

SRINATH PAL, *Judge, Small Cause Court.*

DACCA SMALL CAUSE COURT, *the 18th September 1902.*

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 5th September 1902.—Mr. E. Cleghorn, Assistant Head Master, Anglo-Persian Department of the Calcutta Madrasah (Class II), is allowed combined leave for two years, namely, three months under Article 306 (*b*) and the remaining period under Article 371 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

The 8th September 1902.—The orders of the 11th July 1902, granting Maulvi Kabiruddin Ahmad, B.A., Deputy Inspector of Schools, Faridpur (Class IV), leave of absence for thirty-one days, under Article 291 of the Civil Service Regulations, with effect from the 12th July 1902, are cancelled.

The 10th September 1902.—Babu Anil Chandra Gupta, B A., an Assistant Master, Murshidabad Nawab's High School (Class VII), is appointed to be Assistant Head Master of the Jessore Zilla School, on the pay of his own grade, *vice* Babu Monmohan Chakravarti, transferred.

Babu Suresh Chandra Mukerjea, B.A., an Assistant Master in the Chittagong Collegiate School (Class VIII), is appointed to be an Assistant Master in the Hazaribagh Zilla School, *vice* Babu Pramatha Nath Bhattacherjea, promoted.

This cancels the orders of the 11th July 1902, appointing on probation Babu Baikuntha Chandra Ray, M.A., to be an Assistant Master in the Hazaribagh Zilla School and substantively *pro tempore* to Class VIII, *vice* Babu Pramatha Nath Bhattacherjea.

A. PEDLER,
Director of Public Instruction, Bengal.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1902.

WITH reference to Notification No. 5058F. in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH will be given this year to the author of the best original essay composed during the year 1902, giving the results of original research or investigation by the essayist on *Natural History*.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent in to the President of the Bengal Asiatic Society, 57 Park Street, Calcutta, by the end of December 1902. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1903.

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

C. W. BOLTON,
President of the Asiatic Society of Bengal.

T. RALEIGH,
Vice-Chancellor of the Calcutta University.

CALCUTTA;
The 30th August 1902.

ALEX. PEDLER,
Director of Public Instruction, Bengal.

Office Memorandum by the Inspector of Schools, Burdwan Division.

UNIVERSITY ENTRANCE EXAMINATION.

PRIVATE STUDENTS.

1. *Private students* are those who do not appear from any school or who have been transferred from one school to another after the 31st August without the consent of the Inspector. The term "private students" includes *schoolmasters*.

2. Private students must appear at the test examination of one of the following institutions:—

Those from the—	At the test examination of—	Date of test examination.
1	2	3
1. Howrah district ...	Howrah Municipal School ...	To be fixed by the Headmaster
2. Bankura " ...	Bankura Zilla School ...	15th December 1902.
3. Birbhum " ...	Birbhum ditto ...	15th " "
4. Midnapore " ...	Midnapore Collegiate School ...	18th " "
5. Hooghly " ...	Uttarpara Government School ...	15th " "
	Hooghly Branch School ...	15th " "
6. Burdwan " ...	Burdwan Raj Collegiate School (with the Principal's permission).	15th " "

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners. No

private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to the Headmaster of the institution at which he appears.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November, with the following information, etc.:—

(*a*) The name of the school in which the candidate last studied
(*b*) The transfer certificate (in original) granted to the candidate from the same; or,
(*c*) in the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.
(*e*) In the case of schoolmasters, a certificate of good conduct from the secretary or proprietor of the school in which the candidate is serving.

4. If this office is satisfied that all is in order the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test examination.*

5. The Headmaster of an institution (one of those named above) should direct private students to appear before him not later than the 11th January with their applications for admission to the Entrance examination; and in thecase of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office*, but it should be sent to the Registrar by the candidates themselves, together with the countersigned applications, which will be returned to the respective Headmasters for delivery to candidates.

8. Private students will understand that the test examination of any schools other than those named above will not be accepted by this office.

9 Addresses of private students should be supplied to this office.

10. The Entrance examination in 1903 will be held on the 2nd March 1903 and following days. Applications and fees for admission must reach the office of the Registrar on or before the 22nd January 1903.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools Sub-Inspectors of Schools and *bonâ fide* masters of English schools who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations.

2. Candidates for the F.A. and B.A. examinations must produce certificates of character and length of service from the Secretaries of their respective schools, together with their *Entrance* or *F.A.* certificates. Those candidates who have been admitted to a former examination must produce the Registrar's receipt in addition.

3. The printed form of application should be carefully filled up and submitted to this office *on or before the 15th January 1903*, together with other papers as mentioned in rule 2, after which no applications will be received.

4. By *bonâ fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M E. course.

5. The F.A. and B.A. examinations in 1903 will be held on the 16th March 1903 and following days The applications and fees for admission must reach the office of the Registrar on or before the 2nd February 1903.

CALCUTTA UNIVERSITY

NOTICE.

MAHAMAHOPADHYAY CHANDRAKANTA TARKALANKAR, Sree Gopal Basu Mallik Fellow, will hold an examination on the subject of the lectures delivered by him during the fourth year of his appointment, at the Senate House, College Square, on Monday, the 1st December, 1902, at 10 A.M.

The examination will be open to all Under-Graduates of this University and to all Graduates thereof of not more than five years' standing

A gold medal will be awarded to the candidate who stands first in the examination.

Candidates who intend to appear at the examination must submit their applications to the Registrar on or before the 28th November, 1902.

K C. BANURJI,
Offg. Registrar, Calcutta University.

SENATE HOUSE, *the 15th September 1902.*

A.

Statement of stipends awarded to pupils and to teachers on the results of the Sanskrit First Examination, 1902, held by different Associations under the rules prescribed in Government Resolution No. 857, dated the 21st March 1892, Notification No. 4236, dated the 29th December 1896, Notification No. 1409, dated the 31st March 1896, and the Director of Public Instruction's Rules for the distribution of stipends to pupils and teachers, dated the 18th January 1901.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2229B.

NOTICE is hereby given that the Tenth Sale of Opium, the Provision of 1900-1901, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Monday, the 29th September 1902, at 11 A.M., and will comprise 4,000 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory, consisting of	2,000
Ditto ditto at the Ghazipur Factory, consisting of ...	2,000
Total ...	4,000

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 19th November 1901, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 4th and 14th October 1902, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 4th October 1902, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 14th October 1902.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Monday, 3rd November 1902 ...	2,000	2,000	4,000
On or about Monday, 1st December ,, ...	2,000	2,000	4,000
Total ...	4,000	4,000	8,000

By order of the Board of Revenue, L. P.,

H. WHEELER, *Secretary*.

BOARD OF REVENUE, L. P., CALCUTTA, *the 25th August 1902*.

CUSTOM HOUSE NOTICES.

DURGA AND LAKSHMI PUJAS.

THE holidays to be observed in offices under the Government of Bengal are from Monday, the 6th, to Friday, the 17th, October, inclusive.

The Custom House and its Treasury will, however, be open during that period for the usual hours, except from Wednesday, the 8th, to Saturday, the 11th, and on Thursday, the 16th, and Friday, the 17th, October. On these dates it will be open free of charge from 11 A.M. to 12 noon for entering and clearing vessels and for the issue of bills of entry and shipping bills for free goods from or to such vessels, provided notice has been given by the agents concerned on the last preceding open day. The Treasury will, however, remain closed on these days.

L. F. MORSHEAD, *Offg. Collector of Customs*.

CALCUTTA CUSTOM HOUSE, *the 2nd September 1902*.

To prevent the repetition of certain frauds which have been committed upon the Custom House, it is notified that in future—

1. Bills of entry or shipping bills should invariably be presented by the Sircars who have signed them, and their signatures should have been countersigned, as they already are in many instances, by a representative of the firm or party for whom they are authorised to appear.

2. All entries relating to—

(*a*) the number of packages or the like in which the goods are contained,
(*b*) their *total* value in the column applicable,

should be entered in both words and figures; and the entry in words should have "only" written at the end of it, whilst both words and figures should be written sufficiently clearly and closely together to make any subsequent alteration easily discernible. The name of the firm or party for whom the goods are being cleared should also be entered in the last column of the forms unless shown already elsewhere on them.

L. F. MORSHEAD, *Offg. Collector of Customs.*

CALCUTTA CUSTOM HOUSE, *the 5th September 1902.*

Simla, the 12th September 1902.

No. 843.—Assam-Bengal Railway Volunteer Rifles—

Lieutenant John George Berrie, supernumerary list, resigns his commission, with effect from the 15th August 1902.

SPECIAL.

No. 844.—In connection with the forthcoming Coronation Darbar to be held at Delhi in January 1903, the Government of India have under consideration the feasibility of inviting mutiny veterans, both British and Native, to the Darbar. Before arriving at any decision on this point, they desire to ascertain, if possible, the numbers of such veterans as are in possession of the Mutiny Medal. Veterans fulfilling the above condition who would like to attend the Darbar, if the opportunity were offered to them, are therefore requested to send in their names and addresses at once to the Local Government or Administration in whose jurisdiction they are residing.

E. G. BARROW, *Major-Genl.*,
Secretary to the Government of India.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 17, 1902.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

Nadia.

No. 1646T.M.—The 8th September 1902.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor approves the election by the Commissioners of the Nadia Municipality, in the district of Nadia, of Babu Jugabandhu Banerjee to be their Chairman.

Champaran.

No. 1650T.M.—The 8th September 1902.—Whereas a Notification No. 840T.M, dated the 7th June 1902, declaring the Lieutenant-Governor's intention to revise the boundaries of the Bettiah Municipality, in the district of Champaran, so as to exclude from the limits of the said Municipality the village of Banuchapra, was published at page 123, Part IB of the *Calcutta Gazette* of the 11th June 1902, and whereas no objection was raised to the proposal, it is hereby notified for general information that, in exercise of the power vested in the Local Government by section 9A of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, and in accordance with the recommendation of the Commissioners of the Bettiah Municipality, made at a meeting, the Lieutenant-Governor sanctions the above proposal. The revised boundaries of the Municipality, after the exclusion of the said village, will be as defined below :—

East.—Dukharan, Sunder Kuer, and Chatkai Ojha's mango garden, 145th mile of the Tirhut State Railway line, tola Harbatika, and mango tope east of Koeritola, and Manager's garden and Peunibagh.

West.—Western boundaries of the villages Kargahia, Jamadar tola, and Basarahtola.

North.—Bagaha Road, with the continuation of this road to the east up to the railway wire fencing, and from this point the railway wire fencing.

South.—Ranee Chandrawat Marwari's burning ghat, the junction of the Tengrahi ghat, and the Gobindganj Road, Jhengat Kurmi's garden, Bisseswar Hajam's garden, and Jawakir Burhi's garden.

Palamau

No. 1653T.M.—The 8th September 1902.—The following rules, framed by the Deputy Commissioner of Palamau, with the approval of the Commissioner of the Chota Nagpur Division, under section 15 of the Bengal Ferries Act, I of 1885, for the management of public ferries in the district of Palamau, have been accepted by the Lieutenant-Governor, and are published for general information.

Rule 1—In these rules the term "Magistrate" includes the Deputy Commissioner of Palamau and any Magistrate subordinate to him and appointed by him in that behalf.

Rule 2.—Every public ferry in the district of Palamau shall either be held khas by the Magistrate or be leased by public auction.

RULES FOR THE MANAGEMENT OF PUBLIC FERRIES HELD KHAS.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

(*a*) provide such boats, landing-stages, rest-houses and other appliances as he shall think proper;
(*b*) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;
(*c*) fix, with the approval of the Commissioner, the tolls to be levied from persons using the ferry;
(*d*) cause a schedule of such tolls, legibly written in the vernacular, to be fixed upons both landing-stages;
(*e*) determine the maximum number of passengers, animals, carts, vehicles and goods which each ferry boat shall carry, and cause a notice to this effect to be affixed to each boat;
(*f*) determine the hours within which the boats shall ply and the minimum number of journeys to be made every day;
(*g*) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

RULES FOR LEASING OUT FERRIES.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

(*a*) the time and place of the sale;
(*b*) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
(*c*) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles and the bulk or weight of goods each is authorised to carry;
(*d*) the liability or otherwise of the lessee to provide the boats and to keep them in repair;
(*e*) the liability or otherwise of the lessee to provide and keep in order the landing-stages and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
(*f*) the minimum number of crossings to be made daily at any particular season of the year;
(*g*) the rate of tolls to be levied;
(*h*) the persons and things to be ferried over free of toll as provided in Rule 14;
(*i*) the instalments in which the rent for the ferry is to be paid; and
(*j*) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the rules and the form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. of the bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules. The lessee shall be bound to execute this contract within 24 hours immediately after the ferry has been knocked down to him, unless the Magistrate grants him an extension of time for executing the same.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice-boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to

carry. The notice-boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry; and shall be kept by him in a proper condition On the expiry of his lease they shall be returned by him to the Magistrate.

RULES FOR THE MANAGEMENT OF FERRIES LEASED BY PUBLIC AUCTION AND FOR REGULATING THEIR TRAFFIC.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay all passengers, vehicles, animals and goods which may come to the ferry ghat to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act. The lessee shall not charge or demand tolls at a higher rate, although for special reasons he is at liberty to ferry over free of charge or at a less rate of tolls any passengers, vehicles, animals and goods which may come to the ferry ghat to be ferried over without having any claim in consideration thereof to any deduction in the rent.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

(*a*) Mails, mail-carts, dâk-runners and Government telegraph messengers on duty.
(*b*) Commissariat stores, animals and vehicles, when accompanied by a chalan from the Commissariat officer.
(*c*) Persons or property mentioned in section 3* of the Indian Tolls (Army) Act, 1901.
(*d*) Police and other public officers and process-serving peons when travelling on duty with their *bonâ fide* baggage, horses, palkies or other conveyances.
(*e*) Executive officers of the District Road Department when travelling on duty.
(*f*) Coolies engaged in repairing roads with their tools and instruments.
(*g*) Persons carrying dead bodies or property sent in by the police.

Rule 15.—The lessee shall not charge or demand tolls from persons who wade or swim across or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge in their own boats.

---

* Section 3 of the Indian Tolls (Army) Act—

"The following persons and property, namely—

(*a*) all officers and soldiers of—
(i) His Majesty's Regular Forces,
(ii) any local corps, or
(iii) Imperial Service Troops,
when on duty or on the march,

(*b*) all members of a corps of Volunteers when on duty or when proceeding to or returning from duty;
(*c*) all officers and soldiers of the Indian Reserve Forces when proceeding from their place of residence on being called out for training or service, or when proceeding back to their place of residence after such training or service;

(*d*) all grass-cutters when employed in the service of—
(i) His Majesty's Regular Forces,
(ii) any local corps,
(iii) Imperial Service Troops, or
(iv) any corps of Volunteers;

(*e*) all other authorised followers of—
(i) His Majesty's Regular Forces,
(ii) any local corps,
(iii) Imperial Service Troops, or
(iv) any corps of Volunteers,
when they accompany any body of such Forces, Troops or Volunteers or any members of such corps on the march, or when they are otherwise moving under the orders of military authority;

(*f*) all members of the families of officers, soldiers or authorised followers of—
(i) His Majesty's Regular Forces, or
(ii) any local corps,
when accompanying any body of troops, or any officer, soldier or authorised follower thereof on dut or on the march;

(*g*) all prisoners under military escort;
(*h*) the horses and baggage, and the persons (if any) employed in carrying the baggage of any persons exempted under any of the foregoing clauses, when such horses, baggage or persons accompany the persons so exempted under the circumstances mentioned in those clauses respectively;
(*i*) all carriages and horses belonging to His Majesty or employed in His Majesty's military service and all persons in charge of or accompanying the same, when conveying any such persons as hereinbefore in this section mentioned or when conveying baggage or stores, or when returning unladen from conveying such persons, baggage or stores;
(*j*) all carriages and horses when moving under the orders of military authority for the purpose of being employed in His Majesty's military service;
(*k*) all animals accompanying any body of troops which are intended to be slaughtered for food or kept for any purpose connected with the provisioning of such troops; and
(*l*) all persons in charge of any carriage, horse or animal exempted under any of the foregoing clauses when accompanying the same under the circumstances mentioned in those clauses respectively,

shall be exempted from payment of any tolls—

(*i*) on embarking or disembarking, or on being shipped or landed, from or upon any landing place, or
(*ii*) in passing along or over any turnpike or other road or bridge, or
(*iii*) on being carried by means of any ferry,

otherwise demandable by virtue of any Act, Ordinance, Regulation, order or direction of any Legislature or other public authority in British India:

Provided that nothing in this section shall exempt any boats, barges or other vessels employed in conveying the said persons or property along any canal from payment of tolls in like manner as other boats, barges, and vessels.".

Rule 16.—The ferry shall ordinarily ply between sunrise and sunset, but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat, and shall be bound to ferry over at night, whenever called upon to do so, any police or Government officer travelling on duty together with his baggage and conveyance.

Rule 17.—The Magistrate may, if necessary, fix the times for the crossing of the mails and dâk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghat, and that no delay is allowed to occur in their transit.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry boats for passengers and goods traffic.

Rule 19.—The lessee shall mark on each boat the number of passengers, animals, and vehicles and the bulk and weight of the other things it is authorised to carry at a single trip, and if the Magistrate so directs, a safety line shall be painted round each boat, and it shall be the duty of the lessee to see that the boat is not so overladen as to sink below this line.

Rule 20.—When any ferry which has been leased for a given period is discontinued under the order of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

Rule 21.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

Rule 22.—The lessee shall, when required by the Magistrate or police officer above the rank of a constable to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

Rule 23.—The lessee shall be bound to furnish such returns of traffic as may, from time to time, be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

Rule 24.—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25.—The Magistrate may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 26.—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry which may come to their notice.

Rule 27.—The ferry boats belonging to any public ferry shall not be plied when the current, wind, or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

Rule 28.—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate:—

Receipts on account of ferry *farmed by* *at an annual rent of Rs.*

[Signature of officer holding sales.]

Serial No.	Details of payments.	Amount.	PAYMENT.					Remarks.
			Amount.	Date.	No. of challan.	Initials of Magistrate or Vice-Chairman.	Initials of Treasury officer.	
		Rs.	Rs.					

Rule 29.—A quarterly statement shall also be kept showing the demand, collection, and arrear up to date on account of rents for public ferries

FORM OF AGREEMENT.

The Secretary of State for India in Council doth hereby lease to me hereinafter called the lessee, son of , resident of mauza , pargana , thana , district ; and I, the said lessee, do hereby take the lease of the public ferry across the river , and situated on the road from to at the rent of Rs. upon and under the following terms and conditions, viz.—

1. I, the lessee, have deposited , with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act, I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due, or penalties which may be awarded under sections 23, 24, and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the Rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the to the and during this period I shall be bound to ply the ferry from the to the every year.

4. I hereby agree—

(*a*) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair;
(*b*) to employ a crew of men on each boat;
(*c*) to make at least crossings every day; and
(*d*) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river.

5. I shall not charge or demand tolls for ferrying over—

(*a*) Mails, mail-carts, dâk-runners and Government telegraph messengers on duty.
(*b*) Commissariat stores, animals and vehicles, when accompanied by a chalan from the Commissariat officer.
(*c*) Persons or property mentioned in section 3* of the Indian Tolls (Army) Act, 1901.

* *Vide* footnote to Rule 14 (*c*).

(*d*) Police and other public officers and process-serving peons when travelling on duty with their *bonâ fide* baggage, horses, palkies or other conveyances.
(*e*) Executive officers of the District Road Department when travelling on duty.
(*f*) Coolies engaged in repairing roads, with their tools and instruments.
(*g*) Persons carrying dead bodies or property sent in by the Police.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments:—

	Date.	Rs. A. P.
1st	...	...
2nd	...	...
3rd	...	...
4th	...	...

But if at any time before the expiry of the period for which the ferry has been leased to me I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of tolls, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on re-letting the

ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations or the breaking down of bridges.

Hazaribagh.

No. 1665T.M.—The 8th September 1902.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Munshi Rahim Bux to be a Commissioner of the Giridih Municipality, in the district of Hazaribagh, *vice* Babu Annoda Prosad Mozumdar, deceased.

Mymensingh.

No. 1674T.M.—The 9th September 1902.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power conferred on him by section 290 of the Bengal Municipal Act, III of 1884, as amended up to 1st November 1896, to make the following rules and to impose the following conditions, subject to which the Commissioners of the Nasirabad Municipality may allow the owners and occupiers of holdings paying a water-rate, to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to their premises for domestic purposes, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the aforesaid Municipality:—

1. The owner or occupier of any house or land requiring water to be laid on for domestic purposes, or requiring any addition or alteration to the existing water-supply, must apply for the same in a printed form to be supplied to him free of cost at the Commissioners' office. A specimen of the printed form is given in the schedule annexed hereto.

2. Every such applicant for a new connection shall pay a sum equal to one-third of the annual valuation of his holding, or in case where the one-third of the valuation is below Rs. 100, the sum of Rs. 100.

Provided that if the Commissioners at any time deem it practicable and consistent with the maintenance of an efficient water-supply, they shall be competent to allow owners and occupiers paying water-rate to take house connections without payment of any premium or at such other scale of premium as they may think proper.

3. Every applicant for a new house connection shall deposit the amount payable by him under Rule (2) before his application can be considered by the Commissioners.

4. Each holding shall have a separate connection, and extensions from the communication pipe of one holding to another will not be allowed.

5. A house connection shall comprise the following parts:—

(*a*) The brass or gun-metal ferrule inserted in the main supply pipe.

(*b*) The galvanized iron communication pipe from the ferrule to the meter or the spot where a meter would be placed if provided.

(*c*) The stop-cock and its surface box.

(*d*) The meter, if provided under section 295 of the Bengal Municipal Act or otherwise.

(*e*) The service pipes from the stop-cock to the taps.

(*f*) The taps.

6. All the fittings enumerated in the preceding paragraph shall be stamped duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting. All fittings shall be tested and stamped by an officer of the Municipality before being fixed.

7. The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined at all times. No meter shall be fixed under ground except in a brick well or chamber. No meter shall be disconnected or in any way interfered with except with the permission of the Commissioners.

8. The Commissioners shall depute some authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least 24 hours before the reading is recorded. If the quantity of water consumed in any quarter exceeds that to which the occupier is entitled, written notice to that effect shall be served upon him.

9. The house connection when fitted in position must be capable of standing a pressure of 100 feet, and no water shall be supplied until this test has been applied by the Commissioners.

10. The number of taps in a house or holding shall be fixed according to the annual valuation of the premises as follows :—

Annual valuation of holding.	Number of taps.
Under Rs. 100	1
From Rs. 100 to Rs. 199	2
From Rs. 200 to Rs. 499	3
From Rs. 500 to Rs. 1,500	5
And for every Rs. 500 or part thereof in excess of Rs. 1,500	1 additional tap.

The size of the ferrule will be decided by the Commissioners, but its diameter shall not differ from that of the communication pipe by more than quarter inch.

11. The diameter of the communication pipe will be determined with regard to the average pressure in the main supply pipe at the standpost nearest the house for which a connection is required and to the quantity of water to be supplied according to the provisions of section 295. The diameter of the pipe shall be such that it will be competent to deliver half the daily supply in six hours.

12. The stop-cock and its surface box shall be placed as near as practicable to the points where the service pipes enter the house or premises to be supplied, but must not be within any private premises. The surface box shall rest on brickwork foundations, and shall be so designed that it can be locked and the key of it shall remain under the control of the Commissioners.

13. The repair, alteration, removal or extension of all communication pipes and fittings shall be undertaken with the permission of the Commissioners and under the inspection and direction of the officer authorised by them in that behalf and not otherwise.

SCHEDULE.

Form of Application for house connection.

I.—Name of the Municipality.

II.—Name of the applicant and his parentage.

III.—$\frac{\text{Owner}}{\text{Occupier}}$ of holding No. , situate at Street.

IV.—(*a*) Annual valuation of the holding.

(*b*) Number of persons living permanently in the holding.

V.—I declare that Part VII of the Bengal Municipal Act, and the rules and conditions imposed by the Local Government under section 290 of the said Act, and the resolution of the Municipal Commissioners passed at a meeting held on , relating to house connections, have been read $\frac{\text{by}}{\text{out to}}$ me, and that I understand their contents, and that I agree to take the connection for domestic purposes in my said holding under the rules, &c., referred to above, or which may be made subsequently, and that these will be binding upon me, my heirs and successors generally; that I will have all works, connection, repair, extension, and removal executed either by an authorised plumber or by the municipal servants as the Chairman may direct; and that if the valuation of the holding be hereafter altered, I will cause the number of the taps, &c., to be regulated and all alterations to the other parts of the house connection to be carried out at my own expense according to the new valuation.

Signature of the applicant with date—

Signed in our presence—

1. ... ... } *Witnesses.*
2. ... ...

Report of the officer in charge of the water-works—

(*a*) as to the materials ;

(*b*) as to labour;

(*c*) as to time when and within which the connection, &c., to be commenced and finished;

(*d*) fee, &c., to be charged to the applicant.

Certificate of the cashier that the fee, &c., reported by the officer in charge of the water-works chargeable to the applicant has been credited to the Municipal Fund.

Order of the Chairman.

No. 1688 T.M.—The 9th September 1902.—It is hereby notified that the members of th Jamui Local Board, in the district of Monghyr, having at a meeting under section 25 of the Bengal Local Self-Government Act, III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section to appoint Mr. J. Hezlett to be the Chairman of that Local Board.

Monghyr.

No. 1697T.M.—The 9th September 1902.—It is hereby notified for general information that, under section 8 of the Bengal Municipal Act, III of 1884 as amended up to 1st November 1896, the Lieutenant-Governor intends to extend the provisions of the Act to the town of Ulubaria and its adjoining villages, named in the margin, which lie in the district of Howrah, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the area affected. The boundaries of the proposed Municipality, which will be called the Ulubaria Municipality, will be as follows:—

Howrah.

Fulesvar.
Baikantapur.
Jagannathpur.
Latibpur.
Nona.
Hatkaliganj.

Boundaries of the proposed Municipality at Ulubaria.

On the North.—A road running just on the west of Biri Chandi Thakurtola, parallel to a khal up to Hatmarai, where it meets on the Banshpati khal, and thence to Hem Babu's *khoti*, and thence a straight line drawn up to Kotalghata *bund*.

On the East.—River Hooghly and thence a line drawn parallel to Rajapur khal up to railway embankment, and thence a line running north-west up to Tulshi Sircar's house, where it meets Kotalghata *bund* (Tulshi Babu's house is excluded from the Municipality).

On the South.—River Hooghly to Balai Suri's house and thence to Punchanontola, and thence a straight line up to Tinpukuria and thence along the Midnapur Canal up to Promotho and Shosi Ghoses' gardens.

On the West.—From Promotho and Shosi Babus' gardens up to Cuttack Road, and thence through a road west of Bhuth Nath Bagdi's house up to Bengal-Nagpur Railway embankment, and thence through the western side of Abinash Babu's house to Biri Chandi Thakurtola.

No. 1712T.M.—The 11th September 1902.—It is hereby notified that, under section 11 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to appoint the following gentlemen to be members of the several Local Boards in the district of Nadia:—

Nadia.

Local Boards.	Names of Members.
Sadar ...	Revd. E T. Butler. Mr. F. J. Smith. Molla Khodadad. Babu Surendra Nath Goswami.
Ranaghat ...	Babu Gati Krishna Neogy, Subdivisional Officer. „ Surendra Kumar Mukerji. „ Krishna Behary Roy.

The 27th January 1902.

RASH BEHARI SIRCAR,
Chairman

No. 1806T M.—The 16th September 1902.—In exercise of the power conferred by section 567 (1) of the Calcutta Municipal Act, III of 1899, the Lieutenant-Governor intends to make the following Rule to be added to Rule 2 of the Rules in Schedule IV of the Act, unless valid objections are raised to the contrary within six weeks from the date of the publication of this notification in the *Calcutta Gazette* :—

"(*c*) For the purposes of this rule the term 'year' shall mean the official year commencing on the 1st day of April."

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1704T.M.—The 11th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the District Board of Gaya for a public purpose, viz., for a dispensary building proposed to be constructed at Rafiganj, in the village of Abdulpore, pargana Chaikawan, zilla Gaya, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas and 3·80 chitaks of standard measurement, is required. The land is bounded on the north by the Obra-Rafiganj district road, on the south by the holdings of Modan Singh and Bharat Dhobi, on the east by the holdings of Banaudhi Barhi, and on the west by the holdings of Budhram Dhobi and Nandlal Kundu.

Gaya.

A plan of the land may be inspected in the office of the District Engineer, Gaya.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1708T.M.—The 11th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Naraingunge Municipality for a public purpose, viz., for the construction of a cemetery for the European residents of the town in the village of Krishnapur, pargana Kashipur, zilla Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha 16 cottahs and 13 dhurs of standard measurement, is required. The land is bounded on the north by the cultivated land of Abbas, on the south by the cultivated land of Arabdi, on the east by the cultivated land of Abbas, and on the west by the municipal road cutting.

Dacca.

A plan of the land may be inspected in the office of the Chairman of the Naraingunge Municipality.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

LAND SALE NOTICES.

APPENDIX XXX.

[See Chapter III, Rule 9]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Chittagong, will be put up to sale at 11 o'clock on Monday the 22nd September 1902, corresponding with the 6th of Ashwin 1309 B.S., at the Collector's office, Chittagong

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Chittagong, the 26th July 1902.

E. GEARE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Tippera, will be put up to sale at 12 o'clock on the 26th day of September 1902, corresponding with the 10th Asvin 1309 Fasli, at the office of the Collector of Tippera.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the District Collector of the orders of the Board confirming the sale.

Saran Collectorate, the 18th August 1902.

P. G. ROGERS, *for* Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Khulna, will be put up to sale at the Khulna Collectorate on the 29th September 1902, corresponding to 13th Aswin 1309 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Tippera Collectorate, the 26th July 1902. H. W. SCROOPE, Collector.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Shomsher Khan Chowdhury, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also

retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot.	District, subdivision, and thana.	Area.	Boundaries.
Lot No. 162, second portion.	24-Parganas, Basirhat, Hossainabad.	Bighas. 6,097	*North.*—By a portion of the Gumti khal, which falls into the Kalindi river. *East.*—By a portion of the Kalindi river. *South.*—By a line bearing 241° drawn from a point on the west bank of the Kalindi river up to a point on the east bank of the Sogunkhali khal, which falls into the Raimongal river, and by a portion of the said Sogunkhali khal up to its junction with the Chingradhopa or Koriar khal. *West.*—By a portion of the Chingradhopa or Koriar khal and by a line bearing 26° drawn from a point on the north bank of the Chingradhopa or Koriar khal to a point on the south bank of the Gumti khal. All the above boundaries are as shown in Sundarbans Commissioner Mr. Sunder's map of season 1901-1902.

Alipur, the 5th September 1902. D. SUNDER, Commissioner in the Sundarbans, Bengal.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Kali Krishna Adock, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription, payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8.

Ditto, ditto (Overland rate) Rs. 28.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th September, 1902:

No. 9 OF 1902.

A Bill further to amend the Provident Funds Act, 1897.

WHEREAS it is expedient further to amend the Provident Funds Act, 1897; It is hereby enacted as follows:

1 of 1897.

1. This Act may be called the Provident Funds (Amendment) Act, 1902.

Short title.

2. For section 4 of the Provident Funds Act, 1897, the following section shall be substituted, namely:

of 1897.

Substitution of new section for section 4, Act IX, 1897.

"4. (*1*) Compulsory deposits in any Government or Railway Provident Fund shall not be liable to any attachment under any decree or order of a Court of Justice in respect of any debt or liability incurred by a subscriber to, or depositor in, any such Fund, and neither the Official Assignee nor a Receiver appointed under Chapter XX of the Code of Civil Procedure shall be entitled to, or have any claim on, such compulsory deposit.

XIV of 1882.

Protection to deposits and other sums in certain cases.

(*2*) Any sum standing to the credit of any subscriber to, or depositor in, any such Fund at the time of his decease and payable under the rules of the Fund or under this Act to the widow or the children, or partly to the widow and partly to the children, of the subscriber or depositor, or to such person as may be authorized by law to receive payment on her or their behalf, shall vest in the widow or the children, or partly in the widow and partly in the children, as the case may be, free from any debt or other liability incurred by the deceased, or incurred by the widow or by the children, or by any one or more of them, before the death of such subscriber or depositor.

"(*3*) Nothing in sub-section (*2*) shall apply in the case of any such subscriber or depositor as aforesaid dying before the day of 190 ."

STATEMENT OF OBJECTS AND REASONS.

THE present Bill has been framed to secure more completely to the widows and children of subscribers to, and depositors in, Government or Railway Provident Funds the protection intended to be given by the Provident Funds Act, 1897 (IX of 1897). As section 4 of that enactment is at present worded, the protection, which is limited to compulsory deposits, ceases at the death of the subscriber or depositor in so far as the funds standing to his credit form portion of his estate and are liable to be applied, in execution

6 *a*

of a decree or order or in the course of administration, to the satisfaction of his debts. Similarly, the exemption from attachment is confined to debts and liabilities incurred by him and does not extend to debts and liabilities to which the widow and children have been made parties during his lifetime. The substituted section now proposed is designed to remove the hardship arising in such cases by extending to any sum standing to the credit of a subscriber to, or depositor in, any such Fund at the time of his decease and payable under the rules of the Fund or the provisions of the Act to his widow or children protection from any debts or liabilities incurred by the deceased or by his widow or children during the life of the deceased.

The 2nd September, 1902. DENZIL IBBETSON.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th September, 1902:

NO. 10 OF 1902.

THE INDIAN WORKS OF DEFENCE BILL.

CONTENTS.

PART I.

PRELIMINARY.

SECTIONS.

1. Short title and extent.
2. Definitions.

PART II.

IMPOSITION OF RESTRICTIONS.

3. Declaration and notice that the restrictions will be imposed.
4. Powers exercisable after publication of notice under section 3, sub-section (*2*).
5. Restrictions.
6. Land to be marked out, measured, registered and mapped.
7. Notice to persons interested.
8. Power to require and enforce the making of statements as to names and interests.
9. Inquiry and award by Collector.

SECTIONS.

10. Award of Collector when to be final.
11. Adjournment of inquiry.
12. Power to summon and enforce attendance of witnesses and production of documents.
13. Matters to be considered and neglected.

PART III.

REFERENCE TO COURT AND PROCEDURE THEREON.

14. Reference to Court.
15. Collector's statement to the Court.
16. Service of notice.
17. Restriction on scope of proceedings.
18. Proceedings to be in open Court.
19. Matters to be considered in determining compensation.
20. Matters not to be considered in determining compensation.
21. Rules as to amount of compensation.
22. Form of awards.
23. Costs.
24. Collector may be directed to pay interest on excess compensation.

PART IV.

APPORTIONMENT OF COMPENSATION.

25. Particulars of apportionment to be specified.
26. Dispute as to apportionment.

PART V.

PAYMENT.

27. Payment of compensation or deposit of same in Court.

The Indian Works of Defence Bill.

(Part I.—Preliminary.—Sections 1-2.)

SECTIONS.

28. Investment of money deposited in respect of lands belonging to persons incompetent to alienate.
29. Investment of money deposited in other cases.
30. Payment of interest.

PART VI.

MISCELLANEOUS.

31. Service of notices.
32. Penalties.
33. Magistrate to enforce the terms of the Act.
34. Completion of imposition of restrictions not compulsory, but compensation to be awarded when not completed.
35. Demolition of part of house or building.
36. Exemption from stamp-duty and fees.
37. Notice in case of suits for anything done in pursuance of Act.
38. Code of Civil Procedure to apply to proceedings before Court.
39. Appeals in proceedings before Court.
40. Power to make rules.

A Bill to provide for imposing restrictions upon land in the vicinity of works of defence in order that such land may be kept free from buildings and other obstructions.

WHEREAS it is expedient to provide for imposing restrictions upon land in the vicinity of works of defence in order that such land may be kept free from buildings and other obstructions; It is hereby enacted as follows:

PART I.

PRELIMINARY.

Short title and extent.

1. (*1*) This Act may be called the Indian Works of Defence Act, 1902; and

(*2*) It extends to the whole of British India, including British Baluchistan, the Santal Parganas and the Pargana of Spiti.

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

(*a*) the expression "land" includes benefits to arise out of land, and things attached to the earth or permanently fastened to anything attached to the earth:

(*b*) the expression "person interested" includes all persons claiming an interest in compensation to be made on account of the imposition of restrictions upon land under this Act; and a person shall be deemed to be interested in land if he is interested in an easement affecting the land:

(*c*) the expression "command" means one of the principal portions into which the Army of India is, for the time being, divided:

(*d*) the expression "General Officer of the Command" means the General Officer Commanding the Forces in a Command:

(*e*) the expression "Commanding Officer" means the officer for the time being in command of a work of defence:

(*f*) the expression "Collector" includes any officer specially appointed by the Local Government to perform the function of a Collector under this Act:

(*g*) the expression "Court" means a principal Civil Court of original jurisdiction, unless the Local Government has appointed (as it is hereby empowered to do) a special judicial officer within any specified local limits to perform the functions of the Court under this Act: and

(*h*) the following persons shall be deemed "entitled to act" as and to the extent hereinafter provided, that is to say,—

trustees for other persons beneficially interested shall be deemed the persons entitled to act with reference to any such case, and that to the same extent as the persons beneficially interested could have acted if free from disability:

a married woman, in cases to which the English law is applicable, shall be deemed the person so entitled to act, and, whether of full age or not, to the same extent as if she were unmarried and of full age: and

the guardians of minors and the committees or managers of lunatics or idiots shall be deemed respectively the persons so entitled to act, to the same extent as the minors, lunatics or idiots themselves, if free from disability, could have acted:

Provided that—

(*i*) no person shall be deemed "entitled to act" whose interest in the subject-matter is shown to the satisfaction of the Collector or Court to be adverse to the interest of the person interested for whom he would otherwise be entitled to act;

(*ii*) in every such case the person interested may appear by a next friend or, in default of his appearance by a next friend, the Collector or Court, as the case may be, shall appoint a guardian for the case to act on his behalf in the conduct thereof;

(*iii*) the provisions of Chapter XXXI of the Code of Civil Procedure shall, *mutatis mutandis*, apply in the case of persons interested appearing before a Collector or Court by a next friend, or by a guardian for the case, in proceedings under this Act; and XIV of

(*iv*) no person "entitled to act" shall be competent to receive the compensation-money payable to the person for whom he is entitled to act, unless he would

The Indian Works of Defence Bill.

(Part II.—Imposition of Restrictions.—Sections 3-5.)

have been competent to alienate the land upon which restrictions are to be imposed and receive and give a good discharge for the purchase-money on a voluntary sale.

PART II.

IMPOSITION OF RESTRICTIONS.

Declaration and notice that the restrictions will be imposed.

3. (*1*) Whenever it appears to the Local Government that it is necessary to impose restrictions upon land in the vicinity of any work of defence or of any site intended to be used or to be acquired for any such work in order that such land may be kept free from buildings and other obstructions, a declaration shall be made to that effect under the signature of a Secretary to such Government or of some officer duly authorized to certify its orders.

(*2*) The said declaration shall be published in the local official Gazette and shall state the district or other territorial division in which the land is situate and the place where a plan of the land, which shall be prepared on a scale not smaller than six inches to the mile and shall distinguish the boundaries referred to in section 5, may be inspected ; and the Collector shall cause public notice of the substance of the said declaration to be given at convenient places in the locality.

(*3*) The said declara ion shall be conclusive proof that it is necessary to keep the land free from buildings and other obstructions.

Powers exercisable after publication of notice under section 3, sub section (*2*).

4. (*1*) It shall be lawful for such officer as the Local Government may, by general or special order, authorize in this behalf, at any time after the expiration of fourteen days from the publication of the notice mentioned in section 3, sub-section (*2*), and from time to time to enter and demolish any buildings or other constructions on the surface, to cut down or grub up all or any of the trees, to remove or alter all or any of the banks, fences, hedges and ditches, to make underground and other drains, to fill up all excavations, and demolish all buildings and other constructions, below the surface, and generally to level and clear the said land and do all such acts for levelling and clearing the same as he may deem necessary or proper, but in such manner nevertheless that evidence of the boundaries of the lands held by different owners may be preserved.

(*2*) Save as hereinafter excepted by sub-section (*3*), the powers conferred by sub-section (*1*) shall not be exercised after the expiry of the period of six months from the date of the publication of the notice aforesaid or of any shorter period at the expiry of which the officer exercising such powers gives notice to the Collector that there will be no further exercise of the same.

(*3*) Nothing in sub-section (*2*) shall be deemed to preclude any such officer from exercising the said powers for the purpose of removing, wholly or in part, any building or other obstruction maintained, created, added to, altered, planted, stacked, stored or otherwise accumulated in contravention of this Act or of any rule or order made thereunder or of any condition prescribed in accordance therewith.

Restrictions.

5. From and after the publication of the notice mentioned in section 3, sub-section (*2*), such of the following restrictions as the Local Government may in its discretion declare therein shall attach with reference to such land, namely :

(*a*) Within an outer boundary which, except so far as is otherwise provided in section 35, sub-section (*4*), may extend to a distance of two thousand yards from the crest of the outer parapet of the work,—

(*i*) no variation shall be made in the ground-level, and no building, wall, bank or other construction above the ground shall be maintained, erected, added to or altered otherwise than with the written approval of the General Officer of the Command and the Director General of Military Works, and on such conditions as they may prescribe ;

(*ii*) no wood, earth, stone, brick, gravel, sand or other material shall be stacked, stored or otherwise accumulated :

Provided that, with the written approval of the General Officer Commanding the District and on such conditions as he may prescribe, manure and agricultural produce may be exempted from the prohibition.

Provided, also, that any person having control of the land as owner, lessee or occupier shall be bound forthwith to remove such manure or agricultural produce, without compensation, on the requisition of the Commanding Officer ;

(*iii*) no surveying operation shall be conducted otherwise than by or under the personal supervision of a public servant duly authorised in this behalf by the Collector with the concurrence of the Commanding Officer ; and

(*iv*) where any building, wall, bank or other construction above the ground has been permitted under clause (*i*) of this sub-section to be maintained, erected, added to or altered, repairs shall not, without the written approval of the General Officer of the Command, be made with materials different in kind from those employed in the original building, wall, bank or other construction.

(*b*) Within a second boundary which may extend to a distance of one thousand yards from the crest of the outer parapet of the work, the restrictions enumerated in sub-section (*1*) shall apply with the following additional limitations, namely :

(*i*) no building, wall, bank or other construction of permanent materials above the ground shall be maintained or erected :

Provided that, with the written approval of the General Officer of the Command and the Director General of Military Works and on such conditions as they may prescribe, huts, fences and other constructions of wood or other materials, easily destroyed or removed, may be maintained, erected, added to or altered :

The Indian Works of Defence Bill.

(Part II.—Imposition of Restrictions.—Sections 6-11.)

Provided, also, that any person having control of the land as owner, lessee or occupier shall be bound forthwith to destroy or remove such huts, fences or other constructions, without compensation, upon an order in writing signed by the General Officer Commanding the District; and

(*ii*) live hedges, rows or clumps of trees or orchards shall not be maintained, planted, added to or altered otherwise than with the written approval of the General Officer of the Command and of the Director General of Military Works and on such conditions as they may prescribe.

(*c*) Within a third boundary which may extend to a distance of five hundred yards from the crest of the outer parapet of the work, the restrictions enumerated in sub-sections (*1*) and (*2*) shall apply with the following additional limitation, namely:

no building or other construction on the surface, and no excavation, building or other construction below the surface, shall be maintained or erected:

Provided that, with the written approval of the Commanding Officer and on such conditions as he may prescribe, open railings and dry brush-wood fences may be exempted from this prohibition.

Land to be marked out, measured registered and mapped.

6. As soon as may be after the publication of the declaration aforesaid, the Collector shall cause the land to be marked out and measured, and shall also prepare a register and a map on a scale not smaller than six inches to the mile, showing accurately every building, tree or other obstruction.

Notice to persons interested.

7. (*1*) On the expiry of the period of six months or on the prior receipt of the notice (if any) given to the Collector under section 4, sub-section (*2*), the Collector shall cause public notice to be given at convenient places on or near the land, stating the effect of the said declaration and that claims to compensation for all interests in such land affected by anything done or ordered in pursuance of such declaration may be made to him.

(*2*) Such notice shall state the particulars of any restrictions attaching to the land, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land and the amount and particulars of their claims to compensation for damage to such interests and their objections (if any) to the measurements made under section 6. The Collector may in any case require such statement to be made in writing and signed by the party or his agent.

(*3*) The Collector shall also serve notice to the same effect on the occupier (if any) of such land and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside or have agents authorised to receive service on their behalf, within the revenue-district in which the land is situate.

(*4*) In case any person so interested resides elsewhere, and has no such agent, the notice shall be sent to him by post in a letter addressed to him at his last known residence, address or place of business and registered under the Indian Post Office Act, 1898. VI of 1898

Power to require and enforce the making of statements as to names and interests.

8. (*1*) The Collector may also require any such person to make or deliver to him, at a time and place mentioned (such time not being earlier than fifteen days after the date of the requisition), a statement containing, so far as may be practicable, the name of every other person possessing any interest in the land or any part thereof as co-proprietor, sub-proprietor, mortgagee, tenant or otherwise, and of the nature of such interest, and of the rents and profits (if any) received or receivable on account thereof for three years next preceding the date of the statement.

(*2*) Every person required to make or deliver a statement under this section or section 9 shall be deemed to be legally bound to do so within the meaning of sections 175 and 176 of the Indian Penal Code. XLV of 1860

Inquiry and award by Collector.

9. On the day so fixed, or on any other day to which the inquiry has been adjourned, the Collector shall proceed to inquire into the objections (if any) which any person interested has stated pursuant to a notice given under section 7 to the measurements made under section 6, and into the value of the land, and into the respective interests of the persons claiming the compensation, and shall make an award under his hand of—

(*a*) the true area of the land and the nature of the obstructions from which the land is to be kept free;

(*b*) the compensation which in his opinion should be allowed for any damage caused under section 4 and of any restrictions imposed under section 5; and

(*c*) the apportionment of the said compensation among all the persons known or believed to be interested in the land, of whom or of whose claims he has information, whether they have respectively appeared before him or not.

Award of Collector when to be final.

10. (*1*) Such award shall be filed in the Collector's office and shall, except as hereinafter provided, be final and conclusive evidence, as between the Collector and the persons interested, whether they have respectively appeared before the Collector or not, of the true area of the land, the nature of the said obstructions, the value of the rights restricted, and the apportionment of the compensation among the persons interested.

(*2*) The Collector shall give immediate notice of his award to such of the persons interested as are not present personally or by their representatives when the award is made.

Adjournment of inquiry.

11. The Collector may, for any cause he thinks fit, from time to time adjourn the inquiry to a day to be fixed by him.

The Indian Works of Defence Bill.

(Part II.—Imposition of Restrictions.—Sections 12-13. Part III.—Reference to Court and Procedure thereon.—Sections 14-20)

Power to summon and enforce attendance of witnesses and production of documents.

12. For the purpose of inquiries under this Act the Collector shall have power to summon and enforce the attendance of witnesses, including the parties interested or any of them, and to compel the production of documents, by the same means, and (so far as may be) in the same manner, as is provided in the case of a Civil Court under the Code of Civil Procedure. XIV of 1882.

Matters to be considered and neglected.

13 In determining the amount of compensation, the Collector shall be guided by the provisions contained in sections 19 and 20.

PART III.

REFERENCE TO COURT AND PROCEDURE THEREON.

Reference to Court.

14. (*1*) Any person interested who has not accepted the award may, by written application to the Collector, require that the matter be referred by the Collector for the determination of the Court, whether his objection be to the measurement of the land, the amount of the compensation, the persons to whom it is payable, or the apportionment of the compensation among the persons interested.

(*2*) The application shall state the grounds on which objection to the award is taken:

Provided that every such application shall be made,—

(*a*) if the person making it was present or represented before the Collector at the time when he made his award, within six weeks from the date of the Collector's award;

(*b*) in other cases, within six weeks of the receipt of the notice from the Collector under section 10, sub-section (*2*), or within six months from the date of the Collector's award, whichever period shall first expire.

Collector's statement to the Court.

15. (*1*) In making the reference the Collector shall state, for the information of the Court, in writing under his hand,—

(*a*) the situation and extent of the land with particulars of any damage caused under section 4 or of restrictions imposed under section 5;

(*b*) the names of the persons whom he has reason to think interested in such land;

(*c*) the amount of compensation awarded under section 9; and,

(*d*) if the objection be to the amount of the compensation, the grounds on which the amount of compensation was determined.

(*2*) To the said statement shall be attached a schedule giving the particulars of the notices served upon, and of the statements in writing made or delivered by, the parties interested respectively.

Service of notice.

16. The Court shall thereupon cause a notice specifying the day on which the Court will proceed to determine the objection, and directing their appearance before the Court on that day, to be served on the following persons, namely:

(*a*) the applicant;

(*b*) all persons interested in the objection, except such (if any) of them as have consented without protest to receive payment of the compensation awarded; and,

(*c*) if the objection is in regard to the area of the land, the nature of the obstructions or the amount of the compensation, the Collector.

Restriction on scope of proceedings.

17. The scope of the inquiry in every such proceeding shall be restricted to a consideration of the interests of the persons affected by the objection.

Proceedings to be in open Court.

18. Every such proceeding shall take place in open Court, and all persons entitled to practise in any Civil Court in the Province shall be entitled to appear, plead and act, as the case may be, in such proceeding.

Matters to be considered in determining compensation.

19. (*1*) In determining the amount of compensation to be awarded for damage caused or for restrictions imposed under this Act, the Court shall take into consideration—

(*a*) the actual decrease in market-value of the land from the date of the publication of the declaration relating thereto under section 3;

(*b*) the damage sustained by the person interested, by reason of the removal of any standing crops or trees in the exercise of any power conferred by section 4;

(*c*) the damage (if any) sustained by the person intested, by reason of ceasing to be able to use such land conjointly with his other land;

(*d*) the damage (if any) sustained by the person interested by anything done or ordered under sections 4 and 5 injuriously affecting his other property, moveable or immoveable, in any other manner, or his earnings; and,

(*e*) if, in consequence of the imposition of restrictions, the person interested is compelled to change his residence or place of business, the reasonable expenses (if any) incidental to such change.

(*2*) In addition to the amount representing the actual decrease in the market-value of the land as above provided, the Court shall in every case award a further sum of fifteen per centum on such amount.

Matters not to be considered in determining compensation.

20. In determining the amount of compensation to be awarded for damage caused or for restrictions imposed under this Act, the Court shall not take into consideration—

(*a*) the degree of urgency which has led to the damage or the imposition of restrictions;

(*b*) any disinclination of the person interested to submit to damage or restrictions;

(*c*) any damage sustained by him, which, if caused by a private person, would not render such person liable to a suit,

The Indian Works of Defence Bill.

(Part III.—Reference to Court and Procedure thereon.—Sections 21-24. Part IV.—Apportionment of Compensation.—Sections 25 26. Part V.—Payment.—Sections 27-28.)

(*d*) any increase to the value of the land or of the other land of the person interested, accruing or likely to accrue from anything done under this Act; or

(*e*) any outlay or improvements on, or disposal of, the land acquired, commenced, made or effected without the sanction of the Collector after the date of the publication of the declaration under section 3.

Rules as to amount of compensation.

21. (*1*) When the applicant has made a claim to compensation, pursuant to any notice given under section 7, the amount awarded to him by the Court shall not exceed the amount so claimed or be less than the amount awarded by the Collector under section 9.

(*2*) When the applicant has refused to make such claim or has omitted without sufficient reason (to be allowed by the Judge) to make such claim, the amount awarded by the Court shall in no case exceed the amount awarded by the Collector.

(*3*) When the applicant has omitted for a sufficient reason (to be allowed by the Judge) to make such claim, the amount awarded to him by the Court shall not be less than, and may exceed, the amount awarded by the Collector.

Form of awards.

22. Every award under this Part shall be in writing signed by the Judge and shall specify the amount awarded under section 19, sub-section (*1*), clause (*a*), and also the amounts (if any) respectively awarded under each of the other clauses of the same sub-section, together with the grounds of awarding each of the said amounts.

Costs.

23. (*1*) Every such award shall also state the amount of costs incurred in the proceedings under this Part, and by what persons and in what proportion they are to be paid.

(*2*) When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector, unless the Court is of opinion that the claim of the applicant was so extravagant or that he was so negligent in putting his case before the Collector that some deduction from his costs should be made or that he should pay a part of the Collector's costs.

Collector may be directed to pay interest on excess compensation.

24. If the sum which, in the opinion of the Court, the Collector ought to have awarded as compensation is in excess of the sum which the Collector did award as compensation, the Court may direct that the Collector shall pay interest on such excess at the rate of six per centum per annum from the date of his award to the date of payment of such excess into Court.

PART IV.

APPORTIONMENT OF COMPENSATION.

Particulars of apportionment to be specified.

25. Where there are several persons interested, if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.

Dispute as to apportionment.

26. When the amount of compensation has been settled under section 9, if any dispute arises as to the apportionment of the same or any part thereof, or as to the persons to whom the same or any part thereof is payable, the Collector may refer such dispute to the decision of the Court.

PART V.

PAYMENT.

Payment of compensation or deposit of same in Court.

27. (*1*) On making an award under section 9, the Collector shall tender payment of the compensation awarded by him to the persons interested entitled thereto according to the award, and shall pay it to them unless prevented by some one or more of the contingencies mentioned in sub-section (*2*).

(*2*) If they do not consent to receive it, or if there is no person competent to alienate the land, or if there is any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation in the Court to which a reference under section 14 would be submitted:

Provided, first, that any person admitted to be interested may receive such payment under protest as to the sufficiency of the amount:

Provided, secondly, that no person who has received the amount otherwise than under protest shall be entitled to make any application under section 14:

Provided, thirdly, that nothing herein contained shall affect the liability of any person, who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

(*3*) Notwithstanding anything in this section, the Collector may, with the sanction of the Local Government, instead of awarding a money-compensation in respect of any land, make any arrangement with a person having a limited interest in such land, either by the grant of other lands in exchange, the remission of land-revenue on the same or on other lands held under the same title, or in such other way as may be equitable having regard to the interests of the parties concerned.

(*4*) Nothing in sub-section (*3*) shall be construed to interfere with or limit the power of the Collector to enter into any arrangement with any person interested in the land and competent to contract in respect thereof.

Investment of money deposited in respect of lands belonging to persons incompetent to alienate.

28 (*1*) If any money is deposited in Court under section 27, sub-section (*2*), and it appears that the land in respect of which the same was awarded belonged to any person who had no power to alienate the same, the Court shall—

(*a*) order the money to be invested in the purchase of other lands to be held under the like title and conditions of ownership as the land in respect of which such money was deposited is held, or,

The Indian Works of Defence Bill.

(Part V.—Payment.—Sections 29-30. Part VI.—Miscellaneous.—Sections 31-34.)

(*b*) if such purchase cannot be effected forthwith, then in such Government or other approved securities as it thinks fit;

and shall direct the payment of the interest or other proceeds arising from such investment to the person or persons who would for the time being have been entitled to the possession of the said land, and such moneys shall remain so deposited and invested until the same are applied—

(*i*) in the purchase of such other lands as aforesaid; or

(*ii*) in payment to any person or persons becoming absolutely entitled thereto

(*2*) In all cases of moneys deposited to which this section applies, the Court shall order the cost of the following matters, including therein all reasonable charges and expenses incident thereto, to be paid by the Collector, namely:

(*a*) the costs of such investments as aforesaid;

(*b*) the costs of the orders for the payment of the interest or other proceeds of the securities upon which such moneys are for the time being invested, and for the payment out of Court of the principal of such moneys and of all proceedings relating thereto, except such as may be occasioned by litigation between adverse claimants.

Investment of money deposited in other cases.

29. If any money is deposited in Court under this Act for any cause other than that mentioned in section 28, the Court may, on the application of any party interested or claiming an interest in such money, order the same to be invested in such Government or other approved securities as it thinks fit, and may direct the interest or other proceeds of any such investment to be accumulated and paid in such manner as will, in its opinion, give the parties interested therein the same benefit therefrom as they might have had from the land in respect of which such money was deposited or as near thereto as may be.

Payment of interest.

30. When the amount of such compensation is not paid or deposited within seven days of making the award, the Collector shall pay the amount awarded with interest thereon at the rate of six per centum per annum from the date of the award until it is so paid or deposited.

PART VI.

MISCELLANEOUS.

Service of notices.

31. (*1*) Service of any notice under this Act shall be made by delivering or tendering a copy thereof signed, in the case of a notice under section 3, sub-section (*2*), by the officer therein mentioned, and, in the case of any other notice, by or by order of the Collector or the Judge.

(*2*) Whenever it may be practicable, the service of the notice shall be made on the person therein named.

(*3*) When such person cannot be found, the service may be made on any adult male member of his family residing with him; and, if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business, or by fixing a copy thereof in some conspicuous place in the office of the officer aforesaid or of the Collector or in the court-house and also in some conspicuous part of the land upon which restrictions are to be imposed:

Provided that, if the Collector or Judge so directs, a notice may be sent by post in a letter addressed to the person named therein at his last known residence, address or place of business and registered under the Indian Post Office Act, 1898, and service of it may be proved by the production of the addressee's receipt. VI of 1898.

Penalties.

32. Whoever wilfully—

(*a*) obstructs any person in doing any of the acts authorised by section 4 or section 6, or

(*b*) destroys, damages, alters or otherwise interferes with the ground-level or any work done under section 4, or

(*c*) contravenes any of the provisions of section 5 or any condition prescribed thereunder,

shall be punishable with imprisonment for a term which may extend to one month, or with fine which may extend to fifty rupees, or with both, and, in the case of a continuing offence, with an additional fine which may extend to five rupees for every day after the first in regard to which he is convicted of having persisted in the offence; and any expenses incurred in removing the effects of his offence may be recovered from him in the manner provided by the law for the time being in force for the recovery of fines.

Magistrate to enforce the terms of the Act.

33. If the Collector or officer authorized under section 4 is opposed or impeded in doing anything directed or permitted by this Act, he shall, if a Magistrate, enforce compliance, and, if not a Magistrate, he shall apply to a Magistrate or (within the towns of Calcutta, Madras and Bombay) to the Commissioner of Police, and such Magistrate or Commissioner (as the case may be) shall enforce compliance.

Completion of imposition of restrictions not compulsory, but compensation to be awarded when not completed.

34. (*1*) The Government shall be at liberty to withdraw from the imposition of any declared restrictions before any of the measures authorized by section 4 have been taken.

(*2*) Whenever the Government withdraws the imposition of any declared restrictions, the Collector shall determine the amount of compensation due for the damage suffered by the owner in consequence of the notice or of any proceedings thereunder, and shall pay such amount to the person interested, together with all costs reasonably incurred by him in the prosecution of the proceedings under this Act relating to the said restrictions.

(*3*) The provisions of Part III shall apply, so far as may be, to the determination of the compensation payable under this section.

The Indian Works of Defence Bill.

(Part VI.—Miscellaneous.—Sections 35-40.)

35. (*1*) The provisions of this Act shall not be put in force for the purpose of demolishing or acquiring the right to demolish a part only of any house, manufactory or other building, if the owner desires that the whole of such house, manufactory or building shall be demolished or that the right to demolish the whole of it shall be acquired :

Demolition of part of house or building

Provided that the owner may at any time before the Collector has made his award under section 9, by notice in writing, withdraw or modify his expressed desire that the whole of such house, manufactory or building shall be demolished or that the right to demolish the whole of it shall be acquired :

Provided, also, that, if any question shall arise as to whether any building or other construction proposed to be demolished under this Act does or does not form part of a house, manufactory or building within the meaning of this section, the Collector shall refer the determination of such question to the Court and shall not demolish such building or other construction until after the question has been determined.

In deciding on such a reference the Court shall have regard to the question whether the building or other construction proposed to be demolished is reasonably required for the full and unimpaired use of the house, manufactory or building.

(*2*) If, in the case of any claim under section 19, sub-section (*1*) clause (*c*), by a person interested, on account of ceasing to be able to use the land, upon which restrictions are to be imposed, conjointly with his other land, the Local Government is of opinion that the claim is unreasonable or excessive, it may, at any time before the Collector has made his award, order the imposition of restrictions upon the whole of the land of which the land upon which it was first sought to impose restrictions forms a part.

(*3*) In the case provided for by sub-section (*2*) no fresh declaration or other proceeding under sections 3 to 8 shall be necessary ; but the Collector shall without delay furnish a copy of the order of the Local Government to the person interested, and shall thereafter proceed to make his award under section 9.

(*4*) Notwithstanding anything contained in section 5, clause (*a*), any land, upon which restrictions are imposed under this section may be included in the outer boundary, even though its distance from the crest of the outer parapet of the work exceeds two thousand yards.

36. No award or agreement made under this Act shall be chargeable with stamp-duty, and no person claiming under any such award or agreement shall be liable to pay any fee for a copy of the same.

Exemption from stamp-duty and fees.

37. No suit or other proceeding shall be commenced or prosecuted against any person for any thing done in pursuance of this Act, without giving to such person a month's previous notice in writing of the intended proceeding, and of the cause thereof, nor after tender of sufficient amends.

Notice in case of suits for anything done in pursuance of Act.

38. Save in so far as they may be inconsistent with anything contained in this Act, the provisions of the Code of Civil Procedure shall apply to all proceedings before the Court under this Act.

Code of Civil Procedure to apply to proceedings before Court.

XIV of 1882.

39. Subject to the provisions of the Code of Civil Procedure applicable to appeals from original decrees, an appeal shall lie to the High Court from the award or from any part of the award of the Court in any proceeding under this Act.

Appeals in proceedings before Court.

XIV of 1882.

40. (*1*) The Governor General in Council and the Local Government, with the previous sanction of the Governor General in Council, may make rules for the guidance of officers in all matters connected with the enforcement of this Act.

Power to make rules.

(*2*) The power to make rules under sub-section (*1*) shall be subject to the condition of the rules being made after previous publication.

(*3*) All rules made under sub-section (*1*) shall be published in the local official Gazette and shall thereupon have effect as if enacted in this Act.

STATEMENT OF OBJECTS AND REASONS.

THE object of the present Bill is to enable the Government to maintain, clear of buildings and obstructions, such zones of fire in the vicinity of works of defence as are essential to their defensive value under the conditions of modern warfare and in view, more especially, of the increasing range of firearms. The necessity for measures of this nature has long been recognized by the legislatures of most European countries ; and in the United Kingdom very extensive powers have been vested in the Government by the Works of Defence Act, 1860 (23 & 24 Vict., c. 112). In British India the absence of a similar enactment has, of late, been productive of serious difficulty, particularly where the land in the neighbourhood of bridge-heads and redoubts in or near cities has become valuable

for building-sites. It has been proved that the Government cannot effect complete or permanent arrangements for restraining the erection of buildings without recourse to out-and-out purchase under the provisions of the Land Acquisition Act, 1894 (I of 1894), which, in view of the object contemplated, involves a disproportionate expenditure of public money and an excessive interference with private property. In these circumstances, it is proposed to provide, on the principle adopted in France, for the establishment, round works of defence, of concentric zones in which restrictions of varying stringency may be imposed ; and for this purpose the English statute has been closely followed in regard to the procedure for the issue of notifications and the exercise of rights of demolition, subject, however, to the important concession that the period within which all acts in pursuance of such rights must be completed have been reduced from three years to six months. In the matter of the award of compensation, the provisions of the Land Acquisition Act, 1894, have been adapted on the principle that, as the sites of works of defence must ordinarily be acquired in conformity with that enactment, the imposition of restrictions upon adjoining property should be subject to equally stringent safeguards in the interests of landowners.

The 29th August 1902. E. R. ELLES.

J. M. MACPHERSON,
Secretary to the Government of India.

NOTICE TO MARINERS—No. 265.

[First Publication.]

JAPAN—INLAND SEA—HARIMA NADA.

Sakoshi bay—Okayama port—Rocks and shoals.

THE British Admiralty has given notice (No. 511 of 1902) of the existence of the following rocks in the undermentioned positions in Harima nada—

SAKOSHI BAY—

A rock, with a depth of 3 fathoms over it, situated with the eastern extremity of Ikisima bearing N. 6° E., distant 8 cables, and northern extremity of Kazura sima S. 83° E.

Approximate position, lat. 34° 45′ N., long. 134° 26′ E.

This rock is on the extremity of a ledge, with a depth of 3 fathoms over it extending from the northern point of Otomari bay.

A rock, named Toinosowai, with a depth of 3¾ fathoms over it, situated with the south-eastern point of Utabo sima bearing S. 78° W., distant 3¼ cables, and the north-eastern point of the same island N. 65° W.

Approximate position, lat. 34° 41′ N., long. 134° 18′ E.

OKAYAMA PORT—

(1) A depth of 3¾ fathoms, sand and mud, has been found on the bank in the eastern approach to Okayama, situated with Kome saki bearing N 35° W., distant $1\frac{9}{10}$ miles, and northern extremity of Oko sima hana, the first point southward of Oko sima, N. 82° W.

(2) A shoal, with a depth of 4¾ fathoms, situated with Ishikiri point bearing N. 42° W., distant 12 cables, and south extremity of Oko sima hana S. 61° W. There is a depth of 5 fathoms three-quarters of a cable N. 31° W. from the above shoal.

(3) A shoal, with a depth of 3 fathoms over it, situated with Ishikiri point bearing N. 19° W., distant 11 cables, and southern extremity of Oko sima hana S. 57° W.

(4) A shoal, with a depth of 3 fathoms over it, situated with Kome saki bearing S. 22° W., distant 5¼ cables, and Kanga ishi Yama S. 78° W.

(5) Aiga she rock, situated 9 cables N. 8° E. from Kome saki, has a depth over it of about 5 feet.

Approximate position, lat. 34° 35′ N., long. 134° 2¾′ E.

To the westward of lines connecting shoals mentioned in 3, 4, 5, there are depths of less than 3 fathoms.

PORT WUSIMADO—

A shoal, with a depth over it of from 1½ to 3 fathoms, extends from a position with Naka-no-ko sima bearing S. 62° E, distant 6¼ cables, to a position with the same island bearing N. 80° E, distant 7 cables.

Approximate position, Naka-no-ko sima, lat. 34° 36′ N., long. 134° 9′ E.

(*Variation 4° Westerly in 1902.*)

This Notice affects the following Admiralty Charts:—Harima nada, No. 137; Harbours and Anchorages, Harima nada, No. 694. Also, China Sea Directory, vol. IV, 1894, pages 370, 371, 374.

RESOLUTION ON THE ANNUAL REPORT OF THE ARCHÆOLOGICAL SURVEY, BENGAL CIRCLE, FOR THE YEAR ENDING WITH APRIL 1902, AND THE REPORT.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 9th September 1902.

RESOLUTION—No. 2915.

READ—

The Annual Report of the Archæological Survey, Bengal Circle, for the year ending with April 1902.

The Second Annual Report of the Archæological Survey Department, Bengal Circle, has been submitted by Dr. Bloch, the Archæological Surveyor, who has been in charge of the Department since its constitution in April 1900. During the first year of his appointment the Archæological Surveyor visited the Puri, Cuttack, Murshidabad, Sonthal Parganas, Malda, and Dinajpur districts, spending about 60 days on tour. During the year under report he spent 145 days on tour in the districts of Champaran, Muzaffarpur, Gaya, Patna, Shahabad, Birbhum, Hooghly, Puri, Khulna, Dacca, and Mymensingh. The object of these tours of general inspection has been to ascertain what localities from their antiquarian interests are deserving of detailed and systematic exploration, and what antiquities should be preserved. Dr. Bloch has recently submitted programmes for future work; and the Lieutenant-Governor has decided that the

Buddhistic antiquities in the Bihar districts and especially the exploration of the site of the ancient Vaisali in Muzaffarpur district deserve first attention.

2. Dr. Bloch gave special attention during the year to the antiquities in the districts of Champaran, Patna, Gaya, and Shahabad. The most important remains in the district of Champaran are the three Asoka pillars, viz., the Rampurwa pillar and the two Lauriya pillars at the villages of Nandangarh and Araraj. In accordance with Dr. Bloch's recommendation, an estimate of the cost of replacing in position the Rampurwa pillar has been called for from the Superintending Engineer. The Lieutenant-Governor hears with regret of the vandal scribbling of names on the two Lauriya pillars, and desires that the district authorities will protect monuments from such acts so far as is possible.

The suggestion that the ancient rock-cut caves on the Barabar and Nagarjuni Hills should be protected from intrusion of *jogis* and *sadhus* must be considered by the Magistrate of Gaya, as also the proposal for the removal to the Indian Museum of the Buddhistic statues that are lying uncared for in the village of Bishenpur, in the district of Gaya.

The hill fort of Shergarh, an important relic of Sher Shah, in the district of Shahabad, is reported to be uncared for and overgrown with jungle. The local Public Works officer will be requested to make arrangements for the better protection of this interesting building. The Temple of Mundesvari and the tomb of Bakhtiyar Khan in this district are also worth preserving. A separate report on these monuments has been received from Dr. Bloch, and estimates for repairs have been called for from the Executive Engineer, Arrah Division.

Repairs of the Bhubaneswar and Kanarak Temples in the district of Puri are going on, and Dr. Bloch's recommendation regarding the cleaning of the carvings in some of the temples may be commended by the District Magistrate to the authorities in charge of these temples.

The Archæological Surveyor has submitted a separate report on the remains at Tribeni and Pandua, in the district of Hooghly, and has suggested certain petty repairs, which will be taken up when funds are available.

3. The total expenditure incurred last year on the repairs of ancient monuments amounted to Rs. 29,679, out of which a sum of Rs. 15,646 was expended on the repairs of the ruins at Gaur and Pandua, in the district of Malda, and Rs. 12,778 was spent on the repairs of the temples in the district of Puri; the gateway of the Juma Masjid near Rajmahal was also repaired, and wire netting was placed over the openings in Hasan Khan Sur's tomb and Sher Shah's tomb at Sassaram.

4. The "List of Ancient Monuments in Bengal" was prepared and published by the Public Works Department in 1895. To bring the work up to date and to correct inaccuracies and supply omissions, it has been decided to publish a revised edition. At the suggestion of the Director-General of Archæology, the work of revision has been entrusted to the Archæological Surveyor.

5. The Lieutenant-Governor thanks Dr. Bloch for his very interesting report.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Secretary to the Govt. of Bengal.

(No limit has been fixed as to the number of pages).

ANNUAL REPORT

OF THE

ARCHÆOLOGICAL SURVEY, BENGAL CIRCLE.

For the year ending with April 1902.

PART I.—GENERAL REMARKS.

1. *Constitution of the Department.*—The non-gazetted staff of the Department remained as it stood at the time of my last report, up to the 13th March 1902, when the Pandit of the Survey, Babu P. C. Mukherji, joined the office of the Director-General of Archæology in the capacity of a draftsman. The vacancy thus created has not yet been filled up, and a proposal for doing so will be soon submitted. It appears to me most essential to engage the services of a good photographer, as neither I nor my draftsman are able to take photographs, and I shall propose accordingly.

2. *Tours of the Archæological Surveyor.*—I have been on tour from the 6th November 1901 to the 7th April 1902, that is, altogether 145 days, not counting two short interruptions in February and March, when I returned to Calcutta. My original programme included a visit to the Patna Division, Assam, and Dacca. I had, however, to postpone my visit to Assam until next year, as on my return from Bihar the season was already too far advanced to complete this journey. Instead of this I added some shorter tours to my programme, which I could still conveniently undertake. Having received information about the excavation having begun around the Black Pagoda at Kanarak in district Puri, I went down there on the 20th February 1902, in order to see how the work was done, and if necessary, to offer any suggestions to the Engineer in charge. I also took this opportunity to inspect the work, which is now in progress at Bhubaneswar and Khandagiri in the same district. At all these places, I was accompanied by Rai Prasanna Kumar Pal Bahadur, the Honorary Assistant Engineer in charge of the work. The results of my observations will be detailed in Part II of this Report. On my way to Dacca, I visited Khulna, in order to see the important remains at Bagerhat, viz., the tomb of Khanja Ali, as he is locally called, and the big mosque with 77 domes, called Sat Gumbaz, close to his tomb. Finally, I was ordered to inspect the remains at Atia in the Tangail subdivision of the district of Mymensingh, about which some information had been submitted to Government through the Collector of Mymensingh. I visited this place after the completion of my tour in Dacca district, and I have submitted a special report on the remains there in my letter No. 37, dated the 29th April 1902. I was also ordered to inspect the Siva temples at Bakresvar in the Birbhum district, and the tomb of Zafar Khan Ghazi at Triveni and the mosque and minar at Pandua, both in the Hooghly district. I did this on my way back from the Patna Division, and I have submitted special reports on these remains in my letters Nos. 13 and 16, dated the 18th and 19th February 1902, respectively.

My journeys during the last touring season thus include the following districts: Champaran, Muzaffarpur, Patna, Shahabad, Gaya, Birbhum, Hooghly, Puri, Khulna, Dacca, and Mymensingh. Their results will be detailed in Part II of this Report. The principal object of these preliminary inspection tours was to inspect as many ancient remains as possible, in order to ascertain what is really worth preserving, and also which places or areas should be surveyed in a more detailed and systematic way.

With regard to the latter point, I have submitted certain proposals in my letter No. 38, dated the 29th April 1902. I consider it essential that good photographs, plans, and drawings should be prepared of some of the more important groups of monuments in this province. Very little has been done in this direction, and scarcely anything has been published. It seems, however,

advisable to me to undertake such works always with a view to publication; otherwise, money and labour spent on them will be almost lost to those who take an interest in archæology. Conservation, it is true, is the primary object of the present survey; but as owing to the liberality of the Local Government during the last years, the most important monuments in Bengal are now in a fair state of repairs, time appears to have come to make some of them better known to the general public interested in them by means of *facsimile* reproductions of good photographs and drawings accompanied by the necessary explanatory text, as has been done with regard to other important ancient remains in India.

3. *Tours of Babu P. C. Mukherji.*—Up to the Puja holidays, the Babu travelled in the districts of Champaran, Darbhanga, Gaya, Shahabad, and Patna, where he inspected and reported on a number of ancient nonuments, and from where he brought down impressions of a good many inscriptions. He then visited several places in the Bhagalpur district, the Burdwan Division, and the district of Balasore, until, on the 13th March 1902, he joined his new appointment as draftsman to the Director-General of Archæology. The results of his journeys have been submitted to me in several preliminary reports at the end of each month as well as in a general report, and they will be found detailed in Part III of this Report. As regards inscriptions, the discovery of one important new document is due to him. He found it inside the Gadadhar temple at Gaya, but, unfortunately, the greater portion of it is now covered by a statue of Vishnu in the sanctum of the temple, and his attempts to get permission from the owner of the temple to remove the statue in order to take an impression of the inscription have not met with success. He thus was able to copy only the beginning. As the inscription opens with an invocation to the Sun God, it is probable that it records the erection of a temple of that deity; it is certainly not *in situ* at present. The next two verses are found also in another, hitherto, unpublished Gaya inscription, which also escaped the notice of the Babu. It is now inside a small shrine in the compound of the Vishnupad temple. It refers to the time of Nayapala, tenth century A.D., and mentions the names of three persons, father, son, and grandson, *viz.*, Paritosha, Sudraka, and Visvarupa, who are known to us already from an inscription in the Krishna Dvarika temple at Gaya. The inscription, discovered by Babu P. C. Mukherji, only contains the first name, Paritosha, but it is almost certain that in the portion now covered by the Vishnu statue the two other names follow, and that it belongs to the same period.

4. *Preservation of ancient Monuments.*—Apart from repairs which are going on since previous years, such as the repairs to the temples at Bhubaneswar in the district of Puri, and to the Muhammadan remains at Gaur and Panduah in the district of Malda, or from other repairs which have been sanctioned at the motion of the local Engineers in charge of those buildings, and of which intimation has reached me from time to time, such as the closing by wire netting of the doors and windows of the tombs of Sher Shah and his father at Sassaram in the district of Shahabad, and certain repairs to the palace at Rohtasgarh in the same district,—apart from those, I have submitted proposals with regard to the preservation of the following ancient monuments:—

(*a*) Certain minor repairs to the great Siva temple at Bakresvar in the district of Birbhum. I have, later on, received a communication intimating that the local Sebaits of the place will provide for the cost of these repairs.

(*b*) Repairs to the minar and mosque at Panduah, and to the tomb of Zafar Khan Ghazi and the mosque at Triveni, both in the district of Hooghly. My proposal principally concerns the minar at Panduah, which, though not of any great artistic value, seems to me well worthy of preservation on account its being quite unique in this province. It is evidently an imitation of the Qutub Minar at Delhi. Its fifth storey and top piece have broken down, and I have proposed to re-build these portions, which may be easily done with the help of a lithograph published in 1871 by the late Mr. Blochmann, on which the entire structure is still seen. With regard to the other buildings, I have thought it sufficient if only such preventive measures are taken as may preserve those portions of them which are still standing from complete destruction.

(*c*) Repairs to the broken Asoka column near Pipariya, in the district of Champaran, commonly called the Rampurwa Asoka pillar. It will be

necessary to remove the larger portion of the pillar, now lying in the open field for a distance of some 800 or 1,000 feet to the south, to its original site, where its broken base is still standing, and to put it up there in its original position. I again beg to emphasize the necessity of these repairs owing to the high antiquity and great importance of this monument, and I shall deem it a special favour if the Local Government may see its way to provide the necessary funds for these probably comparatively expensive repairs.

The following proposals have not yet been submitted to Government, but will be so before I go on privilege leave in the beginning of July :—

(*d*) Repairs to the tomb of Bakhtiyar Khan, near Chainpur, in the Bhabuah subdivision of the district of Shahabad. It is almost a copy of the tomb of Hasan Khan Sur, the father of Sher Shah, at Sassaram, evidently of the same time. But it is a very fine specimen of its kind, and now in such a condition as to make repairs urgently required, if the monument is not to be allowed to tumble into pieces. A separate report will be submitted shortly.

(*e*) Repairs to the tomb of the Bengal Sultan Ghiyasuddin Azam Shah, near Mograpara, the site of Sonargaon, the ancient capital of Eastern Bengal, in the Narainganj subdivision of the district of Dacca. It is a plain basalt sarcophagus, resting on a basalt platform. No inscription is found on it, and only tradition points to it as the burial place of this king, who is best known on account of his literary correspondence with the famous Persian poet Hafiz. What will be required to do to it, is merely to raise the platform and the sarcophagus, which have now sunk, and the stones of which have become dislocated. This probably can be done without any great outlay of money. I shall also propose to add a suitable inscribed tablet to it, saying that this tomb is traditionally pointed out as the resting-place of Ghiyasuddin Azam Shah. Similar tablets are now erected at various places of historical interest all over India. A special report will be submitted later on.

5. *Photographs, drawings, and inscriptions.*—As I have already remarked in paragraph 1 of this report, no photographer has been employed by me, and consequently I have not been able to take any photographs of the monuments inspected by me. I intend, however, making provision for this before I start on my next journey. As to drawings, my stay at the places visited by me generally was limited to a short time only. In order to procure good drawings it is necessary to provide for a prolonged stay of several days at each place, in cases even for several weeks. It will even sometimes become necessary to make special preparations, such as scaffolding, wherever the building to be sketched is very high, in order to take the necessary measurements. I do not think that drawings based on mere rough sketches, such as I might have procured during my last journey, are of any value, and it is for this reason that I have not brought back any drawings to speak of. Of inscriptions I have copied and read a great number, partly on the spot from the original stone, partly from impressions on paper. I have already in paragraph 3 of this report referred to the discovery of two new inscriptions at Gaya of the 10th century A. D. I also took an impression of the unpublished Sanscrit inscription at the Akhshaya-vata at Gaya, which is of the same time, and of another small but valuable inscription in Sanskrit at the Prapita-Mahesvara temple close to it. Its date corresponds to Thursday, the 1st May 1242 A.D. As I shall show later on in Part II, these inscriptions are of special interest for the local history of the sacred tirthas of Gaya, helping us to put back their date to a period far anterior to the time when the present temples were erected, which, as I need scarcely remark, are all of comparatively recent age. Some of the many votive inscriptions on Buddhistic images in the districts of Gaya and Patna are also of some interest on account of the names which they preserve. In Dacca, I found on a loose slab an apparently new inscription in Persian poetry mentioning a king Ruknuddin, who is evidently the Bengal Sultan Ruknuddin Barbak Shah (1459—1474A.D.) It is the first instance of an inscription of a Bengal Sultan composed entirely in Persian poetry. I think that for the first time I have succeeded in deciphering the inscription of the time of Sher Shah on the dargah of Shah Juman Madari at Hilsa, near Bihar, and of the short inscription over the prayer niche of the tomb of Sher Shah's father at Sassaram. I regret

that I was unable to procure an accurate copy of the inscription over the central arch of the Alamgiri Masjid at Rohtasgarh. It is written in very small characters, and put up in a position very high up, so as to make it impossible to read it while standing down below. But from what I could make out, it is evidently a record of Sher Shah's time, thus helping us to fix the accurate date of this Mosque, which local tradition ascribes to the time of Alamgir. Another, evidently unpublished, inscription of the time of Shah Jahan was found over the door to a tomb at the foot of Rohtasgarh hill. It is of some interest, as it mentions the several parganas forming the jagirs of the then Qiladar and Darogah of the fort. A great many new inscriptions of the Moghul time also have been copied; their principal value consists in enabling us to determine the accurate date of the buildings to which they are attached. I shall refer to these inscriptions in connection with my notes on the places where they are found in Part II of this report, and I do not, for this reason, consider it necessary to add to this report a list of all the inscriptions of which copies have been taken.

6. *Sculptures and statues.*—In two of the districts visited by me, *viz.*, Gaya and Patna, a great many ancient statues are found scattered all over the country. Generally, they are now put up in modern temples and worshipped as something quite different, of course, than what they originally were meant to represent. But many of them are still lying loose, and there is scarcely a single village where not at least some fragments of ancient statuary are collected under the village pipal tree. Those statues generally belong to the time of the Pala kings, who ruled over Bihar and portions of Western Bengal from 800 to 1200 A.D They are both Buddhistic and Brahmanical, and they afford a very graphic illustration of the connection between these two rival sects, which seems to have developed more and more towards a gradual intermixture of both, the result being that Buddhism became more and more Hinduized. As an instance of this, I may quote the statue of Karttikayini, the female energy of the war god, inscribed with the Buddhist creed. I found this curious image at Dharawat, in the district of Gaya.

The Buddhistic images are of special interest. With the exception of the Græco-Buddhistic sculptures from Gandhara, found all along the North-Western frontier of India, they are the only class of Indian Buddhistic art, which has come down to us with a fair amount of completeness. The Indian Museum in Calcutta is the only institution which possesses a good collection of this particular branch of Buddhistic art, and it is a matter of great regret that many rare specimens, which would greatly add to the value of this collection, are at present put up in local shrines, and thus have become objects of religious worship, so as to make it impossible to remove them to this institution, where not only they would be better cared for than at their present places, but also serve a more useful purpose in the interest of archæology, than they now do. I have, however, noticed a few valuable specimens, now lying uncared for, which it will be possible to procure for the Indian Museum, and I shall later on submit a special report with regard to this point.

7. *Concluding remarks.*—The staff of this Department has worked to my entire satisfaction. Babu P. C. Mukerji has shown great zeal in completing the tours which he was ordered to undertake, for a great part of the year under trying circumstances. My draftsman, Babu Haridas Dutta, has been of great use to me in copying inscriptions, for which he is particularly skilled. For reasons above stated, I am not able to submit any specimens of his drawings; but drawings of his, previously submitted, have met with great approval. My clerk, Babu Krishna Chandra Mozumdar, was left in sole charge of my office during my absence on tour, and he has given me much satisfaction by the great care with which he discharged his duties.

PART II.—NOTES ON ANCIENT MONUMENTS VISITED BY THE ARCHÆOLOGICAL SURVEYOR.

A.—DISTRICT CHAMPARAN.

8. *General remarks.*—The following is a list of ancient remains in the district of Champaran, inspected by me:—

The three Asoka pillars, *viz.*, the two Lauriya pillars, one near Thana Gobindganj and the other fifteen miles north of Bettiah, and the broken

pillar near village Pipariya, Thana Shikarpur, in the Bettiah subdivision. The last is commonly known as the Rampurwa pillar, while the others are called, respectively, the Lauriya-Araraj and Lauriya-Navandgarh, or Radhia and Mathia pillars. The last two names are misnomers, they having been chosen, as it appears, by Mr. Hodgson's Pandit in order to avoid the obscene-sounding name Lauriya;

The ancient Buddhist stupa, two miles south-west of Thana Kesariya;

Another mound, evidently the ruins of a Buddhist stupa, called Sagardih, on the road from Pipra to Kesariya;

The earthen barrows, probably sepulchral mounds, close to the second Lauriya pillar, fifteen miles north of Bettiah;

The Nandangarh, wrongly called Navandgarh, close to the same place;

The Chankigarh, three miles west of Thana Shikarpur;

Ancient fort and modern temples at Simraon, in Nepalese territory, five miles from Purnahia factory;

The Nonachaur-ka-garh, five miles east of Motihari;

Fort and temples at Sitakund and Bediban, close to Pipra railway station.

I shall deal with them in the order of this list.

9. *The Asoka pillars.*—These pillars, together with another one near Bakhra, in the district of Muzaffarpur, which will be mentioned later on, mark the stages of the journey to Nepal, which Asoka undertook in the 21st year of his reign in order to visit some of the holy sites of Buddhism. In the 27th year of his reign he ordered six religious edicts to be engraved on them. These edicts are not on the Bakhra pillar, but from its general style, as also for other reasons, there can be no doubt as to its origin. Of the three Champaran pillars, that at Lauriya-Nandangarh, fifteen miles north of Bettiah, is best preserved. With the exception of some injuries to the jaw of the lion on its capital, evidently the effect of a cannon shot, the mark of which may still be seen on the northern face of the pillar, it is still almost perfect. I think General Cunningham is right in attributing this damage to some zealous followers of the army of Mir Jumla, which was then on its way back from Bengal after the defeat of Sultan Shuja, the brother of Aurangzeb. The date Hijra Era 1071=A. D. 1660-61, which is found inscribed on the pillar in connection with the Muhammadan creed and the name of Aurangzeb, points to this. I believe that the destruction of the northernmost pillar near Pipariya, some twenty miles distant from the Lauriya-Nandangarh pillar, is due to the same agency. The Lauriya-Araraj pillar, near Thana Gobindgunj, has lost its capital, but is otherwise in a fair state of preservation. Both Lauriya pillars seem to suffer considerably on their northern faces from the effect of the weather; they look quite black there, and their polish, although beautifully preserved otherwise, has gone in these portions. A few small cracks also begin to spoil the writing, which, however, is still in a very fair state. I am afraid no preventive measures against this are available. Perhaps the pillars might be cleaned from time to time, provided this is done with great care. Although they are now surrounded by iron railings, vandal scribbling of names on them is still going on. The latest addition to this illustrations list is the name of S. P. Sinha, a Sub-Inspector of Police from the Lauriya out-post, who recorded his name on the Lauriya-Nandangarh pillar as lately as the 31st May 1898. Luckily the ancient edicts are so high up that they cannot be reached without the help of a ladder. These modern names are all on the lower, uninscribed surface of the pillars.

The northernmost, so-called Rampurwa pillar, near village Pipariya, is still deplorably neglected. I have accordingly, in my letter No. 40, dated the 1st May 1902, submitted a special report on this pillar, proposing that it might be put up again in its original position. Its broken base still stands *in situ*, midway between two low earthen mounds covered with brick fragments, evidently the remains of some Buddhistic monuments. The greater portion of its shaft now lies within a swamp, almost entirely under water, some 800 or 1,000 feet to the north of its base. Evidently an attempt was made to remove it, which, however, soon was given up on account of its difficulty and costliness. Close to it stands the capital, which was disconnected from the shaft by Mr. Garrick in 1881 in order to take a photograph of it. It still stands in the same position as put up by Mr. Garrick, but the lion was

already then lost, and it seems hopeless to recover it. Only the broken feet of the lion are still on the top of the capital.

The three Asoka pillars are by far the most important remains in the district, and range among the most valuable ancient monuments of India. It is for this reason that I venture to hope that my suggestions with regard to the conservation of the Rampurwa pillar will meet with favourable consideration by Government.

10. *The Kesariya and Sagardih Stupas.*—The first stupa stands two miles to the south-west of Thana Kesariya. It consists of a round brick tower raised upon a brick platform. I think General Cunningham is right in identifying it with one of the monuments described by the Chinese pilgrim Hiuen Thsang. It was at that time, in the 7th century A. D., believed to have been erected over a place where Buddha, in one of his former births, had appeared as a Chakravartti or universal monarch. From its general appearance it may well be ascribed to the first centuries of the Christian Era. The absence of any surface ornamentation around the tower is remarkable. Apparently these have disappeared in the course of time. A hole has been dug into the tower, probably by some treasure-seeker. There is, however, little probability that it contains any relic deposit, as for the reason stated above, the monument seems to belong to the class of memorial stupas, of which many existed in India at various places, connected with some remarkable event in the life of Buddha or other saints. The platform of the stupa is now covered with thick jungle, and difficult of access. Without clearing away the jungle and making some excavations all around it, it is impossible to form an idea of its exact structure. I think, however, that this would be worth undertaking, although the site does not seem promising with regard to statues and sculptures. Probably the stupa had only some plain ornaments around its surface. I did not find the statue of Buddha inside a low brick mound close to the stupa which General Cunningham mentions; the mound, which has been excavated several times, may still be seen.

The mound called Sagardih by General Cunningham is locally known simply as 'bhisa' or mound. The village Sagar is close to it. It stands at a distance of some three or four miles from Pipra, on the road to Kesariya. Although it is now too thickly overgrown with jungle vegetation to allow of forming an accurate idea as to its original shape, I do not hesitate to accept General Cunningham's opinion that it was a Buddhistic stupa. At the foot of the mound is the tomb of a Muhammadan saint called Mallang. It is a very insignificant, modern looking brick building, with vaulted roof. At a little distance there is a large tank with a debi-ka-asthan on its borders, such as hundreds may be seen all over the country. Altogether, this place does not look like a promising site for any detailed investigation.

11. *Earthen barrows probably sepulchral mounds at Lauriya, 15 miles north of Bettiah.*—I believe these mounds would very well repay a systematic exploration. It would thus be possible to form an opinion as to their original destination. Hitherto, the only clue seems to be a short reference in the Bengal Administration Report from 1868-69, saying that a short time ago, a leaden and perhaps a second iron coffin with human bones was found in some of them. The various excavations by General Cunningham and his assistants have not yielded any results to speak of. When I was at Lauriya, Mr. Moore, the present Manager of the Lauriya farm, showed me some copper vessels, which, together with two ancient copper coins, had been dug up from one of the mounds. The copper vessels were of exactly the same shape as those at present in use, and, although covered with verdigris, may be of quite recent date. Of the coins, one belonged to Mahmud Shah of Jaunpur and had the date 847 A.H.= 1443 A.D. The other was very much worn off and could not be identified. From its size, it looked like a Græco-Indian or Indo-Scythic coin from the North-West, rather a remarkable find considering the locality; but nothing definite could be made out with regard to it.

I counted altogether fifteen mounds, some very small, some higher. They are arranged in three rows, one running from west to east up to the place where the Asoka pillar stands, and two parallel rows, running from north to south, at the western end of the first row. This arrangement suggests that they were erected according to some definite plan or scheme. Some of the eastern

mounds show fragments of brick on their surfaces; others seem to consist merely of earth, which in course of time has hardened and developed into a stiff clay, which is now to a large degree used by the natives of the place, who mix it with water in order to paint the walls of their houses.

12. *The Nandangarh and Chankigarh.*—These two remarkable ruins, which are situated in sight of each other, one close to Lauriya, 15 miles north of Bettiah, and the other some 10 or 11 miles north of it, are locally believed to be forts built by some ancient and fabulous Rajas. The former is generally called Navandgarh, but the actual local pronunciation is Nandangarh. From time to time attempts have been made to identify them with some of the large Buddhist stupas, mentioned by the Chinese pilgrims, which, from the distances and directions recorded by them, may be looked for in these or adjacent tracts of the country. Even recently Mr. V. A. Smith has upon similar calculations pronounced the Nandangarh to be the stupa erected by Asoka over the ashes of Buddha, but he freely admits the impossibility to affirm this positively, until an adequate survey of the entire groups of ruins is made, and well-devised excavations are effected. From my own preliminary observations I am not inclined to believe that these huge and, as it seems, solid masses of bricks are the remains of any buildings of this kind, and I should rather look upon them as some sort of fortifications. Around the Nandangarh the traces of an old ditch are still visible. On its top, which forms an oblong terrace, traces of some small brick buildings, perhaps watch-towers, remain. The Chankigarh, which is much higher, consists of two parts, one platform with sloping sides upon which rests an oblong building, the sides of which fall down perpendicularly, while only the top seems to be a little rounded. A broad winding pathway leads up to the top from the south. Above, no remains are seen, except some small insignificant shrines. At one place some digging has been done, apparently by Mr. Garrick in 1881, although in his report he makes no mention of this. Some sheets of water run around the mound, perhaps the remains of an old ditch. Both mounds seem to consist of solid masses of bricks some 300 to 500 feet in circumference, but I could not observe anything in their structure that resembles a Buddhist stupa. A detailed and systematic exploration of both the Nandangarh and Chankigarh is well worth undertaking, but this will require time and special funds.

13. *The remains at Simraon, Nonachaur-ka-garh, Sitakund and Bediban.*—The remains at Simraon are already within Nepalese territory. It once must have been a large town surrounded by walls, traces of which are still visible; the boundary now runs along the southern wall. Close to the Isra tank is a math with a temple of Kankali, bearing an inscription, the date of which corresponds to 1747A.D. It seems, however, to refer not to the temple to which it is at present attached, but to another older structure. Another larger math is at some distance from the Isra tank, at a place called Ranivas. It contains a large temple of the Nepalese style, enshrining images of Rama and Sita. All these buildings are of quite recent date and possess very little interest. Some unimportant specimens of ancient statuary are found inside of them.

The Nonachaur-ka-garh is wrongly called Sarongarh in the List of Ancient Monuments in Bengal. Sarongarh is about two miles distant and does not contain any ancient remains. The Nonachaur-ka-garh is an oblong fort, divided into four smaller sections by two roads running through it, one in each direction. At the place where they meet an ancient tank exists, which is now silting up. All the four sides of each of the four smaller sections seem to have been protected by walls. They are now mostly dangerous of access, owing to the thick jungle which covers them.

Sitakund and Bediban are two places close to the Pipra Railway Station. The remains at the former place are within an oblong enclosure wall, with a way running through each of its four sides. They consist of a deep circular pond, surrounded by bricks, with four ghats leading down to it, and of several modern looking temples and shrines, together with some Samadhs of Sadhus. The principal temple enshrines eight well-preserved images of an older date, *viz.*, two Ganesas, one seated with four arms, and one dancing with eight arms; one Surya; one Hanuman; one Ravana, with 20 arms and 10 heads, five of which are only shown on the carving; one Vishnu; one Durga; and one Mahishamardini, or Durga, in the act of killing the buffalo-demon. The most

remarkable object of worship inside the Bediban temple, which stands on a high mound, apparently the remains of an older structure, is a slab bearing an inscription in Arabic or Persian. This stone now receives poojah from the Hindus of the place. Unfortunately, it is covered with such a thick layer of cement that it is impossible to read it. General Cunningam thought he could read the name of Mahmud Shah, whom he identified with the Jaunpur king of this name (1450 A.D.). This is probable. Guided by the fact that a Muhammadan inscription had become an object of Hindu worship, and by the style of the principal temples at Sitakund and Bediban, which closely resemble Muhammadan tombs, General Cunningham further started a theory that these places had originally belonged to the Muhammadans and had later on been appropriated by Hindus, a remarkable fact, if true, as generally the reverse has been the case. But I believe this theory has very little to speak in its favour. The peculiar style of the two temples may be observed at several places in Bihar, and does not point to a Muhammadan origin.

The remains mentioned in this paragraph are not worth preserving. Other still more insignificant remains at the same places have been left unmentioned.

B.—DISTRICT MUZAFFARPUR.

14. *The remains at Bakhra-Basar and at Hajipur.*—The remains at these two places are the only ancient monuments inspected by me in the Muzaffarpur district. At the former place the principal object of interest is the Asoka pillar already referred to in paragraph (9) of this report. Although it does not contain any inscription of Asoka, yet its style as well as its material distinctly point to its having been set up by order of this king. Moreover, it is possible to identify it with one of the Asoka pillars, mentioned by Hiuen Thsang at the site of the ancient Vaisali, as General Cunningham has shown. No ancient inscription is found on it, but it has been scribbled all over by modern visitors. The pillar is much lower than the other ones, probably on account of the subsequent rising of the surface around it; also the polish is not as fine as on the other pillars, and the lion on its capital is clumsier than that at Lauriya-Nandangarh, and rests not on a circular abacus with the geese ornament around it, as at Lauriya-Nandangarh and Rampurwa, but on a square base without any ornamentation. Close to it is a low mound, upon which some Buddhist statues of the Pala time are enshrined within in a modern hut. Extensive remains are scattered all over the country for several miles distant. These have been identified by General Cunningham with the ruins of Vaisali, the capital of the Lichhavi country, a famous place in the history of Buddha. Dr. Hoey has recently attempted to set aside this identification, but his arguments are very little convincing. To check the various identifications put forward by General Cunningham would require a detailed and systematic survey of the whole area, accompanied by judicious excavations, a work which, for various reasons, seems to be promising of valuable results. The pillar at Bakhra is in good state of preservation.

Hajipur, an important place in later Muhammadan times, contains an old mosque with three domes, built by Makhsus, in the time of Akbar. This we learn from an inscription over its gateway. Unfortunately the exact date of this record could not be made out. The mosque is built of stone and in a fair state of preservation, except that some of the carvings in its outer walls have become defaced, owing to the influence of time. It is not very remarkable, neither on account of its style, nor for any other reason.

C.—DISTRICT GAYA.

15. *Preliminary remarks.*—The ancient remains inspected by me in this district will be dealt with in the following order:—

The city of Gaya;
Budh-Gaya and adjacent places;
Kauwa Dol;
The Barabar and Nagarjuni Hills;
The remains at Dharawat, close to these hills;

The remains at Bela and Ner;
The remains at Pai Bigha, Ghenjan, and Kispa;
The Hindu temples at Konch, Pali, Utern, Deo, and Umga;
The remains at Pachar and Cheon, near Rafiganj;
The remains at Kurkihar, Punawa, Hasra Kol, and Bishenpur;
The remains at Afsand and Parbati Pahar;
The Muhammadan remains at Miranpur Nadera, Jaru, and Hasanpur Kako.

This arrangement endeavours to group together those ancient remains, which either geographically or for other reasons are connected with each other. With the exception of the last item, all other remains are either Buddhistic or Brahminical. There is scarcely any ancient place in this district as well as in the neighbouring district of Patna, where not ruins of both classes are found together. This is not a mere chance, but, as I have already pointed out in paragraph (6) of this report, it represents fairly accurately the state of affairs which prevailed throughout ancient Magadha in the last centuries before the downfall of Buddhism.

16. *The City of Gaya.*—The many temples which now adorn the sacred tirthas of Gaya, are more or less modern and afford but little archæological interest. They contain, however, a number of ancient inscriptions and statues, with which I shall principally deal in this paragraph.

As regards inscriptions, I have already, in paragraph (5) of this report, mentioned the discovery of some new or unpublished documents at Gaya. One was found by Babu P. C. Mukherji, inside the Gadadhar temple. It probably refers to the erection of a temple to the Sun-God, and dates from the time of Nayapala, *i.e.*, the 10th century A.D. Unfortunately, it is now covered by a statue of Vishnu, and as there seems to be no chance of the owners of the temple agreeing to remove this image, only the beginning of it could be copied. Another very similar record of the same period was found by myself inside a small shrine in the compound of the Vishnupad temple. It tells us that Visvarupa, apparently a high official, well known to us from other Gaya inscriptions, adorned Gaya with a multitude of temples erected to Gadadhara and other deities. The inscription is not *in situ*, and it is impossible to say to which Gadadhar temple it refers; it is certainly not the present shrine of this name. The inscription near the Akshaya-vata or eternal banyan tree is of the same time and is interesting for the local history of Gaya, as it mentions this tree and thus shows that it existed as a tirtha already in the 10th century A. D. Close to it is the temple of Prapitamahesvara, to which a small Sanskrit inscription is attached. It is interesting both on account of its date and the light which it throws on the local history of Gaya. Its date is the Samvat year 1299, the new-moon tithi of Jyaishtha, a Thursday, while the Suratrana (*i.e.*, Sultan) Maujadina was reigning. This Sultan must be identified with Muizuddin Bahram Shah of Delhi, who was taken prisoner on the 10th May 1242 A.D., and murdered on the 19th May of the same year. Calculating all the possible European equivalents of the Indian date, I find that both the 1st May 1242 A.D. and the 18th June 1243 A.D. would agree, both being a Thursday, coupled with the new-moon tithi of Jyaishtha. But, as the inscription refers also to the reign of Muizuddin Bahram Shah, the first date only, *viz.*, 1st May 1242 A.D., is admissible, and the inscription thus was written only a few days before the end of this king. Its purpose is to record a pilgrimage to Gaya, which some Rajput minister, apparently from the North-West, had undertaken. He says: "I have done Gaya. Witness thereof is Prapitamaha." A statement of this kind is now technically called 'Sakshi-Sravana,' or 'invocation of witnesses.' It is incumbent upon every pilgrim either at the end of each of the stations which he has to go through, or at the completion of the whole pilgrimage, on the seventh day, to invoke the gods as witnesses that by completing the prescribed rites he has freed himself from the debt which he owes to his ancestors. In the present ritual, the 'eternal fig-tree' and the temple of Prapitamahesvara are the last station to which the pilgrim goes, and as a record of this kind refers just to the deity of the temple where the pilgrimage now ends, we may conclude that in one important point at least, the ritual to be observed at Gaya some 650 years ago was exactly the same as it now is.

I also copied a small Sati inscription at the Gadadhar temple and an inscription in Telugu characters near one of the ghats leading down to the river Phalgu. The latter I am unable to read myself. Other well-known inscriptions have been left unnoticed.

The only ancient statue, which I found at Gaya, is the figure of an elephant, represented in the act of culling flowers or fruits from a tree, a favourite subject in ancient Indian art. It is decidedly a carving of at least the beginning of the Christian era. It stands inside a small shrine on the way to the Vishnupad temple, and is locally called Gaya-gaja, or the Gaya elephant. I find it mentioned already in Narayanabhatta's Gayanushthana-Paddhati, a manual on the ritual to be observed at Gaya, about 300 years old. All the other images are of the style and material used in the Pala time (800—1200A D.), and probably also later on, but some are remarkable for various reasons, and will be noticed here accordingly. An image of Vishnu, seated cross-legged, with four arms, two of which rest on his lap, while the others hold club and wheel, is rare and not often met with. His female energy, Vaishnavi, is generally represented as seated on Garuda, but I found one image of her, where she is shown standing, with four arms, two of which hold a shell over her breasts, so that the top of the shell just touches her chin, while the other two hold club and wheel. A statue of Hari-Hara, *i.e.*, half Vishnu, half Siva, was remarkable on account of its showing the phallic emblem of Siva; it must be very old, as subsequent ages considered such representations too indecent, and left out this emblem. I found also an image of Siva and Durga, representing them standing, their hands joined together with the nine planets above, and the bull and lion on the pedestal. This is a rare type, the common representation showing Durga seated on Siva's lap in an amorous posture A standing figure of her, with bull kneeling to her right, and lion to her left side, probably might better be called an image of Mahesvari. On an image of Chamunda, one of the seven mothers, I found an inscription saying that it was the pious gift (deva-dharma, *sic !*) of Valahaka, the son of Adhu; this term is generally met with only in Buddhistic votive inscriptions, where it is exceedingly frequent. A curious piece of carving, not altogether rare, represents five round balls, resting on a square plate. When questioned as to its meanings, the local people explained it as a representation of the breasts of Bhagavati. Rude figures of the same meaning are certainly found almost in every village of Bihar, but their shape is different, and I do not know whether the local explanation holds good. I need scarcely refer to the multitude of lingas or Mahadevas found at Gaya. Some imitate nature with a certain accurateness, while others are merely conventional. Some show a great number of small lingas carved around them; they are called 'Sahasra-lingas;' others have one, four, or even five heads of various gods and goddesses carved upon their round surfaces. They are called: ek-mukhi, chau-mukhi, and panch-mukhi Mahadeos respectively. A chaturmukha Mahadeva is already mentioned in an ancient inscription from Budh-Gaya, published by General Cunningham in his Mahabodhi, where he has misunderstood the term.

The absence of Buddhistic images in Gaya is remarkable. I found only a few inside the shrine on the top of the Pretsila Hill, and also at some other places. The temple on the Pretsila Hill contains an inscription both in Nagari and Bengali characters, the date of which corresponds to Saturday, the 23rd July 1774 A. D. (new style). It says that the steps leading up to the hill were built, for the convenience of pilgrims, at the expense of Madan Mohan Dutt of Calcutta; the gomasta was Ganga Narayan Kar of Orissa, village Gopalpur, pargana Balu, Sirkar Cuttack; the tahvildar was Kali Charan Chaudhuri, of village Simlagudi, pargana Pandua, in Burdwan. It took one year to complete this work.

A modern dharamsala in front of the Prapitamahesvara temple bears a date corresponding to Sunday, the 4th February 1849 A. D. Inside the temple, on the Brahmayoni Hill, are some footprints dedicated by Maharaja Jayaji Rao Sindhia. The last hill receives its name from a small natural fissure in the rocks on its top, which just enables a person to crawl through it. This is looked upon as a symbol of the yoni or womb, and the pilgrim by going through this procedure escapes the fate of being reborn from a human womb.

Other temples and shrines visited by me call for no remarks here.

17. *Budh-Gaya and environs.*—I do not consider it necessary to offer any remarks here on the great temple at Budh-Gaya and its surroundings, as they at present stand. In addition to the known inscriptions on the ancient railing, I found another unnoticed one on one of the pillars, which are now inside the Bakraur Math. It says that the pillar was the gift of Nagadeva, the wife of Raja Bujhamita. On one of the statues inside the great temple, I found an inscription saying that it was presented by Indrabhadra, who came from Samatata, *i.e.*, Lower Bengal. He appears to have been a spiritual descendant of Silabhadra, of the royal family of Samatata, who at the time of Hiuen Thsang's visit (635 A. D.) was a venerable man of over eighty years. The monastery, where he resided, has been identified with some site near the modern Dharawat. I have met with other instances showing that monks adopted names formed with the same compound as the names of their gurus and pragurus, teachers and teacher's teachers. Evidently, they chose a new name on entering the order, as modern sanyasis still do. On a railing pillar outside the great temple is an inscription in modern characters saying that a pandit Jinadasa, who came from the hills, visited the Mahabodhi-bhattaraka,' evidently the Bodhi-tree. He has forgotten to record the year; the inscription concludes abruptly with Samvat, without any numerical figures, but the characters are scarcely older than the 15th century A. D. There is, however, nothing remarkable about this record, as the Bodhi-tree still is, and apparently long ago has been, one of the sacred places visited by the Hindu pilgrims going to Gaya.

Other places near Budh-Gaya, to which Hindus have to make a pilgrimage, are Dharmaran and Maltangi. The latter name is a corruption of Matanga linga. It contains a tank, called Matanga-vapi, which has been dug out later on within the area of an older and larger one, which has now entirely silted up Close to it is a modern temple with a linga, called Matangesa. As the ancient stupa identified by General Cunningham with the Gandhahasti stupa, or the place where Buddha formerly had appeared as a large elephant, is very near to it, and as Matanga in Sanskrit means 'Elephant,' it seems obvious that the names Matanga-vapi and Matangesa contain a reminiscence of this ancient Buddhist site. Another place near Budh-Gaya deserves mention for one reason. It is visited by the Burmese as the traditional spot where Buddha was sheltered by the snake-king Muchilinda. Locally it is called Mucharin, which is evidently a corruption of Muchilinda. There is nothing to be seen there except an old tank. General Cunningham tells us that in 1861 he made this identification with the help of Hiuen Thsang, and that he suggested the same to the members of some Burmese embassy, whom he happened to meet there, and who at once accepted his theory. I think there is little doubt that the worship, which this wholly insignificant spot now receives from the Burmese, is due to General Cunningham's identification.

The cave on the Mora Hill, to the north-east of Budh-Gaya, is traditionally believed to be the Pragbodhi, a place where Buddha resided for some time before he reached Uruvilva, the modern Budh-Gaya. The cave is a natural fissure in the rock, about midway to the top of the hill. Its entrance has recently been closed by a masonry wall, put up by the Jogi who resided in the cave. It admits access only through a small door. No ancient remains of any importance are to be seen at this place.

18. *Kaswa Dol.*—The remains here are the ruins of an ancient Buddhist temple and a number of rock carved images, all along the foot of the hill. The temple enshrines a large statue of Buddha, seated, in the act of invoking the earth, when he was attacked by Mara and his army. This is one of the largest statues of Buddha which exist, and in fair preservation, except that a portion of the halo has broken. It still is *in situ* inside a small brick built cell, but the temple is otherwise in utter ruins, only parts of its original brick-walls and some 13 granite pillars being traceable. The pillars probably supported an open hall in front of the temple.

The rock carvings represent almost exclusively Brahmanical deities. I only observed three Buddhist figures among them, *viz.*, one Vajrasattva, one Prajnaparamita, and one seated Buddha. The row in which I found these images continued with other Hindu deities, a further instance of the intermixture of both sects, to which I have already had occasion to point. The great

prevalence of figures of Mahishamardini among these carvings deserves to be noted. All the carvings may belong to the period from 800 to 1200 A.D. The stone does not withstand the influence of the climate, and some carvings have become very faint.

19. *Barabar and Nagarjuni Hills.*—The ancient rock-cut caves on those hills belong to the most interesting remains in this province; they exhibit fine specimens of the high proficiency with which in those remote ages, 3rd century B.C., Indian masons were able to handle such a hard material as the granite stone of those hills. Their polish is of a high order, and still almost perfect. Unfortunately, it has in some places become spoilt by Jogis and Sadhus, who consider it their right to reside inside the caves, and who put up crude stone walls against them. I found four of the caves inhabited by those worthies: one was a Bengali from Howrah, with University education. An immediate stop should be put to such a nuisance, and every modern occupant should be turned out at once.

There are altogether seven caves, four on the Barabar and three on the Nagarjuni hills. The former were dedicated by Asoka and the latter by his grandson, Dasaratha, to members of the Ajivika order, an ancient class of Brahmanical ascetics. Subsequent inscriptions show that in the middle ages also Hindu ascetics dwelt in them; probably they were never appropriated by Buddhist. It is evidently for this reason that they were not visited by the Chinese pilgrims, although their routes took them into the immediate vicinity of the caves.

20. *Dharawat.*—The remains of an ancient stupa, described by General Cunningham, are to the south of the Chandokar talao, midway up the hill. Only fresh excavation can throw new light on these structures. Two modern temples in the north-eastern corner of the tank, and a small shrine at some distance to the east, contain a large collection of ancient statues. I have already, in paragraph 6 of this report, referred to the remarkable image of Karttikayini with the Buddhist creed, which I saw there. A large statue of Avalokitesvara is lying, apparently uncared for, between both temples. It is a very curious piece of carving, and might, probably, without difficulty be removed to the Indian Museum. I observed also a curious figure of Surya inside the southern temple, which represents him with four arms, two of which rest on his knees, one holding a rosary and the other a water-vessel, while the other two are uplifted and hold each one full-blown *lotus*. The horses drawing his chariot are represented not, as usual, *en face* but *en profil*.

21. *Bela and Ner.*—The modern temple close to the Bela Inspection Bungalow contains one remarkably well-preserved big statue of Chamunda and a number of smaller ones, notably a carving showing three goddesess standing in one row, which seem to represent Brahmani, Sivani, and Vaishnavi. Close to the modern temple are the ruins of an older one, now mere heaps of bricks with two lingas standing upon them.

The temple at Ner is of little interest only. Its walls, and a pillared hall in front of it, are still standing. They are just inside the village, obstructed by modern mud-huts, and seem to be used as a cow pen. To the west of the village are the ruins of another temple, which seems to have stood inside a tank. They are very much gone, and very little remains of this structure.

I noted here some remarkable lingas, with four male figures around them, two standing and two dancing, both groups on corresponding sides; on each side of the pedestal, which is a square, a male figure is represented lying. I was unable to make out the meaning of these carved figures.

22. *Pai Bigha, Ghenjan, and Kispa.*—Pai Bigha is a large village near Makhdumpur station, where, according to the list of ancient monuments in Bengal, some antiquarian remains are said to exist. The place had better be struck out from the list. The collection of ancient sculptures inside the village shrine is of no importance at all; a dilapidated Idgah outside the village deserves no mention; and what Mr. Beglar considers the remains of an ancient Siva temple, are merely some crude fragments of granite pillars, marked with the *trisul*, such as may be found in almost every village of the district.

At Ghenjan, some ancient Buddhist and Hindu statues may be seen, among others an image of Brahmani and Sivani The principal figure is a large seated Buddha, wearing necklace and three-pointed diadem. Statues

of this kind are exceedingly common, but their meaning still remains a matter of doubt. They exhibit all the various postures and attitudes of the ascetic Buddha; but why in them he wears a necklace and a diadem,—a garb not suitable for an anchorite, is puzzling. The ruins of an ancient brick temple also exist to the north-east of the village.

At Ghanjan I found on the pedestal of a large statue of Avalokitesvara an inscription, which says that it was the gift of the Sthavira Ratna Sinha, who came from Nalanda, and was the disciple of the Sthavira Vriddha Sinha, and that it was dedicated by him for the benefit of his disciples Jnana Sinha and Uddyota Sinha. This is a remarkable instance of the adoption by Buddhist monks of names formed with the same compound as the names of their spiritual fathers, to which I had already previously, in paragraph (17), occasion to allude. A fragment of another identical inscription was lying close by. The modern temple at this place contains a large standing figure of Tara, now worshipped as Bhagavati, and carefully hidden by a yellow piece of cloth, which the priests at first refused to remove, under the pretext that the lady had to be kept in *purdah*; but they yielded to my request later on. Many minor images are collected at this temple, and at some distance stand in the open field a large Buddha, and Vishnu on Garuda. I observed also a broken Suraj Narain, a peculiar form of linga, with small figures of Siva, Surya, and Lakshmi.

23. *Konch Pali, Utren, Deo, and Umga.*—I have grouped these places together, because I consider it evident that the temple at Konch is of the same period as the temples at Deo and Umga. The resemblance in style is remarkable. It originally had in front a flat-roofed pillared hall or mandapa, which still may be seen on an old photograph, taken by Mr. Peppé, but which now has fallen in, the stone pillars supporting it, still lying in front of the temple. The same is characteristic for the temples at Deo and Umga and the ornamentation of the spire at Deo also is of the same kind as at Konch. The temple at Umga is plain, without ornaments. Moreover, tradition points to Bhairavendra, who lived about 1450 A.D., as the builder of the Konch temple. From his time also date, as we know from local inscriptions, the principal monuments at Deo and Umga. For these reasons, I think that the hitherto accepted date of the Konch temple, *viz.*, eighth century A.D., should be put back for some seven centuries. The temple at Konch is not in a good state of preservation; although repaired some time ago, a great portion of the brick wall in front of the spire has fallen down. The building is worth being kept in a permanent state of repairs.

Inside the temple, the most remarkable piece of carving is a slab representing the Avataras or incarnations of Vishnu. It is distinguished from other similar representations by dividing the Vamana Avatara into two scenes, by leaving out the ninth or Buddha Avatara, and by representing Vishnu in his tenth or Kalki Avatara in the company of a female deity, with a small horse standing in front of them. I am unable to suggest a reason for these peculiarities. Other statues, also Buddhistic images, and remains of other minor temples abound at this place.

Pali and Utren are two small places near Konch, where some remains of no great interest may by seen. The temple at Pali is almost entirely gone, only some pillars and a statue of Brahma still standing amongst its brick ruins. At Utren are the remains of an old fort, probably Muhammadan, with a Muhammadan dargah.

Umga contains a great number of temples on the rocky spur close to the village, mostly in a very ruinous state, with the exception of the principal one, which stands lowest on the hill and closest to the village. The inscriptions found there have already been mentioned; they help us to settle the date of these monuments. Besides, they contain a list of fourteen local Rajas down to Bhairavendra (1450 A.D.) He died childless, and his widow adopted two Rajputs who happened to come to Umga on a pilgrimage to Gaya. Some 150 years hereafter, the family removed their residence from Umga to Deo, where they still reside. Traces of the old palace near Umga may still be seen. The temple at Deo probably dates from this time, although local tradition gives it a fabulous age. It is in very good preservation, and still in use. Among the sculptures collected inside of it, the prevalence of

the Suraj-Narain symbol deserves to be noted. The temple is dedicated to this deity, as also the principal temple at Umga.

24. *Pachar, Cheon and Deokuli.*—These places are all close to Rafiganj. The principal object of interest is a cave in the southern face of the Pachar hill. It is a natural fissure in the rocks, the opening of which has been closed by a brick-wall, giving access to the cave through a small, stone-faced door. In front of it stands a portico, resting on stone-pillars. Inside the cave is a large statue of Parsvanatha, seated, and other minor images, evidently all Jain. I could find no traces of any Buddhist remains in this cave, and it evidently belonged to the Jains. An inscription on its wall in rather modern characters says that a certain person, whose name could not be read, worships constantly Parsvanatha. The existence of a Jain sanctuary in this locality is of some interest on account of its isolation. All other remains at Cheon, Deokuli and neighbouring villages are either Hindu temples or Muhammadan mosques and dargas. They are of very little importance and need not be detailed here. Close to Cheon, in the open field, stands a rather well preserved large statue of Hari-Hara.

25. *Kurkihar, Punawa, Hasra Kol and Bishenpur.*—The extensive remains near Kurkihar still yield a great number of fine Buddhist images. A large collection of these may be seen in the modern village temple. Others, recently found, are now placed inside the zamindar's bungalow. These it will be possible to remove to Calcutta, where other statues, previously found there, have already gone to. The great mound south of the village is also an extensive quarry for bricks, and is dug into by the natives of the place at random. It is a great pity that never any judiciously devised excavations have been carried out at this place. It is a promising site, and the work would be worth undertaking. The vandal digging for bricks, which is now going on there, is likely, in course of time, to destroy all that exists.

This has happened already at Punawa, a place close to Kurkihar, where now scarcely anything exists. The remains of the temple of Triloknath, described by General Cunningham, have all been carried away since by the local zamindars, and nothing is left of them.

Hasra Kol has been identified recently by Dr. Stein with the Kukkuta-pada-Vihara, or the cock's foot monastery, mentioned by Hiuen Thsang, which Cunningham erroneously located at Kurkihar. The valley between the two parallel ridges of hills abounds in ruins of ancient temples, &c., evidently both Hindu and Buddhist. A detailed survey of this area will be worth undertaking, as very little is yet known about it, and no accurate description exists. Three very fine Buddhist statues, said to have come from the Hasra Kol, are now placed inside a wretched small brick-house in the neighbouring village, Bishenpur. The principal figure is a large seated Buddha, with two attendants, one being Maitreya, the future Buddha, and the other evidently some form of Avalokitesvara. They are the finest specimens of Buddhist sculpture of the Pala time that I have seen, and for this reason it is a matter of regret that they are now hidden away at such an out-of-the-way place, where they are hardly accessible to any student of Art. I shall accordingly later on submit a special proposal for their removal to the Indian Museum.

26. *Afsand and Parabati Pahar.*—The big statue of a boar at Afsand, representing the Varaha Avatara of Vishnu, is one of the most interesting remains in the district. Its style, as well as its material, grey sandstone, distinctly point to the Gupta period. It closely resembles the boar statue at Eran, in the Central Provinces, which belongs to the same period. The earth, represented as a female, grasps one of the boar's tusks in order to mount the boar's neck. The whole body of the boar is covered with small figures of Rishis, represented generally in worshipping gestures. The statue stands in front of a high brick mound, evidently the temple of Vishnu, built by Adityasena, one of the later Guptas of Magadha, of about 600 A. D., whose long and important inscription, found at the same place, has become lost, it appears, soon after Major Kittoe discovered it and took a copy of it. His copy fortunately still exists. The structural remains of this temple, which are now buried below this mound, seem to be fairly well preserved, and a judicious excavation of the mound probably will reveal a great deal

of the ancient building. It would be a work worth undertaking, as Hindu temples of such a remote period are very rare and as, in this province at least, scarcely any remains of the same kind exist, which seem to be such a promising field for excavation. Other later statues are seen close to the mound, all were Hindu images, and I found no Buddhist statue at this place.

The remains at Parbati Pahar are of very little interest. They consist principally of the dargah of Haji Chand, Saudagar on the hill, a small insignificant building, occupying, as it seems, some ancient Buddhist site. Many heaps of bricks, also a few images, are found all over the hill and around the village.

27. *Miranpur Nadera, Jaru, Hasanpur Kako.*—The remains at these places are the only Muhammadan buildings inspected by me in the district of Gaya. The first two places are in the vicinity of the Barabar Hills, the last place lies some 5 miles to the east of Jahanabad. The dargah of Miran Shah at Nadera and some mosques close to it seem to be rather modern, and afford little of interest. They are kept in permanent repairs, and covered with white-wash. On one of the tombs I observed a linga put up against the head end. The mosque at Jaru is a building of the Moghul period It can, on no account, be anterior to Sher Shah's time, but I am inclined to consider it as later. It is built partly of brick and partly of granite stones. Every detail of its ornamentation, which is not without taste, points to the Moghul period. It has three domes, and three prayer niches in back wall. The dargah of Bibi Kamal at Hasanpur Kako is very modernized, and little remains of its ancient structure. Fragments of glazed tiles, now placed in the walls, show that it must have been a monument of some consequence. No information with regard to its date is available. Fragments of some Arabic or Persian inscriptions on tiles are now placed over one of its gates, but they are not *in situ* and give no connected reading. Another inscribed stone slab is too much defaced to be read. A second mausoleum, called chota dargah, at the same place, deserves no mention.

D.—PATNA DISTRICT.

28. *General remarks.*—A number of the ancient remains in the district are of the same order as those in the district of Gaya. The modern city of Patna, Hilsa, Telara, Bihar, and Maner contain prominently and almost exclusively Muhammadan monuments. The dargah at Maner is one of the finest buildings of the Moghul time in this province. The ancient monuments inspected by me in the district of Patna will be described in the following order:—

Ancient Pataliputra and modern Patna;
Rajgir and Giryek;
Silao, Jagdispur and Baragaon (Nalanda);
Ghosrawan, Tetrawan and Pawapuri;
Hilsa and Telara;
Bihar;
Maner.

29. *Ancient Pataliputra and modern Patna.*—The remains of ancient Pataliputra, the capital of Asoka, which, for some years past, have formed the object of extensive excavations, lie partly to the south of the East Indian Railway line, partly under the modern towns of Patna and Bankipur. The result of these excavations cannot be said to have answered the rather sanguine hopes, which some eminent Indian archæologists, such as the late Professor Bühler, has entertained with regard to them. However, some of the ancient sites mentioned by the Chinese pilgrims have now been located with more or less certainty, and some fragments of ancient sculpture found during the excavations show that perhaps later on a day may come, when this ancient place will yield some important finds. The huge, solid mass of bricks, now buried under the Choti Pahar, evidently represents the ruins of a Buddhist stupa of great age, but the various excavations, which have been carried on there down to a considerable depth below surface, have brought to light no object of any interest. Another larger mound close to it, called the Bari Pahar, has not been dug into. The modern Agam Kua, a large well, evidently stands on an ancient site. Some 15 minutes distant from it stands an ancient carved

stone showing on each side a female standing, and holding the branch of a tree. Close to it lie the fragments of an Asoka pillar, which have been found during the excavations. Although no inscription is on them, yet their polish as well as the material, sandstone, so closely resemble the other Asoka pillars, that no doubt can be entertained with regard to this find. A large capital of Greek style of the Ionian order also was brought to light during the excavations. It was placed inside the golah at Bankipur, but at the time of my visit, it was no more there, and nobody seemed to know anything about it.

The oldest monument among the ancient buildings of the modern city of Patna, which are exclusively Muhammadan, is the mosque of the time of Sher Shah. There is no inscription on it, but there is no reason to doubt its traditional date. It is built of bricks, and covered by one large dome in centre resting on an octagonal spring. In each corner is a smaller dome, and between these four smaller domes, on each side, are one larger and two smaller vaulted roofs. The back wall has three prayer niches. Some repairs have been done to this mosque, but it is still in bad order, and some more might be done, as the building is remarkable on account of its style. Outside the mosque are a number of tombs, mostly modern. The oldest are the tomb of Koka Khan, who died in 1772 A. D., and of Mirza Aziz, who died in 1808 A. D. Another mosque, called Pather-ka-masjid, is of some interest on account of its inscription, which tells us that it was built by Parwez Shah, the son of Jahangir, out of the materials of the fort Majauli and a Hindu temple, which he had destroyed. Its date is the Hijra year 1036, which began on the 22nd October 1626 A.D. Numerous other mosques and dargahs call for no remarks here, except that some of the ancient carved stones from Gaur, in the district of Maldah, are found built into them, as also into private houses. These materials have been carried away rather a long distance.

30. *Rajgir and Giryek.*—Rajgir, the ancient Rajagriha, the first capital of Magadha, is now principally a sacred place of the Jains, who come there in great numbers from far away. They visit all the shrines on the tops of the five hills. These shrines are all of very recent date. They generally contain a stone with the foot-prints or padukas of some Jain Tirthankar. Older ruined shrines of the middle ages are also found there, but they no longer from an object of worship. Numerous Jain images are seen inside of them. I think the Jains had settled there already from the beginning of our era, as I believe that the famous Sonbhandar, or Gold Treasury cave, at the southern foot of the Baibhar hill, was made by a Jain monk for the use of his own sect. This I conclude from an inscription in the outside wall of the cave. It is a Sanskrit verse, telling us that the famous teacher Muni Vairadeva made two caves which are a suitable resort for ascetics who wish to attain to nirvana, and which are renowned on account of Arhants. The two caves referred to in this inscription can only be the caves where the record is engraved; in fact, there are two caves there close to each other, one the so-called Sonbhandar, and the other now in ruins. The mention of the Arhants, as also other technical terms in this inscription, distinctly point to the Jains. There is, moreover, just below the inscription a now mutilated carving of Jain Tirthankar of apparently the same period. The period of the inscription may be stated as the 3rd century A.D. on account of the shape of its writing. As the caves at the time when the Chinese pilgrims visited Rajgir probably were still occupied by Jain monks, we may assume that they have been left unnoticed by them, as, for a similar reason, the caves on the Barabar and Nagarjuni hills (see above paragraph 19), and we need not try any further identification of them with some of the sacred Buddhist sites mentioned by the pilgrims. I need scarcely remark here that General Cunningham's identification of the Sonbhandar cave with the Saptaparna cave, the traditional site of the first Buddhist Synod, has never met with any approval. The latter site, in all probability, is identical with the large natural caves near the top of the Baibhar hill, on its northern face.

A detailed and systematic exploration of all the hills near Rajgir, which seems to me worth undertaking, probably will bring to light more Buddhist remains, which at present are comparatively scanty. To the Hindus the hot springs at the foot of the Baibhar hill now form the principal object of

worship. There is also an old ruined temple of Mahadeva on the same hill, close to the old Jain temples.

The stupa at Giryek is undoubtedly a Buddhist monument of considerable age. If some clearing of rubbish around it could be done, it would be easy to prepare a good drawing of this important monument, showing its restoration to scale. The drums upon which the large hemispherical dome rested appear to have been comparatively low; they were probably only from three to five in number. They again rested on square terraces, divided by small pilasters in several niches or recesses Some of the surface ornaments are still well preserved. They exhibit various patterns of flowers. The stupa was built entirely of bricks. A hole has been dug into it from the western side to take out the relic deposit. But, as shown by General Cunningham, the building was evidently a memorial stupa, and did not contain any relics. It is the best preserved building of its kind in my circle, and a good drawing of it seems desirable; but it can only be prepared by help of excavation of the *débris* around the stupa. Close to it exist the remains of a water reservoir, and at a little distance to the west there are extensive brick ruins, the remains of a monastery or vihara, which was connected with the stupa by a pathway, which still may be traced This monastery is now in too ruinous a state to allow of forming an opinion as to its structure without making extensive excavations.

31. *Silao, Jagdispur, and Baragaon (Nalanda).*—Silao, which is an important village on the road from Rajgir to Bihar, is mentioned here merely on account of some ancient stones with Buddhist carvings which have been used as building materials for the principal mosque of this place. Jagdispur is only a short distance from Baragaon. It contains a very interesting large statue of Buddha, which, with minor images, now stands on the top of a low mound, apparently the *débris* of a Buddhist temple. This statue shows Buddha attacked by Mara and his army, and around this are seven minor relief scenes representing other events in the life of Buddha. His nirvana is represented at the head of the image. Similar statues are by no means rare among the Bihar sculptures, but the relief scenes on them as a rule show Buddha, the principal figure, only, with not more than one or two attendants, while on the Jagdispur statue each relievo exhibits a great number of attendant figures. This seems to point to a greater age of the Jagdispur statue than that of the bulk of Bihar statues, as it resembles more the character of older Buddhist sculptures, such as those from Gandhara. Some of the figures with animal heads in the army of Mara also remind one of similar ones in well-known Gandhara carvings, and in the nirvana scene we observe above some hands without a body playing drum and cymbal, representations of the heavenly music which filled the air at all the great events in Buddha's career, a motive which is also frequently met with in Gandhara art.

The high mounds which now bury the principal buildings of the once famous Nalanda, near the modern village of Baragaon, may be seen for a long distance. Some of the principal mounds have been dug into previously, but, unfortunately, no records were kept, and no good accounts are available with regard to these excavations. Other mounds have remained untouched, and some of them seem to be promising sites for excavation. The buildings here do not seem to be in such a ruinous state as to have been reduced to mere heaps of bricks. A detailed and systematic exploration of the whole area seems very desirable. Among the Buddhist statues here, the most remarkable is an image of Buddha seated with an attendant on each side, and two flying figures holding garlands above. It is notable for one reason, *viz.*, because to each of these four minor figures is added a short inscription, which tells us the name of the person which it is meant to represent. This is unfortunately very rare in Buddhist statues, and the work of identifying all the numerous representations from the Buddhist Pantheon consequently labours under great difficulties. We here recognize, by means of those inscriptions, the two attendants below as Arya-Vasumitra and Arya-Maitreya, while the two flying figures above are Arya-Sariputra and Arya-Maudgalyayana, the two principal disciples of Buddha. No objection can have been raised against representing them in such a posture, as, being Arhaûts, they were possessed of the power of flying through the air.

In the village of Baragaon is also a modern Jain temple with some ancient sculptures, which is now visited by some of the Jain pilgrims on their way from or to Rajgir.

32. *Pawapuri, Ghosrawan, and Tetrawan.*—Pawapuri is a very holy tirtha of the Jains, it being the place where, according to their tradition, the last founder of their sect, Vardhamana Mahavira, attained to nirvana. It contains absolutely nothing ancient. The large temples here are all modern and are of no antiquarian interest. It lies close to the Bihar-Nawadah road.

Ghosrawan and Tetrawan are both some three or four miles distant to the east, and can only be reached *viâ* Pawapuri. Both places must once have contained large Buddhist settlements, as a great number of Buddhist statues are now collected inside of them, which evidently have been dug up in the neighbourhood. At Ghosrawan some ruined brick mounds are still to be seen; also a big mud fort. The principal figures at Tetrawan are a colossal seated Buddha, now on a brick terrace at the southern border of a large tank, outside the village; also a large statue of Marichi, in one of the modern temples there. A short inscription on a small Buddhist statue at the same place is of some interest, as it probably contains the old name of the village. It says that the statue was the gift of Tantava Ateka. This may be interpreted as Ateka from Tantava, and the latter may be an older form of the modern Tetrawan.

33. *Hilsa and Telara.*—The dargah of Shah Juman Madari at Hilsa is a place of far-reaching fame. It is a simple, square brick building, covered by one dome. It has one door only, in its southern wall. The three other walls have each one prayer niche inside. There are seven tombs inside, of which the westernmost is said to be that of the saint. An inscription over the gate, the date of which corresponds to the 3rd June 1543 A.D., tells us that in the time of Sher Shah the tomb (gumbaz) of Miran Sayyid Juman Madari was repaired by order of Miyan Shaikh Alam Adam Shah Juman Madari, at the expenses of Darya Khan Zangi, an officer of the body-guard. The original building thus appears to be older than 1543 A.D., but it cannot have been much anterior, as Shah Madar, the founder of the Madari order, to which the saints mentioned in the inscription belonged, is said to have been a contemporary of Ibrahim Shah of Jaunpur, who reigned from 1400 to 1440 A.D. Another inscription refers to the building of a mosque near the dargah, by a person called Riza. Its date corresponds to 1604 A.D., and it is of some historical interest, as it refers to Jahangir, who is called Shah Salim, as the reigning King. His father, Akbar, was still alive at that time, but Jahangir was already in open rebellion against him. He already then struck coins, with the name Salim, of which numerous specimens exist. The mosque, built by Riza, is no longer in existence, and the present one is an insignificant, modern building. The dargah is kept in fair order.

Telara, the ancient Tailadhaka, is the site of a famous Buddhist monastery, of which, however, very little remains. Some ancient stones have been used as building materials for the mosque there, which is called the Sangi Masjid, and for the dargah of Sayyid Yusuf Abdal, close to it. Both stand on a high mound, apparently the site of some Buddhist building. On one of the stones, which is now used as a lintel over the door to the mosque I found the ancient name of the place, Tailadhaka, written in characters of the Pala time. Inside the dargah is an inscription of Sher Shah's time, which has become very much defaced. Both the mosque and the dargah are of no special interest.

34. *Bihar.*—The only Hindu remains in Bihar are the sandstone pillars, now put up in the Subdivisional Officer's compound. One of them bears an important Sanskrit inscription of the time of the Gupta kings. It has been put up upside-down, apparently because, below the inscription, no vacant space remains to afford a support for the pillar.

The fort is in utter ruins, but traces of its walls, &c., remain. A gateway, which was still standing some 30 years ago, has now entirely broken down. Ancient Buddhist carvings have been used in building the various mosques and dargahs, which now adorn the place. The principal dargah is that of Malik Ibrahim Bayyu, who, according to the inscriptions on its walls, died on the 20th January 1353 A.D. It stands on the top of the Bihar hill and closely

resembles the dargah of Juman Madari at Hilsa (paragraph 33). The curved battlement, which is so common a feature in similar buildings of the same period in Bengal, is not met with here; in fact, this peculiarity seems to have been confined to Bengal only. The tomb of the saint is in the centre, with ten smaller ones around it. The dargah is in a fair state of repairs. Other dargahs have no domed buildings, but consist merely of open tombs, with mosques, musafirkhanas, and other houses in their compound. The principal ones are the dargah of Sharafuddin, Qadir Qumaish, and Shah Ahmad Charamposh. The dargah of Qadir Qumaish contains merely buildings of very recent date, not more than sixteen years old; but some ancient carvings may be seen here. The dargah of Shah Ahmad Charamposh has an ancient gateway, coming from some Buddhist or Hindu temple, with elaborate delicate carvings. Some of the carvings have been chiselled off, and Persian verses, expressing moral and religious precepts, have been engraved in their place. The Juma mosque was built in the time of Akbar, at the instance of Said Khan, who was Governor of Bihar from 1004 to 1010 Hijra era. The date of the inscription is the Hijra year 1004 which began on the 6th September 1595 A.D. Said Khan is said to have had a special passion for eunuchs, of which he had 1,200. One of them, Ikhtiyar Khan, who acted as his Vakil, was the builder of this mosque. Another mosque was built in Shah Jahan's time by Habib Khan, an Afghan of the Sur clan. Its date is the Hijri year 1047, which began on the 26th May 1637A.D. There are other mosques of the same period, but they have no inscriptions. All these buildings are generally in a fair state of preservation. Numerous ancient Muhammadan inscriptions have been carried away from Bihar to Calcutta; others are still lying inside the principal dargahs. They all have been deciphered and translated previously.

35. *Maner.*—A special report on the Maner tombs has been submitted in my letter No. 12, dated the 17th February 1902. There are two tombs at this place, viz., that of Shah Daulat, called the choti dargah, and that of Shaikh Yahya Maneri, called the bari dargah. The former is a very fine building, the best specimen of a mausoleum of the Moghul style in this province. The stone carvings on its walls are of a delicate taste and high finish, and by this it far excels the widely famed mausoleum of Sher Shah at Sasseram (see paragraph 39), which, on the other hand, is of grander and more imposing outlines. Good photographs and drawings of the mausoleum at Maner should be prepared, with a view to publication. The saint died 1017 A H. (=1608A.D.); the mausoleum was completed in 1025A.H. (=1616A.D.); the mosque inside its compound was built by Ibrahim Khan in 1028A H. (=1619A.D.), while the gateway bears an older inscription, the date of which corresponds to 1603-4 A.D. Ibrahim Khan was then Governor of Bihar. He also built the mosque near the bari dargah of Shaikh Yahya Maneri; the date of its inscription corresponds to 1605-6A.D. It is at present in a ruinous state, but not worth repairing. The mausoleum of Shah Daulat, the choti dargah, is in very good order and regularly looked after by the Public Works Department. Its gateway is becoming dilapidated and the roof of its mosque had to be supported by wooden beams, as it became unsafe. I did not consider it necessary in my previous communication to recommend any further repairs to it.

Outside these two dargahs I found some other tombs, one with an inscription, the date of which corresponds to 1575-76A.D. It is in a ruinous state.

E.—DISTRICT SHAHABAD.

36. *General remarks.*—In coming to the district of Shahabad from the neighbouring district of Gaya, the traveller is struck with the absence of Buddhist remains, which suddenly seem to disappear, as soon as one crosses the Sone. In fact Buddhism when it flourished in Magadha from 800 to 1200 A.D., does not seem to have extended beyond that river. Wherever, in the district of Shahabad, I found some fragments of ancient statuary collected under the village pipal tree, I hardly anywhere observed Buddhist sculptures among them, and those collections too, are not as frequently met, as in the district of Gaya. There is, however, one very ancient Hindu

temple at Mundesvari in the Bhabua subdivision of the district of Shahabad which, I think, cannot be later than 600 or 700 A.D. It is evidently the oldest and most important building of its kind within this province. The principal other buildings belong to the Muhammadan time, especially the tombs at Sa-seram and Chainpur, and the hill forts at Rohtas and Shergarh. The ancient monuments inspected by me in the district of Shahabad, will be dealt with in the following order:—

The temple of Mundesvari;
The remains at Tilothu and Tutrahi;
The remains at Sasseram and Chainpur;
Rhotasgarh;
Shergarh.

37. *The temple of Mundesvari.*—This temple stands on the top of a hill close to the village of Ramgarh, 7 miles south-west of Bhabuah. It appears to have been a square outside and an octagon inside, covered by a pyramidal roof. The principal entrance was from the east through a door, which originally had a pillared porch in front of which, however, only a few pillars are still standing. There was another door in the western wall, while the northern and southern walls each had one latticed stone window. The northern one is still well preserved, and the carvings around it are of exactly the Gupta style. Their design is very tasteful. The temple was built entirely of stone, and is now in a very ruinous state. Many of the stones have fallen down, and now form a huge pile around the temple. I am afraid, to put it into proper repair, would be a very costly matter, and I have for this reason not yet submitted a special report on it. But I intend doing so later on, as Hindu temples of such a high antiquity are very rare, especially in this province, and as, for this reason, it seems desirable to have the building tested by an experienced architect, who would be able to pronounce an opinion as to what can be done to it, and at what cost. My statement with regard to the age of the temple is based partly on the form of the writing which is found all along the way up to the temple incised on the rocks, evidently pilgrims' records, partly on the style of its carvings, and of various ancient statues found among the *débris* around the temple. Among the latter I observed a statue of Siva, which still shows the phallic emblem of the god. As I have observed already previously, this is decidedly a sign of antiquity, for, in later periods, this mark was left out in statues of the god. Inside the temple now stand a large Chau-mukhi Mahadeo, and a statue of Durga, both of later date than the temple. Various other remains, partly of brick buildings, are seen all along the eastern slope of the hill, also some rock carvings, apparently of ancient times.

38. *The remains of Tilothu and Tutrahi.*—Tilothu is a large village, half-way between Sasseram and Rohtasgarh, where the two roads from Sasseram and Dehri meet together. Its large Hindu temple is modern and of no interest. Among the numerous Muhammadan mosques and dargahs, which I saw at this place, the oldest is a mosque of the time of Aurangzeb, the date of which corresponds to 1677 A.D. The builders of the mosque are called Golha and Haitam. The mosque is of no special interest. The place is, however, already mentioned in older records, and from the inscription on a tomb at the foot of Rohtasgarh from the beginning of 1638 A.D., we learn that it was a part of the jagir of Ikhlas Khan, who was then the Qiladar or commandant of the Rohtas fort

Tutrahi is about 5 miles west of Tilothu. It is a place where the neighbouring range of hills forms a knee. Here a small streamlet of water runs down the precipitous cliff, and collects into a pool in front. It is for this reason that the place has become an object of worship. High upon the rocks, on a small natural terrace, a small statue of Mahishamardini has been put up. In an inscription close to it, which apparently refers to the consecration of this image, she is spoken of as Jagaddhatri. This inscription is evidently several centuries later than other records, which are found at the same place, around a crude, rock carved figure of a female deity, and the date of which, as calculated by me, corresponds to Saturday, the 19th April, 1158 A.D. The inscription is one of the Nayaka Pratapadhavala, a local chief of whom we possess other records from Rohtasgarh and the Tara Chandi rock near Sasseram. He appears to have made a pilgrimage to the Tutrahi falls

accompanied by his whole household, for, besides his own name, he mentions his brother's wife, Sulhi; Tribhuvanadhavala, Somali, Lakshmaditya, and Padmaditya, persons whose rank is not specified; his sons, Satrughna, Viradhana, and Sahasadhavala; five female slaves, called Luduma, Nayakama, Alhi, Puttriki, and Ekali; his treasurer, Devaraja; his door-keeper, Vimala, and his Court Pandit, Visvarupa, who remarks that he constantly meditates over and praises the goddess.

39. *The remains at Sasseram and Chainpur.*—The most ancient monument at Sasseram is the Asoka inscription which is found inside a small natural cave on the top of Chandan Pir's hill to the east of the modern town. The inscription probably contains a date referred to the death of Buddha; but the passage still remains a great puzzle, and no absolutely convincing interpretation has yet been found. Other versions of the same edict exist at Rupnath in Central India; at Bairat, near Jaipur, and at Siddapur in the Mysore State. The hill where the inscription is incised evidently was an old Buddhist site, which appears to have been appropriated later on by the Muhammadans. They now worship there at the dargah of Chandan Pir, a saint of whose life and history they know absolutely nothing, although they insist upon his being called Shahid, or martyr. A small building close to the dargah was erected by Faqir Muhammad Chaudhuri, a tobacco seller Its date corresponds to the 28th January 1804 A. D. A ruined mosque of the time of Jahangir, at the foot of the hill, bears a date which corresponds to 1613 A.D.

The magnificent mausoleum of Sher Shah inside the town, and the other smaller one of his father, Hasan Khan Sur, east of it, are among the most important ancient monuments in this province. When the tomb of Sher Shah was restored some time ago by order of Government, the small cupola, which originally was placed on the top of the big dome, was pulled down and replaced by a pinnacle similar to that on Hasan Khan's tomb. Why this was done, I am not able to understand. It can hardly be called a restoration, and such an example should never be followed in carrying out a work of this kind It has been proposed to close the doors and windows of both mausoleums by wire-netting, in order to prevent bats from entering, and I recommended this proposal to be sanctioned. When I was at Sasseram, the work had not yet been taken up. On a bright day in the cold weather, bats will hardly enter, as the interior receives too much light to afford a pleasant resort for those animals; but on rainy days they seem to like seeking shelter inside, as I could observe at my subsequent visit to the tomb, when it had been raining heavily for two or three days. The dome of the mausoleum of Sher Shah also seems to be leaking.

No repairs can be done to the unfinished tomb of Islam Shah or Salim Shah and to the tomb of Alawal Khan. The latter has some fine carving around its principal door. It is said to be a building of Sher Shah's time, but this seems doubtful. The Idgah near Sher Shah's tomb, was built by Mujahid Khan in the time of Shah Jahan. The dates of its four inscriptions cover the period from the middle of 1633 to the middle of 1636 A. D. It seems very unlikely that it has taken such a long time to complete a small building of this kind, and I do not understand the difference between the four dates. There is also at Sasseram an ancient private house called Nawab's Garh, which is now in a very ruinous state, and a Turkish Bath, which may be old as local tradition asserts. Other buildings there are modern, and call for no remarks.

At Chainpur, the principal monument is the mausoleum of Bakhtiyar Khan. As I shall later on submit a special report on this tomb, I need here only say that it is an exact counterpart of the mausoleum of Hasan Khan at Sasseram, but of larger dimensions, and with a small cupola, instead of a pinnacle, on the top of its great dome. It is just on the verge of falling into ruins, and, if repairs are not done to it now, it will soon become destroyed. I consider these repairs worth undertaking, as it is the finest specimen of its kind, together with the tombs of Sher Shah and Hasan Khan at Sasseram. Many similar tombs of smaller size are seen all around Chainpur, but I need not go into details with regard to them. The fort at Chainpur is evidently a building of the time of Sher Shah or Akbar, as seen by the style of its principal gate, the only portion of it that is still fairly intact. Inside the fort, there is a small Hindu shrine where a piece of stone is worshipped as Hamsu Brahma. I was told that it represents a holy man who, after death, had become a Brahma.

I have nowhere else met with this curious form of worship. The Juma mosque at Chainpur has an inscription the date of which corresponds to 1668-69 A.D. It is a building of no special interest, but looked upon with great veneration by the Muhammadans of the place, who are either too poor or unwilling to keep it in proper order.

40. *Rohtasgarh.*—The extensive remains of the hill fort at Rohtas are a very interesting specimen of this kind, and together with the similar ones at Shergarh, which will be dealt with in the next paragraph, they are decidedly unique in this province. No good photographs and drawings of the remains at both places exist, and it would be worth the while to prepare such with a view to publication. The principal remains are generally in a good state of repairs and regularly looked after. Some of the tombs, however, as also portions of the walls and fortifications will in course of time fall down entirely, and it partly seems impossible to prevent this, and partly the monuments are not of such a great value as to make it desirable to spend large sums of money upon them. There is, however, one private house of an officer of some standing close to the palace, which is still buried within jungle. It is the only building of this kind at Rohtas, and for this reason of some interest. It is a two-storied house with an open verandah, the roof of which was originally supported by pillars, but it has now fallen down. All that needs be done to it is to keep the place clear of jungle, to make the house easier accessible. The elephant gate of the place bears an inscription both in Sanskrit and Persian referring to the completion of the gate. The dates of both are identical, that of the Sanskrit portion corresponding to the 14th March 1597 A.D., and that of the Persian part to the 16th of the same month and year. When Blochmann translated the Persian inscription, he was misled by the word Alif, which follows the Persian text, and referred the date to the Alfi era, which would put it back to a later time. But the Sanskrit inscription clearly shows that the Persian date refers to the Hijri era. The inscription mentions the Purohit Sridhar; the darogha Bal Bhadr, a Brahman; and the architect Ustad Mubarak. We meet the same persons again in an inscription over the Kathautiya gate, the date of which corresponds to the 28th February 1607 A.D. Besides we find here mentioned Gopal Das Chauhan, who, with Sridhar, held the office of Shiqdar. This inscription also has a Sanskrit portion, but it is written in very small letters and put up very high, so that I was unable to read it, and I had no ladder with me at the time of my visit. The same unfortunately was the case with another inscription over the central arch of the Alamgiri mosque, which stands on the road from the palace to the Lal Darwaza. I think, however, I could read the date 950 Hijra era, and the name of Sher Shah. Also the words Sultan-as-Salatin seemed certain to me, and this shows that the king cannot have been a Moghul Emperor, as the title Sultan was never borne by them. The style of the mosque agrees very well with its supposed erection by Sher Shah. It is in a fair state of repairs, and worth being kept in order. There is only one other mosque close to the tombs, which was built by Habsh Khan, evidently a eunuch. Its inscriptions, which now lies inside the palace, bear a date corresponding to 1580 A.D. Tombs abound, but only one is inscribed, while on four others I noticed the vacant space for the reception of the inscribed tablet, which has been lost The date of the inscription corresponds to 1578 A.D., and it tells us that it is the tomb of Shafi Sultan, who died suddenly, when he was just expecting to be promoted to the rank of Khan. It has the finest specimen of stucco ornamentation on its back wall. Another large domed tomb closely resembles that of Hasan Khan at Sasseram. It is evidently the tomb of the darogha of Sher Shah mentioned by Buchanan. The tomb of Shafi Sultan, as others too, is remarkable for this reason that it is covered by a dome, supported on pillars. Similar structures are called Chattris in Rajputana, where they are frequently met with. Evidently they are an importation from this country, due perhaps to the fact that the garrison of the fort largely recruited from there. I have also observed similar tombs near Chainpur, but they are by no means frequent in Bihar, and never found in Bengal. Another importation from the North-West appears to be the octagonal open pillared hall, covered by a hemispherical dome, which stands in front of some of the Rohtas temples. tI is common in Rajputana and thereabout, but rare in Bihar. Of one of

the best temples of this class, which stands on the way to Rajghat, the porch has broken down, and is now lying in front of the temple. It would probably be very costly to put it up again. The two small temples in the south-eastern corner of the plateau, one of which is called by Buchanan the Chauri of Rohtas, are fine specimens of their kind, especially the small pillared hall, covered by five domes.

At the foot of the plateau there is a large tomb which consists of an oblong compound wall, the west side of which has inside a raised stone terrace and three prayer niches. The gate is in the northern wall. Inside are seven stone sarcophagi, standing on a stone platform. A tomb of this kind is called a Chardiwarrah or 'four-walled enclosure.' Over the gate is a long Persian inscription, which tells us that the tomb was built for himself and his family by Malik Wisal, the Darogah of the Rohtas Fort, in the time of Shah Jahan, when Ikhlas Khan was the Qiladar or commandant of the fort, with the rank of a commander of 3,000. It also mentions a number of parganas, which formed the jagir of Ikhlas Khan, among which we find the well-known names of Tilothu, Akbarpur, and Bilaunja, which are all close to Rohtasgarh. The tomb was begun on the 6th September 1636 A.D., and completed between the 17th January and 15th February 1638 A.D.

41. *Shergarh.*—This hill fort, according to Buchanan, was built by Sher Shah, after he had already begun fortifying the Rohtas hill, as the place seemed more favourable to him. It is covered with jungle and never seems to have been looked after. The ground around the palace, which is an interesting building, at least should be cleared. This must needs be done before measurements can be taken in order to prepare plans and drawings, which, I think, is desirable to undertake. Not even a complete and accurate account of the buildings there exists. My notes, which I took down on the spot, will enable me to add considerably to the meagre account in the List of Ancient Monuments in Bengal, if I should be called upon to prepare a revised edition of the same. I do not, however, intend here to enter into a lengthy description of details, but I shall merely mention such points as seem to me remarkable.

The plateau of Shergarh is much lower than Rohtas hill. It may be four miles in circumference. It consists of two elevations, divided by a depression of the ground, where there is a large tank. The palace or Qilah stands upon the highest of southern elevation. All along the edge of the plateau runs a stone wall with several bastions and fortified ghats exactly as that at Rohtas. The entrance to the palace leads through three strongly fortified gates. The palace, which is the principal building at Shergarh, consists of two square open courtyards, surrounded by four open galleries, which are supported by pillars in front, with only a few closed rooms. Owing to the peculiar shape of the ground, the southern courtyard is much higher than the northern one, and of the latter again the northern gallery is lower than the other three. Thus, standing on the roof of one of the galleries around the southern courtyard, one could overlook the entire northern courtyard, while a person standing on the roof of the galleries around the northern courtyard, could observe nothing that was going on in the southern compound. The people now believe that this arrangement was made because the northern court was occupied by the ladies of the zanana. They could thus easily be watched by the men, while they were prohibited from looking into the male compartments. Some of the carvings on the pillars, supporting the galleries, are of a high order and much better than anything of the same kind at Rohtas.

Another remarkable feature are the many underground rooms inside the palace. I observed five, but others seem to exist, which are now inaccessible. Most of them were dark, and received no light from above. They may have been used as store-rooms; one was used as a water-reservior. One room was well lighted by means of skylight. It is in the northern courtyard, the supposed zanana, and may have been intended as a place of retreat for the ladies in time of a siege or during the heat of the day. Before entering the palace gates one meets two open pillared halls, which are said to have been used as Diwan khana, or offices. I found only one mosque there, which is close to one of the gates leading into the palace. No temples are there, and the absence of any tombs is very remarkable. I was at first inclined to look upon this as a sign that the fort had been occupied for a short period

only, but it seems possible that some of the heaps of stones which are scattered all around the plateau may be the remains of tombs. I found absolutely no inscriptions. Altogether the place is deserving of being better looked after than at present.

F.—DISTRICT BIRBHUM

42. *The temples at Bakresvar.*—A special report on this place has already been submitted in my letter No. 13, dated the 18th February 1902 The place owes its sanctity to some hot, sulphuric springs, which here, as elsewhere in India, are looked upon as manifestations of some divine power. Around those springs, quite a small city of temples, enshrining lingas, has sprung into existence. The temples are generally very small; but one large temple stands in the centre, which has received some bad cracks, which will now be repaired at the cost of the Sebaits. All the temples seem to be comparatively modern, and the dates, Saka years 1677 and 1683, corresponding to A.D. 1755 and 1761, which I found in two Bengali inscriptions on tiles, may well represent the age of establishment. Altogether the place is of not more than local interest.

G.—DISTRICT HOOGHLY.

43. *The remains at Tribeni and Pandua.*—The remains at these places consist of the dargah of Zafar Khan Ghazi at Tribeni with an old mosque close to it, and of the Minar and large mosque, and the dargah of Shah Sufi Sultan at Pandua; the latter also has an old mosque standing close to it. I have submitted a special report on these remains in my letter No. 16, dated the 19th February 1902. My proposals as to the repairs of these buildings principally concern the Minar at Pandua. The fifth storey of this tower, together with the pinnacle, has fallen down, and I have suggested to restore it, as the monument, though not very tasteful in its outlines, certainly is unique in this province. An ancient lithograph, which still shows the building complete, will enable the Engineer in charge to do this with accuracy The Minar is evidently an imitation of the famous Qutub Minar in Delhi. Its accurate date, as well as that of the mosque close to which it stands, is not known, but it may well belong to the time of the Muhammadan conquest of the place, which occurred about 1300 A.D. Close to the dargah of Sufi Sultan, which is an insignificant, modernized building stand two mosques, one built in the time of Shamsuddin Yusuf Shah in 1477 A.D , and the other built by Fath Khan, an Afghan of the Sur clan, in 1727 28 A.D. I have suggested that petty repairs might be done to the old mosque near the dargah of Sufi Sultan and to the big mosque at Pandua, to prevent those parts of them that are still standing from complete destruction.

The mosque at Tribeni is evidently the oldest mosque in Lower Bengal, and I have suggested that it might be kept in proper order. The dargah of Zafar Khan Ghazi is remarkable on account of its showing many ancient Hindu carvings: here, as in Pandua also, the spoils of Hindu temples have largely been made use of as building materials. Inside even some Bengali inscriptions may be observed, such as the killing of Ravana by Rama, the marriage of Sita, Sita's exile and similar ones. Only petty repairs have been suggested by me with regard to this building.

H.—DISTRICT PURI.

44. *Remarks on the repairs done to the Black Pagoda at Konarak, the temples at Bhubaneshwar, and the caves at Khandagiri*—I am glad to report that the excavation around the Black Pagoda at Konarak, which was taken up at my suggestion, has greatly improved this important but long neglected monument. As at present sanctioned, it will be carried on up to a line running through the northern and southern doors of the Mandapa, thus the whole front part of the temple compound will be laid open, down to the original level of the ground. When I was there, the northern side of the basement and staircase had been disclosed. It shows three large wheels, and in front of them three horses. The corresponding southern portion will have similar wheels and horses.. The temple was thus represented as the chariot of Sun-god, drawn by his seven chargers. Two oblong platforms also had been laid open in the

north-eastern corner of the courtyard, apparently used for bathing the images. The stones, which had become loosened, are carefully collected around the temple and it will later on be possible to put up some of them in their original places. When the work, which is now being done, has been finished, it will be necessary to decide whether the excavation should be carried on further to the southern half of the temple court.

At Bhubaneshwar, the following repairs were carried on at the time of my visit:—

(*a*) The temple of Meghesvara, which is called by R. L. Mitra the Bhaskaresvara temple, is being repaired. I suggested this on the ground that this temple is unique on account of its style;

(*b*) The four minor temples in the courtyard of the Brahmesvara temple are being repaired. The temples have to be dismantled and put up again by using partly their own materials, partly others from neighbouring shrines, which it is not intended to preserve;

(*c*) The Raja-Rani temple is being provided with a stone fencing;

(*d*) The minor temples near the Muktesvara temple are under repairs, and the tank close to it has been emptied and is being provided with a new stone facing. After the completion of these repairs, the place will look very neat and tidy;

(*e*) The repairs to the roof over the porch of the Parasuramesvara temple are not yet finished, but they will soon come to an end;

(*f*) The repairs to the Sahasralinga tank had just begun, and the tank was emptied;

(*g*) Some repairs were done to the minor temples within the courtyard of the Lingaraj.

If it should be intended to do some further repairs to other temples at Bhubaneshwar, I would suggest that something might be done to the Bhaskaresvara and Yamesvara temples, also to a small temple close to the Vetal-Deul, which is an exact copy of the Parasuramesvara, and to the Ananta Vasudeva temple. These are the finest specimens among those temples, which have not yet received any repairs. Some temples like the Brahmesvara and Muktesvara, have very fine carvings inside, which are now covered with soot. It would be well to clean them.

The repairs done at Khandagiri are as follows:—

(*a*) The carvings in the Rani Gumpha, Ganesa Gumpha, Ananta Gumpha, and Nava Muni Gumpha have been cleaned, as suggested by me, and this has greatly improved them;

(*b*) The two elephants, flanking the stairs of the Ganesa Gumpha, are put up in their original position;

(*c*) The Hathi Gumpha inscription is being provided with a shade, which, I trust, will help to preserve that, what remains of this important record, which, unfortunately has suffered badly from the effects of sun and rain;

(*d*) The Tantua Gumpha has been repaired, and the cave below it will also be put in proper order. They are on the northern slope of the Khandagiri peak, where a good deal of the jungle has been cleared;

(*e*) A modern temple, close to the Nava Muni Gumpha, has been pulled down, as it had become unsafe. The building was of no interest, and its destruction is absolutely no loss.

I.—DISTRICT KHULNA.

45. *The remains near Bagerhat.*—The remains here consist principally of the dargah of Khanja Ali and the Sat Gumbaz mosque. Khanja Ali is the local form of the name, but in the inscriptions around his tomb, he is merely called Khan Jahan. He is said to have been the cultivator of the Sundarbans. According to the inscriptions on his tomb, he died on the night of the 26th Zil Hijjah 863, that is, the night of the 23rd to 24th October 1459 A.D., and he was buried on the 25th. The tomb is a stone sarcophagus, resting on a double stone terrace. This again stands upon a brick-terrace, which was laid out with glazed tiles, showing various patterns, all in blue and white. They have now become loose, and have been collected around the

Ballalbari, or Rajbari, only traces of the walls and ditches may be seen; there are no structural remains of any importance inside this enclosure. The Ballali bridge near Mirkadim has received some repairs from time to time and seems to be in fair order. At Rikabi Bazar, there is an old mosque of the Bengal style, of no special importance.

The Rajabari Math, 11 miles south of Munshiganj, is the most interesting ancient monument in this subdivision. It was erected by Chand Roy and Kedar Roy over the funeral pyre of their mother, and had been repaired in 1896 at the cost of Raja Srinath Roy, of Bhagyakul. It is a high tower, like a Hindu temple, built of bricks with ornamental designs in its outer surface. Among those the absence of any human or animal figures is remarkable in a Hindu monument of this kind. The statement that it was erected over the funeral pyre of the mother of Chand Roy and Kedar Roy, is based upon the modern inscription, which was put up over its door, when it was repaired in 1896. Another tradition says that it was a temple, enshrining a Mahadeo. Chand Roy and Kedar Roy were contemporaries of Akbar, and belonged to the Barah Bhuiyas, those independent chiefs who ruled over Eastern Bengal before it became annexed to the Moghul Empire.

L.—DISTRICT MYMENSINGH.

51. *The Atia ruins.*—As I have already in my letter No. 37, dated the 29th April 1902, submitted a detailed account of the ruins at Atia in the Tangail subdivision of the district of Mymensingh, I need here only repeat the principal facts. The big mosque at Atia was built by Said Khan, the son of Bayazid Khan, an Afghan of the Pani clan, in the time of Jahangir. The date of its inscription corresponds to 1609-10 A.D. When it had fallen into ruins, some person began to build another smaller mosque close to it. But as soon as Raushan Khatun Chaudhurani came to hear of this, she decided upon restoring the old mosque, and the second smaller mosque accordingly never was finished and has never been used. The inscription on the tomb of Shahinshah Baba Adam Kashmiri tells us that he died on the 14th October, 1507 A.D. He is called merely Baba Kashmir in this record, which, however, must be a mistake for Baba Kashmiri, as it is an impossible form. Close to it stands an old mosque of the Bengali style, which, according to the local tradition, was built by Ghiyasuddin Azam Shah. A ruined brick tomb in front of this mosque is pointed out as the burial place of this Sultan, a tradition, which, as I have already remarked in paragraph (49) of this report, deserves no credit whatever.

The buildings at Atia are from time time repaired at the cost of the Dilduar and Karotiya zamindars, the owners of the land, but they might be called upon to do some further repairs to the big mosque, portions of which are at present in a bad state.

PART III.—NOTES ON ANCIENT REMAINS INSPCTED BY BABU P. C MUKERJEE.

52. *General remarks.*—Up to November 1901 the Babu travelled in the Patna Division. He then went to Bhagalpur, and hereafter visited various places in the Burdwan Division and in the district of Balasore. On the 13th March 1902 he joined the office of the Director-General of Archæology in India. As his tours brought him to many places which have later on been visited by myself and which have been described in Part II of this report, I shall here merely give some notes on such places as I have not yet seen myself. They are extracted from a final report which the Babu submitted to me on the work done by him during the last year. The discovery by him of a new inscription at Gaya has already been referred to previously.

53. *Bawangarh, Tilkesvar, and Kalhua Hill.*—Bawangarh is a place in the north of the district of Champaran. Extensive lines of earthen walls are seen here running parallel to each other and covering the sites of several villages. The citadel itself at Rajpur Soreri is of a rectangular form. Remains of houses and wells, both of brick and stone construction, are found here. At Tilkesvar, in the district of Darbhanga, the Babu found three Sanskrit inscriptions, the characters of which resemble the modern Bengali script. The remains on the Kalhua hill, in the district of Hazaribagh, are almost exclusively

Jain sculptures; but there exists a temple with an image of Mahismardini, which is now worshipped under the name of Kulesvari. The Babu found no Buddhist remains there.

54. *District Bhagalpur.*—At Barari the entrance of one cave is blocked by the gate falling, while that of the other is almost choked up for the same reason. At Kahalgaon and Patharghata the rock sculptures, temples, and caves should be cleared of rank growth, trees, and rubbish and regularly be looked after. At Sultanganj the materials of the monastery were excavated and removed, while the coating of the stupa is peeling of. The rock sculptures on the Jahngira island require to be looked after.

55. *Barakar, Katrasgarh, Bankura, Vishnupur, and Garbheta.*—These places are all in the Burdwan Division. The four stone temples at Barakar are not in a bad condition, but the trees should be uprooted. One of them has an inscription in an ancient form of Bengali. At Khatrasgarh is a mediæval temple, but it is reported to be of no interest. The stone temple of Ektesvar, near Bankura, is in a dilapidated condition. The temples at Vishnupur are said to range from 900 to about 1750 A.D. Nearly all the temples possess inscriptions with dates and the names of their builders. The brick temples exhibit elaborate ornamentations and reliefs, chiefly scenes from the life of Krishna. The only temple of note at Garbheta is that known as Sarva-Mangala. It is built of laterite in the Orissan style, and is in good condition.

56. *District Balasore.*—The principal remains at Balasore are the old Dutch and English tombs, which are in good order. The Qadam Rasul and Juma Mosque, built by Taki Khan during the reign of Aurangzeb, are maintained by the local Muhammadans. There are some ancient Buddhist statues lying in the Municipal compound. Hindu temples, generally built of laterite, in the Orissan style, are reported from several places. The most interesting part of the temple at Karnagarh is the three-storied western gate called Jogi Gopha. The temple at Danton is known by the name of Shyamalesvara. The Sahasralinga temple at Shastini is reported to be in a very dilapidated state, while the temples at Kupari are said to be beyond the possibility of conservation. Ruined forts with laterite walls are reported from the following places:—

Gope, Rai-Baniagarh (ascribed to an ancestor of the Raja of Mourbhanj), Chandrasekhargarh, and Dolgram.

57. *Satgaon and Bansbaria.*—These places lie in the district of Hooghly.

The three domes of the mosque at Satgaon have fallen in, and the whole is covered with jungle. The Hansesvari Temple at Bansbaria is of the mixed Benares style, and covered with thirteen cupolas. There is a second temple with brick ornamentation, of the style of the Vishnupur temples.

T. BLOCH,

Archæological Surveyor, Bengal Circle.

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT DURING THE YEAR 1901-1902.

The 6th September 1902.—The following extracts from the Report of the Board of Revenue on the administration of the Salt Department in the Lower Provinces during the year 1901-1902, are published for general information.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

No. 951B., dated Calcutta, the 8th August 1902.

From—H. WHEELER, ESQ., Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Dept.

I AM directed by the Board of Revenue to submit the following Report on the administration of the Salt Department during the year 1901-1902.

THE HON'BLE MR BOURDILLON, C.S.I.

* * * * *

CHAPTER I.—PRELIMINARY.

Salt Law.

3. The Indian Salt Act, XII of 1882, continued to be the salt law in force in Orissa. Outside that area in the districts of the 24-Parganas, Khulna, Midnapore, Howrah, Backergunge, Noakhali, and Chittagong that Act, and Act VII (B.C.) of 1864, remained concurrently in force.

Administration.

4. In January 1902, the district of Howrah, which, with Noakhali, had been brought within the scope of preventive operations in March 1901, was added to the charge of the Assistant Commissioner of Salt. No active measures have as yet been taken in Noakhali, but inquiries will shortly be made with a view to operations being started.

In accordance with the Government of India's order No. 3525S.R., dated the 14th July 1900, the saltpetre refineries in Calcutta and its environs were brought under the control of the Commissioner of Excise and Salt, Bengal, with effect from the 1st July 1901, the Assistant Commissioner (Mr. S. G. L. Platts) taking charge of them from the Assistant Commissioner of the Lower Division, Northern India Salt Department, on that date.

In Khulna, preventive operations, which in the previous year had been confined to the Kaliganj thana, were extended to thanas Asasuni, Paikgacha and Baitaghata. In Chittagong, three Sub-Inspectors' ranges covering the salt areas of the district, with head-quarters at Sitakund, Cox's Bazar, and Teknaf, were formed with effect from October 1901, and the salt staff was reinforced by the addition of three Sub-Inspectors, four petty officers, and 26 peons from Orissa.

* * * * *

CHAPTER II.—STOCK, IMPORTS, MANUFACTURES, AND CLEARANCES.

Accounts of stocks and issues.

7. The stocks, imports, clearances, &c., for the years 1899-1900 to 1901-1902 are shown below:—

STOCKS, IMPORTS, &c.	1899-1900.	1900-1901.	1901-1902.
	MDS.	MDS.	MDS.
Total of all stocks at the commencement of the year.	32,62,652	31,54,855	13,09,668
Total quantity imported or manufactured during the year.	1,07,81,024	89,33,305	1,33,89,363(a)
Total ...	1,40,43,676	1,20,88,160	1,46,99,031
Quantity on which duty was paid during the year.	1,07,72,858	1,06,20,120	1,09,58,475(b)
Quantity which passed free of duty for manufacture of glazed stoneware.	1,760	4,168	1,439(c)
Quantity written off during the year for wastage or otherwise.	1,14,203	1,54,204	1,20,153
Total ...	1,08,88,821	1,07,78,492	1,10,80,067
Balance at the close of the year ..	31,54,855	13,09,668	36,18,964

(a) Includes 374 maunds found in excess in *golas* and 108 maunds surplus from bond.
(b) Includes 6,40,325 maunds of Bombay and Madras salt passed free of duty.
(c) Includes 439 maunds used for ship's stores

At the commencement of the year stocks had fallen abnormally low; the quantity of salt in all the *golas*, both public and private, amounted to a little over 13 lakhs of maunds only, or nearly 18½ lakhs of maunds less than in the preceding year. The importations during the year were, however, unusually large, and totalled nearly one crore and 34 lakhs of maunds. Since the year 1898-99 there has been no local manufacture of salt. The sales amounted to over one crore and 9½ lakhs of maunds, and after allowing for wastage, the closing balance stood at 36,18,964 maunds. In addition, at the close of the year, there were 2,06,049 maunds of salt lying afloat in ships in the port of Calcutta ready to be sold direct to purchasers, against 1,63,267 maunds at the close of 1900-1901. At Chittagong 57,169 maunds of salt were lying afloat for discharge into bond at the close of the year.

The Collector of Customs, Calcutta, reports that the importations for the year and the quantity bonded were the highest on record. The increase in the importations was due to freight being cheap and plentiful in comparison with the previous year. Steamers have almost entirely superseded sailing ships in the general trade of Calcutta and in the salt trade in particular, and as it is always necessary for a steamer to obtain a quick despatch, a very large proportion of the salt imported was delivered into bond. In consequence, the accommodation at both the Sulkea and Kidderpore *golas* was rapidly filled up, and much difficulty was experienced in providing the bonding space required by the trade. The Board are satisfied that increased space for storage is needed at Sulkea, and proposals to that effect have been submitted.

Imports.

8. * * * * * * The importations into Calcutta advanced during the year by 49·5 per cent. The major portion still comes from the United Kingdom, though its former more extensive monopoly is being encroached upon by other competitors. The imports from Aden and the Red Sea are increasing rapidly, and as these salts do not have to pay the Canal dues, they compete on favourable terms with salt imported from Europe. Salt was imported for the first time from Port Said, of similar quality to the *karkatch* salts from Aden and the Red Sea, but as the steamers importing it have to pay the Canal dues, the Collector of Customs doubts whether it will be able to compete with the other *karkatch* salts.

Taken in conjunction with the large increase during the year in the operations at the Sulkea and Kidderpore golas, which is noticed below, it is obvious that the larger importations involved a considerable addition to the work of the Preventive Salt establishments in Calcutta. The Collector of Customs reports that salt was discharged from shipboard into bond on no less than 269 nights during the year, and this alone entailed much extra labour. As much as 700,000 tons of salt were weighed under official supervision—475,000 tons on boardship, and 225,000 tons at the golas. The low rate of wastage and the results of check re-weighments testified generally to the accuracy of the work done.

The importations into Chittagong show an advance of 70 per cent. compared with those in the preceding year. No reason has been assigned for this increase, but it is believed that, as in Calcutta, it was largely due to freight being easily and cheaply procurable.

Sales of imported salt from ship board and bond.

9. * * * * * * * The total quantity of imported salt sold increased by 1·4 per cent. Of this 32 per cent. was sold from shipboard and 68 per cent. from bond. The corresponding proportions in the preceding year were 27 and 73 per cent. In Calcutta although sales from the importing vessel direct increased by 18 9 per cent., there was a decrease of 10 per cent. in the sales from bond. The increase in the total sales at Narayanganj and Jhalakati is noticeable, amounting to as much as 18 and 71 per cent., respectively.

Transactions in the Sulkea and Kidderpore Dock *golas*.

10. The following figures show the total turn-over at the Sulkea and Kidderpore Dock *golas* for the past five years:—

	Mds.
1897-98	1,03,91,078
1898-99	1,08,34,957
1899-1900	1,13,87,469
1900-1901	1 21,04,343
1901-1902	1,49,52,131

The figures for the past year were the highest ever recorded. The total turn-over at the Sulkea *golas* was 99,70,762 maunds against 81,09,104 maunds in the preceding year. At the Dock *golas* it was 49,81,369 maunds against 39,95,239 maunds. The increase in the work which these figures connote has already been referred to

Inland bonded warehouses.

11. Licenses were issued for three additional private warehouses during the year. * * * * * Twenty-one warehouses in all were open at the close of the year.

* * * * * *

The quantity of salt despatched to these inland bonded warehouses from shipboard and from bond in Calcutta amounted to 13,53,091 maunds, as compared with 10,43,871 maunds in 1900-1901, an increase of over 29 per cent. The preced ng year had shown an increase of 25 per cent. as compared with 1899-1900, and it would seem that this branch of the salt trade is steadily and rapidly growing in popularity. The quantity of non-duty-paid salt removed during the year from shipboard at Chittagong for clearance at Narayanganj shows an increase of 3,505 maunds, or over 25 per cent., as compared with the preceding year, but this was far from compensating for the very large falling off during 1900-1901.

* * * * * *

Inland transport of salt.

13. The following statement shows the proportion of duty-paid salt conveyed by the various means of transport from Calcutta inland, as well as to Orissa, during the past two years:—

Period.	By boats.	By steamers and flats.	By rail.	Total despatch.
	Mds.	Mds.	Mds	Mds.
1900-1901 ...	26,17,561	12,08,554	55,23,274	93,49,389
1901-1902 ..	24,87,009	10,66,190	64,41,580	99,94,779
	−1,30,552	−1,42,364	+9,18,306	+6,45,390

The quantity carried by boat decreased by 4·9 per cent., and that sent by steamers by 11·7 per cent. The quantity conveyed by rail, however, increased by 16·62 per cent. Of the aggregate quantity despatched from Calcutta, 24·8 per cent. was conveyed by boats, 10·6 per cent. by steamers and flats, and 64·4 per cent. by rail, as against 27·9, 12·9, and 59·07, respectively, during the preceding year. It would appear that the railways are steadily attracting the traffic to the deteriment of other means of transport. The opening of a pass station at Shalimar in February 1902, since when it is possible to convey salt to Orissa by the Bengal-Nagpur Railway, will increase this tendency.

Stocks and issues of locally-made salt

14. There was no manufacture of salt during the year on the Chilka Lake in Orissa. The total quantity of salt in hand at the Tua and Gurubai factories at the beginning of the year was 3,16,944 maunds, inclusive of a wastage of 3,530 maunds remaining to be written off at the close of the previous year. To this have to be added 54 maunds of salt found in excess in a heap at the Gurubai factory, making the total stock 3,16,998 maunds. Of this quantity, 2,25,116 maunds were sold (1,31,654 maunds for consumption in Puri, 91,968 maunds in Cuttack, and 1,494 maunds outside the Province), against 84,687 maunds in the previous year; 21,320 maunds were written off as wastage, leaving a balance of 70,562 maunds at the close of the year. Deducting from this balance a further wastage of 13,017 maunds, which remained to be written off, the actual balance stood at 57,545 maunds. This was finally disposed of by the 23rd May 1902. The largely increased sales were due to the reduction of the wholesale price to half-an-anna a maund, which was done with the object of effecting an early clearance of the stocks in hand. It will be seen that this result was achieved within a far shorter period that was anticipated in the report of the preceding year.

Imports of Madras salt into Orissa.

15. The imports of Madras *karkatch* and refined salt into Orissa from the different factories, as shown on the margin, amounted to 6,90,989 maunds, against 6,92,918 maunds in the preceding year, showing a decrease of 1,929 maunds, or ·2 per cent. The factories at Surla and Karasa showed an aggregate increase of 1,60,270 maunds, while those at Ganjam, Naupada, Jagannnaikpur, Coconada, and other places exhibited a total decline of 1,62,199 maunds, resulting in a net decrease of 1,929 maunds.

Name of factory from which the salt was imported.	Quantity imported in—		Increase.	Decrease.
	1900-1901.	1901-1902.		
	I. Mds.	I. Mds.	I. Mds.	I. Mds.
Ganjam	3,10,960	2,04,777	.	1,06,183
Naupada	1,69,496	1,57,466	.	12,030
Surla	13,128	1,53,140	1,39,012	..
Karasa	9,394	30,642	21,258	...
Jagannaikpur	21,572	6,478	.....	15,094
Other factories in Coconada and other places.	1,08,378	1,39,486	. ...	28,892
Total ...	6,92,918	6,90,989	1,60,270	1,62,199
Net decrease ... 1,929 mds.				

The result is, perhaps, due to circumstances of temporary application only. The imports into the districts of Cuttack and Balasore showed an aggregated advance of 1,03,815 maunds, and it was the decrease of 1,05,744 maunds imported into Puri and the Tributary Mahals, which more than counterbalanced what would otherwise have been a large increase. In Cuttack it is said that foreign-imported salt has been driven from the market, and the results in Puri are mainly due to the abnormally low price at which the old stocks of Lake salt were offered to the public. The decrease in the Tributary Mahals is not easily accounted for. The Commissioner of Salt suggests that a portion of the increased supplies to the district of Cuttack found their way into the Tributary Mahals, there had also been a large increase in the importations into the latter area during the preceding year, and it is possible that there were old stocks in hand.

CHAPTER III.—CONSUMPTION AND PRICES.

Consumption in Bengal.

16. The total quantity of salt which passed into consumption in the entire Province of Bengal during the year under review was 1,04,31,438 maunds. This is exclusive of 5,45,011 maunds, being the net exports by land, and inclusive of 17,974 maunds educed from saltpetre. The figures show an increase of 2,03,937 maunds, or 1·9 per cent. Of the total quantity the saliferous tracts (including the whole of Orissa) took 19,54,457 maunds, or about 19 per cent., and the rest of the Province 84,76,981 maunds, or 81 per cent. The consumption per head in the saliferous tracts works out to a little over 6 seers, or 12·34lbs approximately, and in the rest of the Province to 5 seers and 3 chittaks, or 10 67lbs. The figures are, at best, approximate only; in the first place, they assume that the unconsumed stocks of the previous year, which were consumed during that under report, were equal to the balance in hand at the end of the year under review. Again it is assumed that the salt is consumed in the district to which it is registered as despatched. In the saliferous districts in which illicit manufacture is easy, it would certainly have appeared probable that the recorded consumption of licit salt per head of the population would have been less than elsewhere. The figures, however, convey the opposite impression, but it is to be borne in mind that the arrangements for the record of consumption within the salt law limits are more complete than in the districts outside them.

The rates of consumption per head of population in the Bombay and Madras Presidencies for 1901-1902 have not yet been ascertained, but during the preceding year they were 11·88lbs. and 15·84lbs., respectively.

Consumption of salt within the Salt law limits.

17. * * * * * During the year 1900-1901 the reported consumption of salt within salt law limits rose from 8,42,529 to 8,51,271 maunds, and in the year under report it has still further increased by 15,902 maunds. There was an advance in consumption in all the saliferous districts, with the exception of Howrah and Noakhali, but it was largest in the districts of the 24 Parganas and Chittagong. Judging by the population test, however, the districts of Howrah and Backerganj show the best results and the district of Noakh ali the worst.

* * * * * *

21. * * * * * In most of the districts, as in the previous year, prices advanced during the year under report. The rise in price recorded at in Darjeeling is very marked, and special enquiry will be made as to the reason. Prices ruled lowest at Puri. The average wholesale price for the whole Province was Rs. 3-12-9 per maund, as compared with Rs. 3-11-7 in 1900-1901, showing a rise of one anna and two pies. Except in Pabna and Cuttack, the average price of salt per maund, in the principal provincial bazars, was generally higher than in the preceding year. The average for the twelve marts for which figures are quoted, was Rs. 3-11-9 per maund against Rs. 3-10-4 in 1900-1901, showing an increase of one anna and five pies per maund.

Prices of salt in Bengal generally.

The average wholesale price of Liverpool salt per hundred maunds as sold from the ship's side in the port of Calcutta, exclusive of duty, amounted to Rs. 69-11-5, as compared with Rs. 70-3-1 in 1900-1901, showing a decrease of only seven annas and eight pies. Considering the rise last year from Rs. 62-4-11, the fall is insignificant, and in view of the large importations it might have been expected that prices would have declined still further. It is also noticeable that the extension of the inland bonded warehouse system does not so far appear to have had much effect in cheapening salt in the interior of the province. The selling price of Liverpool salt per hundred maunds, exclusive of duty, which in 1900-1901 varied from Rs. 77-12-4 to Rs. 60-1-10 ranged in the year under report from Rs. 70-5-8 to Rs. 57-4 6.

CHAPTER IV.—PREVENTIVE MEASURE.

22. Preventive operations outside Orissa were carried on as before, in the districts of the 24-Parganas, Midnapore, Khulna, Backergunge, and Chittagong. In Midnapore, as already stated, the retention of the temporary staff has been extended for an additional period of three years. The district of Howrah was brought tentatively within the scope of operations, and a small party from the Tamluk circle, in the district of Midnapore, was sent in January 1902, to work in the Syampur and Ulubaria thanas of the Howrah district. The experience of the past two seasons having shown that illicit manufacture does not prevail to any appreciable extent in the district of Backergunge, preventive operations there have been discontinued since the close of the year. The preventive staff has been disbanded, with the exception of the Inspector whom it is proposed to depute to Noakhali to ascertain and report on the steps to be taken and the establishment required, in order to commence preventive operations in that district during the next working season.

Preventive operations in the saliferous districts outside Orissa.

23. The number of cases in which salt was attached, released, and confiscated during the year under review were 929, 1½, and 908, respectively, as against 1,074, 2, and 968 in the previous year, the corresponding quantities of salt being 684, 546 and 150 maunds against 640 45, and 548 maunds in the year 1900-1901. There was thus an increase of 44 maunds, or 6·8 per cent., in the quantity attached, and a decrease of 398 maunds, or 72·6 per cent., in the quantity confiscated. On an average about 29½ seers of salt were attached and 6½ seers confiscated in each case, as against 24 seers, and 22⅔ seers, respectively, in 1900-1901.

Attachments, releases, and confiscations in the saliferous districts, including Orissa.

24. The number of seizures and unsuccessful house-searches during the year under review were 1,491 and 42, respectively, as against 794 and 17 in the previous year. There were no unsuccessful house-searches in the districts of Puri and Khulna, while in the districts of the 24-Parganas, Midnapore, and Chittagong the number of failures was insignificant in comparison with the number of seizures effected. In the districts of Balasore and Cuttack the numbers were 20 and 14, respectively; the owners of the houses are said to have learned of the intended search and to have destroyed all illicit articles. The general percentage of unsuccessful house-searches to seizures exhibits a slight increase, having risen from 2·14 in the previous year to 2·81 in the year under report. In the year 1899-1900, however, it was as much as 4·1.

Number of seizures and unsuccessful searches.

25. * * * * * There were 1,238 prosecutions during the year under review, against 898 in the previous year: out of 1,405 persons arrested and brought to trial, 1,174 were convicted, showing a percentage of 83.

Number of cases instituted under Acts VII (B.C.) of 1864 and XII of 1892.

24-Parganas	361
Chittagong ...	179
Balasore	141
Puri	106

Cases of illicit manufacture of salt (section 9, Act XII of 1882) numbered 953, and were most numerous in the districts marginally noted. The proportion of persons convicted of this offence was 80 per cent. of those brought to trial. In the districts of Chittagong and the 24-Parganas the increase is attributed to greater activity on the part of the salt officers, to the provision of a steam launch in the 24-Parganas, and to the strengthening of the salt force in Chittagong, which was for the first time employed throughout the year. There were no cases of possession of spontaneous or swamp salt during the year. Owing to the failure of the police to attend house searches, about 50 cases in the 24-Parganas and 42 cases in Midnapore are reported to have broken down. To prevent a repetition of these fiascos, the sanction of Government has been obtained to the appointment of nine special police head constables in Midnapore. Similar arrangements in the 24-Parganas are under the consideration of the Salt Commissioner. Salt officers were instrumental in the detection of 39 opium cases also, as compared with 37 in the preceding year. No cases under the Excise Act were reported by them.

* * * * * * *

CHAPTER V.—FINANCIAL RESULTS.

28. * * * * * The financial results of the year, as compared with 1900-1901, show an increase of Rs. 5,83,954, or 2·3 per cent. in the receipts and an increase of Rs. 42,099, or 9·02 per cent. in the charges, giving a net revenue of Rs. 2,55,21,299, which is in excess of that obtained during 1900-1901 by Rs. 5,41,855, or 2·2 per cent. The increase in receipts occurs mainly under the two heads of Import and Excise Duties on Salt.

Receipts and charges.

* * * * * * *

CHAPTER VI.—MISCELLANEOUS.

35. The quantity of salt educed in the manufacture of saltpetre and removed from all refineries in the Province on payment of duty during the year, was 17,974 maunds, as compared with 17,584 maunds similarly removed in 1900-1901. The quantity of refined saltpetre produced in the refineries in Calcutta was 50,571 maunds, as compared with 61,924 maunds, and the quantity of salt educed was 5,594 maunds, against 3,496 maunds in 1900-1901. The quantity of salt excised was 2,360 maunds in comparison with 4,740 maunds in the preceding year.

Trade in saltpetre.

* * * * * * *

38. In Midnapore there were six cases of assault on Salt officers, one in each of the thanas Khedgree, Contai, Dantan, and Egra, and two in thana Mohisadal. In the case at Nasalla Chak hât, in thana Khedgree, five men were charged under section 147 of the Indian Penal Code, all of whom were convicted, one being fined Rs. 100 and the rest Rs. 60 each. In the case in thana Contai, three men were charged under sections 114 and 353 of the Indian Penal Code, but all were acquitted for want of sufficient evidence. In the case in thana Dantan nine men were sent up under sections 353 and 147 of the Indian Penal Code, all of them being found guilty and sentenced to different terms of imprisonment, while in the two cases in thanas Egra and Mohisadal all the accused, except one, were fined. Another case in the Mohisadal thana is pending trial. * * * * * The Commissioner of Salt reports that in all the districts the attitude of the people towards the Department is hostile, but cases of active resistance are becoming scarce in the districts of the 24 Parganas and Chittagong.

Offences against officers of the Department

* * * * * * *

WEATHER AND CROP REPORT.

For the week ending the 15th September 1902.

Burdwan.—Rainfall at Sadar 1·88, Kalna 3·52, Katwa 2·06, Raniganj 2·80. Weather fine and hot. Transplantation of *aman* nearly finished. Weeding commenced. Harvesting of *aus* continues. Fodder and water sufficient. Condition of cattle good. Common rice sells at 11 seers per rupee.

Birbhum.—Rainfall at Sadar 7·67, Rampur Hât 7·95. Weather cloudy. Rampur Hât subdivisional officer reports that considerable loss to property and some lives have been caused by recent floods. Several villages destroyed. Common rice sells at 12 seers per rupee. Fodder sufficient.

Bankura.—Rainfall at Sadar 3·85. Paddy and sugarcane crops doing well. Fodder and water sufficient. Common rice sells at 12 seers per rupee.

Midnapore.—Rainfall at Sadar 1·33, Contai 1·73, Ghatal 5·24, Tamluk 5·23. Weather hot and cloudy. Harvesting of *aus* continues. Agricultural prospects good. Fodder and water sufficient. Cattle-disease reported from Binpur thana. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Contai	12	0	
Tamluk	11	0	
Ghatal	12	12	

Hooghly.—Rainfall at Sadar 3·48, Serampore 4·79, Arambagh 3·05. Weeding of *aman*, harvesting of *aus* and steeping of jute going on. Prospect of standing crops good. Weather seasonable. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Serampore	10	4	
Arambagh	11	6	

Howrah.—Rainfall at Sadar 2·92, Ulubaria 1·64. Fall general. No more rain wanted for next 8 or 10 days. Transplantation of *aman* paddy still going on. Reaping of *aus* still continues; its threshing and the cutting and steeping of jute going on. Sugarcane and vegetables are doing very well. Fodder and water-supply sufficient. No cattle-disease. Common rice sells on an average at 11 seers per rupee everywhere within the district.

24-Parganas.—Rainfall at Sadar 2·65, Barasat 1·22, Basirhat 3·01, Diamond Harbour 1·26. Weather hot and cloudy with moderate showers. State and prospect of crops good. *Aus* and jute still being harvested, and the latter being steeped. Transplantation of *aman* nearly finished. Common rice sells at 11 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 3·84, Ranaghat 4·02, Chuadanga 5·44, Meherpur 3·50, Kushtia 3·16. Harvesting of jute continues. Prospects of standing crops good. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Ranaghat	11	0	
Chuadanga	11	0	
Meherpur	13	5	
Kushtia	11	4	

Murshidabad.—Rainfall at Sadar 9·13, Kandi 5·40, Jangipur 6·23, Lalbagh 7·25. Weather seasonable. Harvesting of *bhadoi* almost completed. There was a severe flood of the Kana Nadi and Moro river in Kandi subdivision. Jute being cut and steeped in Jangipur. Sugarcane doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	8	per rupee.
Kandi	13	0	
Jangipur	12	0	
Lalbagh	11	0	

Jessore.—Rainfall at Sadar 3·72, Jhenida 8·54, Magura 10·07, Narail 6·46, Bangaon 2·74. Weather seasonable. Prospect of crops fair. Harvesting of *aus* almost completed. Rain has improved prospect of *aman* paddy. Fodder and water sufficient. Cattle-disease reported from Sahkuna outpost in Magura and Kalia in Narail. Common rice sells at 12 seers per rupee.

Khulna.—Rainfall at Sadar 3·41, Bagerhat 1·57, Satkhira 6·60. Weather seasonable. Transplantation of *aman* still continues. *Boro* maturing well and an average crop expected. Fodder and water sufficient. Cattle-disease reported from Paikgachha and Fakirhat. Common rice sells as follows:—

	Srs. ch.	
Sadar	11 12	per rupee
Bagerhat	11 10	
Satkhira	10 8	

Rajshahi.—Rainfall at Sadar 5·96, Nator 3·51, Naugaon 4·93. Prospects of standing crop good. Harvesting of jute and *aus* continues. Transplantation of *aman* nearly finished. Common rice selling at 12 seers per rupee.

Dinajpur.—Rainfall at Sadar 3·80. Fall in the district general, varying from 2·98 to 8·21. Weather seasonable. Standing crops good. Steeping of jute continues. Cattle-disease to small extent reported from Kaliaganj. Fodder and water plentiful. Rice selling at 12 seers per rupee.

Jalpaiguri.—Rainfall at Sadar 20·63, Alipore Duars 11·33. Weather rainy with high wind during the first four days. Harvesting of *bhadoi* paddy nearly finished. Steeping of jute going on. *Haimanti* paddy doing well. Prospect favourable. Common rice sells at 11¼ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Sadar 11·64, Kurseong 17·75, Siliguri 13·28. Weather seasonable. *Hills—Bhadoi, haimanti dhan*, maize, *bara* and *chhota marua* doing well. *Terai*—Transplanting of *haimanti* paddy nearly finished. Reaping of jute and *bhadoi* paddy going on. Prospects good. Coarse rice sells as follows:—

	Srs. ch.	
Hills	9 0	per rupee.
Terai	10 0	

Maize sells at Darjeeling at 20 seers and at Kalimpong at 34 seers per rupee.

Rangpur.—Rainfall at Sadar 7·33, Gaibanda 2·29, Nilphamari 5·84, Kurigram 7·26. Weather cloudy and hot. Transplantation of *aman*, cutting and steeping of jute going on. Harvesting of *bhadoi* nearly finished. Fodder and water sufficient. Common rice sells as follows:—

	Srs. ch.	
Sadar	9 8	per rupee.
Gaibanda	10 0	
Kurigram	12 0	
Nilphamari	10 8	

Bogra.—Rainfall at Sadar 4·63. Fall general. Harvesting of *aus* and transplantation of *aman* nearly finished. Steeping of jute going on. Outturn of jute estimated to be 70 per cent. Fodder and water sufficient. Prospects fair. Common rice sells at 12 seers per rupee.

Pabna.—Rainfall at Sadar 3·12, Sirajganj 5·05. Weather cloudy and rainy. Heavy showers general. Prospects of *aman* and sugarcane fair. Fodder sufficient. No cattle-disease Common rice sells at 10 seers per rupee.

Dacca.—Rainfall at Sadar 5·2, Manikganj 11·41, Munshiganj 7·17, Narayanganj 5·39. Prospects of crops fair. Weather seasonable. Fodder available. No cattle-disease. Common rice sells at 11 seers per rupee.

Mymensingh.—Rainfall at Sadar 4·06, Jamalpur 2·92, Kishorganj 2·71, Tangail 4·18. Weather seasonable. Steeping of jute and transplantation of *aman* continue. Reaping of *aus* finished, its outturn estimated at 80 per cent. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs ch.	
Sadar	12 0	per rupee.
Kishorganj	11 4	
Jamalpur	11 6	
Tangail	10 4	

Faridpur.—Rainfall at Sadar 2·95, Goalundo 3·50, Madaripur 5·62. Weather sultry with occasional rain. Prospects of *aman* paddy good. Fodder available in sufficiency. Condition of cattle good. Water sufficient. Common rice sells at 11 seers the rupee.

Backergunge.—Rainfall at Sadar 4·09. Fall general. Weather seasonable. Transplantation of *aman* continues. Prospects fair. Cattle-disease in thana Matbari. Fodder sufficient. Common rice sells at 13½ seers (*aus*) and 12 seers (*aman*) at Sadar; at Bhola 11 seers (*aus*) and 9½ seers (*aman*) per rupee.

Tippera.—Rainfall at Sadar 1·64, Brahmanbaria ·41, Chandpur 11·53. Weather seasonable. Prospects of standing crops good. Reaping of jute and transplantation of paddy not yet completed. Fodder and water sufficient. No cattle-disease. Common rice sells at 14 seers per rupee.

Noakhali.—Rainfall at Sadar 4·26, Feni 2·68 Harvesting of *aus* and transplantation of *aman* still continues Prospects fair. Cattle-disease at Sudharam. Water sufficient. Fodder not so. Common rice sells at Sadar at 11½ seers and at Feni at 13 seers per rupee

Chittagong.—Rainfall at Sadar 2·26, Cox's Bazar 11·80. Reaping of *aus dhan* is finished. Transplantation of *aman dhan* is still going on. Water and fodder sufficient. Common rice selling at 12 seers 11 chitaks.

Chittagong Hill Tracts —Rainfall 2·50. Weather fair. *Joom* harvesting and sowings of winter rice continue. Prospects of cotton and rape crop bad owing to too much rain and too little sunshine. Common rice sells at 12 seers per rupee.

Patna.—Rainfall at Sadar 10·20, Barh 3·75, Bihar 2·01, Dinapore 4·08, Hilsa 4 27, Bikram 4 52. Weather cloudy. Rainfall proved very useful, but more wanted. Harvesting of Indian-corn progre sing. *Aghani* prospects improved. Transplantation of paddy continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Patna	12	0	per rupee.
Bihar	10	0	
Dinapore	12	4	
Barh	11	12	

Gaya.—Rainfall at Sadar 5·34, Jahanabad 4·95, Aurangabad 8·41, Nawadah 2·25. Weather seasonable. Transplantation of paddy over, except in the Nawadah subdivision. Harvesting of the *bhadoi* crops commenced. Sugarcane doing well. No cattle-disease. Fodder and water ample. Average price of common rice is 10¾ seers per rupee.

Shahabad.—Rainfall at Sadar 1·23, Buxar 2·50, Bhabhua 3·48, Sasaram 2 41, Dehri 2·93. Weather hot and cloudy. Harvesting of *bhadoi* continues. Prospects of paddy and sugarcane good. No cattle-disease. Rice sells at Sadar at 11 seers a rupee.

Saran.—Rainfall at Sadar 5 59, Siwan 4·0), Gopalganj 6·75. Weather rainy and cloudy. Rainfall has been general and has proved most beneficial to agricultural operations. Standing crops doing well. Fodder and water sufficient. Cattle-disease reported from one village. Common rice sells at 12¼ seers per rupee.

Champaran.—Rainfall at Sadar 4·73, Bettiah 5·09. Weather hot and cloudy. Harvesting and threshing of *bhadoi* crops going on. Outturn of maize estemated at 110 per cent. Transplantation of *aghani* rice finished. Sugarcane doing well. Little cattle-disease. Fodder and water sufficient. Common rice sells at 14¾ seers and maize at 22 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 2 25, Hajipur 4·11, Sitamarhi 1·69. Weather cloudy generally. Transplantation of paddy nearly finished. Harvesting of *bhadoi* crops continues. Prospects fair. Fodder and water sufficient. Prices are —Common rice 11½ seers, maize 22 seers a rupee.

Darbhanga.—Rainfall at Sadar 1·67, Samastipur 9·18, Madhubani 3 89. Transplantation of paddy is still going on. Harvesting of *bhadoi* in progress. Fodder and water sufficient. Cattle-disease is reported from Warisnagar and Samastipur thanas. Common rice sells as follows : —

	Srs.	ch.	
Sadar	12	8	per rupee.
Samastipur	12	0	
Madhubani	11	11	

Monghyr.—Rainfall at Sadar 5·22, Begusarai 4 51, Jamui 4·25. Weather hot and cloudy. Reaping of *bhadoi* crops and *makai* harvesting continues. Paddy benefited by rain. Sugarcane doing well. Fodder and water sufficient. No cattle-disease. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11	8	per rupee.
Begusarai	12	0	
Jamui	11	0	

Bhagalpur.—Rainfall at Sadar 1·94, Banka 2 06, Malhipura 4·83, Supaul 5·16. Weather cloudy. Prospects of *aghani* continue fair. Harvesting of *marua* and *bhadoi* paddy going on Transplantation of paddy completed. Sowing of *kurthi* commenced in Banka subdivision. Sporadic cases of cattle-disease. Fodder and water sufficient. Common rice sells as follows : —

	Srs.	ch.	
Sadar	11	6	per rupee.
Banka	12	10	
Madhipura	13	0	
Supaul	15	0	

Purnea.—Rainfall at Sadar 6·14, Kishanganj 4·15, Araria 5·25. Fall general. Weather variable *Bhadoi dhan* and jute are being harvested. Cattle-disease reported from Palasi outpost. Fodder and water sufficient. Common rice sells at Sadar and Kishanganj at 11 seers and at Araria at 14 seers per rupee.

Malda.—Rainfall at Sadar 3·52, Chanchal 6·70, Sibganj 4·88, Gajol 6·04. Fall general. Weather hot and cloudy. Plants of winter rice thriving. Prospects good. Harvesting of *bhadoi* not yet completed. Cutting of jute still continues. No cattle-disease. Fodder and water sufficient. Common rice sells at 12½ seers per rupee.

Southal Parganas. Rainfall at Sadar 9·51, Deoghur 2·90, Godda 4·15, Jamtara 5·98, Pakaur 8·03, Rajmahal 4·84 Weather rainy but hot. Prospects of *aghani* good. Standing crops doing well. Transplantation of rice over. Harvesting of *makai* continues. Common rice sells at 12 seers per rupee at Sadar.

Cuttack.—Rainfall at Sadar 0·32. Fall general. Weather seasonable. Early *beali* being cut and average outturn expected. Late *beali* growing well into maturity. *Guru* and *laghu sarad* growing well. Prospects fair. No cattle-disease. Fodder and water sufficient. Old common rice sells at 14 seers 7 chitaks and new *beali* at 18 seers 6 chitaks at Sadar.

Balasore.—Rainfall at Sadar 0·87. Fall general *Beali* being reaped. *Sarad* being transplanted and weeded. Prospects good. Standing crops with sugarcane prospering. Rice sells at 14 and 16 seers a rupee at Sadar and Bhadrak respectively. Fodder and drinking water sufficient.

Angul.—Rainfall at Sadar nil, Chhendipada 1·07, Tikerpara 0·47, Bissipara 0·24 Weather hot. Weeding of paddy and sowing of *rabi* in progress. Harvesting of *bhadoi* crops continues. Common rice sells at 12 and 10½ seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall 0·56. Fall general. Weather seasonable. Puddling and weeding of winter rice continues. Harvesting of *bhadoi* paddy and *mundua* in progress. Outturn expected to be normal. Sugarcane and other miscellaneous crops doing well. Fodder and water-supply sufficient. Common rice sells at 14 seers 7 chitaks per rupee. Cattle-disease has broken out at places.

Hazaribagh.—Rainfall at Sadar 3·59, Giridih 4·55. Fall not general. Weather seasonable. Harvesting of *bhadoi* crops going on. Sugarcane doing well. Cattle-disease reported from two thanas. Fodder and water sufficient. Common rice sells at 10¾ seers per rupee.

Ranchi.—Rainfall at Sadar 5·86. Fall general. Weather seasonable. Prospects good. Sowing of *sirguja* and *kurthi* in progress. Cattle-disease reported from several thanas. Fodder and water sufficient. Common rice selling at 14 seers per rupee.

Palamau.—Rainfall at Sadar 2·50. Weather seasonable. *Sawan* and *gundli* being harvested. Standing crops all doing well. Cattle-disease continues in places. Fodder and water sufficient. Prices at Sadar—Rice 11¼ seers, Maize 16 seers 14 chitaks per rupee.

Manbhum.—Rainfall at Sadar 1·99, Gobindpur 2·87. Fall general. Weather seasonable. Prospects of crops on ground good. Transplantation of winter rice completed. Palasi lac about 75 per cent. *Doha tasar* about 50 per cent. of normal harvest. Fodder and water sufficient. Cattle-disease not reported. Average price of common rice at Sadar is 12 seers and at Gobindpur 10½ seers per rupee.

Singhbhum.—Rainfall 1·13. Prospect of crop good. Harvesting of *guru* paddy commenced. Average price of rice is 12¼ seers per rupee in the district; at Chaibassa 12 seers.

General Summary.—The rainfall during the week was general and heavy at places. More rain is still required in the Patna district. In Rampur Hat subdivision of the Birbhum district considerable loss of property and loss of some lives have been caused by floods. Sugarcane promising Harvesting of *bhadoi* crops still continues. Transplantation of winter rice is almost over Standing crops doing well Prospects fair. Cattle-disease reported from 15 districts. Fodder and water generally adequate. The price of common rice has risen in 3 districts, fallen in 12, and is stationary in the rest (32).

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 16th September 1902.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF AUGUST 1902.

WEATHER in Bengal during the greater part of August was generally such as occurs during the monsoon season with fairly well distributed, though not in all parts normal, rainfall. The exceptional conditions noticed in earlier reports still existed in the early half of the month, but soon after the middle a change of a marked kind occurred and was chiefly shown by the movement of three shallow depressions which passed north-westward from the Bay in rapid succession between the 19th and end of the month.

The principal disturbance in the first half of the month was an exact parallel to one which occurred at the end of June and beginning of July, and which led to the commencement of general south-west monsoon weather in the greater part of Bengal As on that occasion a fall of pressure began in Assam and North Bengal and extended southward over the Province, but chiefly westward along the Himalayan range. Rainfall began in the extreme east of Assam on the 9th, it extended to North Bengal on the 10th, and then came a general heavy fall over the whole of Bengal Proper on the 11th. This westerly and southerly extension of the rainfall area ceased suddenly, and the heavy falls on the 12th were confined to the hills and submontane districts.

The absence of any indication of disturbed weather over the Bay on the south of the Province during the days preceding the changes referred to, as well as the fact that not only pressure but also temperature began to fall in the north-east first and that the extension of those changes was southward and westward, show that the disturbance was of a kind which, though not rare in the present season, has been exceptional in previous years. Also the information obtained from the ground level observations is insufficient to account for the occurrence of the general heavy rainfall on the 11th.

The rainfall of those days forms a considerable portion of what was recorded in North Bengal during the month, as an important change began soon afterwards, a change which may not have been independent of the earlier occurrences, but which in the absence of information must be treated as separate and independent.

The first indication of the change was the formation of the shallow depression in the west or south-west of the Bay about the 15th. It remained shallow and ill-defined for several days, causing irregularly cyclonic winds on the coast of the Circars and Madras. The winds never attained to even moderate strength; and the chief feature was the fall of temperature, which, beginning in the extreme south-west of the Bay, moved north-westward into India. The central area of the depression on the 19th was near the north coast of the Circars, as shown by the northerly winds at Vizagapatam and Gopalpur. On the following day the depression having moved westward, weather was of ordinary monsoon character over the Bay and Province.

Usually when depressions are forming over the Bay, especially in August and September, and northerly winds prevail over the Province owing to the indraught towards the low pressure area, rainfall to a great extent ceases in Bengal. During the days between the 15th and 19th when the above disturbance affected weather in the west of the Bay, very little rain fell in the western districts, but showers, generally light, were of almost daily occurrence in East and North Bengal. After the depression passed inland on the 19th, general light or moderate rain fell over the greater part of the Province, but it soon ceased because of the approach from the east of another disturbance towards the north of the Bay.

This disturbance was first shown by a moderate fall of pressure in the south of Burma on the 21st. The fall was more rapid on the 22nd, and there was then a well marked depression over the area represented by Rangoon and Moulmein, with a very uniform distribution of pressure over the Province and the north of the Bay. The depression continued to move north-westward, the central area being south-east from Akyab on the 23rd and close to the Orissa Coast on the 24th. Some development had occurred during the two days the disturbance was over the Bay, and when the centre was in the north-west angle, there was a steep pressure gradient with strongish winds over the whole sea area. The highest wind velocity at Diamond Island was 20 miles an hour on the 23rd, and on the west coast 25 miles at Saugor Island and Gopalpur on the 24th.

On the 25th the depression was inland and over Chota Nagpur, and on the 26th it had moved westward beyond the boundary of the Province A few stations in Orissa and Chota Nagpur reported heavy rainfall during the passage of the disturbance, and after it had moved westward, general light rain fell in the northern districts for a day or two.

The recovery of pressure after the passage of the above depression over Bengal was not complete when the third depression of the latter part of the month began to appear, again in the south of Burma. A moderate fall of pressure was reported from Moulmein and Tavoy on the 26th, and on the 27th the wind circulation was slightly abormal on the Burma coast between Diamond Island and Akyab. But for several days the disturbance was very slight and was shown as a wide diffused depression over the north of the Bay with light irregularly cyclonic winds at coast stations. On the 31st it was better defined, the central area was near

the south coast of Orissa, and a steeper pressure gradient had developed over the south and centre of the Bay. The depression was still shallow, and the greatest defect was ·1 inch at False Point. On the 1st September the centre was still over the Bay, but it then moved rapidly westward, and on the 2nd was to the west of Orissa.

Though there was very little wind with the disturbance and no heavy rainfall, showery weather became general over the Province after the passage inland.

The month was divided naturally into two equal parts. During the first-half fine settled weather prevailed over the Bay and general rain fell inland until the disturbance occurred in the Himalayan region in the second week. The period of general rainfall in Bengal was practically brought to a close by the heavy burst on the 11th, any heavy falls on subsequent days being chiefly in the northern district. During the second-half of the month weather was more disturbed over the Bay, and rainfall inland was not only lighter than during the first-half, but lighter than is usual at the time of the year. This was due to the westerly movement of the depressions and to the monsoon current being diverted westward from the Bay. The rainfall in Bengal generally during the latter half of the month occurred for two or three days at a time, while the depressions were in the north-west of the Bay and for a short time subsequent to the passage inland. At other times comparatively rainless weather prevailed, more especially in the western and central districts.

Pressure underwent considerable oscillations at times, but as no deep depression occurred, the daily rise or fall was never more than moderately rapid. The more noticeable changes were on the 9th and 10th, when weather was disturbed in the Himalayan region, and on the 24th and 25th, when the second of the three depressions of the latter part of the month was passing from the north-west angle of the Bay across the south-western districts. The fall in front of the depression was about ·15 inch in 25 hours, and a rise of similar amount occurred during the recovery.

The difference from the normal on an average for the month varied from excess of ·02 inch in Bengal Proper to defect of similar amount in the south of Burma and the south of Madras.

Temperature.—As cloud was not so heavy as usual in August, temperature was almost continuously higher than usual, though not by large amounts. The only occasions when comparatively cool weather was fairly general were about the 11th and the 26th after the rainfall caused by the disturbances of these dates. There was a rather large excess in Bihar while the depressions were developing over the Bay in the latter half of the month, the greatest being 5° on the 16th. At other times excess was only 1° or 2°. Owing to the continued excess from day to day the average temperature for the month is above the normal by considerable amounts. In South-West Bengal, Bihar and Chota Nagpur excess is 1°·5, in East Bengal and Orissa about 1°, and in North Bengal rather less than 1°.

Excess in maximum temperature varied from 2° to 3° in the western districts to less than 1° in the east. In minimum readings it was smaller, and generally less than 1° in Bengal Proper. In the west of Bihar and Chota Nagpur it was about 1°·5 on an average for the month.

Rainfall on an average for the larger divisions was below the normal, except in North Bengal, where there was excess of 3·5 inches, and in Orissa, where there was a small excess of a quarter of an inch. The defect was large in Chota Nagpur, more than 5 inches, and moderate in Bihar, more than 3 inches.

The reasons for the heavy rainfall in North Bengal and Orissa have been given. In the former it was due to the disturbance in the Himalayan region about the 10th and 11th, and in the latter to the series of depressions which crossed the south-western districts during the second part of the month.

The area of largest defect is the north and east of Chota Nagpur. Over that area there was a uniform defect of about 6 inches. Excluding the Orissa coast districts and the sub-montane tract in the north of Bihar, where the rainfall was generally in excess, the whole of the western half of the Province received less than the usual amount, though not to any great extent, except in the part of Chota Nagpur referred to. In Bengal Proper the variation from the normal is irregular. Generally there is defect, except in the eastern half of North Bengal and in parts of East Bengal. The greatest excess is 17 inches at Baxa, and at a few stations in the extreme north-east it is between 8 and 10 inches. In Chittagong defect is generally between 8 and 10 inches.

The actual falls were below 7 inches in the north of Chota Nagpur and the adjacent part of South Bihar, and below 5 inches at a few scattered stations in that region. In the south of Chota Nagpur, the greater part of Orissa, the southern and eastern parts of Lower Bengal, the greater part of North Bengal and the extreme north of Bihar falls were 10 inches and upwards, the larger amounts as usual being in the south-east and north-east. In Cooch Behar, Jalpaiguri and Darjeeling, Netrokona and Noakhali amounts exceed 20 inches, and at a few stations in the extreme north of North Bengal falls were upwards of 30 inches.

The comparison of the actual rainfall in the various large divisions of the Province with the normal is most accurately and conveniently shown in the form of a percentage. The figures representing the rainfall for the month, calculated in this way, are included in the table below under the heading of August. This table really gives a condensed summary of

the rainfall statistics of the present year up to date for each meteorological division, the first eight columns giving the actual average rainfall in each division in each month, expressed as a percentage of the normal, while the ninth column gives the total rainfall for the first eight months expressed as a percentage of the normal rainfall for that period:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	Actual rainfall of first eight months of 1902 expressed as a percentage of the normal fall for the period.
South-West Bengal	Nil	2	166	250	136	57	110	89	99
North Bengal ...	11	2	261	154	112	108	112	123	116

	Inches
The total fall of rain from 7th to 13th September 1902	3·23
The average fall of the corresponding period for 24 years, Surveyor-General's Office	3·14
The total fall from 1st January to 13th September 1902	56·71
The average fall of the corresponding period for 24 years, Surveyor-General's Office	53·64

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the traces of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; lightning.

G. W. KÜCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Alipore (Calcutta), the 15th September 1902.

NOTIFICATION.

No. 698T.P.—The 15th September 1902.—The following notifications, issued by the Government of the Punjab, prohibiting pilgrimage to the Solar Eclipse Fair at Thánesar, in the Karnal district, is republished for general information.

Karnal.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

No. 1335L.P., dated Lahore, the 6th September 1902.

NOTIFICATION—By the Government of the Punjab.

UNDER the provisions of the Epidemic Diseases Act, 1897, the Hon'ble the Lieutenant-Governor, being satisfied that a dangerous epidemic, viz. bubonic plague, is widely prevalent in the Punjab, and that the ordinary provisions of the law are insufficient to prevent its spread, is pleased to prohibit the sale of tickets on all dates from the 20th October 1902 to the 1st of November 1902, inclusive, at any railway station in the Punjab, to all persons proceeding to, or believed to be proceeding to, the Kurukshetra Sun Eclipse Fair near Thánesar, in the Karnal district.

No. 1337L.P., dated Lahore, the 6th September 1902.

NOTIFICATION—By the Government of the Punjab.

UNDER Clause V of the Regulations published with Punjab Government Notification No. 1356, dated the 10th of November 1897, the Hon'ble the Lieutenant-Governor is pleased to prohibit all persons from travelling from, or by way of, any place in the Punjab

to the neighbourhood of Thánesar, in the Thánesar tahsil of the Karnal district from the 20th of October 1902 to the 1st November 1902, both days inclusive, during which period the Sun Eclipse Fair would ordinarily be in progress.

No. 1338L.P., dated Lahore, the 6th September 1902.

NOTIFICATION—By the Government of the Punjab.

UNDER Clause V of the Regulations published with Punjab Government Notification No. 1356, dated the 10th of November 1897, the Hon'ble the Lieutenant-Governor is pleased to prohibit all persons from travelling to, or to the neighbourhood of Thánesar, in tahsil Thánesar of the Karnal district, at the time of the Sun Eclipse Fair, which would in ordinary course be held at that place on the 31st October 1902.

ERRATUM.

No. 1790T.M.—The 15th September 1902.—In the Notification No. 2329Medl., dated the 16th August 1902, appointing Assistant Surgeon Satya Saran Chakravarti to act as House Surgeon, Howrah General Hospital, during the absence, on leave, of Military Assistant Surgeon W. Clarke, *for* "Satya Saran Chakravarti" *read* "Satya Saran Mitra."

C. E. BUCKLAND,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 2645J.D.—The 16th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a barrack for the constables of the Sadar police-station, in the town of Burdwan, pargana Burdwan, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 cottahs 4 chitaks of standard measurement, bounded on the north by Babu Ram Lal Mukerji's tank, on the east by the Sadar police-station, on the south by the buildings Nos 26 and 27 belonging to the Maharaja of Burdwan and Raj Ballav Dutta, respectively, and on the west by the house and homestead land of Wazador Rahaman Choudhury and others, is required within the aforesaid town of Burdwan.

Burdwan.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the District Superintendent of Police, Burdwan.

C. E. BUCKLAND,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 2658J.D.—The 19th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Jagganath-gunge police outpost building in the village of Jorebari, pargana Kagmari, zilla Mymensingh, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 highas, 5 cottahs and 2 chitaks of standard measurement, is required. The land is bounded on the—

Mymensingh.

North—By a khal and road.
South—By railway land and village Gujadia.
East—By village Gujadia and khal.
West—By railway land and road.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Mymensingh.

C. E. BUCKLAND,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 2786J.D.—The 20th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of latrines for the police at the Bakarganj outpost, in the village of Salempur-Bakarganj, pargana Azimabad, zilla Patna, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 cottahs and 12·50 chitaks of standard measurement, bounded on the north, south, and east by the khud jot land of Nauji Mian, and on the west by a village pathway and the embankment and land of Nauji Mian, is required within the aforesaid village of Salempur-Bakarganj.

Patna.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Patna.

C. E. BUCKLAND,
Chief Secy. to the Govt. of Bengal.

PROCLAMATION.

No. 2827J.D.—The 22nd September 1902.—Under Section XV of Act V of 1861 (as amended by Act VIII of 1895) the Lieutenant-Governor declares that the conduct of the inhabitants of the villages of Galua, Kaibartakhali and Sreepur in Outpost Rajapur, Police Station Jhalokati, in the district of Backergunge, has rendered it expedient to increase the number of the Police force by the appointment of an additional force to be quartered therein at the cost of the inhabitants of the aforesaid villages. This proclamation shall remain in force for a period of twelve months from this date.

Backergunge.

The Proclamation No. 3851J., dated the 21st August 1902, published in the *Calcutta Gazette* of the 27th idem, is cancelled.

C. E. BUCKLAND,
Chief Secy. to the Govt. of Bengal.

Rule to prevent accidents at the Armenian Ghat north Landing-stage.

UNDER section 62 of the Calcutta Police Act, 1866, the following rule has been made by the Commissioner of Police, with the sanction of the Lieutenant-Governor, for the purpose of preventing accidents to passengers in boarding or leaving the Ferry steamer at the Armenian Ghat north landing-stage :—

When the pontoon or landing-stage at the Armenian Ghat is thronged or liable to be obstructed, no person shall board or attempt to board or leave or attempt to leave a Ferry steamer while the same is still in motion, and no person shall board or attempt to board or leave or attempt to leave a Ferry steamer by any landing-stage until such landing-stage shall have been made fast.

Every person opposing or not obeying the above will be liable, under section 62 of the Calcutta Police Act, 1866, on summary conviction before a Magistrate, to a fine not exceeding one hundred rupees.

CALCUTTA,
The 15th September 1902.

R. A. D.' O. BIGNELL,
Commissioner of Police.

NOTIFICATION.

Examination of Compounders at the Dacca Medical School.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl, dated 2nd November 1896, and 337T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of compounders will be held on Monday, the 27th October 1902, at the Dacca Medical School.

2. Every candidate must produce a certificate of training, age, and previous education, as required by Rule 9 of Bengal Notification No. 4042Medical, dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in Rule 10.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the 27th October 1902 at the office of the undersigned.

[EXCEPTION.— The students belonging to the Compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid their school entrance fee]

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination.

This test consists of reading and writing from dictation, prescriptions and labels.

They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, &c.

NOTE.—The attention of the candidates is drawn to Rule 10, section (2) of the Government notification of the 2nd November 1896, from which they will observe that the Chemists and Druggists' establishments, from the legally-qualified managers of which they obtain their certificates, will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

R. NEIL CAMPBELL, M.B., I.M.S.,

The September 1902. *Offg. Superintendent, Medical School, Dacca.*

NOTIFICATION.

Examination of Compounders at the Orissa Medical School.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and No. 288Medl., dated 17th January 1902, notice is hereby given that the next half-yearly examination of Compounders will begin at 8 A.M. on Tuesday, the 21st October 1902, at the Medical School, Cuttack.

2. Every candidate must produce a certificate of training and a certificate of age and previous education as required by Rule 9 (*vide* Government of Bengal Notification No. 4042-Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. All male candidates either belonging to the Compounder class of the Vernacular Medical Schools or to the outside dispensaries must forward to the Superintendent, Medical School, Cuttack, an examination fee of Rs. 5 at least one week before the 21st October 1902.

Female candidates will be examined free of charges.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (*a*) and (*b*), and of the persons granting the certificates to Rules 11 and 14 (3) and (4), and to the certificate, Forms C and D, in the schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

J. T. CALVERT, M.B. (LOND.), MAJOR, I.M.S.,

Superintendent, Orissa Medical School, Cuttack.

CUTTACK, *the 9th September 1902.*

Sheriff's Office, the 17th September 1902.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1902 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be held at the Court-house, in the Town of Calcutta, on Monday, the first day of December next, at 11 o'clock in the forenoon, and thence forward from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who are to prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 13th September 1902.—Babu Bhubaneswar Sanyal, Sub-Inspector of Schools, Giridih (class VII), was granted by the District Board of Hazaribagh privilege leave for 10 days, in extension of the leave already granted to him, and notified under date 7th July 1902.

The 15th September 1902.—Babu Chuni Lal Mustafi is appointed on probation for six months to be Farm Overseer in the Hazaribagh Reformatory School, and substantively *pro tempore* to class VIII of the Subordinate Educational Service, with effect from the date on which he joins that appointment, *vice* Babu Hara Kumar Guha, transferred.

The 17th September 1902.—In modification of the orders of the 6th June 1902, Babu Dwarka Nath Das, Head Clerk, Office of the Inspector of Schools, Rajshahi Division (class VIII), was absent on leave, under article 294 of the Civil Service Regulations, from the 2nd June to the 19th August 1902, both days inclusive.

The 18th September 1902.—Babu Hari Nandan Sinha, Inspecting Pandit of Godda, acted as Sub-Inspector of Schools, Godda, and in class VIII of the Subordinate Educational Service from the 12th January to the 20th March 1902, both days inclusive, during the absence, on medical leave, of Babu Haran Chandra Gupta.

The 20th September 1902.—In supersession of the orders of the 20th July 1902, Babu Sarat Chandra Bose, an Assistant Master of the Hare School (class VIII), was absent on leave for twenty days under article 369 of the Civil Service Regulations, with effect from the 21st April 1902.

A. PEDLER

Director of Public Instruction, Bengal.

Affiliation of the University of Calcutta to the University of Oxford.

IN a Convocation of the Oxford University held on June 3rd, 1902, the following Revised Statute on Colonial and Indian Universities (Stat. Tit. II, Sect. VII) was approved:—

Whereas it is expedient (1) to provide for the making of regulations for carrying into effect the provisions of the Statute on Colonial and Indian Universities; (2) to enable Candidates from these Universities under certain conditions to offer themselves for examination in any Honour School of the Second Public Examination, and to supplicate for the Degree of Bachelor of Arts without having passed either Responsions or the First Public Examination; and (3) to confine the requirement of a sufficient knowledge of the Greek language to Candidates from Colonial Universities, and to determine the conditions under which Candidates shall be permitted to satisfy that requirement by passing approved examinations of such Universities, the University enacts as follows :—

1. Any University situated in any part of the British Dominions other than the United Kingdom may apply to this University to be admitted to the privileges of this section of the Statutes.

Add., page 932 [1887].

2. The application shall be addressed to the Vice-Chancellor, who shall report the same to the Hebdomadal Council.

3. The Hebdomadal Council, after considering such application and after making such inquiry as it shall deem necessary, shall, if it think fit, propose to Convocation that the University so applying shall be admitted to the privileges of this section of the Statutes. A University admitted to the privileges conferred by this section of the Statutes may at any time renounce such privileges, and this University may at any time by a vote of Convocation withdraw the same from any University.

4. Any member of a University so admitted, who shall have pursued a course of study prescribed by it and extending over two years, and who shall have passed all the examinations incident to the course, may be admitted to the status and privileges of a Junior Colonial or Indian Student.

5. Any member of a University so admitted, who shall have pursued a course of study prescribed by it and extending over three full years, and who shall have taken Honours in the final examination incident to the course, may be admitted to the status and privileges of a Senior Colonial or Indian Student.

6. It shall be the duty of the Hebdomadal Council to draw up and submit to Convocation a statement of the conditions under which a member of a University so admitted shall be deemed to have taken Honours as aforesaid. Every such statement, if approved by Convocation, shall have the force of regulations made by Statute.

7. The status and privileges of a Junior Student shall be as follows :—

(*a*) The Term in which he is matriculated shall be reckoned, for the purposes of any provisions respecting the standing of members of the University, as the fifth Term from his matriculation.

(*b*) A Junior Student shall not be required to pass Responsions, or to pass in an Additional Subject at Responsions.

(*c*) A Junior Student who has passed the Second Public Examination, and has obtained Honours either in the First or in the Second Public Examination, shall be entitled to supplicate for the Degree of Bachelor of Arts so soon as he shall have kept statutable residence for eight Terms. Provided that, if he is a Colonial Student, he has shown a sufficient knowledge of the Greek language.

(*d*) A Junior Student who has passed the Second Public examination, but has not obtained Honours either in the First or in the Second Public examination, shall be entitled to supplicate for the Degree of Bachelor of Arts so soon as he shall have kept statutable residence for twelve Terms. Provided that, if he is a Colonial Student, he has shown a sufficient knowledge of the Greek language.

8. The status and privileges of a Senior Student shall be as follows :—

(*a*) The Term in which he is matriculated shall be reckoned, for the purposes of any provisions respecting the standing of members of the University, as the fifth Term from his matriculation.

(*b*) A Senior Student shall not be required to pass any part of Responsions or of the First Public Examination or any Preliminary Examination of the Second Public Examination.

(*c*) A Senior Student who has obtained Honours in the Second Public Examination shall be entitled to supplicate for the Degree of Bachelor of Arts so soon as he shall have kept statutable residence for eight Terms. Provided that, if he is a Colonial Student, he has shown a sufficient knowledge of the Greek language.

9. Every person who, having been matriculated, desires to claim the status of a Junior or Senior Student, shall make his application through an officer of a College or Hall or of the Non-Collegiate Body, to the Secretary to the Boards of Faculties, and shall at the same time pay to the University Chest, through the Secretary, the sum of one pound or of two pounds, according as he is admitted as a Junior or a Senior Student. If he makes his application later than a week from matriculation, he shall pay an additional fee of one pound.

10. Any person qualified to become a Junior Student on matriculation may be admitted to any part of Responsions, any part of the First Public Examination, and any Preliminary Examination in the Second Public Examination.

11. Every person who, being qualified to become a Junior or Senior Student on matriculation, desires to have his name entered for an examination before he has been matriculated shall make his application to the Secretary through an officer of a College or Hall or of the Non-Collegiate Body, who shall send the name to the Secretary seven clear days before the day fixed for entering names for the examination in question, together with—

(*a*) The statutable fee and in addition thereto the sum of one pound or of two pounds according as the Candidate claims to be qualified to become a Junior or a Senior Student;

(*b*) A declaration that the Candidate in his opinion *bonâ fide* desires admission to his College or Hall or as a Non-Collegiate Student as the case may be; and

(*c*) Evidence showing that the Candidate is qualified as aforesaid.

Any Candidate whose name has been entered for an examination as aforesaid shall, so soon as he has been matriculated, become a Junior or a Senior Student, as the case may be.

12. A Colonial Student shall be deemed to have shown a sufficient knowledge of the Greek language if he has passed—

either (*a*) one of the examinations enumerated below in the Schedule;

or (*b*) such examination or examinations of his University as shall satisfy the conditions laid down under the provisions of the next following clause. Provided that evidence of his having satisfied these conditions shall have been produced to the Secretary within one week from his matriculation, and that a registration fee of five shillings shall have been paid through the Secretary to the University Chest.

13. It shall be the duty of the Hebdomadal Council to draw up a statement of the conditions under which a member of a University which has been admitted to the privileges of this Statute shall be deemed to have shown a sufficient knowledge of the Greek language in the examinations of his University. Every such statement shall be submitted to Convocation, and, if approved, shall have the force of regulations made by Statute.

14. The Secretary shall have power to make and vary from time to time regulations for the admission of qualified persons to the status of a Junior or Senior Student, and for enabling Junior or Senior Students, or persons qualified to become Junior or Senior Students, to offer themselves for examination under the provisions of this section, provided that all such regulations and any variation in them shall be submitted to the Vice-Chancellor and Proctors for approval.

15. It shall be the duty of the Secretary to keep a sufficient record of the members of the University who have the status and privileges of a Junior or Senior Student respectively, and of the persons not yet matriculated whose names have been entered for an examination under the provisions of this section, and to see that no Candidate is admitted to examination or to any of the privileges of a Junior or Senior Student who has not satisfied the conditions of this section.

SCHEDULE.

1. The Examination in Stated Subjects in Responsions, or any examination which under Tit. VI. Sect. 1 § 2 exempts a Candidate from Responsions.

Add., p. 1036 [1898].

2. The Examination in Additional Subjects in Responsions, the subjects offered being a Greek book, or any examination, including Greek, which is accepted by the University as equivalent to this examination.

3. The Examination of Candidates in the Greek language only at Responsions.

4. The Examination of Candidates not seeking Honours in the First Public Examination.

5. The Examination of Candidates for Honours in Greek and Latin Literature in the First Public Examination.

6. The Preliminary Examination in the Honour School of Jurisprudence, provided that the Candidate satisfies the Examiners in a Greek book in that Examination.

7. Group A. I and D of the Examination of Candidates who do not seek Honours in the Second Public Examination.

8 and 9. The Honour Schools of Literæ Humaniores and of Theology in the same Examination.

SENATE HOUSE, *The 19th September 1902.*

K. C. BANURJI, *Offg. Registrar, Calcutta University.*

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1902.

WITH reference to Notification No. 5058F. in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH will be given this year to the author of the best original essay composed during the year 1902, giving the results of original research or investigation by the essayist on *Natural History*.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent in to the President of the Bengal Asiatic Society, 57 Park Street, Calcutta, by the end of December 1902. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1903.

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

C. W. BOLTON,
President of the Asiatic Society of Bengal.

T. RALEIGH,
Vice-Chancellor of the Calcutta University.

CALCUTTA; *The 30th August 1902.*

ALEX. PEDLER,
Director of Public Instruction, Bengal.

NOTIFICATION.

IT is hereby notified that for the ensuing half-yearly departmental examination of Junior Civilians, Deputy Magistrates and others, to be held at 11 A.M. on the 3rd November 1902 and the two following days, a local Examination Committee will be convened at the office of the Commissioner, Presidency Division, at No. 3, Charnock Place, Calcutta, for officers employed in all the districts of this Division.

C. J. STEVENSON-MOORE, *Offg. Commissioner.*

COMMR.'S OFFICE, PRESY. DIVN., CALCUTTA, *the 17th September 1902.*

NOTIFICATION.

IN connection with the second half-yearly departmental examination in 1902 of Assistant Magistrates and others, to be held on Monday, the 3rd November 1902, and the two following days, it is hereby notified that there will be a local centre at Dacca for officers employed in the districts of the Dacca and Chittagong Divisions.

The examination will be held in the Commissioner's Court-room, and will begin at 11 A.M. and 2 P.M. each day.

H. M. KISCH, *Offg. Commissioner.*

DACCA COMMR.'S OFFICE, *the 17th September 1902.*

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

1. Of H. E. Berthon's "Specimens of Modern French Verse" (Macmillan's Foreign School Classics), prescribed for the F. A. Examination in 1904, only pages 1—68 are to be read and not the whole book.

2. For the F.A. Examination in 1904, Gregg's "Text-book of Indian Botany," pages 1—224, has been replaced by the following:—

Oliver's First Book of Indian Botany: the whole of Part I and Chapter I of Part II, viz., the Elements of Morphology and Physiology of Flowering Plants, the Principles of their Natural Classification, and the diagnosis and detailed accounts of the following Natural Orders:—

1. Magnoliaceæ.
2. Bixaceæ.
3. Meliaceæ.
4. Sapindaceæ.
5. Combretaceæ.
6. Compositæ.
7. Convolvulaceæ.
8. Labiatæ.
9. Amarantaceæ.
10. Lauraceæ.
11. Liliaceæ.
12. Gramineæ.

3. The words "or the corresponding portions of the 16th edition, 1902," have been inserted after the portions of Ganot's Physics specified by way of inclusion or of exclusion for the B.A. and B.Sc. Examinations in 1904 in both Pass and Honour Courses.

4. For the B. A. Examination in 1904, Medlicott and Blanford's "Manual of the Geology of India," 2nd edition, by R. D. Oldham, A.R.S.M., has been added to the list of text-books in Geology, both in the Pass and in the Honour Course.

5. For the B A. and B. Sc. Examinations in 1904 and the M. A. Examination in 1903, Rutley's "Mineralogy" and "Rock-forming Minerals" have been substituted for Dana's "Text-book of Mineralogy," and Nicholson and Lyddekar's "Palæontology," Vol. II, has been substituted for Vol. II of Zittel's "Text-book of Palæontology."

6. Chapter XX of Burnside and Panton's "Theory of Equations" has been omitted from the course in Mathematics, group A. for the M.A. Examination in 1903.

7. The following books have been prescribed as text-books for the Examinations of the Calcutta University in 1903, 1904, and 1905:—

[*In all cases where reference is made to Chapters, Sections, Pages or Lines, thus Chaps. V—VIII, the reference is to be understood as inclusive.*]

ENTRANCE EXAMINATION, 1904.

The following portions of the English Selections appointed by the Syndicate for the Entrance Examination, and published by Messrs. Thacker, Spink & Co. in 1901, have been prescribed for the Entrance Examination of 1904:—

(TO BE READ.)

Prose.

Prince Charles's March to Derby.
The Merchant of Venice.
The Battle of Trafalgar.
The Village Schoolmistress.
On Character.
The Impurities of Air.
Ventilation.
Personal Hygiene.

Poetry.

Past and Present.
"Thou art, O God!"
The Journey Onwards.
The Hour of Death.
The Soldier's Dream.
Dora.
The Builders.

(TO BE COMMITTED TO MEMORY.)

"Thou art, O God!"
The Journey Onwards.
The Soldier's Dream.
The Builders.

Two papers to be set in English: the first paper to contain questions on the text-book and questions on grammar arising therefrom; the second paper to contain passages in a vernacular, as defined in paragraph 6 of the Regulations for the Entrance Examination, for translation

into English, together with questions on English composition. In the case of students whose vernacular is English, a special paper will be set in which simple essays or letters or other original composition will replace the passages for translation into English.

ENTRANCE EXAMINATION, 1905.

GREEK.

Xenophon ... ... Anabasis, Books I and II.

One paper to be set on Text and Grammar and one paper on Translation and Composition.

LATIN.

Cæsar ... ... De Bello Gallico, Book VII.

Ovid ... ... Stories from the Metamorphoses (Macmillan & Co.'s Elementary Classics Series).

One paper to be set on Text and Grammar and one paper on Translation and Composition, including easy passages from authors not prescribed beforehand to be translated into English.

GERMAN.

Hauff ... ... Das Wirtshaus im Spessart, by G. E. Fasnacht, omitting Saids Schicksale (Macmillan & Co.).

One paper to be set on Text and Grammar and one paper on Translation and Composition.

FRENCH.

Emile De Bonnechose ... Bertrand Du Geuselin (Pitt Press Series).

One paper to be set on Text and Grammar and one paper on Translation and Composition.

HEBREW.

The Book of Genesis.

One paper to be set on Text and Grammar and one paper on Translation and Composition.

ARMENIAN.

Michœl Chamiteh ... History of Armenia, Parts, I, II, and III.

SANSKRIT.

Calcutta University Selections for 1905, edited by Babu Nrisinha Chandra Mukerjee, M.A., B.L., and published by Messrs. S. K Lahiri & Co.

The following books or any others covering similar ground are recommended as text-books in* Sanskrit Grammar:—

Vidyáságar ... ... Vyákarana—Kaumudi,
or
Vidyáságar ... ... Upakramaniká as translated by Rájkrishna Banerji (12th edition),
or
Vidyáságar ... ... Vyákarana—Kaumudi (Hindi translation by Mathuranáth Sinha),
or
Nilmani Mukerjee ... Laghumanjarí,
or
Herambanáth Tattvaratna .. Vyákarana—Sangraha,
or
Kalikumár Sarman ... Vyákaranádarsa,
or
Kánhyailal Sástrí ... Vyákarana—Bodha (in Hindi),
or
Kánhyailal Sástrí ... Vyákarana—Bodha,
or
Gurunáth Sen Gupta ... Sukhabodha—Vyákarana,
or
Gadádhar Kábyatírtha ... Sanskrita-Bodha-Vyákarana,
or
Kálíschandra Vidyábinod ... Sanskrita-Prabes—Vyákarana,
or
Rajkumar Tarkaratna ... Students' Sanskrit Grammar.

BENGALI.

Calcutta University Selections for 1900, edited by Babu Srischandra Chaudhurí, M.A., B.L., and published by Messrs. S K Lahiri & Co.

Hemchandra Banerjee ... Poetical Selections.
Nukuleswar Vidyabhushan Bhásháboth Bánglá Vyákaran.

* Questions will be so set that they may be answered from any of the books named

HINDI.

Tulsidás ... ... Rámáyana, Ajodhyá Kánda.
Sitárám ... ... Uttararáma Charita (*Bháshá*).

URIYA.

M. S. Rao ... ... Prabandhamálá, pages 1-115.
Ram Naráyan Ráy ... Kabitá-Sangraha.

TELUGU.

Prose.

K. Veeresalingam ... Nitichęndica Sandhi.

Poetry

Selections published by the University of Madras for the Entrance Examination of December 1893, pages 13-30.

PALI.

Andersen's Pali Reader, pages 1-60.

BURMESE.

Prose.

Withandya Jataka.

Poetry.

Loka-Sara Son-ma-sá, prepared from original Manuscripts, under the auspices of the Vernacular Text-book Committee, Rangoon.

Grammar.

Lousdale's Burmese Grammar.

TAMIL.

Poetry.

Tamil Poetical Anthology, No. II, pages 15 to the end.

Prose.

The Panchatantra ... Parts I, II and III.

KHASI.

(FOR FEMALE CANDIDATES.)

H. Roberts ... ... Khasi Grammar.
John Roberts ... ... Fourth Reader.
The Book of Job.

ARABIC.

Selections by Shams-ul-Ulama Ahmad.

PERSIAN.

New Selections by Shams ul-Ulama Ahmad (prescribed for 1904-1908).

H. Stephen ...	Elements of Psychology.

Logic.

Bain	Logic, Introduction, Books II, III, IV, V (Chapter 5 only), VI;
	or
Mill	System of Logic, Introduction; Book I, Chapter VIII; Book II (omitting Chapter VII); Book III (omitting Chapters XVII, XVIII, XIX, XXV); Book IV, Chapters VII, VIII; Book V, Chapters IV, V;
	or
Carveth Read ...	Logic, Inductive and Deductive.

Ethics.

Any *one* of the following—

Calderwood ...	Hand-book of Moral Philosophy.
James Seth ...	A Study of Ethical Principles.
D'Arcy ...	Short Study of Ethics.
Janet ...	Theory of Morals.
Martineau ...	Types of Ethical Theory, Vol. II, Book I, Book II, Branches I and II.
Mackenzie ...	Manual of Ethics.
Mohit Chandra Sen ...	The Elements of Moral Philosophy.

HONOUR COURSE.

Psychology.

Any *one* of the following—

Sully	Outlines of Psychology (new edition).
James	Text-book of Psychology.
Höffding ...	Outlines of Psychology.
Maher	Psychology.
Dewey	Psychology.
H. Stephen ...	Elements of Psychology.

Logic.

Bain	Logic, Introduction, Books II, III, IV, V (Chapter 5 only), VI;
	or
Mill	System of Logic, Introduction : Book I, Chapter VIII; Book II (omitting Chapter VII); Book III (omitting Chapters XVII, XVIII, XIX, XXV); Book IV, Chapters VII, VIII; Book V, Chapters IV, V;
	or
Carveth Read ...	Logic, Inductive and Deductive.

Ethics.

Any *one* of the following—

Calderwood ...	Hand-book of Moral Philosophy.
James Seth ...	A Study of Ethical Principles.
D'Arcy	Short Study of Ethics.
Janet	Theory of Morals
Martineau ...	Types of Ethical Theory, Vol. II, Book I, Book II, Branches I and II.
Mackenzie ...	Manual of Ethics.
Mohit Chandra Sen ...	The Elements of Moral Philosophy.

History of Philosophy.

(GENERAL.)

Ueberweg ...	...	History of Philosophy, Vol. II;
		or
Erdmann ...	...	History of Philosophy, Vol. II;
		or
Weber ...	...	History of Philosophy (English Translation by F. Thilly), Introduction and Modern Philosophy.

(SPECIAL.)

Leibnitz ...	...	Monadology, as translated by Dr. R. Latta in the Clarendon Press Series, being pages 215-277 of the Volume.

Natural Theology.

Martineau ...	...	A study of Religion (2nd edition).

(*b*) The following books are recommended for purposes of reference :—

Hamilton ...	...	Lectures in Metaphysics.
Mansel ...	...	Metaphysics.
Mill ...	...	Examination of Hamilton's Philosophy.
M'Cosh ...	...	Examination of J. S. Mill's Philosophy.
Bain ...	...	Mental and Moral Science.
Spencer ...	...	Principles of Psychology.
Spencer ...	...	First Principles.
Ward ...	...	"Psychology" (Encyclopædia Britannica).
Sully ...	...	The Human Mind.
Carpenter .	...	Mental Physiology.
Ladd ...	...	Elements of Physiological Psychology.
Green ...	...	Philosophical Works, Vols. I, II, and III, Prolegomena to Ethics.
Martineau ...	...	A Study of Religion.
Ueberweg ...	...	System of Logic and History of Logical Doctrines.
Jevons ...	...	Principles of Science.
Venn ...	...	Logic of Chance; Empirical Logic.
Sigwart ...	...	Logic (English Translation).
Bradley ...	...	Principles of Logic.
Sidgwick ..	...	Methods of Ethics.
Sidgwick ...	...	Outlines of the History of Ethics.
Martineau ...	...	Types of Ethical Theory.
Mill ...	...	Utilitarianism.
Flint ...	...	Theism.
Flint ...	...	Anti-Theistic Theories.
Caird ...	...	Introduction to the Philosophy of Religion.
Stirling ...	...	Gifford Lectures—Philosophy and Theology.
Lotze ...	...	Outlines of the Philosophy of Religion (translated by Ladd).
Windelband	...	History of Philosophy.
Schwegler ...	...	History of Philosophy.
Falkenberg	...	History of Modern Philosophy.

The examination in Mental and Moral Science shall be on the subject as defined by the Syllabus and shall not necessarily be confined to the books recommended to be used in studying the subject.

MATHEMATICS.

PASS COURSE.

Loney ...	...	Elements of Statics and Dynamics.
Greaves ..	...	Hydrostatics, Chapters I—VIII (omitting Articles 24-34, 37-39, 47, 57, 62-66, 72, 80, 90, 101, 106 109-110, 114-120),

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker ...	...	Elements of Astronomy (omitting Chapter XIV).

HONOUR COURSE.

Loney ...	...	Elements of Statics and Dynamics.
Maxwell ...	...	Matter and Motion, Chapter III, and Articles 96 and 97 only.
Greaves ...	...	Hydrostatics, Chapters I-VIII (omitting Articles 32-34, 72, 101, 106, 109-110, 114-120),

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker	...	... Elements of Astronomy, omitting Chapter XIV.
Salmon	...	... Conic Sections (6th edition), Chapters I-III, V-VIII, to the end of Article 116, and Chapters X-XIII, (or ony other book covering the same ground).
Williamson	...	... Differential Calculus (9th edition), Chapters I-V, IX, XI-XVIII.
Edwards	...	... Integral Calculus for Beginners, Chapters I-X.

HISTORY.

PASS COURSE.

History of England.

Gardiner	...	... Students' History of England.

History of India and History of Hindu Civilisation.

Elphinstone	...	... History of India, omitting Book XII and the Appendices.
Meadows Taylor		... Students' Manual of the History of India from Book IV, Chapter XXVII, to the end.

History of Muhammadan Civilisation.

Ameer Ali	...	... A short History of the Saracens, Chapters XV-XXII.

Histories of Greece and Rome.

Bury	...	... History of Greece (Macmillan & Co.).
Shuckburgh	...	... History of Rome.

Political Economy.

Fawcett	...	.. Manual of Political Economy.

HONOUR COURSE.

History of England.

Gardiner	...	... Students' History of England.
Green	...	... Short History of the English People, Chapters VII, VIII, and IX, constituting Part III of the reprint of Green's History in four parts.
Bagehot	...	... The English Constitution.

History of India and History of Hindu Civilisation.

Elphinstone	...	... History of India to the end of Book XI, including the Appendices.
Meadows Taylor		... Students' Manual of the History of India from Book IV, Chapter XXVII, to the end.

History of Muhammadan Civilisation.

Ameer Ali	...	... A short History of the Saracens, Chapters XV-XXII.

Histories of Greece and Rome.

Bury	...	... History of Greece (Macmillan & Co.).
Shuckburgh	...	... History of Rome.

Political Economy.

Fawcett	...	... Manual of Political Economy.
Marshall	...	... Economics of Industry.

Political Philosophy.

Mill	...	... On Representative Government.

MATHEMATICAL AND EXPERIMENTAL PHYSICS.

PASS COURSE

Ganot	...	... Physics (16th edition, 1902).

General properties of Matter.—Omitting Books I, II, III, IV, *with the exception of* Articles 85, 86, 87, 88, 89, 96, 181, 182.

Sound.—The whole book is to be read.

Heat.—Omitting Articles 363, 394, 395, 408, 447, 480, 481, 482, 483, 491, 492, 493, 494, 507, 508, 509.

Light.—Omitting Articles 592, 603, 620, 621, 622, 623, 624, 626, 627, 631, 632, 634, 640, 641, 642, 645, 647, and Chapter VIII.

Magnetism.—Omitting Articles 722, 723, 724, 725, 736, 738, 740.

Frictional and Voltaic Electricity.—Omitting Articles 773, 775, 777, 797, 798, 801, 810, 811, 861, 862, 898, 899, 900, 902, 904, 905, 906, 907, 913, 918, 924–932, inclusive, 943, 965, 968, 969, 970, 985; Chapters XIII, XIV down to 1003; XV, and all the rest.

HONOUR COURSE.

Ganot	...	... Physics (16th edition, 1902), omitting Chapter XV of Book X and the Elements of Meteorology.
S P. Thompson		... Elementary Lessons on Electricity and Magnetism.
Tait	...	... Heat.
Jevons	...	... Principles of Science (2nd edition), omitting Books I and II.

CHEMISTRY.

The following books are recommended to be used in studying the subject of Chemistry as defined by the Syllabus prescribed:—

PASS COURSE.

Newth	...	... A text-book of Inorganic Chemistry (latest edition).

HONOUR COURSE.

Newth	...	... A text-book of Inorganic Chemistry (latest edition).
Tilden	...	... Introduction to the Study of Chemical Philosophy (latest edition).
Perkin and Kipping		... Organic Chemistry (Part I).
Chapman Jones		... Practical Inorganic Chemistry for Advanced Students,
		or
Newth	...	... Manual of Chemical Analysis.
Jevons	...	... Principles of Science (2nd edition), omitting Books I and II.

The examination in Chemistry shall be on the subject as defined by the Syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

BIOLOGY.

PHYSIOLOGY AND BOTANY

PASS COURSE.

Huxley	...	... Elementary Lessons in Physiology, edited by Sir M. Foster.
Reynolds Green		... Text-book of Botany.
Oliver	...	... First Book of Indian Botany.

PHYSIOLOGY AND ZOOLOGY.

PASS COURSE.

Huxley	...	... Elementary Lessons in Physiology, edited by Sir M. Foster.
Parker	...	... Lessons in Elementary Biology.
Parker and Haswell		... A Manual of Zoology.

PHYSIOLOGY, BOTANY, ZOOLOGY, AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Kirke	...	... Hand-book of Physiology, edited by Professor Haliburton.
Parker and Haswell		... A Manual of Zoology.
Haddon	...	... Introduction to the Study of Embryology.
Reynolds Green		... Text-book of Botany:
Stirling	...	... Outlines of Practical Histology,
Bower	...	... Practical Botany for Beginners (Macmillan & Co.).
Parker and Parker		... Practical Zoology (Macmillan & Co.).
Jevons	...	... Principles of Science (2nd edition), omitting Books I and II.

GEOLOGY.

GEOLOGY AND PHYSICAL GEOGRAPHY.

PASS COURSE.

Geikie	...	... Class-book of Geology.
Cole	...	... Aids to Practical Geology.
Mill	...	... The Realm of Nature (University Extension Manuals).
Medlicott and Blanford		... Manual of the Geology of India (2nd edition) by R. D. Oldham, A.R.S.M.

GEOLOGY AND MINERALOGY.

PASS COURSE.

Geikie	...	... Class-book of Geology.
Cole	...	... Aids to Practical Geology.
Medlicott and Blanford		... Manual of the Geology of India (2nd edition) by R. D. Oldham, A.R.S.M.
Rutley	...	... Mineralogy.
Rutley	...	... Rock-forming Minerals.

GEOLOGY, MINERALOGY, PHYSICAL GEOGRAPHY, AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Geikie	...	... Text-book of Geology.
Cole	...	... Aids to Practical Geology.
Medlicott Blanford		... Manual of the Geology of India (2nd edition) by R. D. Oldham, A.R.S.M.
Rutley	...	... Mineralogy.
Rutley	...	... Rock-forming Minerals.
Alfred Harker		... Petrology for Students, Cambridge, 1895 (Cambridge Natural Science Manuals).
Geikie	...	... Atlas of Physical Geography.
Nicholson and Lydekkar		... Palæontology.
Jevons	...	... Principles of Science (2nd edition), omitting Books I and II.

B.Sc. EXAMINATION, 1905.

MATHEMATICS.

PASS COURSE.

Subject II—Statics and Dynamics—

Loney ... ... Elements of Statics and Dynamics.

Subject X—Hydrostatics and Astronomy—

Greaves ... ... Hydrostatics, Chapters I—VIII (omitting Articles 24-34, 37-39, 47, 57, 62-66, 72, 80, 90, 101, 106, 109-110, 114-120),

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker ... ... Elements of Astronomy (omitting Chapter XIV).

HONOUR COURSE.

Subjects II and X—

Loney	...	... Elements of Statics and Dynamics.
Maxwell	...	... Matter and Motion, Chapter III, and Articles 96 and 97 only.
Greaves	...	... Hydrostatics, Chapters I-VIII (omitting Articles 32-34, 72, 101, 106, 109-110, 114-120),

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker	...	... Elements of Astronomy, omitting Chapter XIV.
Salmon	...	... Conic Sections (6th edition), Chapters I—III, V—VIII, to the end of Article 116, and Chapters X—XIII,

(or any other book covering the same ground).

Williamson	...	... Differential Calculus (9th edition), Chapters I-V, IX, XI—XVIII.
Edwards	...	... Integral Calculus for Beginners, Chapters I-X.

MATHEMATICAL AND EXPERIMENTAL PHYSICS.

THEORETICAL PORTION.

PASS COURSE.

Ganot ... ... Physics (16th edition, 1902).

General properties of Matter.—Omitting Books I, II, III, IV, *with the exception of* Articles 85, 86, 87, 88, 89, 96, 181, 182.

Sound.—The whole book is to be read.

Heat.—Omitting Articles 363, 394, 395, 408, 447, 480, 481, 482, 483, 491, 492, 493, 494, 507, 508, 509.

Light.—Omitting Articles 592, 603, 620, 621, 622, 623, 624, 626, 627, 631, 632, 634, 640, 641, 642, 645, 647, and Chapter VIII.

Magnetism.—Omitting Articles 722, 723, 724, 725, 736, 738, 740.

Frictional and Voltaic Electricity.—Omiting Articles 773, 775, 777, 797, 798, 801, 810, 811, 861, 862, 898, 899, 900, 902, 904, 905, 906, 907, 913, 918, 924–932 inclusive, 943, 965, 968, 969, 970, 985, Chapters XIII, XIV down to 1003, XV and all the rest.

HONOUR COURSE.

Ganot	...	... Physics (16th edition, 1902), omitting Chapter XV of Book X and the Elements of Meteorology.
S. P. Thompson		... Elementary Lessons on Electricity and Magnetism.
Tait	...	... Heat.
Jevons	...	... Principles of Science (2nd edition, omitting Books I and II).

PRACTICAL EXAMINATION.

No text-books are prescribed. The examination will be conducted with reference to the following syllabus:—

PASS COURSE.

[*About 10 lessons.*]

Use of Logarithm Tables.
Method of drawing curves.
Construction of Scales and Verniers.
Measurement of Length by { Calliper. Screw-gauge. Spherometer. Verniers.
Measurement of Areas by plotting on curve paper.
Measurement of Angles by { Protractors. Verniers.
Laws of simple Pendulum. Value of g.
Atwood's Machine.
Use of Balance—Sp. gr. of solids heavier than water.
„ „ lighter than water.
„ liquids by sp. gr. bottle.
Verification of Law of Archimedes.
Nicholson's Hydrometer.
Hare's apparatus for specific density of liquids.

[*About 8 lessons.*]

Temperature corrections of Barometer.
Boyle's Law.
Melting point of solids.
Determination of fixed points of Thermometers.
Water equivalent of Calorimeters.
Specific heat of solids.
Latent heat of water.
Latent heat of steam.

(*2 lessons.*)

Sound—
Velocity of sound by resonance columns.
Sonometer. Verification of its laws.

(*5 lessons.*)

Light—
Laws of reflection.
Plain and Concave Mirrors. Focal Length and Radius of curvature of Concave Mirrors.
Bunsen's and Rumford's Photometers.
Refractive index of glass plates.
Focal length of Convex lenses.
Production of a pure Spectrum.

(*4 lessons.*)

Magnetism—
Simple laws of Magnetism.
Methods of Magnetisation.
Construction of Magnetic curves.
Comparison of Magnetic moments.
Simple measurement of Dip.

(*4 lessons.*)

Electro-statics. Simple Laws. Electroscopes.
Experiments on Induction. Phenomena of a Hollow Conductor.
Ordinary Frictional and Influence Machines.
Leyden Jars.

(*6 lessons.*)

Use of Primary and Secondary Cells.
Magnetic effect of currents, Ampere's rule, &c.
Tangent Galvanometers.
Measurement of Resistance by Metre Bridge.

HONOUR COURSE.

All the Experiments in the Pass Course.
Laws of Inclined Plane.
Laws of Friction.
Verification of Hooke's Law—"*ut tensio sic vis.*"
Use of Balance—
Weighing by oscillations, with accuracy.
Borda's method of weighing.
Corrections for air displaced.

Measurement of linear co-efficient of expansion of solid metals.
Measurement of co-efficient of increase of pressure of a gas at constant volume.
Measurement of specific heat of liquids by method of cooling.
Finding of dew-point and humidity with Daniell's and Regnault's Hygrometer.
Focal length of concave lenses.
Adjustment of simple optical instruments.
Measurement of magnifying power.
Measurement of angles and refractive Index by Spectrometer.

Measurement of Magnetic dip with corrections.
Distribution of Magnetism along a Magnet.
Determination of Magnetic moment and horizontal force.

Measurement of Resistance, Current and E. M. F.
Ohm's Law. Shunts. Ammeter and Voltmeter (calibration of).
Electro-chemical equivalents of copper and water.
Determination of galvanometer constants.
Elementary knowledge of the working of dynamos.

CHEMISTRY.

The following books are recommended to be used in studying the subject of Chemistry as defined by the Syllabus prescribed:—

PASS COURSE.

Newth	...	A Text-book of Inorganic Chemistry (latest edition).
Chapman Jones	...	Practical Inorganic Chemistry for advanced students.

HONOUR COURSE.

Newth ...	...	A Text-book of Inorganic Chemistry (latest edition).
Tilden ...	...	Introduction to the Study of Chemical Philosophy (latest edition).
Perkin and Kipping	...	Organic Chemistry (Part I).
Chapman Jones	...	Practical Inorganic Chemistry for advanced students, *or*
Newth ...	...	Manual of Chemical Analysis.

The examination in Chemistry shall be on the subject as defined by the syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

PHYSIOLOGY.

PASS COURSE.

Huxley ...	...	Elementary Lessons in Physiology edited by Sir M. Foster.

(*For Practical Examination.*)

Haliburton ...	...	Essentials of Chemical Physiology. Blood, Milk, Albumen, Digestive Juices, Urine (normal) and Glycogen.
Stirling ...	...	Outlines of Practical Physiology. *Experimental Physiology.*—The Frog's Heart,—Beating of the Heart,—Effect of Heat and Cold—Section of the Heart, pages 220-224; Stannius's Experiment, page 228; The Laryngoscope—Vowels, pages 268-270; Reflex Action—Action of Poisons—Knee-jerk, pages 271-274; Eye—Formation of Image, pages 276-280; Touch, Smell, Taste, Hearing, pages 304-308.

Stirling	...	... Practical Histology,—Histology of the Kidneys, Liver, Spleen, Lungs, Endothelium, Blood, Muscle-fibre, Nerve-fibre, Cartilage, Epithelium, Adult Bone.

HONOUR COURSE.

Kirke	...	... Hand-book of Physiology, edited by Professor Haliburton.

(*For Practical Examination.*)

Haliburton	...	... Essentials of Chemical Physiology—(i) The Proteids; (ii) Blood, Hæmoglobin; (iii) Digestion—Salivary, Gastric, Pancreatic, Glycogen in the Liver; (iv) Urine—Volumetric Analysis for Urea; Sugar in Urine, Qualitative and Quantitative.
Stirling	...	... Outlines of Practical Physiology— *Experimental Physiology*—(i) Nerve-Muscle Preparation—Stimulation of Nerve—Mechanical, Chemical and Thermal Stimuli, pages 164-167; (ii) The Frog's Heart—Stannius's Experiment, pages 220-229; (iii) The Laryngoscope—Vowels, pages 268-270; (iv) Reflex Action—Action of Poisons—Knee-jerk, pages 271-274; (v) Formation of an Image, &c., pages 276-283; (vi) The Ophthalmoscope, pages 302-304; (vii) Touch, Smell, Taste, Hearing, pages 304-308.
Stirling	...	... Practical Histology—Histology of the Liver, Spleen, Kidneys, Endothelium, Blood, Muscle-fibre, Nerve-fibre, Bone, Cartilage, Heart-muscle, Epithelium, Ovary, Stomach, Small Intestines, Large Intestines, Spinal Cord.

BOTANY.

PASS COURSE.

Reynolds Green		... Text-book of Botany.
Oliver	...	... First Book of Indian Botany.
Bower	...	... Practical Botany for Beginners (Macmillan & Co), pages 1-51, 76-107, 125-133, 150-178, 223-235, 244, 245.

HONOUR COURSE.

Reynolds Green		... Text-book of Botany.
Reynolds Green		... Physiology of Plants.
Bower	...	... Practical Botany for Beginners (Macmillan & Co).

ZOOLOGY.

PASS COURSE.

Parker	...	... Lessons in Elementary Biology.
Parker and Haswell		... A Manual of Zoology.
Parker and Parker		... Practical Zoology (Macmillan & Co.)—Dissection of the Leech, the Prawn and the Frog.

HONOUR COURSE.

Parker and Haswell		... A Manual of Zoology.
Haddon	...	... Introduction to the Study of Embryology.
Parker and Parker		... Practical Zoology (Macmillan & Co.).

GEOLOGY.

PASS COURSE.

Geikie	...	... Class-book of Geology.
Cole	...	... Aids to Practical Geology
Medlicott and Blanford		... Manual of the Geology of India (2nd edition), by R. D. Oldham, A. R. S. M.

HONOUR COURSE.

Geikie	...	... Text-book of Geology.
Cole	...	... Aids to Practical Geology.
Nicholson and Lyddeker		... Palæontology.
Medlicott and Blanford		... Manual of the Geology of India (2nd edition), by R. D. Oldham, A. R. S. M.

MINERALOGY.

PASS COURSE.

Rutley	...	... Mineralogy.
Rutley	...	... Rock-forming Minerals.
Cole	...	... Aids to Practical Geology.

HONOUR COURSE.

Rutley	...	... Mineralogy.
Rutley	...	... Rock-forming Minerals.
Alfred Harker		... Petrology for Students, Cambridge, 1895 (Cambridge Natural Science Manuals).
Cole	...	... Aids to Practical Geology.

M. A. EXAMINATION, 1904.

MENTAL AND MORAL SCIENCE.

The following books are recommended to be used in studying the subject of Mental and Moral Science as defined by the Syllabus prescribed : —

GENERAL.

Ward	...	... "Psychology" (*Encyclopædia Britannica*).
Spencer	...	... Principles of Psychology.
Ladd	...	... Outlines of Physiological Psychology.
Mill	...	... System of Logic.
Venn	...	... Empirical Logic.
Sidgwick	...	... Methods of Ethics.
Martineau	...	... Types of Ethical Theory.
Caird	...	... Introduction to the Philosophy of Religion.
Martineau	...	... A Study of Religion, 2nd edition.
Ward	...	... Gifford Lectures (Naturalism and Agnosticism), 1896—1898.
Green	...	... Prolegomena to Ethics.
Aristotle	...	... Politics (English Translation by Jowett or Welldon).
Uberweg	...	... History of Philosophy.
Erdmann	...	... History of Philosophy, Vols. I and II.
Mádhaváchárya		... Sarva-darshana Sangraha, translated by Cowell and Gough (the Nyáya, Chárvaka, Sánkhya, and Bauddha systems).
Vyása and Sankara		... Vedánta Sutras with Bháshya, as in Part I of George Thibaut's Translation—Introduction only, pages i—xxx.

SPECIAL.

Kant	...	... Transcendental Analytic, Book I (Analytic of Concept, as in Max Müller's translation of Kant's Critique of Pure Reason).

The examination in Mental and Moral Science shall be on the subject as defined by the Syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

MATHEMATICS.

Group A.

Hall and Knight		... Higher Algebra, Chapters XIX—XXXIV.
Todhunter	...	... Trigonometry, edited by Hogg.
Todhunter	...	... Spherical Trigonometry (as revised by J. G. Leathem, M.A., D SC.).
Burnside and Panton		... Theory of Equations (4th edition), omitting Chap. XX.
Salmon	...	... Conic Sections.
Salmon	...	... Geometry of three Dimensions—the Course selected by Dr. Salmon for Junior Readers.
Williamson	...	... Differential Calculus (9th edition).
Williamson	...	... Integral Calculus (7th edition).
Murray	...	... Introductory Course in Differential Equations.
Todhunter	...	... Analytical Statics, Ed. Everett.
Williamson and Tarleton		... Dynamics (2nd edition), Chapters I—VIII.
Minchin	...	... Hydrostatics and Elementary Hydrokinetics, omitting Chapter VIII.
Godfray	...	... Astronomy.
Newton	...	... Principia, Sections I, II, III.

GROUP B.

Salmon or Smith	...	Conic Sections, Chapters I—XIII.
Smith ...	...	Solid Geometry, omitting Chapters VII and IX.
Williamson ...	...	Differential Calculus (9th edition).
Williamson ...	...	Integral Calculus (7th edition), omitting Chapter XII.
Minchin ...	...	Statics (Vols. I and II), omitting Chapters XIV and XVI.
Routh ...	...	Dynamics of a Particle, Chapters I, II, III, IV; Chapter V, Articles 221—275, 285-286; Chapter VI, Articles 306—337, 387—404, 419—427; Chapter VII, Articles 490—510, 526, 527, 535—561.
Routh ...	...	Elementary Rigid Dynamics, Chapters I-V.
Besant ...	...	Hydro-Mechanics, Part I (Hydrostatics).
Bassett ...	...	Elementary Treatise on Hydro-Dynamics and Sound, omitting Chapters VII-VIII.
Godfray ...	...	Astronomy.
Newton ...	...	Principia, Sections I, II, III, IX, XI.

NOTE.—Candidates are recommended to read Murray's Differential Equations (short course).

NATURAL AND PHYSICAL SCIENCE.

A.—CHEMISTRY.

Mendeleéff ...	...	Principles of Chemistry, Vols. I and II. Translated by George Kamensky and edited by A. J. Greenaway.
Bernthsen ...	...	Organic Chemistry,
		or
Wade ...	...	Introduction to the Study of Organic Chemistry.
Newth ...	...	Manual of Chemical Analysis.
Ostwald ...	...	The Scientific Foundations of Analytical Chemistry (translated by G. McGowan).
Walker ...	...	Introduction to Physical Chemistry.

B.—HEAT, ELECTRICITY AND MAGNETISM AS PRINCIPAL SUBJECTS, WITH LIGHT AND SOUND AS SUBSIDIARY SUBJECTS.

Principal Subjects.

Maxwell ...	...	Elementary Treatise on Electricity.
J. J. Thomson	...	Elements of Electricity and Magnetism.
Christiansen	...	Theoretical Physics, Chapters VII—XI.
Hertz ...	...	Electric Waves.
Faraday ...	...	Experimental Researches in Electricity, Volume I.
Preston ...	...	Theory of Heat.
Maxwell ...	...	Theory of Heat (latest edition).
Fourier ...	...	Theory of Heat, Chapters I and II.
Stewart and Gee	...	Practical Physics, Volume II.
Glazebrook and Shaw	...	Practical Physics, Chapters VIII—XIII (omitting Section 31).

Subsidiary Subject.

Daniell ...	...	Text-book of the Principles of Physics (3rd edition), Chapters V, XIV, and XV.

C.—LIGHT AND SOUND AS PRINCIPAL SUBJECTS, WITH HEAT, ELECTRICITY AND MAGNETISM AS SUBSIDARY SUBJECTS.

Principal Subjects.

Preston ...	...	Theory of Light.
Heath ...	...	Elementary Treatise on Geometrical Optics.
Helmholtz ...	...	Sensations of Tone—Introduction and Chapters I—VIII.
Everett ...	...	Vibratory Motion and Sound.
Donkin ...	...	Acoustics.
Glazebrook and Shaw	...	Practical Physics, Chapters VIII—XX.
Poynting and Thompson	...	A Text-book of Physics—Sound.

Subsidiary Subjects.

J. J. Thomson	...	* Elements of Electricity and Magnetism.
Balfour Stewart	...	Heat (latest edition).

* The questions on J. J. Thomson's work shall not be so difficult as those in Group B.

D.—BOTANY.

Asa Gray	Structural Botany.
Sachs	Text-book of Botany, Book II, new edition, by Goebel, translated by Garnsey and Balfour (Clarendon Press Series).
Sachs	Lectures on the Physiology of Plants, translated by H. M. Ward (Clarendon Press Series).
Sachs	History of Botany (1530—1860), translated by Garnsey and Balfour (Clarendon Press Series).
Graf zu Solms Laubach ...	Fossil Botany, translated by Garnsey and Balfour (Clarendon Press Series).
Roxburgh	Flora Indica, Clarke's edition (for reference in identifying Indian plants).
Bower	Practical Botany.
De Bary	Comparative Anatomy of the Vegetative Organs of the Phanerogams and Ferns, translated by F. O. Bower and D. H. Scott (Clarendon Press Series).

E.—PHYSIOLOGY AND ZOOLOGY.

Michael Foster ...	Text-book of Physiology.

SANSKRIT.

GROUP A.

Srîharsha ...	...	Naisadhacharita, Cantos I—III.
Kálidása ...	...	Vikramorvasí.
Mágh ...	...	Sisupalabadh, Cantos XIII and XIV.
Bhababhúti ...	...	Mahávíracharita.
Súdraka ...	...	Mrichchhakatika.
Visákhadatta ...	...	Mudrá—Rákshasa.
Bánabhatta ...	...	Kádambari, Purvabhága.
Vyása and Sánkara	...	Vedánta—Sútra and Bháshya, first four Sútras of the 1st Adhyáya, and 1st and 2nd Pádas of the 2nd Adhyáya.
Gautama and Visvanátha	...	Nyáya Sútra and Vritti, Chapters I—IV.
Váchaspati Misra	...	Tattva—Kaumudi.
Upanishad ...	...	Katha, with Sankara Bháshya.
Rigveda ...	...	Hymns from the Rigveda Sanhitá, as edited by P. Peterson.
Vyása ...	...	Bhagavadgítá.
Pánini ...	...	Vaidika Prakriyá, Káraka, and Samása, as contained in Sidhánta—Kaumudi.
Manu ...	...	Manu—1, 2, 3, 4, 7, 8, 12.
Mammata Bhatta	...	Kávya—Prakása.
Vararuchi ...	...	Prakriaprakasa (edited by Cowell).

Permanent Subjects.

Max Müller ...	...	Science of Language, Vols. I and II.
Muir ...	...	Sanskrit Texts, Vol. V.

Students may take up the Inscriptions of Asoka instead of one of the following:—

(*a*) Nyáya-Sútra and Vritti (limited as above).
(*b*) Tattva-Kaumudi and Vedánta-Sútra (limited as above).

GROUP B.

I	Gautama and Víswanátha	...	Sútra with Vritti.
	Kanada and Sankara	...	Sútra and Upaskára.
II	Kapila and Aniruddha	...	Sútra and Vritti.
	Patanjali and Bhoja	...	Sútra and Vritti.
III	Jaimini and Savara	...	Sútra and Bháshya—Adhyayas 1, 2, and 3.
IV	Vyása and Sankara	..	Sútra with Bháshya, Adhyaya 1.
V	Vyása and Sankara—Adhyaya II.		
VI	Essay and Comparative Grammar.		

N B—Students may take up Indian Paleography and Epigraphy instead of any one of the subjects of the first five papers.

Permanent Subjects.

Max Müller ...	...	Science of Language, Vol. I—Lectures II and VI. Vol. II—Lectures IV, V, VI, and VII.
Colebrooke ...	...	Philosophy of the Hindus as given in the first volume of the works.
Max Müller ...	...	Six Systems of Philosophy.

GROUP C.

I	Gautama and Viswanátha	...	Sútra and Vritti.
	Kanada and Sankara	...	Sútra and Upaskára,
II	Viswanátha ...	...	Bhashaparicheda with Siddhanta Muktavali.
III	Udayana and Haridasa	...	Kusumanjali with Haridasa's tika.
	Gangeśa and Jayadeva		Iswaranumana with Aloka.
IV	Gangeśa and Mathuranatha		Anumiti Siddhintalakshan of Pakshata and Parámarsa.
V	Gangeśa and Mathuranatha		Avayava and Hetwabhaśa.
VI	Essay and Comparative Grammar.		

N.B.—Students may take up Indian Paleography and Epigraphy for the subjects of any one of the first five papers.

Permanent Subjects.

Max Müller's Science of Language as limited in group B.
Mill's Logic, Book III of Induction, Chapters 1 to 5 and 8.

GROUP D.

I—Vyása and Sankara	...	Sútra and Bhásya, Adhyayas I and II—1, 2.
II—Vyása and Sankara	...	Adhyayas II—3, 4; III and IV.
III—Vyása and Sankara	...	Gita with Bháshya.
IV—Appaya Dikshita Siddhanta-lesa	... ...	Dharmarajadhvarindra. Vedantaparibhasha and Vedantasara by Sarvananda.

V—Upanishads—Chhandogya and Vrihadaranyaka with Sankara Bháshya.
VI—Essay and Comparative Grammar.

N.B.—Students may take up Indian Paleography and Epigraphy for the subjects of any one of the first five papers.

Permanent Subjects.

Max Müller's Science of Language (limited as above).
Deussen—Elements of Metaphysics.

GROUP E.

I—Rigveda	... ...	Astaka I, with Sayaná's Introduction and Commentary and Aitareya Brahma Kanda I.
II—Samaveda Adhyaya I, with Sayana's Introduction and Commentary and Atharva Vedá Vratya Kanda with Sayana's Commentary.		
III—Yajurveda Vajasaneya Sanhita	... ...	Adhyayas 1 to 8 with Mahidhara's commentary and Satapatha Brahmana Kanda I, with Sayana's Commentary.

IV—Upanishads—Chhandogya and Vrihadaranyaka with Sankara's Commentary.
V—Nirukta and Vaidicprakriya as in Siddhanta Kaumudí.
VI—Essay and Comparative Grammar,

N.B.—Students may take up *Gupta and Kutilalipi* instead of any one of the following:—

(*a*) Chhandogya Upanishad with commentaries.
(*b*) Vrihadaranyaka Upanishad with commentaries.

Permanent Subjects.

Max Müller's Science of Language.
Sir William Muir, Vol. V.
Weber's History of Sanskrit literature so far as it is concerned with the Vedas.

PALI.

Digha Nikāya, Vol. I.
Anguttara Nikāya, Vol. II.
Thera-theri-gāthā.
Milinda—Pañhā.
Kaccāyana's Pali Grammar
Attha—Sālinī, pages 55—152.
Rhys David's Buddhist India and American Lectures.
Hopkins's "Religions of India," Chapters IX—XIV.

Questions will be set on the history and epigraphy of India during the Buddhist period and on the history of Buddhism and Buddhist literature.

ARABIC.

Prose.

Muquddamát-i-Ibn Khaldún Chapter VI of Book I to the end of section 22.
Maqamát-i-Hariri ... 15 Maqamahs from the 11th.

Poetry.

Hamasah	... ...	From the beginning of Bâb-ul-marâsi to the end of Bâb-ul-Azyafi-wal-madîh.
Diwan-i-mūtanabbi	...	Pages 155 to 304 (Hooghly Edition, 1841).
Sab'h-i-mūallaqah	...	The whole.

Two unseen passages shall be set at the examination—one in prose and the other in poetry. The prose passage shall form part of Paper V, and the poetry passage shall form part of Paper II. Such passages shall not exceed in difficulty the general standard of the text-books prescribed for the examination.

PERSIAN.

Prose.

Shams-uddin Faqir	...	Hadaiq-ul-Balaghat.
Saifí ...	...	Uruz.
Akhlaq-i Jalâli	...	From the beginning to the end of Lama'h VI of Lamí I (pages 1—98), and Lamí II (pages 191—228), Newal Kishore's edition.
Inshai Abu'l Fazl	...	First Daftar.

Poetry.

Kháqáni ...	...	Qasaíd, pages 1—200, Newal Kishore's edition.
Hakim Senái ...	...	Hadiqah, Chapters I and II.
Habib Qáání ...	...	Qasaíd, pages 1—73 (Bombay edition), to the end of the ode in praise of Prince Hasan Ali Mirza.

Candidates are also required to possess a sufficient knowledge of Arabic to enable them to acquire a thorough knowledge of the Persian language.

Two unseen passages shall be set at the examination—one in prose and the other in poetry. The prose passage shall form part of Paper V, and the poetry passage shall form part of Paper II. Such passages shall not exceed in difficulty the general standard of the text-books prescribed for the examination.

(*a*) The History of European Philosophy.
(*b*) The leading systems of Indian Philosophy, as in *Madhavácharyya's Sarva-Darsana-Sangraha* (translated by Cowell and Gough).

(*iv*) A special study of—

(*a*) Plato	...	The Republic.
(*b*) Kant	...	Theory of Ethics (as in Abbott).
(*c*) Vyása and Sankara...		*Vedanta-Sutras* with *Bháshya* (as in Part I of George Thibaut's translation).

NOTE.—One paper shall be set in each of the groups (*i*), (*ii*), (*iii*) and (*iv*).

HISTORY, POLITICAL ECONOMY, AND POLITICAL PHILOSOPHY.

The examination in history shall be limited to the Hindu and Muhammadan Periods of Indian History. Both periods to be studied generally; and in addition the Hindu Period to be studied with a special reference to the Age of Asoka and to the development of society, religion and literature, and the Muhammadan Period with a special reference to the Age of Akbar. The questions on History shall include the Geography of India in its bearing on these two periods. Two papers shall be set on these subjects.

The examination in Political Economy and Political Philosophy shall be in a standard higher than that prescribed for the M.A. examination, and shall include a knowledge of the historical development of these sciences. Two papers shall be set on these subjects.

8. The following books have been prescribed for the B. L. examination in 1905 and for the Honours in Law Examination in 1904:—

B. L. EXAMINATION, 1905.

(1) The Principles of Jurisprudence; the History and Constitution of the Courts of Law and Legislative Authorities in India.	Maine's Ancient Law; Holland's Elements of Jurisprudence; Cowell's Tagore Law Lectures, 1872.
(2) The Law relating to Persons in their Public and Private Capacities, including the Law of Testamentary Succession.	Act IX of 1875 (Majority); Stephen's Blackstone, Books I and III, Chapters 1—4, Book IV, Part I, Chapters 2 and 6; Act X of 1865 (Succession Act), except Parts III—V, XXX, XXXI, and XXXV—XL; Act XXI of 1870 (Hindu Wills Act), except the portions of the Indian Succession Act omitted from the study of that Act; Act V of 1881 (Probate); Mayne's Hindu Law and Usage, Chapter XI (Wills); Ameer Ali's Students' Manual of Muhammadan Law (2nd edition), Part III, Chapter III (Wills), Snell's Principles of Equity, Part II, Chapter XXII (Infants).

(3) The Law of Property, including the Law relating to Land Tenures and the Revenue Laws.	Nelson's Law of Property, omitting Chapters 3—14, 16—18; Regulations I, VIII of 1793; Regulation VIII of 1819; Regulation XI of 1825; Act XI of 1859, omitting sections 4, 16, 40—52 and 56—62; Act VIII of 1885 (Bengal Tenancy Act), Chapters I—VIII, XI, XIV, XV.
(4) The Law of property, including the Laws of Transfer, Prescription, and Pre-emption.	Act IV of 1882 (Transfer of Property Act); Act III of 1877 (Registration Act), sections 17, 18, 48, 49, 50; Act XV of 1877, sections 26—28 (Prescription); Upendranath Mitra's Indian Law of Prescription and Easements; Golapchandra Sarkar's Hindu Law, Chapter 14 (Endowments); Ameer Ali's Students' Manual of Muhammadan Law (2nd edition), Part III, Chapters I, II, and IV (Gift, *Wakf* and Pre-emption); Snell's Principles of Equity, Part I, Part II, Chapters I—VI.
(5) The Law of Contracts and Torts ...	Anson's Law of Contract; Pollock's Law of Torts, Chapters 1—5, 7 and 9-10; Act IX of 1872; Act I of 1877.
(6) The Law of Crimes and Criminal Procedure.	The Indian Penal Code (Act XLV of 1860), the whole of Chapters 1—5 and such portions of Chapters 6—23 as do not relate exclusively to the amount of punishment to be inflicted for an offence; the Code of Criminal Procedure (Act V of 1898), omitting Chapters 1, 9, 14, 33—40, 42, 43, 46 (except section 562); Mayne's Criminal Law of India (2nd edition), Part II, Chapters 1, 3—15.
(7) The Law of Civil Procedure, including the Law of Evidence and the Law of Limitation.	Stephen's Introduction to the Indian Evidence Act; the Code of Civil Procedure (Act XIV of 1882), Chapters 1—9, 11, 12, 15, 17, 19, 21, 22, 30-31, 33, 35—37, 40—43, 45—47; the Evidence Act (Act I of 1872); the Limitation Act (Act XV of 1877), omitting sections 26—28 and Schedule II.
(8) The Hindu Law and the Muhammadan Law (with the exception of parts already included) and the Law of Intestate Succession.	Mitakshara, Chapter I, Sections I—V; Chapter II, Sections 1—X; Dayabhaga, Chapters 1, 2, 5, 11; Mayne's Hindu Law and Usage, omitting Chapters 1—3, 6-7, 11—13, 20-21, Jogendra Nath Bhattacharyya's Commentaries on Hindu Law, Part II; Golapchandra Sarkar's Hindu Law, Chapters 1-2, 12-13, 15; Sirajiya (except the details as to succession of distant kindred); Amir Ali's Students' Manual of Muhammadan Law (2nd edition), Parts I and II; Act X of 1865 (Succession Act, Parts III—V).

NOTE.—In the list of text-books for the B. L. examination, when any Act is named, it is to be understood to mean that Act with all amendments made up to the 31st March of the year in which the examination is held.

HONOURS IN LAW EXAMINATION, 1904.

(1) HINDU LAW OR MUHAMMADAN LAW.

Hindu Law.

Manu ...	...	Institutes, Chapters I, 3, 7, 8 and 9.	
Yajnavalkya ...	...	Institutes, Book II, on Vyavahára or Positive Law.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2229B.

NOTICE is hereby given that the Tenth Sale of Opium, the Provision of 1900-1901, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Monday, the 29th September 1902, at 11 A.M., and will comprise 4,000 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory, consisting of	2,000
Ditto ditto at the Ghazipur Factory, consisting of ...	2,000
Total ...	4,000

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 19th November 1901, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 4th and 14th October 1902, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M of Saturday, the 4th October 1902, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 14th October 1902.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next, on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Monday, 3rd November 1902 ...	2,000	2,000	4,000
On or about Monday, 1st December „ ...	2,000	2,000	4,000
Total ...	4,000	4,000	8,000

By order of the Board of Revenue, L. P.,

H. WHEELER, *Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, *the 25th August 1902.*

CUSTOM HOUSE NOTICES.

DURGA AND LAKSHMI PUJAS.

THE holidays to be observed in offices under the Government of Bengal are from Monday, the 6th, to Friday, the 17th, October, inclusive.

The Custom House and its Treasury will, however, be open during that period for the usual hours, except from Wednesday, the 8th, to Saturday, the 11th, and on Thursday, the 16th, and Friday, the 17th, October. On these dates it will be open free of charge from 11 A.M. to 12 noon for entering and clearing vessels and for the issue of bills of entry and shipping bills for free goods from or to such vessels, provided notice has been given by the agents concerned on the last preceding open day. The Treasury will, however, remain closed on these days.

L. F. MORSHEAD, *Offg Collector of Customs.*

CALCUTTA CUSTOM HOUSE, *the 2nd September 1902.*

To prevent the repetition of certain frauds which have been committed upon the Custom House, it is notified that in future—

1. Bills of entry or shipping bills should invariably be presented by the Sircars who have signed them, and their signatures should have been countersigned, as they already are in many instances, by a representative of the firm or party for whom they are authorised to appear.

2. All entries relating to—

   (*a*) the number of packages or the like in which the goods are contained,

   (*b*) their *total* value in the column applicable,

should be entered in both words and figures; and the entry in words should have "only" written at the end of it, whilst both words and figures should be written sufficiently clearly and closely together to make any subsequent alteration easily discernible. The name of the firm or party for whom the goods are being cleared should also be entered in the last column of the forms unless shown already elsewhere on them.

L. F. MORSHEAD, *Offg. Collector of Customs.*

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 1725 T.M.—The 11th September 1902.—It is hereby notified for general information that, under clause (*c*), section 6 of the Bengal Ferries Act, I of 1885, the Lieutenant-Governor is pleased to establish a public ferry at Madia, over the river Kalindri, police-station Ratna, in the district of Malda, where the village road from Madia to 6th mile, Gouripur to Barhal Road, crosses the said river.

Malda.

2. The Lieutenant-Governor is also pleased, in exercise of the power conferred on him by section 35 of the aforesaid Act, to direct that the said ferry shall be managed by the District Board of Malda, and that all the proceeds of the said ferry and all fines levied and compensation received under the said Act in respect thereof shall be paid into the District Fund, with effect from the date of this notification.

No 1727 T.M.—The 11th September 1902.—It is hereby notified for general information that the Lieutenant-Governor is pleased to confirm, under clause 4, section 3, Act XX of 1887, the following rules framed by the Commissioners of the Purulia Municipality, in the district of Manbhum, under section 3 of the Act, for the protection of wild birds and game within the limits of that Municipality:—

Manbhum.

RULES.

1. "Wild birds" for the purposes of these rules shall include jungle-fowl, peafowl, pheasants, patridges, plover, jays, doves, egrets, golden oriel and green fly-catchers.

2. The Local Government having by notification No. 1701T M., dated the 11th September 1902, declared that the provisions of section 3, Act XX of 1887, shall apply to hares, the following rules will apply to that animal also as well as to wild birds

3. The breeding season for the purposes of these rules shall extend from 15th March to the 1st October.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Purulia any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realised under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

7. Domesticated peafowl are exempt from the operation of the above rules.

No. 1729T.M.—The 11th September 1902.—It is hereby notified for general information that the Lieutenant-Governor is pleased to confirm, under clause 4, section 3, Act XX of 1887, the following rules framed by the Commissioners of the Jhalda Municipality, in the district of Manbhum, under section 3 of the Act, for the protection of wild birds and game within the limits of that Municipality:—

Manbhum.

RULES.

1. "Wild birds" for the purposes of these rules shall include jungle-fowl, peafowl, pheasants, partridges, plover, jays, doves, egrets, golden oriel and green fly-catchers.

2. The Local Government having by Notification No. 1732T.M., dated the 11th September 1902, declared that the provisions of section 3, Act XX of 1887, shall apply to hares, the following rules will apply to that animal also as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from the 15th March to the 1st October.

4. Whoever during the breeding season has in his possession within the Municipality of Jhalda any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In case of a second conviction the fine may extend to Rs 10 for each such bird or animal.

6 A reward not exceeding half the fine imposed and realised under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

7. Domesticated peafowl are exempt from the operation of the above rules.

No. 1731T.M.—The 11th September 1902.—It is hereby notified for general information that, on the application of the Commissioners of the Purulia Municipality, in the district of Manbhum, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Purulia, to hares.

Manbhum.

No. 1732T.M.—The 11th September 1902.—It is hereby notified for general information that, on the application of the Commissioners of the Jhalda Municipality, in the district of Manbhum, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Jhalda, to hares.

Manbhum.

No. 1733T.M.—The 11th September 1902.—It is hereby notified for general information that, on the application of the Commissioners of the Daltonganj Municipality, in the district of Palamau, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Daltonganj, to hares.

Palamau.

No. 1735T.M.—The 11th September 1902.—It is hereby notified for general information that the Lieutenant-Governor is pleased to confirm, under clause 4, section 3, Act XX of 1887, the following rules framed by the Commissioners of the Daltonganj Municipality, in the district of Palamau, under section 3 of the Act, for the protection of wild birds and game within the limits of that Municipality:—

Palamau.

RULES.

1. "Wild birds" for the purposes of these rules shall include jungle-fowl, peafowl, pheasants, partridges, plover, jays, egrets, golden oriel, green fly-catchers and cuckoos.

2. The rules shall apply to hares also.

3. The breeding season for the purposes of these rules shall extend from the 1st April to the 30th September (the close season for gun licenses for sport in this district).

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Daltonganj any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of any such hare. In case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realised under rules 4 and 5 may be granted by the trying Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

7. Domesticated peafowl are exempted from the operation of the above rules.

No. 1748T.M.—The 12th September 1902.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Debhatta Municipality, in the district of Khulna :—

2. The rules shall apply to hares also.

3. The breeding season for the purposes of these rules shall extend from the 1st April to the 30th September (the close season for gun licenses for sport in this district).

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Daltonganj any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of any such hare. In case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realised under rules 4 and 5 may be granted by the trying Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

7. Domesticated peafowl are exempted from the operation of the above rules.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1782T.M.—The 15th September 1902.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Monghyr Municipality for a public purpose, viz., for Kirparam outlet, situated in the villages of Chakfaizullah, Durgapur, and Madhokitta, pargana Monghyr, zilla Monghyr, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha 18 cottahs 17·1 chitaks of standard measurement, is required. The land is bounded as follows:—

Monghyr.

PLOT No. I.

North—By Distillery Road.
South—By Kirparam nala.
East—By Bhairo Mander, Bansi Mander, and other.
West—By Bhairo Mander, Wajir Mander, and others.

PLOT No. II.

North—By East Indian Railway line.
South—By Distillery Road.
East—By Samlal Mander, Debi Mander, and others.
West— Ditto, ditto.

PLOT No. III.

North—By Lowlangri nala.
South—By East Indian Railway line.
East—By Bangali Mander, Bhooso Mander, and other.
West— Ditto, ditto.

A plan of the land may be inspected in the office of the Collector of Monghyr.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 24, 1902.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Khulna, will be put up to sale at the Khulna Collectorate on the 29th September 1902, corresponding to 13th Aswin 1309 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Collector's Office, Khulna, the 18th August 1902.

S. C. Mukerjee, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam-Bengal Railway, in the district of Tippera, will be put up to sale at 12 o'clock on the 26th day of September 1902, corresponding with the 10th Asvin 1309 Fasli, at the office of the Collector of Tippera.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the District Collector of the orders of the Board confirming the sale.

Tippera Collectorate the 29th May 1902.

H. W. SCHOOPS, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Assam Bengal Railway, in the district of Tippera, will be put up to sale at 12 o'clock on the 3rd day of October 1902, corresponding with 17th Assin (1309 Fusli) at the office of the Collector of Tippera

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the District Collector of the orders of the Board confirming the sale.

Consecutive lot No.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.

H. W. SCHOOPS, Collector.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Shomsher Khan Chowdhury, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also

retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot.	District, subdivision, and thana.	Area.	Boundaries.
Lot No. 162, second portion.	24-Parganas, Basirhat, Hasanabad	Bighas 6,097	*North.*—By a portion of the Gumti khal, which falls into the Kalindi river. *East.*—By a portion of the Kalindi river. *South.*—By a line bearing 241° drawn from a point on the west bank of the Kalindi river up to a point on the east bank of the Sogunkhali khal, which falls into the Raimongal river, and by a portion of the said Sogunkhali khal up to its junction with the Chingradhopa or Koriar khal. *West.*—By a portion of the Chingradhopa or Koriar khal and by a line bearing 26° drawn from a point on the north bank of the Chingradhopa or Koriar khal to a point on the south bank of the Gumti khal. All the above boundaries are as shown in Sundarbans Commissioner Mr Sunder's map of season 1901-1902

Alipur, the 5th September 1902. D SUNDER, Commissioner in the Sundarbans, Bengal.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Kali Krishna Adock, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Number of lot	District, subdivision, and thana	Area.	Boundaries.
G Plot, fifth portion.	24-Parganas, Diamond Harbour, Mathurapur.	Bighas. 5,8.6	*North.*—By a portion of the Kankramari khal, which falls into the Subtermukhi river, and by a line bearing 90° drawn from the east bank of the Kankramari khal to a point on the west bank of the Jagadal river. *East.*—By a portion of the Jagadal river. *South.*—By a line bearing 270° drawn from a point on the west bank of the Jagadal river to a point on the east bank of the Subtermukhi river. *West.*—By a portion of the Subtermukhi river These boundaries are given from late Sundarbans Commissioner Mr. Ross' map of season 1899-1900.

Alipur, the 5th September 1902. D. SUNDER, Commissioner in the Sundarbans, Bengal.

Notice of Lease of Waste Lands in the Sundarbans, under Rule 19, Section 11 of the Waste Lands Manual, 1898.

NOTICE is hereby given that the lease of the land specified in the schedule hereto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Gobordhon Adock, and will be sold at 12 o'clock noon on the 8th of December 1902, Monday, at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objection under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the Sale of Leases of Waste Lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale a duty shall be levied at such rate and in such manner as may, from time to time, be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Offg. Asst. Surveyor-General,
In charge, Map Record and Issue Office.

SURVEY OF INDIA,
Calcutta, 15th July 1902.

CORPORATION OF CALCUTTA.

RULES AND REGULATIONS OF THE PROVIDENT FUND UNDER SECTION (73) (c), ACT III (B.C.) OF 1899.

Commencement.

1. These Rules and Regulations shall take effect as from the 1st day of January 1902.

Definition of terms.

2. (*a*) "Trustees" shall, unless there is anything repugnant in the context, mean and include the Trustees of the Fund for the time being appointed as hereinafter provided.

(*b*) "Salary" comprises only the fixed monthly salary received by each employé from the Corporation, and does not include any acting, officiating, personal or horse allowance, bonus, commission, or other remuneration, or profit whatever, uncertain in amount, or derived by any employé by any means outside his fixed ascertained salary.

(*c*) "Managers" shall include the firm of Chartered Accountants, or such other person or persons as the General Committee may, from time to time, at its uncontrolled discretion, appoint, and in whom the management of the Fund shall, subject to the general supervision and control of the Corporation, be vested. The necessary expenses of management shall be borne by, and be a charge on, the Fund.

Subscribers.

3. Every Municipal officer and servant [other than persons excepted by Section 73 (*c*) of Act III (B.C.) of 1899 and daily labourers] in receipt of not less than Rs. 15 per mensem in the service of the Corporation on 1st January 1902, and who is not contributing towards pension under the rules heretofore in force, and every person who shall join the service of the Corporation on or after that date, shall be subject to and governed by these Rules and Regulations, and every such officer or servant shall sign an Agreement in the form annexed to these Rules and Regulations. Provided always that the General Committee may at any time admit any other officer or servant to the benefits of the Fund.

Appointment of Trustees.

4. The General Committee shall appoint, annually, in the month of April, two Trustees of the Fund, both of whom shall be Commissioners, and such two Commissioners together with the Chairman of the Corporation and an officer of the Corporation to be elected by the subscribers on or before the 15th day of April in each year. For the purpose of this section the officers of the Corporation qualified to be Trustees shall be the Vice-Chairman, Engineer, Health Officer Secretary, Assessor, and Collector. Provided always that the Trustees for the time being shall continue to hold office until their successors are appointed, and that the General Committee and subscribers, respectively, shall have power to make *ad-interim* appointments, as to whenever a vacancy or vacancies may occur among the Trustees

Subscriptions.

5. Subscriptions to the Fund shall be as follows:—

(1) *Compulsory.*—A sum equal to 5 per cent. on the amount of the salary of each subscriber shall be deducted monthly from such salary before payment of the same.

(2) *Voluntary.*—Any subscriber may contribute by monthly instalments such further sum as he may think proper, provided always that the total amount thus voluntarily contributed by him in any one year does not exceed 5 per cent. upon his salary for such year. Nothing in this rule shall prevent any officer or servant of the Corporation, who is contributing towards pension under the rules heretofore in force, from making voluntary contributions to the Fund, provided such contribution does not exceed 5 per cent. upon his salary for such year.

Deduction by Chairman of subscription from salary.

6. The Chairman shall, in any manner he may think most convenient, from time to time deduct from any sum payable by the Corporation to any subscriber, whether by way of salary or otherwise, such sum as may be required to pay any subscription due from him or any arrears of subscription owing by him to the Fund, and shall, from time to time, pay over to the Managers all sums so deducted by him.

Subscriptions of subscribers absent on leave or furlough.

7. The compulsory subscriptions of any subscriber absent on leave or furlough shall, during the period of such absence, be assessed on the salary allowed during such absence, but any such subscriber shall be at liberty to subscribe on the full amount of his salary, if desired, provided notice in writing of such desire shall have been given by him to the Chairman prior to the due date for payment of salary next after such subscriber shall have obtained leave or furlough.

Deduction by Chairman of compulsory subscription and payment of voluntary subscriptions.

8. Compulsory subscriptions shall be paid to the Managers by the Chairman by deduction from the pay of the officer or servant: voluntary subscriptions of any subscriber, including any officer or servant on the Pension Establishment who may elect to subscribe under the provisions of Rule 5 (2), shall be paid by such subscriber to the Managers, or, at his option, may be deducted from his pay-bill to be paid to the Managers.

Contribution by the Corporation to the Fund.

9. For and in respect of each complete year ending with the 31st day of December, the *Corporation shall, as soon after that date as may be practicable, contribute* to the Fund *a sum equal to the aggregate amount* of the compulsory subscriptions for such year, and shall pay the same to the Managers.

Deposit into Bank of moneys received.

10. The Managers shall, from time to time, pay into the Bank of Bengal at Calcutta, or any other Bank at Calcutta sanctioned by the General Committee, to the credit of an account to be opened in the names of the Trustees, all moneys received by the Managers after payment thereout of the expenses of management. All moneys to the credit of such account shall be dealt with only in accordance with these Rules and Regulations, and all or any portion of such moneys shall be withdrawn from such account only by cheques bearing the signatures of *two Trustees*, in addition to the signature of the Managers.

Investment of moneys by Trustees.

11. All moneys not immediately required for the purposes of the Fund shall, from time to time, be invested by the Trustees at their discretion in any of the following Securities, that is to say,—any of the Rupee or Sterling Securities of the Government of India, or any Securities the interest on which is or shall be guaranteed by the Government of India, or in the Bonds, Debentures, or Securities of, or issued by, any Public, Municipal, or Local Body, or authority in India, or in the fully paid-up Stock or Shares of any of the Presidency Banks in India, or in deposit in any Bank in Calcutta approved by the General Committee, either by way of loans on short notice or fixed for a term, with power for the Trustees at their discretion, from time to time, to vary or transpose such investments into or for others of any nature hereinbefore authorised.

Realisations of securities.

12. The Trustees shall, from time to time, upon the written requisition of the Managers, pay to them such sum or sums as may be required for the purposes of these Rules and Regulations, and shall, if necessary, raise the money required for the same by sale of the Securities held by the Trustees, or of a sufficient part thereof, or by loan on the security of the same.

Subscribers' Account.

13. On the 31st day of December in each year the Managers shall, after deducting the expenses of management, credit each subscriber with the equivalent of his compulsory subscription for the preceding year, as provided for under Rule 9, and thereafter having ascertained the amount available for division among the members arising from the interest accrued on Securities, any sums forfeited to the Fund under these Rules and Regulations, and all other moneys (if any) that should properly be brought into account, the Managers shall provisionally credit each subscriber, in proportion to the amount standing to his credit on each 31st December in respect of his total subscriptions, both voluntary and compulsory, with his share of the amount so ascertained

Interest payable.

14. On or as soon as may be after the 31st day of December of each year the Managers shall ascertain and fix the market value of the total net Investments and Securities held by or belonging to the Fund, including interest up to the same day on any Securities on which interest is usually calculated on sale or transfer thereof, and after deducting the payments made therefrom, and providing for debts and ascertained liabilities, paid or incurred, respectively, in conformity with these Rules and Regulations, the Managers shall forthwith debit or credit, as the case may be, the account of each subscriber in the books of the Fund with a share of the difference between the value as appearing from the last preceding valuation recorded in the said books and the then market value as so fixed and ascertained as aforesaid of the said Investments and Securities, including interest as aforesaid, in proportion to the amount at credit of each subscriber on the said 31st December.

Payment from the Fund to subscribers or their representatives.

15. A statement of account of each subscriber shall be made up to the 31st December of each year, and each subscriber shall be required to certify in writing within a month upon such account that the amount therein shown, as standing to his credit, is correct, or in default shall be precluded from challenging its correctness.

On death.

16. Except as is by these Rules and Regulations expressly provided, no subscriber, or any person or persons on his behalf, in respect of his interest in the Fund, shall be entitled to claim any payment of money to him or them.

17. On the death of any subscriber the Managers shall pay to his representatives, executors, or administrators the amount standing to his credit in the books of the Fund on the last day of the month preceding such death, and shall also pay to his representatives, executors, or administrators, the amount in full of his paid-up subscriptions for the then current year.

On retirement.

18. On the *voluntary resignation or retirement* of any subscriber from the service of the Corporation *without the existence of any cause justifying his dismissal*, the Managers shall pay to him the aggregate amount subscribed by him to the Fund and the amount (if any) standing to his credit for interest. Provided that the Managers at the request or by the direction of the General Committee may pay to such subscriber the whole or such portion of the balance as they may in their discretion think fit.

On injury, illness, old age, etc.

19. In case of any subscriber becoming *permanently incapacitated owing to injury sustained whilst in the service* of the Corporation, or in case of the *resignation or retirement, with the previous written sanction of the Corporation*, of any subscriber *owing to illness, old age, or any other reason considered adequate* by the General Committee and so certified in writing by them, the Managers shall (subject to the provisions of these Rules) pay to such incapacitated, resigning or retiring

subscriber, the amount standing to his credit in the books of the Fund on the 31st day of December preceding such incapacity, resignation, or retirement, and also (subject as aforesaid) the full amount of his paid-up subscriptions for the then current year

On dismissal.

20. If any subscriber shall be dismissed from the service of the Corporation, or compelled to retire otherwise than by reason of illness, old age or other incapacity or the abolition of his appointment, the Managers shall (subject to those Rules) pay to him the aggregate amount only subscribed by him to the Fund, without interest, and the balance, if any, of all moneys then standing to his credit in the books of the Fund shall (subject as aforesaid) upon such dismissal or compulsory retirement be forfeited to the use of the Fund, and shall be dealt with accordingly. Provided also that the Managers may, at any time, with the consent of the General Committee, pay to any such subscriber the amount to which he would have been entitled under Rule 18 if he had voluntarily retired from the service of the Corporation and had not been dismissed.

Forfeiture by subscribers of right and interest.

21. The Corporation shall have a *first and paramount charge upon the amount*, from time to time, standing to the credit of each subscriber, and upon all other moneys of the Fund in or to which he may be interested or entitled *for, and in respect of all losses, damages, costs, and expenses* which the Corporation may at any time pay, sustain or be put to, by reason of any act of *embezzlement, or default of* or by such subscriber, and the amount from time to time standing to the credit of each subscriber, and all such other moneys as aforesaid shall be deemed and treated as a deposit made by him with the Corporation as security for his fidelity, and be dealt with accordingly, and in the event of any claim arising by the Corporation against any subscriber under this Rule, the same shall be paid, so far as the funds in which such subscriber shall be interested shall extend, by the Fund to the Corporation on the written requisition of the General Committee, and such subscriber shall absolutely forfeit all right and interest thereto and therein.

Form of certificate of subscriber's balance.

22. In all cases wherein a certificate shall be required of the amount of the balance standing in the books of the Fund to the credit of a deceased subscriber for any purpose, such certificate shall be in the following form :—

*No.*_____

THE CORPORATION OF CALCUTTA.

PROVIDENT FUND.

Chairman.

Transfer or assignment by subscribers, attachment by Court.

23. *No subscriber shall be entitled to transfer or assign*, whether by way of *security or otherwise*, howsoever his share or interest in the Fund, or any part thereof, and *no such transfer or assignment shall be valid*, and the Managers, Trustees or General Committee shall not recognize or be bound by notice to them, respectively, of any such transfer or assignment, and all moneys standing in the books of the Fund to the credit of the subscriber so transferring his interest as aforesaid, shall forthwith be forfeited as from the date of such transfer or assignment, to the use of the Fund and be dealt with accordingly, and further if any *prohibitory order, or attachment, or process of a Civil Court* be served upon the Managers, Trustees, General Committee or Corporation or any of them, or any person on

their behalf, by which any moneys standing to the credit of any subscriber in the books of the Fund shall be attached, or be ordered to be paid into a Civil Court, or be ordered to be withheld from such subscriber, *such moneys shall forthwith be forfeited* to the use of the Fund, and be dealt with accordingly. Provided that the General Committee shall be at liberty, if they shall so think fit, at any time thereafter, to give such moneys or any part thereof for the benefit of such employé, or his wife, children, or relations, and the Managers shall deal with such moneys accordingly on the *written requisition of the General Committee*.

Powers of the Corporation.

24. It shall be lawful for the *Corporation*, from time to time, and at any time hereafter, in writing under their hands to *alter, vary, modify, re-make, rescind, or add to* these Rules and Regulations, or any of them, but so that no such alteration, variation, modification, re-making, rescission, or addition shall affect the rights of any employé with respect to the Fund.

The Corporation to consider and finally decide all disputes.

If *any dispute* shall at any time arise between the Trustees, Managers or General Committee on the one hand and any subscriber, or any heir, representative, executor or administrator, or any person claiming as next-of-kin of any subscriber or in any other capacity, on the other hand, regarding these Rules and Regulations and the interpretation thereof, or any matter arising thereout or connected therewith, then and in every such case the matter in dispute shall be referred in writing to the Corporation, and their decision shall be final.

Liability for losses.

26. Any loss to the funds of the Provident Fund from any cause shall be borne by the Provident Fund.

I HEREBY declare that I have read the foregoing Rules and Regulations of the Provident Fund of the Corporation of Calcutta, and that I agree to be bound by them.

NIDHOO MONEY DASSEE.

(No. 26, Huzooreemull's Lane.)

Calcutta, the 23rd September 1902. (752—1—1185)

In the 2nd Court of Subordinate Judge of Gaya.

MONEY EXECUTION CASE No. 358 OF 1902.

Babu Bindeshri Prashad and others, decree-holders *versus* Raja Ramesher Prashad Narain Singh judgment debtor.

THE following property of the judgment-debtor will be sold by the Nazir of the Gaya Judge's Court, in the Gaya Civil Court sale-room at 12 o'clock noon, on the 3rd November 1902, for realisation of the decretal amount Rs. 10,451-13-7 :—

Sixteen annas proprietary right of Raja Ramesher Prashad Narain Singh of mauza Rajouli *asli* with *dakhli* appertaining to mahal Amawan, Bansgopal, pargana Jarra, zilla Gaya, bearing tauzi No. 2496, and jama Sadar of the whole mahal being Rs. 1,355 4. The value of the property as stated by the decree-holder is Rs. 40,000.

PURNO CHUNDER ROY, Subordinate Judge.

Gaya, the 18th September 1902. (744—1)

In the Court of District Judge of Gaya.

EXECUTION CASE No. 39 OF 1902.

Babu Kailashpati Narain Singh and others, decree-holders, *versus* Raja Ramesher Pershad Narain Singh, judgment-debtor.

THE following property belonging to the judgment-debtor will be sold by auction in the sale-room of Gaya Judge's Court, on the 3rd day of November 1902, at 10 A.M., in the execution of the decree for Rs. 47,390-3-2, in the abovementioned case :—

Sixteen annas of mauza Rajowli *asli* with *dakhli* situated in mahal Amawan, Bunsgopal, in pargana Jarrah, in zilla Gaya, bearing tauzi No. 2495, the jama Sadar of the mahal being Rs. 1,355-4 milkiat (proprietary interest) of the judgment-debtor Raja Ramesher Pershad Narain Singh. Approximate value Rs. 40,000.

Be it known that the said property with other properties is mortgaged under decree for 12 lacs in favour of Lalanji and Chakanji of Benares.

C. W. E. PITTAR, District Judge.

Gaya, the 19th September 1902. (745—1)

NOTICE.
In the 2nd Court of Munsif, Howrah.

TITLE SUIT No. 964 OF 1902.

NOTICE is hereby given, under section 30 of the Code of Civil Procedure, to all parties interested that Shaik Abdul, son of late Sahabu Shaik, of Ghoosery, in Howrah, has, on behalf of the Muhammadan community of Howrah, instituted in this Court the abovementioned suit against defendants Shaik Khaji and Shaik Chatu for the declaration of their right in, and for the recovery of, a *dekchi* and its cover, valued at Rs. 27, and alleged to belong to the said community, and that the 5th November 1902 has been fixed for the settlement of issues in the said suit.

PURNA CHANDRA DE, Munsiff.

Howrah, the 18th September 1902. (684—1)

NOTICE.

In the Third Court of the Munsif of Sudharam, District Noakhali.

PRESENT:

Babu Ashutosh Goswami.

OTHER SUIT No. 209 OF 1902.

Fakir Chand Pal and others, plaintiffs, *versus* Chandra Nath Ghosh, defendant.

WHEREAS Chandra Nath Ghosh, son of late Shambhoo Chandra Ghosh, an inhabitant of village Joynarainpur, having obstructed a boat-passage running east and west through the village of Joynarainpur in thana Begamgunge, district Noakhali, and leading to Chandragunge Hât, &c., Batua Gopalpur Hât, Begamgunge Sub-Registry office, Chaumahini Hât, Begamgunge thana, Karimpur, Fazilpur, Chand Kashimpur, Tita Hajra, &c, which is said to have been used by the public for a long time, Fakir Chand Pal, son of late Ram Sankar Pal, of Joynarainpur, and others have instituted a suit (No. 209 of 1902) which is now pending in the 3rd Court of Munsif of Sudharam, for removal of the abstruction by establishing right-of-way. It is notified for information of the people residing in the neighbourhood of the aforesaid villages and public in general that any one who may be interested in the aforesaid boat-passage is at liberty to join as plaintiff before 7th November 1902, which is the date for hearing of the above suit, and on his failure to do so the case will be disposed of in his absence.

ASHUTOSH GOSWAMI,

Offg. Munsif of 3rd Court, Sudharam

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Applications for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8.

Ditto, ditto (Overland rate) Rs. 28.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.

JAPAN—INLAND SEA—HARIMA NADA.

Sakoshi bay—Okayuma port—Rocks and shoals.

THE British Admiralty has given notice (No. 511 of 1902) of the existence of the following rocks in the undermentioned positions in Harima nada—

SAKOSHI BAY—

A rock, with a depth of 3 fathoms over it, situated with the eastern extremity of Ikisima bearing N. 6° E., distant 8 cables, and northern extremity of Kazura sima S. 83° E.

Approximate position, lat. 34° 45′ N., long. 134° 26′ E.

This rock is on the extremity of a ledge, with a depth of 3 fathoms over it extending from the northern point of Otomari bay.

A rock, named Toinosowai, with a depth of 3¾ fathoms over it, situated with the south-eastern point of Utabo sima bearing S. 78° W., distant 3¼ cables, and the north-eastern point of the same island N. 65° W.

Approximate position, lat. 34° 41′ N., long 134° 18′ E.

OKAYAMA PORT—

(1) A depth of 3½ fathoms, sand and mud, has been found on the bank in the eastern approach to Okayama, situated with Kome saki bearing N 35° W., distant $1\frac{2}{10}$ miles, and northern extremity of Oko sima hana, the first point southward of Oko sima, N. 82° W.

(2) A shoal, with a depth of 4¾ fathoms, situated with Ishikiri point bearing N. 42° W., distant 12 cables, and south extremity of Oko sima hana S. 61° W. There is a depth of 5 fathoms three-quarters of a cable N. 31° W. from the above shoal.

(3) A shoal, with a depth of 3 fathoms over it, situated with Ishikiri point bearing N. 19° W., distant 11 cables, and southern extremity of Oko sima hana S. 57° W.

(4) A shoal, with a depth of 3 fathoms over it, situated with Kome saki bearing S. 22° W., distant 5¼ cables, and Kanga ishi Yama S. 78° W.

(5) Aiga she rock, situated 9 cables N. 8° E. from Kome saki, has a depth over it of about 5 feet.

Approximate position, lat. 34° 35′ N., long. 134° 2¾′ E.

To the westward of lines connecting shoals mentioned in 3, 4, 5, there are depths of less than 3 fathoms.

PORT WUSIMADO—

A shoal, with a depth over it of from 1½ to 3 fathoms, extends from a position with Naka-no-ko sima bearing S. 62° E., distant 6½ cables, to a position with the same island bearing N. 80° E., distant 7 cables.

Approximate position, Naka-no-ko sima, lat. 34° 36′ N., long 134° 9′ E.

ANNUAL REPORT ON THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL FOR THE YEAR 1901-1902

The 12th September 1902.—The following extracts from the Annual Report on the Government Cinchona Plantation and Factory in Bengal for the year 1901-1902 are published for general information.

E. W. COLLIN,
Offg. Secy. to the Govt. of Bengal.

No. 149C., dated Royal Botanic Garden, Sibpur, the 14th July 1902.

From—MAJOR D. PRAIN, M.B., I.M.S., Superintendent, Royal Botanic Garden, Calcutta, and of Cinchona Cultivation in Bengal, and Government Quinologist,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the report of the Cinchona Plantation and Factory for the official year 1901-1902.

Fortieth Annual Report of the Government Cinchona Plantation in Sikkim, being that for the financial year 1901-1902, and also the Report of the Factory for the same year, by MAJOR D. PRAIN, I.M.S., *Superintendent of Cinchona Cultivation in Bengal, and Government Quinologist.*

1. *Weather and General.*—The rainfall during the year was below normal; 92·69 inches, as against an average of 123·01 for the preceding 27 years. As compared with 1900-1901 the number of rainy days was greater, 153 as against

137; the total fall was, however, considerably less, 92·69 inches for 1901-1902, as against 126·23 inches for 1900-1901. No heavy downpours occurred and no damage has to be recorded. At Munsong, the new extension in the Dumsong Forest, 88·42 inches of rain were registered.

2. *Plantation and Crop.*—The number of plants put out during the year was 485,530. These included 397,010 *Ledgeriana*, 26,078 *Succirubra*, 55,007 *Hybrid No. I*, and 7,435 *Hybrid No. II*. This latter, which appears for the first time in this report, has been raised by crossing *Ledgeriana* with *Succirubra*; the *Hybrid* of former reports, to be designated in future *Hybrid No. I*, is a cross between *Succirubra* and *Officinalis*. It is hoped that the new hybrid may possess enough of the richness of *Ledgeriana* with enough of the vigour of *Succirubra*, to admit of its extensive cultivation on the Rungbee part of the plantation where the conditions are most unfavourable for *Ledgeriana* itself.

The area planted at the head-quarters plantation (Mungpoo and Sittong) was 88·28 acres; here 121,828 *Ledgeriana* plants, all the *Succirubra* and *Hybrid No. I* plants and 3,085 *Hybrid No. II* plants were put out. At Munsong 103·58 acres were planted with 275,182 *Ledgeriana* and 4,350 *Hybrid No. II* plants.

The nursery stock of seedlings on 31st March 1902 was 21,500. As compared with 31st March 1901 there were in the lines 2,000 plants more of *Hybrid No. I* and 3,000 more of *Hybrid No. II*, but 11,500 fewer *Succirubra* and 32,000 fewer *Ledgeriana*. There were thus 38,500 fewer plants to be put out after 1st April 1902 than there were at the same date the preceding year, indicating an earlier planting season in 1902 than in 1901.

The total number of living trees of all kinds in the permanent plantations on 31st March 1902 was 2,763,286. Of these, 1,928,422 were at Mungpoo (including Rungbee and Labdah) and 246,648 at Sittong. At Munsong, in the Dumsong forest, there were 588,216. The trees included 2,000,092 *Ledgeriana*, 234,446 *Succirubra*, 2,130 *Officinalis*, 519,183 *Hybrid No. I* and 7,435 *Hybrid No. II*. The increase as compared with 31st March 1901 was 379,758.

Planting at Munsong this year has been less successful than could be wished. A failing water-supply at the nursery-lines compelled the Deputy Superintendent to plant early as the least of two evils; the result has been a very high proportion of casualties. Arrangements have already been made to meet the case and to replant where replanting is necessary.

During the year 600 maunds of bonemeal, at the rate of 10 maunds per acre, were applied to four-year-old cinchonas. This manure acts slowly, and as yet little difference is apparent in the condition of the trees so treated.

The crop taken from the plantation during the year has been 203,405 lbs. of dry bark. From Mungpoo the quantity taken was 165,808 lbs.; from Sittong 37,597 lbs. The crop has been composed of 120,294 lbs. *Ledgeriana*, 3,396 lbs. *Succirubra* and 79,715 *Hybrid No. I*. From the Mungpoo Division the bark has been taken from outlying and sparse patches of *Ledgeriana* and *Hybrid No. I*, which have been uprooted in accordance with the policy pursued during recent years of concentrating the area under cinchona so as to admit of its higher cultivation. The Sittong division has never given satisfactory results with *Ledgeriana*, and the last trees of that kind have now been harvested from the division. The whole of the bark thus harvested has been made over as usual to the Quinologist.

3. *Factory and outturn.*—Work in the factory has gone on throughout the year without accident or delay. Very considerable improvement has been effected in the arrangement and method of working. The improvements have necessitated various renewals and a number of additions to the factory plant.

The raw material worked up during the year included 390,043½ lbs. *Ledgeriana*, *Hybrid No. I* and *Officinalis* bark which provided 10,010 lbs. 12 oz. of suphate of quinine, the average yield being 2·56 per cent. The residual (amorphous) alkaloids that are left over in the process, accounted for during the year, amount to 5,367 lbs. In addition to this quantity, 99,600 lbs of *Succirubra* and *Hybrid* barks to which 4,980 lbs. of residual alkaloids were added, yielded 3,424 lbs. of cinchona febrifuge. The total outturn of manufactured products for the year has thus been 13,434 lbs. 12 oz., an increase as compared with the previous year of 3,599 lbs. 12 oz. This increased

quantity included 2,663 lbs. 12 oz. of sulphate of quinine and 936 lbs. of cinchona febrifuge.

4. *General charges.*—The charges debitable against the department as a whole have amounted to Rs. 25,632-7-11, as against Rs. 28,769-10-6 for the preceding year. These charges include pay of clerical and menial establishment, Rs. 4,935; postal and telegraph charges, Rs. 521-12; advertising manufactured articles, Rs. 1,052; and taxes (road and public works cesses), Rs 1,475. They include, besides, the expenditure incurred in opening up new and extending existing plantations (as apart from the upkeep of permanent plantations and the harvesting of bark) and expenditure in additions to the factory (as apart from cost of working and of manufacturing quinine and febrifuge). The charges for extensions amounted to Rs. 9,895-7-8, being Rs. 6,629-1-11 for planting 103·58 acres of new plantation at Munsong and Rs. 3,266-5-9 for planting 88·28 acres at head-quarters. The corresponding general outlay in connection with the factory amounted to Rs. 7,753-4-3.

5. *Plantation charges.*—The charges directly debitable against the plantation for upkeep and for the harvesting of bark have been Rs. 55,602-8-10, as against Rs. 50,428-10-6 for 1900-1901. Against this outlay has to be placed the harvest, 203,405 lbs. of dry bark collected during the year which was thus collected at a cost of Rs. 0-4-4·5 per lb., at which rate it passes over to the Quinologist's Department.

6. *Factory charges.*—The expenditure incurred in connection with the Factory was Rs. 79,404-2. Of this sum, Rs. 38,000 represents the purchase-money, and Rs. 1,012-10-7 the cost of carriage to the factory, of 120,290 lbs. of bark acquired from private growers; the actual working expenses of the factory for the year were therefore Rs. 40,391-7-5, being Rs. 35,131-5-5 incurred in the manufacture of sulphate of quinine and Rs. 5,260-2 for the manufacture of cinchona febrifuge.

In order to produce 10,010 lbs. 12 oz. of sulphate of quinine, 259,371 lbs. of *Ledgeriana* bark, 72,551 lbs. *Hybrid No. I*, and 26,728 lbs. *Officinalis* from the stock held on 1st April 1901 were used. The value of this bark was Rs. 29,887-8. In addition 31,393½ lbs. of *Officinalis* bark, purchased during the year for Rs. 11,276-11-9, were employed. The total value of the bark used was thus Rs. 41,164-3-9; this sum, added to the manufacturing charges, gives a total of Rs. 76,295-9-2, or Rs. 7-9-11·3 per lb. Of the residual (amorphous) alkaloid left as a bye-product in the manufacture of quinine, 4,980 lbs. treated along with 99,600 lbs. of *Succirubra* and *Hybrid No. I* bark, provided 3,424 lbs. of cinchona febrifuge. The value of the bark used was Rs. 8,300; of the residual alkaloids, Rs. 4,720-10; the working expenses amounted to Rs. 5,260-2. The total cost of making 3,424 lbs. of cinchona febrifuge was thus Rs. 18,280-12, or Rs. 5-5-5 per lb.

7. *Issues of manufactured articles.*—The issues of sulphate of quinine for the year amounted to 9,793 lbs. 3 oz., a decrease of 1,213 lbs. 13 oz. as compared with 1900-1901. This decrease is accounted for by the fact that the Jail Department required 1,500 lbs. less for conversion into pice-packets. The demand by Government officers for dispensaries, &c., on the other hand, increased by 391 lbs. 9 oz.

The issues of cinchona febrifuge for the year amounted to 3,670 lbs. 4 oz., a decrease as compared with the previous year of 135 lbs. 12 oz. This decrease is explained by the fluctuating character of the demands on the part of medical depôts. The Mian Mir Depôt took 100 lbs. more than in 1900-1901, but that at Calcutta required 650 lbs. less. This deficit was to some extent counterbalanced by an indent for 300 lbs. cinchona febrifuge by the Principal Veterinary Officer, South Africa. Judged by the only certain test,—the demand by the public generally,—the belief in the reliability of febrifuge as a remedy for malaria remains unchanged. These sales to the public were 113 lbs. 8 oz. in excess of those for 1900-1901.

8. *Receipts.*—The receipts for the year have amounted to Rs. 1,91,922-5-2 as compared with Rs. 2,27,087-10-3 for the preceding year. Cash receipts have amounted to Rs. 78,441-2-6, and include, besides the receipts for manufactured articles (quinine Rs. 48,521-5-6 and cinchona febrifuge Rs. 28,393-8), Rs. 1,296-3 as receipts for crude products (bark Rs. 168-3, seed Rs. 40, residual

alkaloids Rs. 1,088), and Rs. 230-2 as receipts for miscellaneous articles (empty soda-drums, gunny-bags, &c.) The book-credits for the year amounted to Rs. 1,13,481-2-8 and have included Rs. 27,550 for issues to the Bengal Jail Department, and Rs. 1,609-8 for issues to the Punjab in connection with the pice-packet systems in these provinces. The other book-credits were Rs. 81,316-10-8 for issues to medical depôts; Rs. 3,000 for issues to the Principal Veterinary Surgeon, South Africa, and Rs. 5 to the Inspector-General of Civil Hospitals, Bengal. The outstandings, representing cash-issues made within the last few days of the financial year, the transactions regarding which were not completed on 31st March, amounted to Rs 4,401-10.

9. *Stock account.*—The manufactured articles in stock on 31st March 1902 consisted of 2,957 lbs. 15 oz. of sulphate of quinine and 2,534 lbs. 12 oz. of cinchona febrifuge; their respective values were, quinine Rs. 22,323-13-11 and febrifuge Rs. 13,533, these sums representing the cost of production of each of the articles. Raw material and unmanufactured products included 115 lbs. of residual (amorphous) alkaloids in stock at Calcutta, valued at Rs. 109-0-2 and 1,397,241 lbs. 8 oz. of cinchona bark, valued at Rs. 1,55,904-0-7. The value of stores in stock was Rs. 4,886-5-3, consisting of oils Rs. 2,850-8-3, chemicals Rs. 1,673, and sundries (plaster of Paris, charcoal for purification and spare wheel for turbine) Rs. 362-13.

* * * * *

10. * * * * * * * *Balance sheet.*—The balance on the working of the Department was Rs. 59,806-1-8, but against this has to be placed the expenditure incurred in writing down the difference between the cost of production and the actual market-value of the bark harvested from the plantation. This amounts to Rs. 18,500-1-10, so that the actual surplus for the year is Rs. 41,305-15-10. This surplus, it has to be remarked, must not be looked upon as wholly profit. The quantities of the various articles in stock were not materially different at the opening and at the close of the year; the enhancement in value noted above is thus due to the fact that a somewhat different method of estimating the value of cinchona bark in store has been prescribed for observance. If this factor in the surplus be disregarded, the difference between income and expenditure, Rs. 31,283-2-5, with the depreciation charge in the bark-harvest, Rs. 18,500-1-10, deducted therefrom, thus leaving an actual surplus of Rs. 12,783-0-7, more approximately represents the profit of the Department for the year.

11. *Sale of quinine at post-offices.*—The quantity issued to the Jail Department during 1901-1902 was 1,900 lbs., a falling off as compared with the preceding year of 1,500 lbs. No explanation of this remarkably diminished demand has been received from the Departments concerned.

* * * * *

WEATHER AND CROP REPORT.

For the week ending the 22nd September 1902.

Burdwan.—Rainfall at Sadar 2·02, Kalna 0·79, Katwa 1·60, Raniganj 2·32. Weather fine and hot. Transplantation of *aman* finished. Weeding of *aman* and harvesting of *aus* continues. More rain wanted. Fodder and water sufficient. No cattle-disease. Common rice sells at 11 seers per rupee.

Birbhum.—Rainfall at Sadar ·13, Rampur Hât 1·05. Weather unsettled. Standing paddy flourishes and doing well. Fodder sufficient. Common rice sells at 12½ seers per rupee.

Bankura.—Rainfall at Sadar ·15. Paddy and sugarcane doing well, but more rain wanted. Fodder and water sufficient. Common rice sells at 13 seers per rupee.

	Inches.
The total fall of rain from 14th to 20th September 1902	1·44
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2·31
The total fall from 1st January to 20th September 1902	58·15
The average fall of the corresponding period for 24 years, Surveyor-General's Office	55·95

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; t, thunder; p, passing temporary showers; g, gloomy; l, lightning.

N.B.—In the weekly abstract from 31st August to 6th September 1902, *read* 29·658 *for* 29·68 as the mean pressure barometer on the 5th September 1902.

G. W. KUCHLER,
for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Alipore (Calcutta), the 22nd September 1902.
